Master Speaks

Organizational Structure of
U.S.

0

Based on this American standard other standards ~~are~~ have to be followed. Of course, based on the D. P. lecture teaching, other two projects will be enforced, then victory of C certain people will be trained. Then, after that period, Unification Thought, will be taught. Those who have trained here, qualified people will be the faculty or staff which will be used in Korean intensive training representing the whole world. 180 million people are living in

Asia. so should include the Asian population. That's why he is driving his plan along this gigantic scale. In future

but the world headquarters should be established in Korea - in which all international leaders should pass through. Transfer of personnel will be decided in Korea when this world training project is established. So, that those people who finished the headquarters project will be real experts and will be transferred to different nations according to individual qualities or according to the countries originated from. All nations will have trained graduates from international headquaeters. So, that means that top level treachers should speak at lea st 3 foreign languages.

So, if you don't kow genuine Korean language, you will be off the track. From now on continuously original tongue of the Korean language will be the problem - scholastically and

because in the future the D. P. talks will be in Korea. The top class will deal with Korean leanguage

so you must learn the Korean language. That means you have to speak your own language +

three others. Even our Master is learning English. Then, after he finished his English study, he will initiate learning the French language. Also, in

You are very lucky, you are young and not so obligated. When you occupy a position, like our Master, too much responsibility. It means he has to revolutionize The reason I say this is the future direction you have to take is that you are number 1 future potential. Knowing You have to be beyond your nationality - your country's origin. Most of the international nature of your work so we need financial. economic power. To achieve this he is establishing the 7 european countries - heavenly enterprise. Through which when the time comes there will be no problems.

OWC mobile units will be more actively launching from now on - even though each nation has established its own. Then, the international revival team will be formed. Even picking up 7 different european nationalities we'll have world-wide revival. We will push this program up and quickly advance with this program. The reason why 7 different scholars will be joining our revival team is because we will be the advisor and

Arouse public opinion or stimulus until this third time project goes on and stimulation will be very effective - every university in this country will be voluntarily joining our plan so that we can arouse the public opinion and make the academic circles know our movement and our goals. After this program is over it's not necessarily that they will 100% converted to our movement, but we can help them to be influential

especially to their teachers and all reknown academic figures in their nations. So this will be a great asset to our movement. This way we make an objective base to launch our movement in other nations. At the moment in the world situation, crisis is coming very close. So, the defense line will be in the East in Japan and in Europe, England. Even though these nations do not recognize its crisis - we have to prevent & the two nations as defenseline of these two nations. By having these intellectual scholars, when we make connection with world-reknown

by doing so he is fulfilling Heavenly Father's will. Even Master thinks under this situation God cannot but love him - so without any blasphemous feeling he dares say that if God does

In order to reach your ~~element~~ language. Now he is opening his hearing abilities. He has reached now our ordinary vocabulary he can pick up. Because grammatical structure is reversed it is very hard to understand your language. If Korean language becomes similar to the western grammatical structure, it would have ~~Master~~. He wants to take advantage of your young age to reach the international level. So during your youth you have got to get your training,

Say it, merit it, ability,

preparation, practice and realize

GILBERT A. ROSCHUNI

3

he gave him minimum 6 hours practice. If you want to be qualified lecturer you must study more than just 6 hours. Actually, in order to speed up your program you should attend lecture 18 hours per day - even $\frac{1}{2}$ that much which is 9 hours. at least. Then, when you are waiting, if you reduce just 8 hours, even two hours you doze or sleep you cannot do that. So, in your heart you have to really expect more lecturing time, more studying time. You have to imagine how amazingly wonderful and big job ahead of him and us when the total restoration should be realized in his generation. That means we have very little time - So, if you think 8 hours a day we study, then everything will be all right, it doesn't work that way. There are many things he is planning ahead of him - amazing, sparkling and unexpected world events he has to make. Amazing, astonishing event. Not only aroused but successful according to God's course. Do you have such confident potential or qualified potential.. Whenever he has who is going to take over this thing - he is looking for you to be that way. So, once he said the other day - today he has started his band - orchestra and from the top man he had to train him that way. For 7 years he never slept more than $2\frac{1}{2}$ hours to train the early Korean followers. If he is something thinking or planning, he never sleeps. If he takes you with this condition that 2 hours you will sleep, can you follow him? (Yes!) The answer is very easy but to act is very difficult. So, with this formula he made the foundation for the Unification Church. With this kind of foundation - this training do you think he would fight with you people? In the Russian revolution there was a really harsh method training was very hard - porridge of grasses - but this kind of situation had to be passed through. Compared to those then yours are just too easy - in order to beat this enemy we have to be more qualified, more well trained, Master does not rely upon heavenly father's power or any other. Always he is thinking of first his 5% responsibility. After he has given his 5%, then he asks God for 95%. If you don't finish 5%, then can God work? It is not simple - under total Christianity in Korea there is no way out. Even the government power in Korea

Now they recognize his success openly. To bring this kind of success, if you follow the ordinary of other ordinary people you will not make it. Now, Master needs time

What should they learn when they come here? They will learn exactly what you are taught here in Belvedere. These people will be trained the same as you who are being trained. They are external ; you are internal. you have to prepared yourselves for the time when the time comes for all to come to you. Very soon this time will come so you must be trained - even though you don't have great degrees but internally, principle -wise you should be the nucleus in our movement throughout the world. So, you have to study hard. Do you understand? Very soon, in a few years, this shall take place. At that time if you have no strong ground, you will be repenting and it will be too late. In order to be in that kind of position how to lecture - how to teach you need a certain foundation. The door is opening each day and each month. When the door is open, everybody wants to get in. It will be too late. Everybody knows everything and then you will be far behind. So, from now on you have to study very, very hard. Time is running out and within that limited time, how you are going to train yourself effectively - that is the point. We cannot do everything that you need, etc. If you cannot catch up, then

Time will decide who is effective and how. Even though you have genius, if you take time out and don't study, then your time and genius is worthless. He will give you a story about the formation of the Little Angels. When he began the Little Angels many people said " I have no talent and no interest in these things. . So those who have zeal and faith in it - that's what counted at that. So, until 2:00

If he had listened all this, he would not have made this world-famous existing . Foreign performance by any entertainment companies or groups, cannot even plan 21 years experience Then he originally planned 3 ½ years intensive years. No one believed that in 3 years He received a discredit when he So, at that time he approached different way through general Eisenhower to whom he influenced and gave the

 *GILBERT A. ROSCHUNI*

so, when he compares you to him, you are just kindergarten students. You have a long way to go to be qualified. So, pick up good things from others, learn and possess them. With this kind of heart - our Master goes first and Any nation in the past, if good people come, then he takes them from them. Whenever they take

He is always observing i. e. when he came to your program yesterday, he is watching the performers and how each person takes responsibility and . Even now he is learning from every person in the church. Sometimes to

Even newcomers

you have to learn how to listen to people - how to talk to the people. Sometimes our Master trains himself and is ready to listen 3 times to people - trying to listen interestingly, then by listening this way the person will surrender. There are two ways to make a person surrender to you - either by listening or by talking to them. Then, how long can you listen to him? One month? As long as you are learning it is not bad. This kind of experience is through your daily living. Make the connection with yourself - make it meaningful. When you talk to each other, those who talk first and too much will be defeating themselves 70%. Because you are talking the party knows you through this learning process. Who is the wiser person - the winning person is the wise person. Wise person means you are listening then you put it, without any words, into practice and show the results. Is it true? Until 25 years of age, our Master never talked to others very often - only listened. Through listening, he learned. Then, he set his own view into and he became confident and with faith he opened his mouth and talked. He had confidence that whatever he does, become successful and whatever he said was truthful. This was part of the plan of his life. The same thing applies to you. Do you understand what he is trying to say so far? Prepare yourself immediately. There is no time left. You have to utilize this precious time. It needs an extraordinary method. Sometimes forcefully you have to prepare yourself. It is scientific logic. Sometimes adventure - sometimes forceful. America needs our ideology we cannot stand still, but we have to move forward. Sometimes adventurous and sometimes forceful.

This is the ~~same~~ a normal way of dealing in our faith. This is

⑤

GILBERT A. ROSCHUNI

Time is limited. Even though Autumn comes it marches

Time and tide does not wait for you. Even though a miracle, autumn comes when autumn comes. Our Master is busy every moment; do you think American's need this man? Very soon he will become a controversial figure in this nation.

you've got to set over everyone's body. When the time comes you will know the heavenly qualified heavenly soldiers will be the distinguished ones - weaker ones or defectors of the army. Now you are in the time of preparation, so when the time comes you will be singled out if you are good soldiers, better or best soldiers. What is the best troops? In limited time, more merit and accomplishment. The reason why he is giving you detailed explanation is so that you can feel that the six hours of studying is that you still want more hours of study. That means that if you say so in unison - which means that we must not have any dozy sleepy people in audience. Raise your hands that you didn't feel dozy or sleepy once during the lecture. No one. This is a logical talk. We cannot even doze or sleep during the lecture. Some of you, your eyelids are heavy even now. From now on the team leaders, if people are drowsy, then hit them with bat. If you have a sleepy problem, you study what time out to make you sleep. If you think something others things except D. P. you are consuming unnecessary energy for something else. If you thinkign of mother, dad, friends - forget it. There's no need to talk about something other than D. P. You must control yourself in all ways - i. e. going bathroom

In that case he will direct that situation into concentrated situation. Later he will bring that back to the lecture. Sometimes the enemy's bullets

Mother is noticing that he does not sleep and that he is very strict. When official business comes he is very harsh. So, even one word can make everybody happy

Almos within a year we can have

40 days, 8 hours/ day, 560 . So within one year we are reaching equivalent study time as the 4 year course. In 320 days we can accomplish this. So, that means four years college will be shortened by our intensive study. 80 days' talk, 8 hours per day. So that four years

So, this kind of program will bring a more shortened program. This 40 days your training is a half year course. One year, you can finish college equivalent course

$\frac{1}{2}$ hour break)

Now you are almost ready now. You have to utilize your time to receive lecture from Mr. Furuta in the morning because you have to go through economic activity. Early in the morning you should have lecture from Mr. Furuta. More emphasis goes to flower selling than candle selling because this is a common factor throughout the world. According to experience in Japan only flower selling is the short cut - more fruitful than anything else. Flowers are consumption - many people love it and it does not last more than 3 days so your market is anywhere. Sometimes your customer will become softened and calm down. Individual sale is very urgent to have financial foundation - some kind of self-support means. Even if you become a leader, if you do not you have to be involved you have to be directly involved in the front with them. He plans that lots of European family will come to U. S. to hold audience. So, at the time only short period of time to be effective in economic gain - concentration of big campaign which means it needs finance. We are still negotiating with the Japanese first of October to lend the auditorium in Lincoln Center. As soon as this is set up he is going to mobilize some European family to let them Nearly 400 people will be mobilized to campaign and crusade for this revival meeting. Out of 400 moving troops will prepare in advance in the city where our Master will have meeting. 21 cities in U. S. will have our Master's revival. You may be 2 or 3 months' period, he may call your leaders in your nations. In that case you people must be able to supply air tickets and etc. for. So, you have to prepare yourselves to take over your countries in the absence of your present

leaders. So, you contact your leaders in your nations and as soon as you leave for your nations, they should send replacements for you. They will send the next candidates for leaders should be sent. If they are more effective than you they will be. so you must work very very hard. After 100 days over you have to go and

You should write and say that those who speak good english should be sent. According to the test results, sometimes you have a language problem, but in general not g so good. So, if you have not done well this time, you may come back again next time. So, the same kind of examination should be enforced in your countries. How many days left til the 10th of June?

8 Days. You are not going home. After June 10th you will sell candles til the 80 dollars average, then you will be working in New York Center and with determination to bring 3 people. in one month.

Some of the exception was made for American brothers and sisters because the states were vacant for so long. But once you leave this country, not easy to come back. Without completing this, you will not be able to get certificate. In case Master does not have time, Master will

. . . very soon this sytem will develop to the university and college level - international academy.

Pioneer Academy as we have in San Francisco. For 8 days, Mr. Furuta will come to you a little earlier - you people have to hear V. O. C. lectures. From 6:00 a. m. Without this knowledge you cannot fight this Communism. You will be all the representatives from each nation. International

V. O. C. conference will be held in America. You have to prepare for the time. You stay here in this building and in the morning you sell with Mr. Kamiyama's team and you give me report

The money, you earn, except the original price will be used for the exapnasion of this training center. He feels that you are not fed well sometimes and when the time comes he will let you have more nourishing diet. If we had money he will give you uniforms. Even though inconveniences

this is good chance for you to contribute for this work. The trmendous impact you may give if your money, collected, could be used for the lecture hall or any other independent building in

this project, the project will be recognized by many of the trianness throughout the wo rld. A tremendous influence you will be giving to your juniors. They will remember by your selling

this bundle of flowers one by one. It' s worthwhile to make money to contribute. This is the future

plan. Women will be competing with SR's and establish pioneer centers in each State. You have to obtain at least 70 points.(Can we see our papers?) We have the test standard by Mr. Kim

From tomorrow a new schedule will be presented. So, from tomorrow a new program will be and you have to adjust yourselves. 40 days trainees stand up. You are too small in number, so we cannot send you to the field yet. You stay and study. how many days longer we will see. You study continuously, you understand June 10th will be the fortieth. You stay continuously following the forty days. (Will 100 days trainees begin flower and candle selling on the 10th) Stay and study more - there are not enough of you. The reason why Master put european family out because Master wants to see what kind of atmosphere created without them. So, you have to call replacements, then they come, you candle sell and you go home. how you lecture, what kind of results, what

15 minutes

You have to come with preparation to hear the lecture. Then this is studytime. So, it is the same lecture you have heard. It is the same lecture - even you can pick up what's the different example You have to have a good chance to be objectively critical about something.
