

## Hoon Dok Hae and Mobilization of Spirit World

Sun Myung Moon

November 10, 1998

Gathering for Reading and Learning of God's Word and Mobilization of Spirit World

Selected Rev. Sun Myung Moon's Talks

Unofficial Translation

*Photo date and location unknown*

Why do I tell you, "You must do Hoon Dok Hae\*"? Whenever I spoke God's word, I always am contemplating about my own death. I was saying to myself, "I must leave these words before I die. Even if I could not fulfill the Will of God, I must at least leave God's word behind." With such a serious heart, I gave my speeches. Can you imagine how seriously the spirit world was looking at me? Therefore, whenever you conduct Hoon Dok Hae, the spirit world will assist you so that Rev. Moon can accomplish God's will. You will be pushed into the realm of grace where recreation is possible. You must know this.

God's word is given in order to save humanity and to fulfill God's providence. At this hour, through Hoon Dok Hae, the spirit world can connect with you. In another word, the spirit world that has been assisting Rev. Moon will connect with and assist you. (293-105/106, 5.24.1998)

\*\*\*

If you prepare your heart by reading God's word more than three times in order to conduct the Hoon Dok Hae, the spirit world will assist and inspire you. By so doing, you create the realm that reciprocates with the realm of heart in the spirit world. God will dwell in you to dominate all things around you. Once you go beyond the three levels of formation, growth and completion and of Old, New and Completion Testaments, the spirit world will assist you.

The perfect subject will create the perfect object. Thus, even if there are tens of thousands of people, the reciprocal base is established for you. You will experience the grace where God will dwell in you. This is the mysterious power of God. (296-237, 11.10.1998)

\*\*\*

In this world, no spirit world can be mobilized by any other words, but the words that I speak. The words Rev. Moon speaks are the words that I spoke while risking my life on the front line of the battle. These were the words that reflect the history of my showdown battle, separating and defeating Satan who has tried to snare and entrap me by any minor conditions I would have set in these showdown confrontations. By listening to my words you can inherit the tradition of victorious battle against Satan through the history of my real battles. Thus, all people who have ascended into the spirit world are very serious. They get really excited to listen to the words and to come down to the earth.

When you listen to my words at Hoon Dok Hae, you realize it is different from any another words. Through these words, I overcame countless difficult persecutions; thus, the spirit world will indemnify everything very quickly on earth centering on such a standard. (291-323,3.19.1998)

\*\*\*

My words have been connecting to the movement of the spirit world for the last fifty years providential history. When such a word emerges, along with the word, the realm of heart – that the entire spirit world assisted for and prayed with me desperately in the past to establish – will envelop the entire world.

Therefore, if a representative person who reads my word at Hoon Dok Hae and sheds tears, all gathered there will also shed their tears. If he is moved profoundly, all gathered also will be moved deeply. Regardless of how large the gathering, such phenomena will take place. Why is this? The spirit world returns and works on earth directly. The spirit people who were inspired by the word when it was spoken will return and assist people on the earth.

So, no matter how hard you try to educate people with your own power alone, no one will enter into the Heavenly Kingdom as a result. They can go to Heaven directly only by obeying and following the words of True Parents. Even though you may become a doctorate educator, the spirit world will not be able to work with your own words. (296-221,11.10.1998)

---

## Notes:

\* [Hoon Dok Hae](#) -- Rev. Moon coined the phrase, Hoon Dok Hae, which in Korean means "gathering for reading and learning." He encourages us to adopt this practice as an early morning tradition to enrich our
