Summary

If we had put in a little more truth today we could have buried the 1%, but when we receive messages from the underworld saying that 1% was missing, we feel our integrity has not yet reached the heavens. Looking at the heroes, royal men, loyal subjects, and lion maidens in the regional underworld, we must do our best as an earthly person, considering that when the standard is established to recognize 100% 120%, we will have a role that will be touched by the heavens. I hope that there is a team of Mosim training who are devoting their best in prayer and devotion in the 24 hour relay where people can't see it, and they will not say anything short of it.

Every day I have 43 cups of adoration and 1300 calls of prayers. I don't know how great the hardships of the training department directors to teach over 500 long term trainees day and night. Knowing that the absolute good spirits in the heavenly world are struggling greater than those training directors, we on

earth should be grateful and devoted. Don't think by your standards, "I'll be fine if I try this much", Heaven always blesses those who have a lack of heart.

Today's reading is Joshua and Caleb. Father said, "Caleb is the greatest man, Caleb must fulfill his mission." "Caleb said to him, he lacked nothing, but he did not say he was superior, but he set Joshua before him. We have yet to establish a culture of love and pride in each other. The heart that values and loves one another must be stronger than any other organization in the world. If you focus on yourself, you shrink, if you live for it, you develop. We are the people who make life come alive. Gotta hold my brother and my mouth and all my people with love. Today all the food and the posture of the leaders must be us who move forward like Joshua with the heart of Caleb, the true fourth foundation that heaven has established."

Caleb was the center of supporting Joshua by giving a report of faith among the 12 clans. If we love the church, we must walk as one with the center set by heaven, even as the world is in opposition and in noise.

The whole principle of comeback becomes justice by establishing conditions to get rid of the depravity by becoming one with the center. Scolding someone who is difficult to talk to makes you lose your depravity and receive glory. Your father also lived with the prisoners, saying that if he worked harder, he would reduce the baggage of others, and if he had precious things, he lived to share. It was our true fathers and mothers who lived their entire lives. Giving and giving and giving again, and not being able to give more and become a grudge, it was the love of Heavenly Parents, True Parents. We are still not enough to convey this love of our father and mother. We must boast about our true fathers and accumulate materials that testify of our true fathers, so that we don't allow the problematic church and the world to point out. When you look back on your life, you have to live in such a way that makes you feel confident, "I really

lived well even if I thought it."

Our judgement does not end on earth, judgement awaits us even when we go into the spirit world. The moment you climb into the underworld with the angel of heaven bearing the sign of the holy reconciliation, you feel too insufficient and embarrassed when your life on earth appears and judged. If you wear the holy groom for the entrance ceremony, but you're filled with filthy habits, you're ashamed and want to hide somewhere. How shall we forbid the heart that lacks before the name blessed household, the name of clan Messiah, the name of Tenju, the name that each carries? Even if we bury each day with tears of praise and heart, we cannot return the favor, and we must devote ourselves to the fact that we couldn't live up to that name. Mother is still struggling for our lack of integrity. In this evening's sincerity, I ask that this will be a prayer for everyone who moves the throne of heaven that the gates of liberation of your mother be opened.
