February 7, 2020

As the Hyojeong Festival was meant to be a festival where all families can enjoy and hang out together, the traditional games for New Year's Day was set up at the Tree of Love Plaza from Feb. 5-7 and it was really popular with the family members.

As usual Great Works, the Cheonga character warmly welcomed all members. There were a lot of traditional games such as playing yut-nori with bigger sticks, pounding rice for cake, neolttwigi, throwing the sticks into the barrel, jegichagi, Japanese kendama, spinning top, and dressing royal costumes. Those various events brought harmony and unity to all unification families from young children to old age by enjoying games together and reminiscing about their old memories.
