The principle is a rough study of what the content is. Here is a fact that we should not forget. In other words, those who understand our principles are not alone in salvation. It doesn't mean that you have built a path of principles to save yourself. First of all, what we have to think about is that there are always ancestors, and there remains a mission to liberate countless spirits in the spirit world. So the ancestors who left good achievements are hoping for the resurrection of the Second Coming by us. However, until now, the members of the Unification Church do not think about such things. Work for your own country. If it is Japan's current country, it thinks for Japan, but does not think about the liberation of good ancestors in the spirit world. And the so-called spirit bodies of the past, those who belong to their own country now, and the responsibility for their descendants, do not think of it. We should pay special attention to this aspect.

The spirit world is home to hundreds of billions of spirits. Speaking of this world 3.6 billion, this is how many people live in those spirits, that is, countless spirits groan and have hope for us. So to them we have a dual mission. If we think about today's indemnity standards, we stand on the double indemnity standards. First, it is necessary to establish a condition for indemnity for the spiritual realm and promote the liberation of the spiritual realm. And you have to release *Manmin* from the plane. I am in a position to achieve this double indemnity. You cannot stand as a perfect ancestor without achieving this completely. It is concluded that you cannot have perfect offspring only if you can stand as a perfect ancestor. right? ("Yes").

First, it is responsible for the liberation movement in the spirit world, and second, it is responsible for the liberation movement on earth. It is only when we obtain the right of victory to completely forgive this and stand in the position of being acknowledged by God in order to stand on the standard of restoring the position that Adam and Eve did not fall. As a result, it is possible to stand in the position of a good ancestor, but if it cannot be achieved, you cannot stand in the position of a perfect ancestor. If we fail to stand in such a position and have descendants, it is a result that the descendants are also in a position to receive indemnity through the descendants as well as the conditions for indemnity. right? In theory, it does. So, in this reality, we must clearly know that our position is this serious position.

If you think about it, you have to have a relationship with the spirit world. They must match their mental and emotional standards and have the subject of heart as the second Messiah as the so-called Messiah to save all people. Otherwise, you cannot have the so-called subjectivity of Plus. right? ("Yes"). It does not have subjectivity, the origin of creation cannot stand again, and the starting point cannot be established. It's like that when it comes to sorghum action. From the principle of creation, the starting point cannot be

achieved in re-creation. You can't have subjectivity. You should know that you are in this position.

So, when you pray, you have to regret that you have been working to be loyal to God in the good works of many ancestors when you pray with your own focus, but you have not been loyal in the results and you have fallen into failure. You have to repent of your ancestors' mistakes. And through it, even though God is himself, we have to set a standard for being thankful for ourselves and for countless spirits in the spirit world to thank ourselves. It means that God and our ancestors should be thankful and recognized by Satan. If that doesn't happen, you can't stand in the position that inherited the inheritance of good ancestors from the position of victory on this earth. Only by following that standard, you cannot achieve flat subjectivity in reality. It's like that. So we are in a double indemnity position. right?

The youth of the Unification Church don't have much time for prayer. "There is no prayer in the standard of completion. Prayer or religion is because it has fallen, and if we have exceeded the right of indemnity, it is not necessary, so we don't need it even now." there is. You shouldn't. To pray, we must free the relationship between our ancestors and those who are in the world, so that they cannot be liberated. It is in a vertical relationship. it's not like that? If you free the above people, you won't be able to free them either. If you are not freed, you cannot free your offspring. So, the teacher has been struggling until now to do that.

36 families is the liberation of our ancestors. Satan holds this space in heaven and on earth. Heaven and earth are divided. In order to get this in contact, you have to make indemnity terms for it. For this, the standard of indemnity was set in front of God, that the ancestors forgave all the conditions of indemnity against God that ended incompletely, and that it created the starting point for victory. From the result we made, we created a standard for all of the heavens and the earth to contact with the liberation of our ancestors. This is the blessing of 36 families. By setting such standards, a horizontal global start was possible.

Likewise, it means that you should have such a relationship. Indemnity, indemnity, in which all of your ancestors and spirit realms, who have succeeded on their return journey up to 6,000 years, will be able to thank them for the merit that has achieved this right of victory. You have to take the responsibility to do it. Know? ("Yes"). When you know clearly that you are in that position, you cannot do anything unconscionable. So you are not alone wherever you are. It represents the spirit world. They represent *Manmin*. I am representing God. It is in the four-tiered base. (laugh). right? ("Yes"). They have God, Satan, the present life, and an ancestor. It is said that there is no way to determine the standard that the archangel stands in a position where the archangel can serve in the Garden of Eden, which was completely victorious, only on the basis of standing in the four positions and in favor of everywhere. There must have been none of Satan? I mean, how can't I determine that criterion? *Nusiel*, the archangel himself, must also write a certificate that acknowledges it. Finally, there must be a certificate of Satan's surrender. You guys haven't received it yet? Such authority may be given by the teacher. But at least you have your own responsibility. Even if the teacher has met the conditions for indemnity worldwide, if you are not connected to it, you will not be able to contact you. No matter how much you open the way to the world, you cannot connect with your ancestors and in this world unless you give them so-called grafting. There must be a condition for indemnity. Okay? ("Yes"). So wherever you go, don't think you're going alone.
