

Father's Speech at UTS
Friday, July 29, 1994, 2:00 p.m.
 (Translator: Col. Sang Kil Han)

(These are fairly complete notes, but some parts are missing.)

Today we have with us the regional directors, for the 20-year anniversary of the Ocean Church providence. They have served in a pioneering way as you should do in the future, to inherit their tradition. Pay attention to them - never be outdone by them. Among those who have just graduated from UTS, how many American members are here? How many western; how many from Japan? Does UTS belong to America, or to the world? To the world. The number of American students at UTS is decreasing. Father holds the regional directors responsible. This is the time when the first generation is leaving; it is the time of the second generation. The first generation were carnal, against God's will; they died in the wilderness. It is the second generation which goes into Canaan. But, the second generation is not equipped with clear thought for the founding of God's country. Israelites perished because they did not set up clear thought with the second generation to make a country of God. Now, the time has come again, and we must do it no matter how difficult it is. They could not, and so we must do it now. Regional Directors should learn from the past, and provide enough students to study at UTS for the future.

Which is more ideal: more American or more Japanese students? American: the purpose is to save America. Father made UTS to save America, not Japan. [In English: free sex means enemy. Wipe it away; this is our clear mission, or else America will perish. Who can save America? No American can do it except us. It is clear.]

Father expected fewer people here today. Why are there so many? Father heard that forty-one trainees were here. Those who are UTS graduates and also trainees raise your hands. What did you learn at UTS? You put in orderly fashion your waste baskets. Most of what you studied you don't need. Our goal is to be restored. We need to go above the level of the Fall, one level above that. Religion and restoration came about because of the Fall. They were not necessary to begin with. It is absurd that God must have religion to make us better. If you don't need religion, then what do you need? What do you need instead? What I need is myself, not religion. What kind of self? The self which has nothing to do with Fall.

When God created Adam, did Adam come to God, or did God come to Adam? [God came to Adam.] Children do not know the value of their parents. Parents help children to grow up. Have you stopped to think that God must have come to me? When God visited Adam, did God kiss Adam? When God created Adam did he create him small or grown up. As a baby. As an infant wetting diapers. Just like the babies we see today, urinating all over the place. When God holds His baby in His arms, His baby with diapers, the mess is all over God's body, but does He mind that? He did not mind. Just as with babies today, He gave His baby affection. Do you think God kissed the baby? When people grow up they become ugly. But when they were babies were they ugly? No. Invariably a mother kisses her baby. Does God care about you? What do you think? Have you actually felt that God held you and kissed you? Have you felt that? Have you felt God hand in hand? Which happens, do parents take hold of your hand, or do you hold parents' hand? The answer, without exception, is that parents take hold of our hands.

We left our parents in search of God. Do we love God more than anything? How many times has God come to you? Is it merely a concept, or a reality which has happened many times. Did you ever feel that someone [God] was walking with you, and that He embraced you and kissed you? [Yes.] Maybe you're not so sure. We know that salvation is to live together with Him and serve Him. To go to Heaven and be saved is not a concept but reality, and it can only be obtained by togetherness. It is

a condition; you cannot go to heaven without that. We have to be horizontally woven together, to live together. Have you ever stopped to think when there is an empty seat next to you on the bus, "God you sit there and I'll sit here"? This should be your everyday life. You feel your parents right beside you; I'll establish the country which you covet and care for.

Whenever you see beautiful nature, you feel it is created for me. You feel it is like my own skin; it is for me and my parents. You see all things around you, and woman who is made for me who is man. If you had no body, how much would you feel something is missing! What if you want to go somewhere but you have no legs? Be grateful for all your faculties and rejoice in this. We consider all the creatures under the ocean, we research them and live with them; we feel joy that God created this for me. All things were created for me; the mountains are for me. Rejoice along with the parents who are right beside me. So, you have to see everything and have a relationship with everything. So, when something is far away, you have to fly so as to get to see it quickly. God created all the things which we see with our eyes. Did he create for Himself, or for man? For me, representing all humanity. This is my creation. [In English: you have to have that kind of living style.]

To keep pace with Father is very difficult, isn't it? Father is super-active: he had to see everyone or he could not go to sleep. Whatever came into Father's view, whatever Father saw, he had to be there. When Father sees the ocean, he doesn't pass it. He has to be in it; he has to catch one, to see what's in it. Yesterday, all the Regional Directors went fishing with Father. It rained and there was a storm; they all got seasick. Father was the only one remaining on two feet!

Father told us to be a master. How can we be a master? The master is the one who pays most attention to the object. We all need money; raise hands if you feel you need money. There are two ways: either you follow money, or money follows you. Until now we thought we have to chase money because we need money. After you graduate from UTS, you have to work for someone. Would you go after the place where there is money? Which one do you pursue: man or money? Man. What kind of man? The man who loves money, or the man who loves many men? Man is more important than money. If he happens to be a millionaire, the million dollars will follow him. Father educated 133,000 people, and each donated money. Father never put the money in his pocket. Can you make that kind of money in one year?

The Bible says that three or four thousand people followed Jesus; but they did not really follow Jesus. Now, 5000 people 40 times over listened to Father. Father's goal is sixty more thousand by the end of September. They are not Unification Church members to begin with. Father said: "Bring anybody and I will make a human out of them." Some people had triangular eyes, snake eyes. There were all kinds of people. Many people had a grudge because they felt that Father is the very one who snatched their child. But, they changed and are now determined to follow Father. Also, they had to pay money. That's clearly brainwashing! Father cleared out all the dirty things. Not one opposed Father after three days. Those who are brainwashed don't mind; it is those whose brains are not washed who mind. There are two different worlds. Those to whom Father spoke directly never felt bad. Is Father speaking conceptually, or about reality? Reality. Do you want to go through what Father went through? Do you want to speak to 5,000 people as Father did? And get money from them? Would you keep half for yourself and donate the other half? Money is only secondary. What Father is doing now is a record. In the future people will appear who want to do that. But, you're not even thinking like that! You should think that at least one time, as a modest dream, at one time in my life, I would like to gather 5,000 people and give them a smashing speech and change them overnight. You say it is not practical. But, how can Father and son be so different? Do you want your spouse to be better than you or worse? You want your spouse to be ten times, one thousand times better, or unlimited. Everyone would say "unlimited". Father does not want his son to be inferior to him. He wants his son to be one hundred or one thousand times, or limitlessly better than him. It is true, it is not an exaggeration.

Do you live with God, serving God? The Korean word is "mo-shin-da"), which means to live with Him, with respect, returning glory. Have you had the occasion when you were clearly speaking to somebody who is God? You have to have that experience. Why? Because God has created the environment for us. [In English: that is the formula, subject and object.] God created the earth, water, and so on; all the responding organs are here - eyes, ear, mouth, and so on. These are the essential factors of life. Also, an individual has a spouse, a woman or a man.

When you go into a particular situation, you immediately start a feasibility study. The key is the subject: you expect the object to respond. It is man who influences. That is reality of the creation. All development in society goes through this basic formula: first, we have a clear idea of subject and object. Then things grow. Then subject and object become one, and then it becomes a still bigger subject on a bigger scale. In the finger, all cells are united, and throughout the whole body. All cells in the body communicate. In this room, who is the subject? Father. We as a good object correspond to the subject. So, Father makes this into a small minus, and in this way Father wants to save the nation and the whole world.

Have you ever stopped to make a plan?. You could make a plan for your three year at UTS. Then, you could make a plan that in ten years you would influence one whole nation. Unification Church members hear about restoring the individual, family, nation, and world. But, have we ever actually done a small part of that? Somebody has to do that actually. How about Father? Has he done it? [Yes] And, before Father, God did it. The easiest way is to follow a good order.

After joining Unification Church and becoming more like Father, can you say that you like only part of Father's words? Do you say that it is only an eastern concept? Take Father's words inside. Father heard that people like the Unification Church teaching but not the lifestyle: getting up early, and so on. But that is the formula, without work it doesn't work. When you get up early, you can meet God. The sun brings the dawn. Man gets up early and the sun wakes you up. But, if you wake up earlier, the sun will respect you. [In English: how wonderful that is.] How wonderful it is to change night into day. You stay up all night, and tell the night to respect you. Satan controls the night, so then Satan respects you. Father went to bed at 3:00 a.m. yesterday and got up at 5:40 a.m. the same morning. One person the night cannot control is Father: he has irregular hours.

[To a sister in the back: when you laugh your flesh is laughing. Father wishes he could take you on his boat for three years: then no problem.] To be arrogant is no good, you have to be humble, willing to learn. America tried to chase out Father. Father said: "you don't know what you are doing", and grabbed America from behind. America is on a precipice about to fall: we say please pull more. Now, America remembers Father in a different way.

After you graduate from UTS, what will you do?. Will you pursue money or love? Many graduates ended up in Washington, D.C. for the money they could receive there. Father was disgusted. Those who are like a locomotive can pull America. We should play the role of an engine to pull, not to be pulled. Father's purpose in creating UTS was to make an engine to pull America, but today it is out of order. No one is pulling America. Twenty years ago, Father started creating this engine. You can see those who graduated: did they fail or succeed? If each graduate brought three or four new students, today there would be thousands at UTS. There should be thousands here.

When Father came out of Danbury, he gave away 40,000 video tapes. [In English: to wake up America was no problem.] Now there is no one. It is our failure. Father would like to remind you that 1975-1976 was the time of peak opposition. At that time, Father started UTS. You must be reminded, that in 1975-1976, Father brought elite members to UTS. They could not witness for two precious years, and they left just new members behind. Yankee stadium, Washington Monument: why did Father make gigantic rallies? To wake up America, to lead America to right direction. It was a good enough foundation, but no one followed up on that. If we can turn the clock back, even if people persecuted us,if

we had done that, America would be completely different. Father created all the environment at that time. Father needed a subject, some American who can claim himself to be subject. Father expected you to be subject and America to be object. During the last twenty years, because we could not reach out, how many perished and went to hell? It is a serious matter. When God expects something and we fail, it must be indemnified, even in the next generation.

It is a different time now, not a time of indemnity but a time of harvest. Those who are about to be harvested are calling the master. What would you want to be, a master or a servant? Master. What qualifications do you need? First, you must be true sons and daughters of True Parents, and then work harder. Many elite people joined Unification Church and vanished. Many of these ended up as servant or lower. Today, we need a master, not a servant.

Did Father come to America for money, man, or for God? Father came in the wake of God and to find Americans, the subject. Everyone opposed Father, and Father even went to prison. Most people would just spit at this country and leave without regret. But, like Jesus who tried to embrace, Father went this way for the last forty years.

Unification Church members are the third Israel. Father fought to cultivate and nurture that. And, Father has been doing it all over again. Now, Father is at the pinnacle. That means that it is the age when Adam and Eve fell. It means that restored Adam's position is here building a new tradition, and doing away with the old. Adam and Eve's family was the family where mind and body would be one. They were to practice love on earth and go to heaven. Adam's family was supposed to be such a prototype.

Now, we have a new pledge, but how qualified are we to recite it? The unit to go to heaven is the family. Unity among all citizens of a nation is actually families getting united. Can you announce that you have mind/body and husband/wife united in your family? If do that, then your children will follow. [In English: the family is center, the universal center]. To summarize: Adam's family was the focus of perfection. We are all the seeds of Adam's family. We are all of the same seed.

[Father asks for and receives a copy of the new pledge in Korean.] This pledge came out for the first time in human history. In all religions, they were not supposed to have a family. There was celibacy because of the Fall. People were not supposed to get married because the ancestor of human race did not appear yet. That is the Second Coming. This is why you are not supposed to get married: if the parents not married, how can you? All religions said to live alone, to give up all personal wishes. Mind and body have been fighting in a pronounced way. You must give up either one. Mind must win over body before you get married. In society, people must fight to survive. But, God cannot stay where there is fighting. He is a peaceful God. It is a war-field. [In English: so, the bad world, and the bad mind and body fighting each other cannot stand in front of God.] You must understand by reason that family pledge becomes possible when the family center comes on earth.

We must understand that persecution helped us to attain perfection. We won the victory and are in a position to inherit everything because we were persecuted on a world level. Once we can go over that, we will be qualified to inherit all things that were destined to us. [In English: there was supposed to be one set of original ancestors, not two. After the Fall, mankind lost that center point. Free sex means a different person each night. The, is a baby is born, whose baby is it? A woman should have one man, not two men. Free sex was made by Satan. That is true.]

Our motto is none other than ideal family. When you as husband and wife meet, have you ever thought that the king and queen are about to meet? It is the place where God can reside. Have you ever thought that the sexual organ of Adam is the sexual organ of God? The sexual organ has a relationship of vertical as well as horizontal. What Adam has belongs to Eve. From Adam's point of view, it represents the parent's sex organ - from Eves's point of view it is the husband's. This is why it is greater than God's love. God only has a vertical way of loving. He does not have a horizontal way of loving.

Only Adam and Eve can do that: vertical and horizontal. This relationship of father and son, centering true love, makes one body. Father and son become one body. [In English: Adam and Eve's conjugal love makes one body. Both ways, vertical and horizontal. Brotherhood has the same meaning, subject and object.] In the Garden, Eve deceived the elder son and the father. Even if she violated either one (not both) we would have hell, but it would have been an easier domain of restoration.

[Father draws a diagram, resembling the four position foundation.] God comes down from the top. Since God always occupies the center line, the children follow. God recognizes that his child is getting close to wedding age. Children grow in the line of parents. Even though God is invisible, he always follows the corresponding visible line. The invisible one always corresponds to the visible one, as internal and external. All of Adam and Eve is contained in the diagram.

There are the formation, growth, and perfection stages. The body is the formation stage; the mind is the growth stage; and God is the perfection stage. Adam and Eve travel different ways and meet in the center. There is only one possible meeting point. Everything meets at that one point of vertical and horizontal crossing. That's where Adam and Eve meet, and where God meets as well. It is the point where individual perfection is attained, and also where husband wife perfection is attained as well as brother/sister perfection. It is also the starting point of parents. This is the basic formula. A man must be the son of somebody, the brother of somebody, the husband of somebody, and the parent of somebody. That very moment when the sexual organs of man and woman join, that is when perfection takes place. Like a plug in electricity. There comes about perfection of all four realms of heart. Without this, nothing comes to exist. [In English: love palace, life palace, blood lineage palace. Three-kingdom palace.] Satan wants you to treat this lightly. But, it's the essence of marriage. After marriage, you hang on to each other by the sexual organs. Women hang on like earrings. You are serious to meet each other in that connecting point. In a normal courtship, where does the hand go first? The sexual organ doesn't have a beautiful face. Father doesn't feel so good: he is the head of a religion and finds himself teaching this.

Where does God want to live? This is why every man and woman has strong desire, and sexual desire too. Just like God. But, we now know that there is only one woman for one man. Adam and Eve's marriage was God's marriage; all the cosmos was to meet there. The offspring born from this lineage are God's; so we call God, "Father". President (Young Whi) Kim's wife once asked Father where God wants to be. She prayed intently, and "that part" was bruised. This is where God can fully embrace that couple. No one can erase sexual desire because it is connected to God. The first love continues forever; one set of parents forever. True Father and True Mother must be one. Your children also want only one set of parents. In the ideal world, if you make a mistake, your organ is pulled out. You have to be serious if you don't want your organ to be pulled out, by the root, by your wife.

Where is God? Where does he exist? At the bottom of my bone, flesh, and blood. When it intermingles with lots of desire, that's when conception takes place, centering on love, life, bones, and everything. When man meets women, fire is ignited and an explosion takes place; positive/negative power. Thunder and lightning is nature's way. [In English: make loud noises... man and woman...] Even the cold discriminating white male finds an attractive smell in his oriental wife.

You know migrating birds. The birds travel from cold to warm and finally have babies. Salmon come back to the place where they were born to have their babies. Father says that the fish is better than some Unification Church members. Salmon means salvation-Moonie. We must become like salmon; the salmon male and female stay together. As they return home, the male salmon's face changes, and he looks almost like a demon. He is very loyal. King salmon is very big. They damage their bodies on the stones in the river; then they die there, hurt and infected. Only the parents' bodies are there for the offspring to eat. There is a lesson here: should man be inferior to that salmon? Father is thinking of making salmon the symbol of the Unification Church. Look at Father and Mother. Are they better than

salmon? Millions of times.

Be proud that we are allowed to recite the (new) family pledge. The greatest scholar is nothing. Do you feel so close to God that He is a part of you? If Adam's family was like that what about your family? Adam's family was supposed to go to the top of the pinnacle with God, as a representative family and center family, and in that family God lives. Does the center of your mind and body live with God? If your mind and body rejoice with each other and become one, then God is already there. When man and woman benefit each other, God stays right there. So, shout out the depth of the meaning of being proud to be a family. Shout out, "Adam and Eve's family, what did you do? You have to follow my family." Can you say this confidently from now on? Jesus' family was second one. Father took down the walls between mind and body, and in the family, nation, world, and cosmos; he brought down to this horizontal level. Father brought God down to his level.

Now what is remaining is for Father to organize all the different families. Now is the time that, centering on the family model, there should be adequate relations with the other families. How valuable your family is! It is more valuable than all treasures. Typical American marriages are so treacherous; some don't even last a week. It is a pathetic situation.

What is extreme to white people? Black. American people fight black people. Who made that situation: white people. Black people have a great task: black people - don't be indebted but make others indebted to you. As a black person, you must bring your spouse, who is white, to be higher than you. The races are fighting each other; the only hope is Rev. Moon. To weave between black and white, you need yellow thread. [Father asks the name of one of our affiliated organizations. Rev. Joon Hyun Pak says that the name is the Coalition of Harmony]. Father is supporting that group which is located in Los Angeles.

Do you realize the value of the family pledge? You have to abide by this law, by looking at true wife, true husband, true son, true body, and so on. We have to feel tears in each word of the pledge; God's tears are represented in each word. Those who do not feel tears when reading the family pledge are not qualified. In the past, how many people have sacrificed their lives, and they didn't even know the goal. God has had to work so painfully. It is amazing, but true: it could never be achieved in your life time. But we have it, for the first time in human history. God is watching us, who are representing couples in America, and so on. Are you going to be the number one family in America, world, or cosmos? [In English - you are too greedy. Do you have the contents and value?] Everyone is competing - only one will go in. The only person who can turn round many people to God is Rev. Moon. Is that a fair statement? The imperfect ones are thieves opposing the perfect ones. Satan hates that one perfect one so much; he cannot bear it. When all the people say that he (Father) is not the one what would you say he is not the one? Would you say, "forget it", and take it easy. Would you relax and give up, or would you try harder? Do you know who Father is? Do you really know? What if Father is a thief? What if he came to steal all the women of the satanic world. The Bible says that he will come as thief! The world says he steals children and women. It was men, not women, who opposed Father. When Father went to jail, more women cried than men.

Father wants to emphasize how valuable blessed couples are. When Father tears down the wall in all eight stages, just continue to live with him, and you will inherit it. Where parents go, children want to go also, not just to a fun place, but even to a difficult place, even to prison. There are two kinds of sons and daughters: one follows when it is a happy time, the other follows when it is difficult, when there is suffering. Naturally, the parent's mind moves to the second one. If you have the freedom to visit any child of yours, which will you visit first: the one who wants only happiness, or the one who is willing to go the suffering way?

[Father points to some the framed calligraphy on the wall in the rear of the lecture hall.] That is a glorious motto: "Service, Endurance, Sacrifice." A handsome man doesn't like this motto. Do you

follow money, or do you follow, True Parents, or God, or men. Choose one: God, True Parents, man in that order. [In English: not money or outside men, but God and True Parents. Many young people are hooked by satan's hook! How do we get rid of that? To do that we must help God and True Parents. Vertical and horizontal True Parents are combined there. Family, family.]

When we see a floating wandering cloud, it is an accumulation of condensed water, not just from one place, but from America, Japan, and so on. Together, they make up a drop of rain. Think in this fashion. No cloud thinks, "I will fall in Japan." When you internationally marry, do you settle down? You cannot decide on any place. In Kodiak, Father made a big discovery. Father married a sensitive American woman to an insensitive Japanese man; she never complained, and Father came to respect that family. Who married them! Father thought, "I will find the best spouses for their children". Now we know how important the family is. You must try hard to understand the value of your blessed family.

It was 4,000 years ago, at the time of Abraham, Isaac, and Jacob, when God undertook the dispensation of settling down on earth. This was 4,000 years of biblical history, but before that there was much more time. It is symbolically represented by 6,000 years, but maybe it was tens of millions of years. The reason God took so long, is because in the earlier races, for God to love them as his own, it took many ups and downs on God's part. Only 4,000 years ago, could God find something tangible. We must understand what agony God had to go through. Just imagine that your daughter is about to be married, and a thief takes her; and they have many children. Even if they apologize, you have to try very hard to overcome that anger. God had to try for many years to be able to forgive them; millions of years. We can only imagine God's broken heart when He sees his own children snatched by the thief, and they do not know God. God could not even begin salvation, because before He can do that, He has to feel that these satanic children are his own children. It was only possible 4,000 years ago. So many tears were behind that. It is our honor, and we cannot expect to be called upon to serve him directly. How can Father love us, when everything we do offends him? Father had to turn his mind in order to be able to love us. We must never forget that mountains of suffering and betrayal happened before Father could bring salvation to this point. We are far from what reality is. We are hoping for blessing, but God is not in the mood for giving us any blessing. We are lucky not to receive loathing. We are in the position of consoling God, never asking for blessing. No matter what your life is now, easy or difficult, we are so blessed to be able to tread this path with Father, loving somebody whom you cannot love. We are giving the privilege of shedding tears together with Father. You must understand how hard Father worked to make this possible.

In the family pledge, all seven pledges start with the same words. Unless our mind and body are closely united, we are not in a position to legitimately recite this pledge. [In English: home country, home town are connected to home country, home world, home cosmos.]

[Col. Han reads Pledge number one: We families, centered on true love, pledge to restore our hometowns and establish the original ideal of creation, which is the Kingdom of God on earth and in Heaven.] We have to create this; no one will create it and give to us. Existing Christians say to believe and go to Heaven. Heaven is empty; without a family we cannot go to Heaven. We have to create our Heaven. Father taught us the essential ingredients in order to make Heaven. So, we should engrave into our mind, that we can recite this pledge only after we restore our family. But, first, we must restore our mind and body. Second is husband and wife. Third is parents and children. Upon completing these three, we can start reciting this pledge. Every day, when you pray, recite this pledge.

The second pledge is about restoration history. [Col. Han reads the second pledge: We families, centered on true love, pledge to attend God and True Parents, to become central families representing the cosmos and to fulfill the way of Heaven by becoming individuals of filial piety for the family, patriots for the nation, saints for the world, and holy sons and daughters of Heaven and earth.] All these are "mo-shin-da". Maybe we should use the word "dedicate" rather than "attend". Dedicate has a more

vertical meaning. Until now, human being has never dedicated or attended. This is what Jesus could not do, and that was his regret. [Father draws a diagram.] The family seed drops down and multiplies to many families, horizontally; the race, nation, world, and cosmos. The family is the center of all other criteria. Kingdom of Heaven on earth, and Kingdom of Heaven in heaven. Since the family is what we are, our family and others' families are essentially the same. Adam's family was the root family. No matter where your family might be, God will descend down in the same way. So, we are all the same: your family is the same as perfected Adam and Eve's family. The world does not have that concept. We think that we are the representative family in our nation. You must think that if you are one of 2.5 billion people, you represent all of mankind. Not only the present, but the past as well. The second pledge emphasizes that we should abide by the law of earth and the law of the palace in heaven. Until now, there were no filial sons and daughters, not representing entire parenthood. There are a few saints, but there is not even the concept of the holy son. So, our task is what Jesus could not fulfill: to create Heaven on earth and in Heaven also. Not just the individual but all the different levels. Not just Abel but Cain also.

[Col. Han reads the third pledge: We families, centered on true love, pledge to establish the Four Great Realms of Heart, the Three Great Kingships, and the Realm of the Royal Family.] Three kingships: the grandfather represents God; Adam and Eve are kings and queens of all families. Not just Adam and Eve's family, but your family: your father represents all the kings in the world. That's what God has been missing. He had Adam and Eve and Cain and Abel but no one in the grandson's position. God was able to love children, but never the grandchildren. Adam and Eve could not even love their children. Grandchildren are the ones who receive parents love and grandparents love: two generations. To receive the grandfather's love means to receive God's love. Obviously, the grandchildren are the ones who receive love the most. Grandchildren are the most loved on earth. The realm of royal family in short means restored mankind (Cain's blood); and only by become one with Abel's blood. When they become one, together they can get into the Kingdom of Heaven. You are already in the realm of the royal family.

[Col. Han reads the fourth pledge: We families, centered on true love, pledge to form one great family on the cosmic level, God's original ideal of creation, and to establish the world of freedom, peace and happiness.] The meaning is in essence to become one great family. People speak about the "global village". Now, we have a new concept: "global family". Happiness must be felt in families and among families. Since our blessed families are members of one family, wherever we go in the world, we can lodge. Now is the time to compete: which family can accommodate the most number of families. What a contrast this is compared to present American families: you must call before you visit. Even in Korean culture, which is still in the fallen realm, your uncle can walk in any time without notice. At dinner, they will immediately serve you. American families are like sand, individualistic. Korean families are like a rock. The individualistic way is not heavenly way.

[Col. Han read pledge number five: We families, centered on true love, pledge to strive forward every day in order to unify the subject spiritual word and the object physical world.] The subject world is the spirit world, where God resides. We reside in the object world. Every day we should try hard to bring unity between the two. Every living thing must advance: greater development. Until now, people never thought seriously about the spirit world. We must pay keen attention to spirit world. We have to create excitement which results in better development.

[Col. Han reads the sixth pledge: We families, centered on true love, and representing God and True Parents, pledge to establish families which will mobilize heavenly destiny in order to transmit Heaven's blessings to others.] Representing True Parents' family, our family will stimulate other families. Heaven has a certain destiny: in this way, we transmit heaven's blessing to other families.

[Col. Han reads the seventh pledge: We families, centered on true love, pledge to establish the

world of shimjung culture by maintaining our connection to the original blood lineage.] This generally refers to a new culture, heartistic culture. We do that by connecting to True Parents' original lineage. That means that we will eradicate the old culture. We will only promote Father's culture. The essence of it all is the family. If we cannot form an ideal family, we cannot make any connection with Heaven. To achieve this, make your family perfectly united with True Parents' family and God. This involves an enormous amount of effort into educating our own children. For Americans this is conceptual at best. But it is not a dream. You must go through lots of tribulations as holders of the individualistic way of life. In American families, everything is equal, horizontal. But, the four position foundation has a center. The one oriental nation which preserved most closely the original four position foundation is the Korean nation; (Japanese is similar but not the same.) Confucianism started in China, but bore fruit in Korea. There is a clear respect for the elder, as well as appreciation of beauty of the younger. Also, Buddhism started in India, but bore fruit in Korea. Christianity's essence was brought forth in Korea. In the Shilla period, it was the time of Confucianism. During the Koryo period, it was Buddhism. Now, Christianity is leading. All three are there. Realistically, does any American family live serving the grandparents' generation? It is very rare. They don't understand why the grandfather is important. We must re-educate them and go through a lot of tribulation.

In essence, today, Father spoke about the family. Man needs women. So, that is our conclusion. We are not going after money, but perfection of our family. There, we can be guaranteed happiness. It is about time for Father to leave. The mission characteristics of the Completed Testament Age is not to restore and bring forth all the broken families. No, but rather the more pure families: pure virgin boys and girls, give them the blessing. We must understand why Satan has been so adamant in pulling young people into perishment. Satan knows that the Lord of the Second Advent will save pure boys and girls. Adam and Eve fell as teenagers. Now, is the harvest time. So, Satan is trying to fulfill his objective. Today, if we don't protect young people, they will have the same destiny as Adam and Eve; they will be expelled from the Garden of Eden. So, we have to go quickly about and grasp all the pure young people and prevent them from perishing. This is our urgent task. By turning them to a Godly direction, we can save them. This is the purpose and the mission of UTS training. It is your mission to uphold what Father says. You represent a leader to save the nation. We have to truly dedicate for this noble cause. Amen! Raise hand and pledge.
