Date : 6.28 by the Heavenly Calendar (August 15, 2012)
Re. : International President's Letter to the Unification Family Worldwide

To all brothers and sisters of the Unification family worldwide:

Brothers and sisters and leaders who are working hard on the frontline!

True Father is currently undergoing treatment at an intensive care unit due to complications that arose from an untimely cold and pneumonia. Though he is 93 years old and advanced in age, True Father was pushing his limits in carrying out his schedule at this time. He is being treated at one of the top medical institutions in Korea and is under the care of its medical team who are doing their best for True Father's speedy recovery.

Furthermore, True Mother, the True Children and other members of the True Family are at True Father's side 24 hours a day at the hospital room and are offering prayer and jeongseong for True Father's recovery.

Brothers and sisters of the world! I ask that you join us in offering jeongseong and prayer for True Father's speedy recovery and victory of Foundation Day together with the True Family and do your best wherever you are located.

I pray that the grace and blessing of God and True Parents be with you and your family and once again ask for you to offer special jeongseong at this important time.

Thank you.

Hyung Jin Moon
International President
