

Livingstone House Is Seeking a Gardener to Manage the Property's Gardens

Matthew Huish
September 15, 2018

Livingstone house is now seeking a dedicated gardener to manage the property's gardens.

A fit and enthusiastic person with some experience of gardening would be important.

He/She would have to be able to use the relevant gardening machinery like lawn mowers, hedge trimmer, strimmer and chain saw.

The gardens are well established and admired by all who visit the house so a keen eye for keeping the property's image and reputation is important.

The position is at least 2 days a week at present but more possibilities for further work both practical and managerial also exist if a full-time position is sought.

Livingstone House is a dynamic and flexible property and there will be many further opportunities as it progresses in serving our church community.

It would be an ideal position for a young couple or family who have a long-term commitment in mind as accommodation is also possible on the premises. Salary is negotiable dependent on the applicant's circumstances, qualifications, abilities and commitment.

If you are interested, please email clivepollitt@aol.com or call 0208 467 0187.

Please note that the office is not manned fulltime so leave a clear message and we will get back to you.
