

Testimony after completing 80 days at the HJ Cheon Bo Training Center, Korea

This 80-days seminar was a truly valuable time for me. At times it was difficult to follow the program properly, but when I compare it to the difficulties True Parents endured in order to bring salvation to all humanity, I very quickly realized that my difficulties amounted to absolutely nothing. So I worked hard.

Most particularly during the second 40-days-workshop I sensed that Heaven had entrusted me with a special mission. "Don't pray for yourself but rather do so for others!", "Go to the point by becoming zero, empty yourself, and from there, live for others.", "This is the path that you have to follow. Then you will receive grace." These are expressions from God that I experienced.

Furthermore by listening to what our True Mother said during the Spring HJ CheonBo Festival I became aware of how desperate she was. I could experience the work of the Holy Spirit in True Mother. "God's providence is truly chaotic." If we attend our True Mother we must completely empty ourselves and experience True

Mother's heart.

I also learnt that I must expand my heart even more. I could feel this. Our True Mother personally told me, "I've laid all the groundwork for the foundation of the providence; now, you must not only enjoy benefits, but work to expand them." I honestly think that if we focus on what she said, we should show more enthusiasm, and commit to become filial children who work for the restoration of the entire nation by 2020.

It is also true that we are going to the workshop to solve our personal problems and get our lives in order. But it is not just a personal matter. As blessed people I think we need to lay the foundation for the realization of God's and True Parents' providence, but we should also grow to become hyojeong children by accomplishing our filial duties toward our True Parents.

I am extremely grateful for the spiritual awakening and the grace I received by the end of this workshop, and I promised to succeed. And finally to all those who loved me and have helped me to become the person I am today, especially our Heavenly Parent and True Parents, my father in the spirit world and my beloved mother, I wish to express my deepest gratitude.

I wish you all the best for your future! Thank you very much! I love you, I love you.
