

True Mother Kang Hyun Shil

Some Words Father Spoke more than 30 Years ago

May 5, 2017

Bible reading: Matthew 22:37 (KJV)

Jesus said unto him, Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind.

Good morning everyone,

This morning I would like to convey to you some words that our True Father spoke more than thirty years ago - these are not my words but True Father's words. Some of this content is very deep and profound, and you may not understand all of it, but I hope that you will listen carefully to these words.

- ❖ “Even when you are witnessing to one or two people, don't think that you are simply witnessing to an individual or to a whole nation, but rather that this is in the context of your world mission.
- ❖ A person can have a determination to relieve God of his resentment now even at the cost of his life; then the person will bring a blessing from God to his descendants.
- ❖ If you are going to fight an enemy first of all you have to have confidence, you have to have a righteous heart, and also you have to be brave.
- ❖ Jesus came as the Father but we were never able to call him Father.
- ❖ Even though there were many times when heaven was calling to us, our ears were closed so we were not able to respond.
- ❖ In the end, the only issue is my relationship with my Father.
- ❖ If there is a person who says he will take responsibility for all the crosses in the world, then in the end God and the spirit world will cooperate with that person.
- ❖ When Jesus died on the cross he carried the whole of human history with him. He took with him Abraham, Noah, Moses and Adam. He took with him all the tribulations that had happened in the world up until that time.
- ❖ True Parents are the ancestors of humanity. They are the Father and Mother of humanity and the providential work of the Parents is the providential work of the children.

- ❖ Nine out of ten people who originally joined the Unification Church fell away. Even though they had the mission to save the world they eventually became sacrifice.
- ❖ Father has judged many people until now; even though that is done when Father speaks the truth, but people are not able to accept that as the truth, those people receive judgment.
- ❖ The Archangel was the servant but the blessing was lost, and the children were lost. The children that were lost were the most filial of all children and the most patriotic of all subjects. All things were lost and also we lost Father, and we lost True Parents.
- ❖ The content of faith is to establish the created world, and it is to establish the cosmos.
- ❖ Losing tens of thousands of dollars is not such a big issue. Much bigger issue is how to save a person who has fallen to the lowest possible point. To do that one has to go to that lowest possible point.
- ❖ Father is confident that he can swallow a thorn that got caught on other people's throat and caused them to die, but still Father can swallow that thorn and survive.
- ❖ When Father would have a meal, he would pray, "Father let me be the sacrifice on the altar."
- ❖ The Lord went the way of the cross so when he returns he will come the way of the cross.
- ❖ We must be able to tell ourselves that the fate of all humanity depends upon us.
- ❖ You have no idea how hard God has worked to become our Father and that no matter what happened He could come to us.
- ❖ Even though he may try to greet me with a sincere heart I may not be able to receive that greeting. If my sincerity is not as great as that person's I will be judged. That is a fearful thing!
- ❖ Our members today must inherit not only God's heart but also his suffering and his pain.
- ❖ After the 1962 ceremony to return ownership to God we must live with the idea that we have no ownership. We must think that nothing belongs to us but rather that everything belongs to God, to the Father.
- ❖ The registration of our church was accomplished in 1963 and this was declared then.

- ❖ We are people that Father won back himself through his suffering. This is the position where we inherit God's sorrow in its entirety.
- ❖ Those who sell the assets of the Church without authorization are people who betray heaven and earth.
- ❖ The first year is the period to establish children, the next four years is the period to establish the earth, a total of seven years, and these seven years is the period of tribulation.
- ❖ When we think of how hard God has worked for us, how hard He has worked to bring us salvation; this makes us ashamed in his presence. We need to know how deep the sorrow is that is imbued in God's voice.
- ❖ The owner is the person who takes upon himself the entirety of history. He is the person who cannot be exchanged. His value is greater than anything in the world, even greater than the entire universe. He is the person who represents heaven and earth, and he represents the entire providence of God.
- ❖ Even if we possess millions of things, ten of millions of material things it cannot be compared to the joy that we will feel when we are finally able to find our Parents.
- ❖ We must always remember that the fundamental issue is the Unification Church and each individual themselves.
- ❖ We must always answer 'yes'. We must never answer 'no' when we are given a mission in the will of God. I need a group of people who will be obedient to that kind of order or command.
- ❖ Aren't you ashamed of yourself in history? Aren't you ashamed of the way you have been living? Those who say that they are not ashamed should be ashamed because I myself feel ashamed.
- ❖ We must feel free to say, "I am the son of God, I am the daughter of God, God is my Father, God is my Owner; He is my Master."
- ❖ We must become the owner of heaven and earth, become the owner of all the nations of the world; we must become the owner of the world itself.

In this next quote Father was referring to the population of the world which was three billion at the time but he spoke about seven billion: (note from KHS):

- ❖ You must understand that there is no one among the seven billion people of the world who can accomplish this. Only Father can do this!

- ❖ When I started out on this path, I made a determination to myself that even if I came upon suffering that was even greater than that of Jesus on the cross I still would not turn away from this path.

Father spoke this next quote in the HQ Church in Cheongpa-dong:

- ❖ This church (building) is not what I value. Even if it were to burn down ten times in a single day I would not regret it. What I do need is all the material of history. Even if I were to receive a command from Heaven this evening I would not think twice and I would leave this place.
This HQ Church is an altar on which God and all of humanity can shed tears together. An altar is a wretched place, a sorrowful place; this church building is an altar. When you come into this place you should begin to shed tears even before you enter the door.
- ❖ In the future there will be a great migration in the world. Koreans will go to the areas of the world where black people live and black people will come to Korea to live. We must transcend all concepts, all concepts of nation, race and of the world.
- ❖ Heaven has entrusted us with a tremendous mission. Think how worried and concerned Heaven must be because of that.
- ❖ Once I make a promise I will never compromise on that promise; I will never turn away from it. Even if I have to sacrifice my entire family I will not turn away from that promise.
- ❖ Religious people are dealing with the threat of dying each moment of their daily lives. They must think how they are going to accomplish the responsibility that they have been given to bring salvation to the world.
- ❖ God created human beings so as to bring unity between his hope and desire, and the reality in the world.
- ❖ Jesus searched and found the God that was hidden in the five Books of Moses.
- ❖ You need to become people that can resolve, release Jesus of his resentment and also become his relative and his friend. Father had to indemnify all the resentment that was built through Adam, Jesus and the Returning Lord.
- ❖ During these three year period I had to bless 36 couples, 72 couples and 124 couples. So I had to establish this standard on the world level on three occasions.
- ❖ When human beings fell, they lost faith, they lost heart.

- ❖ For the next three years we must devote all of our energies in order to become the owners of this world.
- ❖ We have to establish a customer practice of saving a certain amount of money and giving that amount of money every month.
- ❖ We have to be able to attend three generations and also to supervise three generations.
- ❖ We must not report to those whom we should be serving. We should be able to report to three stages above ourselves in the organization.
- ❖ For those who receive the blessing, their family will also be able to enter heaven.
- ❖ We need to become the owners that can accomplish what we have in our hearts.
- ❖ We must know how to protect holy grounds and holy items and we must know how to protect the blessed families. “

I will stop there for today.

Thank you very much.
