After the opening prayer, there was a self-reflection session, following which full-fledged events such as the opening ceremony and orientation were held at the main hall and the small hall of the Cheonseong Wanglim Palace from 6:20 p.m. Korean Workshop Department Director Woon-seong Yang hosted this event and President Gi-seong Lee delivered a message through video on the topic of "The Grace of the Hyojeong CheonBo Great Works Celebrating the 8th Anniversary of the Holy Ascension."

President Gi-seong Lee said, True Father in the spirit world as subject partner and True Mother in the physical world as object partner have attained oneness in heart, oneness in body, oneness in thought, and oneness in harmony with Heavenly Parent. The place where True Mother lives is the place of oneness in core bridging the spirit world and the physical world. He also reported that True Family's four-position foundation had been established completely, and to signify that they are now portrayed in splendid royal

garments in the Jeongshim Won. In addition, with the establishment of the automatic system for removal of our evil spirits we are now in the era of works of the Substantial Holy Spirit, along with the expansion of work through the establishment of the Branch Training Centers.

He continued, "CheonBo Won was established as a grand hall of honor for the heavenly tribal messiahs who have completed their mission to bless 430 couples horizontally and 430 generations of ancestors vertically, and now all that remains to be fulfilled is the responsibility of our blessed families." He illustrated this with a passage from True Parents' words:

"The responsibility of the heavenly tribal messiahs is the last legacy of True Father. In his final prayer, he said, 'I have accomplished everything.' However, he made it clear that there was still an important condition remaining, saying, 'If the tribal messiahs are able to fulfill the calling of national representatives and restore the 387 nations, everything will be brought to a conclusion.' But when he said this, eight years ago, there was not a single family who had fulfilled the calling of national representatives to represent any of the nations. Therefore, after True Father's Holy Ascension, True Mother proclaimed a period of 'advancing without ceasing,' seeking to stir the members to action and encourage them, as she said on February 10, 2013, 'You must fulfill your mission as heavenly tribal messiahs. You have to do this for the rest of your life. If you cannot do this, you will not be able to face True Father in the spirit world. He will say, "I taught you while I was on earth, and True Mother has entreated you to finish this mission, so why didn't you do it?" This must be done not only for you but also for your descendants.'"

President Gi-seong Lee clarified the conditions for restoration and encouraged people to become true Cheon Il Guk citizen whose names are registered as CheonBo Blessed Families. "While True Mother has been walking the seven-year course after the proclamation of foundation day, she stressed to us the importance of completing of the mission of the heavenly tribal messiahs to bless 430 couples horizontally and 430 generations of ancestors vertically. If you bless eight lines of 430 generations of ancestors, you will have achieved 3,440 blessed couples in the spirit world. And if, in addition to this, you bless 430 couples horizontally, you will have a tribe totaling 3,870 couples. This is 10 times the number of 387 countries in the Abel realm that True Father mentioned in his final prayer. As the number of heavenly tribes restored in this way increases, it will be possible to establish a heavenly nation, a heavenly world."
