Good evening, everyone. Nice to see you. Today, I'm talking to you not as a member of True Family, Shin Chul, but I'm talking to you as the team leader of Cheon Myeong. As some might know, I've been doing Cheon Myeong in Albania for about five months. I've been doing Cheon Myeong since 2022 when True Mother first gave me this mission to start a worship service for young people.

I want to explain briefly because not all of you might know what Cheon Myeong is. Cheon Myeong is the name of the worship service that we started in Korea. It was initially started to give young people a place to feel God and become one with our Heavenly Parents and True Parents because my brother and I felt like that.

Cheon Myeong service in Albania

I don't know how your older members might feel. Younger members sometimes find it harder to concentrate on Sunday service in the old-fashioned style where there's a sermon and just a message. We thought that for young people to connect to Heavenly Parents and True Parents, we might need another medium such as worship services, which have been very popular since the '90s and '80s, Hillsong, and has slowly grown into this worldwide popular means of service. Many young people especially go to Hillsong concerts if you watch them.

But anyway, that was how it started. True Mother said that we should become people who convey the message of heaven. And that's why the name is Cheon Myeong. Cheon is heaven, and Myeong is order. So that is why we do Cheon Myeong. However, it might not be a good fit for everyone. We aim to give people a way to feel Heavenly Parents if they cannot do that through the traditional way. We don't know, but I can't tell you, I like it. If you ever have a chance to take part in Korea, I heard they started in Japan, and European members are trying to do this slowly; please take part and show some interest.

Thank you.
