True Father said on August 31, 1971:

Since man symbolizes heaven and woman symbolizes earth, their union is identical to the universe becoming one. Since the universe can be governed only through love, you can be the subject partner of the universe only through love, and you should think of your partner as being bigger than the universe. The connection

between the two worlds
of heaven and earth is unchanging love.

Those who have led earthly lives intertwined with love will enter heaven. The spirit world is the world of love. When God and individual people completely unite, man and woman will automatically attain oneness, and when a perfect couple appears, heaven and earth will be unified. ❖

True Father's Words on June 11, 1963

Parents Day is the first time since God created all things and humankind that there is one balanced man, one balanced woman, balanced in love, to whom God can descend and with whom He can truly be. For the first time in human history this original state of matrimony, the original trinity, has come into existence upon the earth. To find this perfect man and woman is the beginning of all of God's ideals, and God can descend to them. Now here are the True Parents who love according to how God wants them to love. ❖
