Good morning to you

I hope you're doing well

The 1408th Tianxin Garden is sincere all night

Summary

"Way maker" song was written by a Nigerian composer thinking of South Korea, but I think it was written with the surprising providence of the true fathers. It can be said to be a poem that testifies true fathers and parents at this time when you can see and know that Heavenly Parents work in Tenshinshiri. Heavenly Father who fulfills His promise to Christians to make ways and perform miracles. I want to invite this composer to have a great revival meeting, and let the world know about the surprising work of the living and working Heavenly Father will be performed on earth. The emotional cultural revolution is gradually being formed at the World Center. Nobudesama told me that he wants to sing all night with the Tenshin Choir next Monday. If the spiritual trainees and academy students are completely united, and every Friday the Tenshin Choir raises their voices and moves forward, I believe that a surprising new

history will be made.

The church of the whole world must gather ten times more than now, to be of one heart and devotion in one heart, and to show them before heaven that they are united with the mother. Tenshinni Seijin, who started with eight people, has become a new culture of Tenichi. "You are a small group, but in the future you will become rivers toward the sea. The sea symbolizes mother. My whole life is like an ocean. There have been more than 50,000 people now. Furthermore, if Heaven starts to do more than 500,000,000,000,000,000 prayers all night, I believe that there will be a surprising role for the unification of Korea. If the world leaders come to Tenshinsai and praise and pray like crazy singing Way maker, it will cause a new wind in the world.

Proof of the Lion Academy Student

The alcoholic father shouted out loud, the mother screamed and cried, the children were scared and clothed, how painful and painful it was in the household where evil gods work happened. Being such a dad, I'd be happy to divorce him. Still mom endured not running away and never giving up until the end. With more persistence and perseverance than the evil gods were able to win. When you worship your ancestors, who are absolute good spirits, with lyrics, grasp the Tenshin-zai and pray, a surprising act occurs. Dad finally confesses "I was wrong". This mom said, "Tenshinko is hope, Tenshinko is the greatest gift I can give, give commands to the underworld through Tenshinko and solve problems." I believed in your mother's words and achieved it.

We've entered the night era where Adam and Eve have to crash and recreate. It was human history with

various sins in the dark night culture. It is the Tenshinken culture and the Holy Spirit's affairs to make this night culture correctly into the day culture. The Holy Spirit ministers in Mark's chamber were also accomplished in the night. This culture came into Korea and the Holy Spirit ministers occurred throughout the night in Pyongyang. Even when he entered Neko-ji-yama Mountain and prayed all night, he was surprisingly reappeared. I was also told that your mother hasn't slept more than 3 hours a day in 53 years. And he said, "Stay up all night long, this is the new culture of heaven." In order to change the night culture on this earth into the day culture, Tenshinki Seishin must be devoted." This Tenshingo is performed in which the second and third generations change the evening culture into a new culture and heavenly culture through 40 days of Seijin. Finally, by proclaiming Kogensetsu, the god of night appears as the god of day.

However, since the god Japan cannot feel the day age and is in the night age, he issued a word to blow away the darkness's luck. One must pray to sort out personal evil gods through Tenshinkai Seisei. Can't be quiet to sort out the bad gods. In order to cast out Satan inside you, you must say, "Satan! Shake it! "You can't put evil spirits in order if you don't have luck on your lips with a loud voice. So, "Lift up your voice and praise, lift up your voice and pray," only with a loud voice we can defuse the forces of darkness and find a way that can resonate with the heavens. We can create an era of peace by clearing out the evil spirits in our homes and churches from personal bad luck, and furthermore, by clearing out evil spirits of our nations. Aiming for that, he trains for 40 days. I hope this hour there will be a role to speak out loud and drive out the dark forces.
