Publishing the first
edition of
Explanation of
the Divine Principle
(Wolli Haeseol)

August 15, 1957, Seoul in South Korea

Sunhak Institute of History

原理解說

On August 15, 1957, the first president of Unification Church, Eu Hyo-won published the first edition of Explanation of the Divine Principle (Wolli Haeseol). Of course, it was directed by True Father and the president Eu summarized the original text of the Divine principle. Therefore, Wolli Haeseol is more understandable to read with the systematic paragraph.

原理解説

When True Father researched the Principle, it was not easy to summarize it.

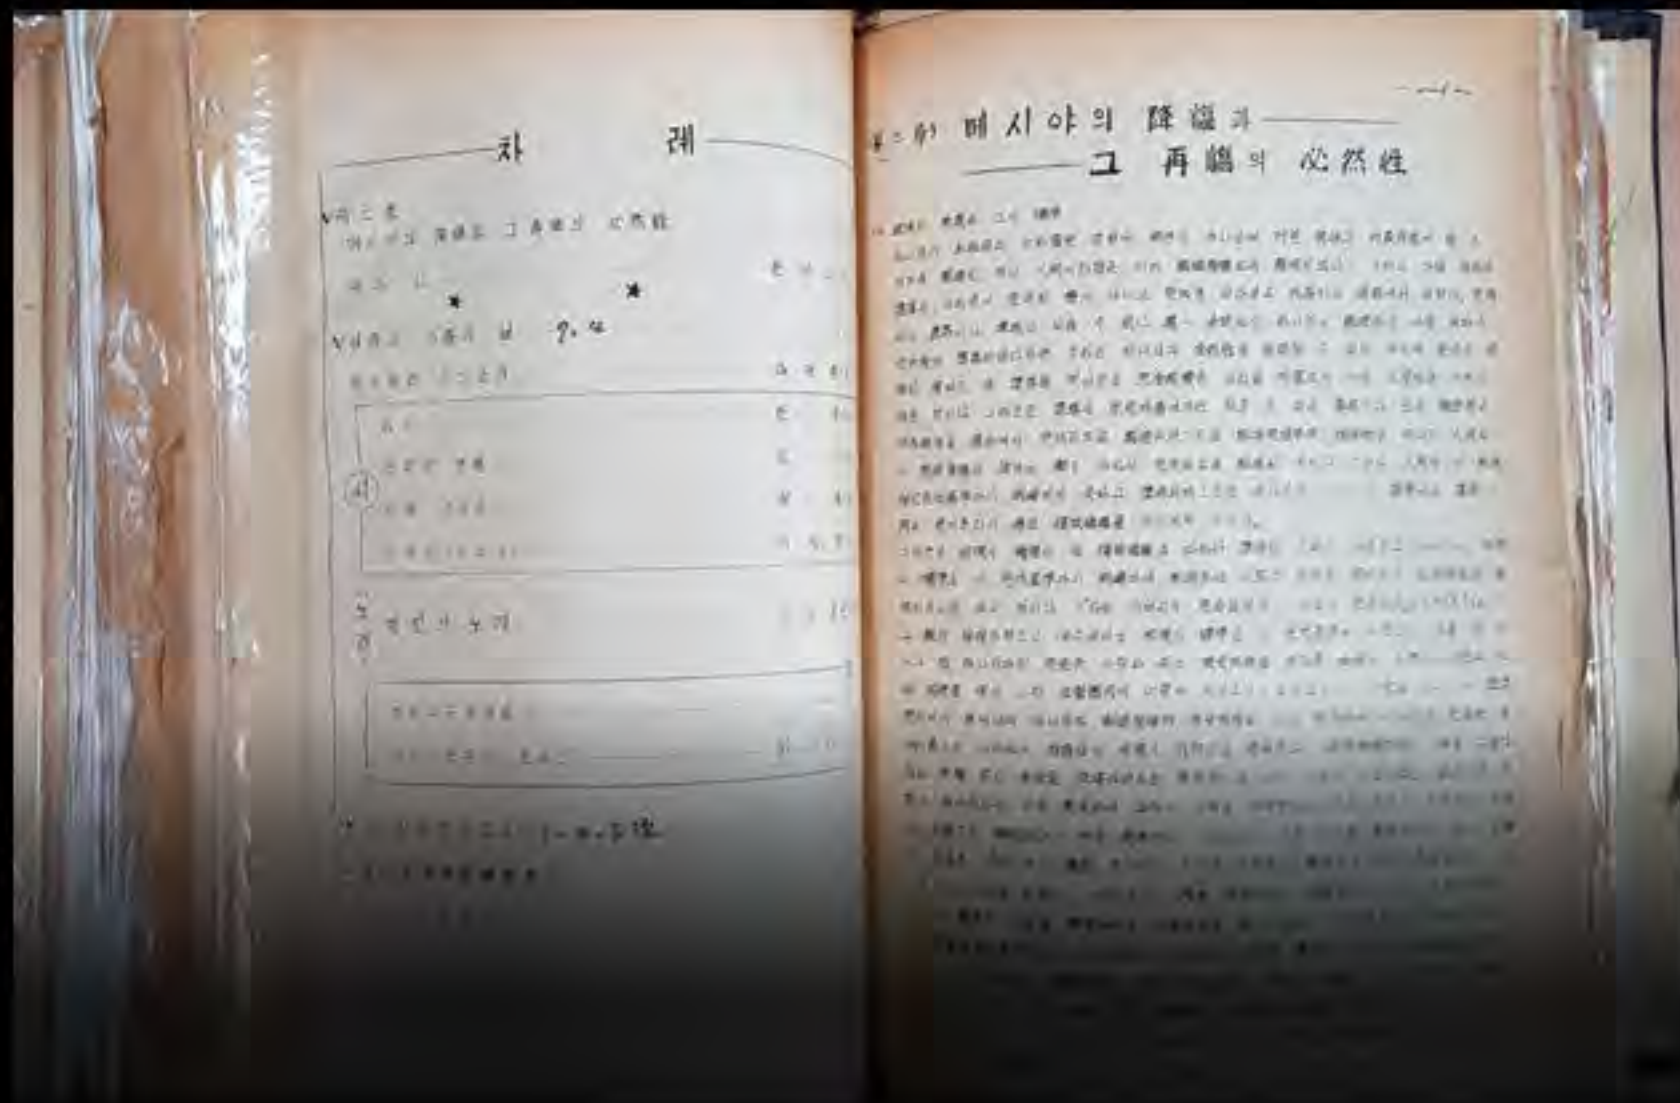

People had not known about the principle, so True Father put his all energy to complete writing the principle.

However, it was still difficult for the church members to understand so Eu Hyo-won supported True Father to complete Explanation of the Divine Principle.

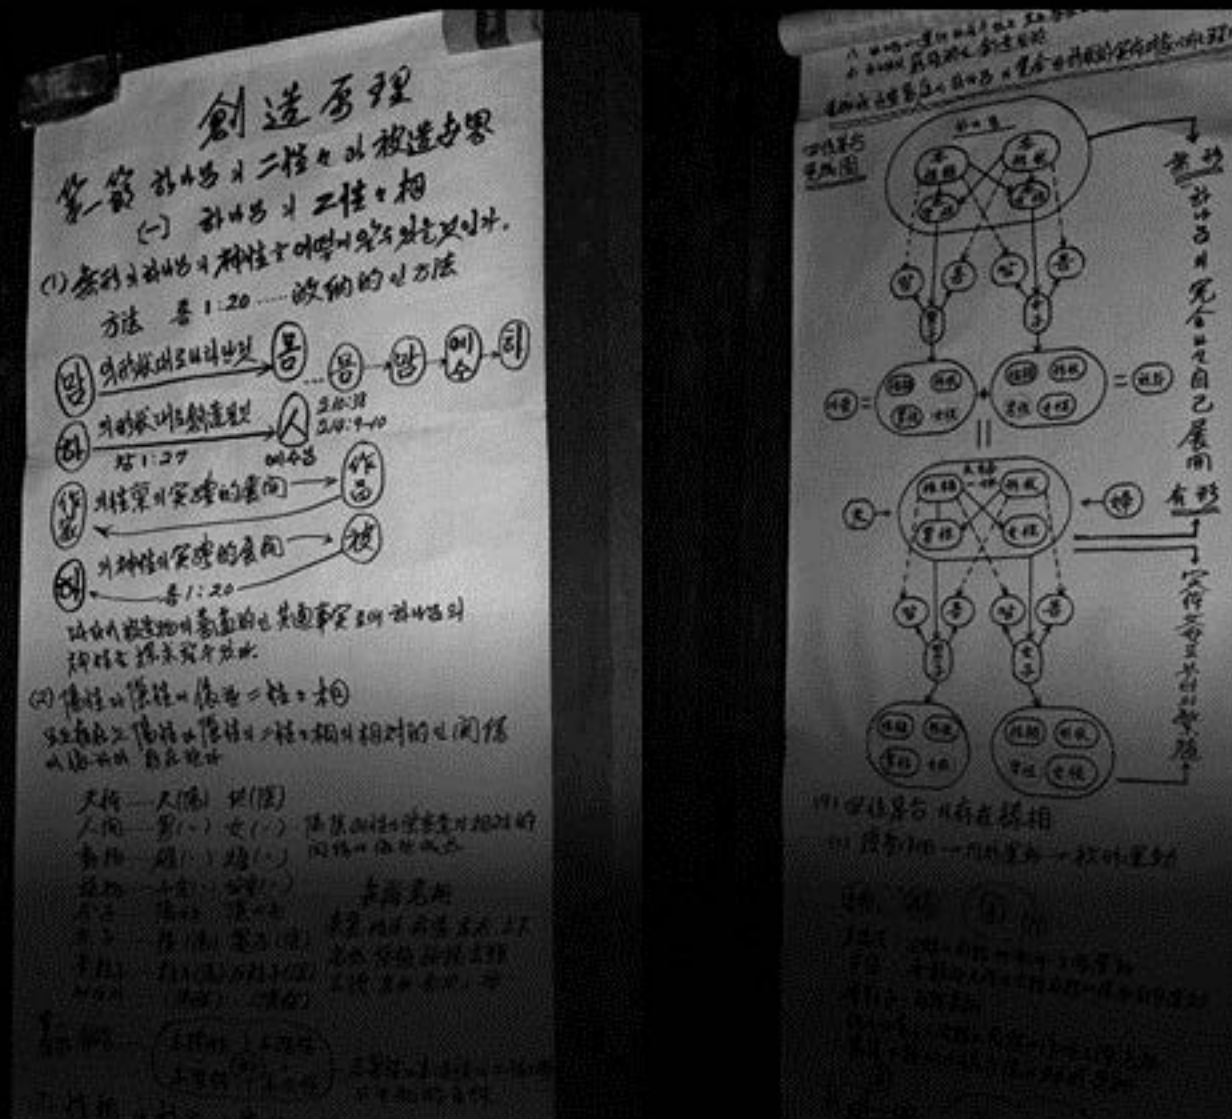

At that time, Mr. Eu got sick so he could not sit a chair. He could sit a special chair only, but it was also hard for Mr. Eu to keep sitting. During he took dictation, overcame his physical disability.

The first written manuscript was revised by Yoo Kwang Ryul under True Father's supervision.

After this, the part of them was released on the church magazine [Seonghwa] for receiving the feedback from the readers.

After three and half years, Explanation of the Divine Principle was published with True Father's handwriting sign. Then, it was used for witnessing and delivered 212 books for the church members during a 40-day witnessing campaign.

At that time, there was no guide book for the new church member to introduce the principle, but after publishing Explanation of the Divine Principle, it was welcomed by the church members who did a witnessing activity.

“

原理解說

We published Explanation of the Divine Principle based on Original Text of the Divine Principle. Because we had nothing with which to educate people, a book was needed.

An elementary school graduate can teach with a book, so our members went out to witness on the front line. Eve fell when she was 16. In view of this, some of our young members went out before they were 15 years old, and their pure hearts became impassioned, and this started them witnessing. Only the Unification Church has such a history. Even members who were middle school students went out witnessing.
