“I do believe that reading True Parents' words as we are doing in this class is fundamental to helping families. I believe your organization of the class material has been very helpful.”

Pyeong Hwa Gyeong Course Description

40 days – 32 speeches – pray, study, reflect and grow

Join Dr. Tyler Hendricks on a 40-day study of True Parents' words in Pyeong Hwa Gyeong. The Pyeong Hwa Gyeong is an amazing compilation of True Parents' public speeches, many translated into English for the first time. You will be amazed at what they declared to the world. It's eye-opening internal guidance explained to first-time listeners on all levels of society.

Think through how True Parents addressed diverse audiences from Carnegie Hall to the Tokyo Dome, from United Nations to Yeouido Plaza. What was the core message? What was the call to action? What were the apologetics? Would it be good to have this in your tool-kit?

We will focus on Books 1, 2 and 6, addressing the following topics:

A Comparative Study of True Father's Lists
Blessed Marriage and the Messianic Seed

SYLLABUS

Overview

Study of the Word is a path of the intellect illuminated by the Holy Spirit to reach the heart. We will attempt to invite the Holy Spirit to lead our exploration of True Parents' words. To support this, I have prepared a Workbook that divides the readings into a 40-day period.

According to the *Exposition of Divine Principle*, "Human beings are created through the Word. God's ideal of creation was that the first human ancestors fulfill the purpose of the Word by incarnating the Word. Yet they did not keep the Word of God and fell; thus, they failed to fulfill the purpose of the Word.... Since then, God has tried to fulfill the purpose of the Word by recreating fallen human beings through the Word. This is the providence of restoration based on truth, the Word as revealed in the Scriptures."

"The providence to restore the purpose of creation is one of re-creation based on the Word."
(pp. 92, 292)

Christian theology teaches that the illumination of the Holy Spirit is necessary to comprehend the Word. "Your word is a lamp for my feet, a light on my path." (Ps 119:105)

Topics by week

Week 1: Overview of the Workbook, and historical context of each speech. You will receive a Workbook consisting of selections from each speech under various topics. Most of the topics are listed in the coming weeks of this schedule. The Workbook also includes all the historical information I've prepared about the context in which these speeches were delivered.

Week 2: Topics: Characteristics of the fallen world, Components of the Gospel message

Week 3: Topics: Marriage and the messianic seed, Ethics and lists

Week 4: Topics: The role of religion and transition from HSA to FFWPU, Interfaith ideal and the weaknesses of religious people, Spirit world

Week 5: Topics: Proclamation of True Parents, True Father's self-disclosure and testimony, Response to rumors and attacks, Vision and call to people and nations
