

## Hyojeong CheonBo Special Event in London, UK - Ancestor Liberation Ceremony

Matthew Huish  
June 16, 2019

*Attendees participated in Changyang sessions*

Over 400 attendees packed out Greenford Hall for a weekend of entertainment, grace and spirituality.

### **Saturday 15 June –**

The CheonBo event opened with uplifting praise songs before UK National Director, Matthew Huish, welcomed attendees to Greenford Hall. Opening remarks proceeded by Michael and Fumiko Balcomb.

Dr. Balcomb said: "Let there be space for the spirit of God to come in.

"As we spend time together this weekend, please make room for the spirit of God and True Parents."

*Members offered sincere devotion and prayer*

Rev. Tibor Krebsz spoke on the purpose of CheonBo and shared testimonies from the previous events. He said: "Internally we can put everything in front of God and True Parents, be honest in front of them.

"Please use this beautiful chance."

Rev. In Pyo Moon spoke on the history of the Chung Pyung providence, a history of True Parents and United Kingdom, and the importance of Hyojeong [filial heart].

Matthew Huish brought the first day of the Hyojeong CheonBo event to a close by encouraging attendees to reflect on their experiences and prepare internally for the following day.

**Sunday 16 June –**

Preparatory songs welcomed attendees for the second day of proceedings before the Ancestor Liberation Ceremony and Changyang commenced.

The Changyang session brought the atmosphere of the event to new heights, because of the passion and sincerity expressed by the attendees.

Following a break and rehearsals, the Hyojeong Offering Ceremony involved the dissolving of the wish papers, alongside lectures and testimonies from Rev. InPyo Moon and Dr. David Hanna.

The Ancestor Blessing Ceremony had married couples dressed in white ceremonial robes, in order to honour the lives of their ancestors and descendants, in addition to recommitting themselves to each other.

The Victory Celebration had entertainment from the WAIT team, Bernard Chellow, and the Cheonbo band; who were so well received that they gave an encore.

The closing of the workshop ended in high spirits, with attendees hand-in-hand with one another, as they joined together in song and prayer.

#### **Testimonies from the event –**

K, Hoyte, 21, Changyang Team Leader –

"I enjoyed it a lot. I was the third to go up and during the session, I was preparing myself, I was joining in, I was clapping and the energy in the room was nice. But when I got on stage, that's when I realised, oh wow the energy in this room is actually really high and it was like a switch flicked in my mind, I was able to just bring out this inner energy that I could have never brought out in the practice sessions. That was a really amazing experience. That taught me that I have a lot of potential if I really focus and I really centre myself on God. It was just a very energetic moment, where I realised there is more to me that I even understand. That can only be done when you do something wholeheartedly for the sake of others."

John O'Neill, 73 –

"Overall it was very inspiring today. Hearing the testimonies and from the lectures you get a very deep and profound realization of the authenticity of the spirit world and the incredible grace and benefit from the new age. Some of the quotes from True Parents were also very profound and inspiring, especially the emphasis on the miracles that are possible with the help and support of the Spirit World. Truly, if we make good conditions and with the support of the Spirit World miracles will be possible. I especially thank my good ancestors, it is because of their sincerity and devotion that I can be the receiver of the invaluable spiritual grace."

Anonymous, female, 58 –

"I am glad I attended. I fell ill the day before the workshop event and doubted I could manage to drive to the venue and attend. But as soon as I arrived at the venue, I received this amazing energy. This energy increased after the Changyang ceremony and I never felt the illness or weakness I had felt before. I want to believe that some evil spirits had tried to prevent my attendance. Thank you to my ancestors who pushed me to come and Heavenly Parent's and True Parent's grace."
