

We Do Not Serve The World, We Do Not Serve Man, We Serve God!

Hyung Jin Moon

February 22, 2018

Festival of Grace – Keynote Remarks

We had a higher purpose; we do not serve the world, we do not serve man, we serve God!

So, for us we may be abnormal in terms of the world, but I always consider the people who came and could not turn their back on Father as normal. It is not weird. OK, I had to give up billions of dollars of assets, control over all those things, the worldwide foundation – all the foundation that Father had already built worldwide, but for me it was no problem. Why would I gain the world and lose my soul? (Applause)

Why would I sell out for some billions of dollars? God owns the whole world anyways! For those who thought that those were the real assets and those were the real blessings of God, well you can see how quickly that has been destroyed and has disappeared from their hands. Those who thought, they could use it and steal it, for their own benefit, it is just evaporating!

So for us, any normal son who loves their father who has a promised that he has made to his father as his father has instilled within him and has chosen him to carry on his work, it's just normal not to betray him. That is how we felt. We do not feel we are super-human, special, or anything like that; we just feel we are normal. We are normal boys who did not want to dishonor our Father. (Applause)

Maybe it is weird and it is abnormal nowadays when everybody worships the world and worships popular culture and this kind of things... but for us it is just a matter of principle; it is a matter of character. It is a matter of the relationship, that we have with our Father, which will transcend any of the material things that we have or can have and own.

It is that relationship with God, that we value and cherish the most. It is that intimate relationship with Christ, that we hold dear at the core of our entire being and soul! We have been more blessed and happier.

We were in huge marble palaces in Korea, in the mountains, but we were miserable. Actually, in that mountain palace they had me in the B dome. In building B - you have the main palace and then building A and building B- I was on the roof of building B, because I kept changing things around. All this marble, and the big furniture, I would keep taking it out and I would bring tables that I made out of walnut woods.

The Han mother was so angry, she sent me to the roof. So I got the storage room, which became the place that we resided at. We built an old school Korean wooden hut up there on the top of the building surrounded by all this marble. (Applause) The only safe getaway was this small wooden hut. It was actually covered with straw, and it was really bush crafty. That was like our little safe haven in the palace.

I always felt Father was more at home in the jungle of the Amazon. He took us there; every summer we had to go train with him in the Amazon jungle. We had to get eaten alive by mosquitoes all day and all night. We had to get up with him early in the morning, and go fishing. My brother here Justin, has done tons of tuna fishing on the open sea with True Father- 17 hour days, etc.

Father was, until 92, open sea fisherman, and hunting till he was in his 70s. A true outdoors man! A true

lover of God's creation! A true protector of humanity, of the environment and of God's creation!

Many people do not know, but True Father, after he fled North Korea, was persecuted by the communist North Koreans who were trying to kill him. They killed all of our remaining family there, and put him in a death camp. He was in a death camp shoveling ammoniate sulfate for three years, in a gulag, and he was liberated by the American troops who came in and freed him with General Mc Arthur.

And Father was able to flee to the South, and he experienced the reality of political Satanism, communism and centralized government and what it always become- political Satanism- a place where by politics they protect real Satanists and the real killing of children, rituals, that involved murdering etc. this kind of things are protected by these actual Satanist regimes. And North Korea was no exception.

When True Father, the returning Christ, came to South Korea, he started one of the first firearm businesses in South Korea, eventually moving on to help build the defense department and developing the Vulcan cannon and different weapons so that South Korea could defend itself against the tyrannical North Korea.

These are historical facts that people don't know and that unfortunately the followers of Father who turned away from him seek to erase and try to hide, because they don't want to let the world know that Father was a true protector; he was a true Father. He loved his children he loved the world that he would give his life for the world. He would die for the world 100 times over, and for all his children and to protect them. That is the original heart of God; that is the heart of True Father, the heart of Jesus. Those things were of course being erased, removed from history and from historical record.

We found it to be a tremendous blessing when we came to the wilderness, because there is something pure about the wilderness. There is something pure about going into the natural world where you can be with God. There is no distraction. There is something very honest about the way nature behaves and how you must give and receive with it. You can't live in delusion; you have to be ready for what it has and what changes it will bring.

There is something beautiful and honest about the natural world, even with the deer and the bears and the coyotes that we encounter, and all those wonderful creatures out there.. Something very honest about hunting the meat that you eat, about harvesting an animal and giving thanks to God our Creator, remembering the blessings that He gave us since the beginning of time, to be fruitful, to multiply and have dominion over this earth!

It is unfortunate, that after the fall, human beings have been so accustomed to be ruled under the unrighteous and illegitimate hand of centralized archangelic powers. Whether they are in the form of satanic monarchies or whether they are in the form of different types of social movements, that masquerade as movements for the poor, or movements for disenfranchised groups, but they only do so to seek to get power and decentralize power themselves and of course rule with authoritarian control.

Whether you look at socialism, communism, oligarchy, whether you look at the satanic monarchies of the past, you will always see the same pattern, the same political structure, actually the same satanic structure. The rulers and the masters that have ruled over humanity after the fall, regardless of what they call their

system, or regardless of how new they thought their system was, ended up in the same human misery, suffering and enslavement that we have experienced for the last 6,000 biblical years and thousands of years of recorded history.

The celebration of the Festival of Grace and the celebration of the Cheon Bok Festival centered on the birth of Jesus and the birth of True Father Sun Myung Moon, the returning Jesus, is the celebration of the gifts that God has given us. You may be under governments and under rulers that call you slaves or paupers or ordinary citizens of that nation that laugh at you because you have crowns on your head and because you have the rod of iron.

They say that you are illegitimate and parade satanic kingships who are illegitimate and who are tied to Satanism historically, satanic kingdoms, whether it be the Kingdom of England or the kingdom of whatever nation - Prince Charles openly bragging that he is descendant of Vladimir the Impaler who was a cannibalistic, of Transylvania descent.

Again, you are made to feel that you are not legitimate, and these satanic monarchies, are. They have been engaged in satanic rituals for the last hundreds of years; and that have colluded with major monetary powers and central banking powers, to control and tax farm people and exploit resources of poor African countries and Asian countries and you name it.

You are told that these people are legitimate, and that it is fine when they wear crowns and they have guns. It is not OK if you the slaves have guns and crowns. You see that?

That is the kingdom of Satan speaking to the inheritors of God's Kingdom. In Psalm 2:8-9 that I frequently read out and we pray about here at Sanctuary, God says very clearly, "I will give you the nations for inheritance till the end of the earth for your possession." Of course, they are not for us to glory ourselves with. But to protect that which God has given us; to give Him glory, to lift up his righteousness and his kingdom of goodness where good is able to thrive and flourish and evil is destroyed, as it says in Revelation 2:27, "and as the vessels of the potter are shudder into shivers..."

Wickedness, evil, unrighteousness, which goes and acts with impunity and rules the world will be shuddered, destroyed. We will have to encounter a tremendous formidable force. The inheritance of the world is not given to the Satanists, to the communists, to the socialists, to those who masquerade as standing up for the poor when they exploit the poor to keep them poor. That is of course the left or the neo-con right in our current day in America.

The world is waking up and realizing that the gifts from God come not from governments, come not from leftists who morally posture above us, pretending to be our superiors; the gifts of God come from his Word and come from God Almighty. (Applause)

The first part of the Beatitudes, we will look at them more in depth in upcoming ceremonies- starts with, "Blessed are the poor for they shall inherit the Kingdom of God!"

It is the ones, the folks in our community that have, the natural instincts, even some of them have gun to protect people. Who have the natural instinct to want to be strong for goodness, for the protection of good and for the vanquishing of evil. It is those people who have been ostracized and who have been pushed

away, have been called unchristian for not trusting in the Lord, who have been blamed and made into pariahs. But it is those people who know there is something very spiritual about being able to defend yourself and your family, about being able to stand up to tyrants, and powers, and being able to stand up to evil.

The Bible says, "Stand up against unrighteousness!"

There is something in the heart of those men and women, even though they have been ostracized by mainstream Christianity that screams out their love for God, and their love for humanity. These folks, like many of us are not in their words 'religious people'. Jesus is not a religion; he is supposed to be a relationship!

We had a gentleman coming here the other day; he came by and said, "Oh I heard about you guys on the news; I just came by to say hi. I have an AK. I am not really a church going person but I think that I want to come to the Wednesday Blessing that you have. I'm thinking of coming to Sunday service too."
(Applause)

I said, "Hey, we are a free association here. We do not take church membership, we do not take church registry, and we do not have a roll call to brag about how many members we have. Everybody here is a king and a queen coheir with Christ; everybody here has their own ministries. Those who are with Christ, we have crowns, we have rods of iron, we have private property, we own our own land and we come together because we love the community of God, because we are grateful for his gifts that He has given us, because we want to celebrate his goodness. We are simple folks! But don't let our simplicity fool you because we are royal. We have the royal blood of heaven flowing through our veins!" (Applause)

So, we may like to hunt and fish and to bush-craft, and do martial arts and go shooting and do Sunday afternoon BBQ with our family and friends. But we understand these things not as just hobbies; not as just a certain lifestyle. We understand that all these things and all these gifts that God has given us, they are blessings from God, things that we don't deserve, things that we could never earn, but that were freely given by his sacrifice, by the blood he shed on the cross, by the path of the 10,000 crosses that he had to walk. We are filled with blessing in our life! (Applause)

So, as the leftist media, and the Washington post and all of them try to say that we worship the AR15, NO we don't! We are celebrating the gifts of marriage, the gifts of sovereignty, that are symbolized by the crown and our royal lineage, as Revelation 3:11 says, "Let no man take thy crown!" - And celebrating the rod of iron with which Christ and his co-inheritors will rule the world.

Revelation 20:4-6 reminds us that we will live and reign with Christ, that we have duties and responsibilities in the Kingdom of God that we do not sit there on permanent vacation drinking pina colada on beaches and floating on cotton clouds.

Jesus said very clearly to his disciples in Matt 19, "In the kingdom, you will sit on thrones, and you will judge the nations of Israel. You will rule with me!" The days of looking at the Kingdom of God as this unbiblical socialist utopia of no responsibility and of welfare essentially, that the body of Christ unfortunately has been pushing, is coming to an end.

The sheep and the goats will be divided; the inheritors of the Kingdom will be called forth, and those who know that they have to stand with Christ and they will have responsibilities and duties and are ready to step up and do so, are being called by the Holy Spirit as we speak. They may be un-churched; they may be uncivilized in many people's eyes, and the world's eyes, because they hold fast to that which they know that God has given them, which is freedom and sovereignty.

They may not know why biblically but they know in their heart and their conscience; something screams in their soul, that tells them they must never give up their rod of iron. These are inheritors of the Kingdom of God. The good men and women who "love God and love Thy neighbor", who abide by the principles of God, may not be perfect, and always need God in all aspects of their lives, sure; but fundamentally know the voice of the shepherd, know the voice of the protector who seeks to protect the innocent lamb, that seeks to drive away the wolves, and build his kingdom in which we will be a part.

The Festival of Grace is the celebration of those things, celebration of our sovereignty, celebration of royalty, of lineage, celebration of the rod of iron but most importantly, it is the celebration of Christ and all that he has done to give us these beautiful crowns and beautiful rods of iron, beautiful lives, children and marriages. Even though we may be imperfect and we do not deserve it, God is faithful and God is true. (Applause)

He is the way the truth and the life and no one goes to the Father but through him.

We are grateful to be in his presence and amongst all of you during these festivals. Please enjoy the festivities, and remember in all things to give praise and thanksgiving and to return all the glory to Him.

Thank you very much and welcome to the Festival of Grace, everybody!
