How was Jesus born? Jesus is different from the guru of other religions. After all, he can never be a good father if he comes through the pedigree that Satan is appealing to. Jesus came as a good father. What kind of position is it? Because Eve was made in the shape of Adam made by God, if a man is completed, a woman should be pulled by it. In the process of seeking the mother of mankind, it was the crucifixion of the cross that died without fulfilling its purpose. In that case, the result of all the people in the world is that despite the arrival of a good father who is the source of salvation, he chased him away and crucified him to death. Crucifixion. You have to realize these. So no matter how sinful you may be, when you really realize that you have killed your father, Jesus, you must repent. I have nothing to regret. When all of us know the true position of Jesus, we must weep and repent in order to forgive the sins we have committed in the past. Only then can all people reconnect with Jesus. There is a way of salvation in that way. The Bible teaches that.

Real olives and wild olives are different. Cut the wild olives. I have to cut it. Cut off your roots and the whole, cut off all the pedigree born of guilt, and get one true olive bud, get the true Jesus bud, and graft it. .. From there, it is God's providence to return to heaven, receive the love of God, and put him in a position where the same fruit can be produced, like Jesus. So in order to go through that process, we must take a

negative position and go on the path of return. It must be cut off because it is in a different pedigree from the fallen human beings.

Where did the corruption come from? He has created a pedigree with love as the center. Jesus must set the standard of complete return by birth. That is what makes Jesus different from other religions. In Adam and Eve, Cain and Abel must fight as brothers, Esau and Jacob must be twins, and the younger brother must supervise the brother. Since Satan's child was born for the first time, the first child must be removed and the second child in charge of it. That's why brothers fight, from twins, so from the belly. Perez and Zerah are born in Tamar. I have to recover from my stomach. So even though I tied the red string to my hand first, I was able to pull it off and Perez was born. He cannot be born as a perfect Son of God unless he fights and wins in his belly and overcomes Satan's terms of appeal. It is said that Jesus came through the descendants who inherited the tradition of their ancestors, centering on the standard of history, taking the position of returning to the stomach again and setting the standard of victory there. Therefore, Satan has not been able to sue Jesus since he was a child. If Satan does not pass such conditions of reduction, Satan can sue Jesus in his womb. Jesus was out of the appeal zone.

One person who came from such a position is Jesus. Therefore, it is said that only Jesus was born through such a historical process. When we think of this, all humankind within the range we meet must inevitably be restored. To do so, we should completely separate ourselves from society. Then we must make the condition that we have dedicated it to God. That is the purpose of religion. So in the end, one's own conscience and flesh at the heart of the nation, society, or home, everything is fighting. This must eventually occupy you. It's not your own power. You cannot return to God, that is, if you do not set the standard of winning by pushing your physical strength with your father's feelings and love feelings. This was the central issue that many religions in history have tried to achieve.
