

HJ Heaven and Earth CB Training Center: Message From Presidents At The Place

Gi Seong Lee
October 6, 2025
Inaccurate Automatic Translation

Good morning to you

I hope you're doing well

The 1406th Tianxin Garden is sincere all night

Summary

Today, while the autumn and evening season is coming in South Korea, more than 100 true households hold their umbrellas in the rain in front of the detention centers are doing their best.

Message From The Presidents At The Place

"On the 15th day of the True Mother, the Autumn Evening Festival gazed at the moon and sympathized with the True Father." In front of the Seishin World Center, staring at the moon rising above the Tensei Mountain and thinking of the mother thinking of her true father, tears flow naturally. Today, I heard that there are no windows and I can't see outside in the place where

my mother is in, and I feel choked. Heavenly Parents and True Fathers who know the situation have come to know the fact that they rain tears all day long with great sadness that they can't see your mother even through the window. In front of the detention center, more than 100 people are participating in the Tenshinsen all-night seishi with umbrellas while the rain and wind blowing in memory of their true mother today. Together with Tenshinsai Honsho, I will join you until the end with a sincere heart that your true father will act as a dispatch for your true mother's health and release. "

In the northern Kyōchi diocese, between 1:00 and 6:00, when the all-night seish ends, it seems that people will be doing their prayers and devotion in order despite the cold wind. I think it's time we all need to take it one day at a time with a heart that resonates with the sentiments of the mother in the detention center. At times like this, the more I believe that being eager to do things without being strained helps your mother. When father went to Danbury, mother continued all-night prayers in the Holy Land, held a "Unity Conference on Science", "World University Student Meeting on Principle Research Society", "World Conference of Orators", sent letters from prison to 300,000 pastors in the United States, and declared the end of communism at the "World Peace Academy International Conference". Among these things, I received Honorary Doctorate in Theology from Christians at the United Nations. At times like this, I think it's time to make what we've been doing even bigger. It is time to go more diligently and glorify your father and mother without letting go of what you used to do.

A valuable message was delivered by Mr. Okinawa. How Heavenly Parents feel when they look at their mother in jail. I was told that Heavenly Father feels a thousand times more pain than human suffering. Mother is prayed to as 'Honorable Heavenly Parent', and that one word resonates with the sentiment of

Heavenly Parents. What is the pain of Heavenly Father looking at you in jail? I hope everyone will resonate with that sentiment. The path that can resonate with Heavenly Parents, it was said that "true love". The entire universe is joined by true love, and with love, it can travel from one end to another in a moment faster than the speed of light. There must be no true love in order to resonate in the celestial world. Resonant instruments in hell are depravity such as grudges, complaints, sorrows, etc, life in hell is depravity resonating with evil spirits. In order to cut off evil gods one must sort out depravity, center true love and begin resonating with good spirits. Resonate with the absolute good spirit and infinite power will emerge. If I resonate with the true father and mother of heaven and earth, who are the subject matter of absolute goodness, then the subjective power will arise with me as a resonance officer. Let's devote ourselves to the standard that can resonate with Heavenly Parents and True Parents, and complete the 11 articles of prayer for three hours a day.

If you worship and receive the true Father who knows all things, the Father who knows how to make a true family, a strong power that is not within you will be entered. This is the role. For the word, prayer, and praise are performed. In times like this, if you receive your father's feelings and become completely united, then miracles happen. The grace is spreading all over the world. "Seeing your mother suffer, we became more one." More people are gathered at Tenshinka now than before the tribulation. "If only I could say, your mother would be most pleased. On the first anniversary of Kahira County, the leaders did not leave and comforted us and informed our mother that we are progressing together as one. Even across the country, we can see the true form of peace ambassadors throughout this period. If the leaders who met their true parents in the golden age are blessed families, we must do our best in Tenshinshi, so that our ancestors don't sue the retainers, the generals, allegiance, and sinking sent by our Heavenly Parents.

In 2005, the 'Tenchikai Kanshu Evening Festival' was opened, and just before that, the 'Celestial Peace Union (UPF)' was established. Before you enter heaven, you must first create a homely peace union. With the arrival of 'Tenchikai Kanshi' (Autumn Evening Festival), the sotoku kanshi became possible. By organizing evil deities in families, clans and nations to create spiritual harmony, the Korean Peace Union can be established. The name UPF is not just a name given, UPF heads must dedicate more Tenshin-ya Seiji. It's not just an NGO organization in the world, it's a heavenly providence agency that makes heaven on earth and heaven on earth. The Celestial Peace Union was formed on the fruition of the World Peace Unity Family Union. Bless all the ancestors and when you bless the central spirits you bless them with the name of World Peace and Family Union. The world that revolves back to one parent can become one family. We have to work hard to rid the evil gods of this country. If you can bless your great ancestors, bless your evil ones, and destroy the evil sphere, you will have a surprise in heaven. Tenshinshi Seishi must be accomplished with determination, and fulfill the words "Decide to die, give it your all, practice, and shine, motherland." Don't be a Korea subject to judgement. You have to pray and move the spirit world, and work hard so that the ancestors of the judges can appear in your dreams, and your father can go. You must build up your faith until the time that heaven confirms "absolute faith" and allow the authority of heaven to come on earth. I pray for such a prayer for Tenshinshi.
