June 3, 2011

On 27th-29th May the northern regions youth were fortunate enough to be able to run the third annual Hebden Hey youth workshop 2011 for second generation around the UK to enjoy. As in previous years this workshop benefited from the kindness of brothers and sisters from all over the UK. In particular Ritatsu Thomas, Michael Youmans and Masa Hayashi made special effort to help the workshop, traveling very far and investing themselves wholeheartedly into making it a meaningful and fun experience for everyone there.

Despite the very limited time we had for the workshop we managed to fit many activities into the the weekend and finished with a lovely barbecue, providing a time for participants, parents and guests to enjoy good food and good company while reflecting on the experiences they had during their stay in West Yorkshire.

Thank yous;
