On May 6, 1973, True Parents inaugurated  
The Professors World Peace Academy (PWPA).

**P**rofessors World Peace Academy (PWPA) is an association of scholars who aim to explore on the issues regarding world peace in academic aspects.

PWPA works under a goal of 'academic contribution for world peace'. It also works to define the general concept of peace and research on peace studies for further discovery and improvement.

The main works of PWPA are holding lectures and seminars such as the 'Academic Seminar on Peace Studies' and 'Citizen's Academy Lecture',

engaging in international exchange such as 'International Conference on the Unity of the Sciences [ICUS]', and conducting academic research works such as 'Research on Peace' and 'Korea-Japan Undersea Tunnel'.

In 1981, True Parents proposed the International Highway Project at the 10th International Conference on the Unity of the Science.

In 1985, Dr. Morton Kaplan declared ‘the Collapse of the Soviet Union’—as instructed by True Parents—in front of the scholars from all around the world at the 2<sup>nd</sup> WPWA world conference. He shed light to the path which truth-seeking people must walk on.

In addition, WPWA founded the 'International Christian Professors Association of Korea' in 1981 to open a platform for the Christian professors to exchange discussion and build amity between each other regardless of their religious denominations.

In 1986, PWPA founded many schools at several local areas in Korea. Many professors, university students, and citizens volunteered to help the unprivileged neighbors in attaining chances to receive education.

“I founded PWPA to be a trailblazing organization at this critical moment in human history, to mobilize those intellectuals who have devoted their lives to the advancement of human wisdom and to enable them to play a leading role in overcoming the dangers of the age and opening new pathways to world peace. The ultimate goal of PWPA is to help create a just and harmonious world order by encouraging scholars to search for new ideas and methods of achieving peace and prosperity. PWPA will provide scholars and other concerned leaders with the resources they need to solve the fundamental problems facing humanity.”
