Opening prayer of gratitude

Most Noble Heavenly Parent

Victorious True Parents of HEH

We offer our deepest gratitude for Your grace and love, a place where True Father welcomes us and True Mother embraces us. The hall is filled with Your Hyo Jeong children, over 600 precious members from Japan are joining for the Workshop and the Tongwon Mudo and Korean Ws expanding through the works of the Holy Spirit.

In a world where the churches and cathedrals are closing their doors... We believe that passing through the times of trials, we will be more powerfully effecting Your Will...

Let us be born again in this new era where Heavenly Parent governs directly, as we cross over the realm of grace of this new era, let us be children who create no more indemnity, advancing with one heart and will, full of love, not resenting others, but looking back on ourselves with sincerity, forgiving and uniting, giving thanks for all things, and move Heaven throughout devotion, offered completely for Mother's safety and speedy release...

Gratitude

Eldest daughter of 3 siblings

Throughout the past year the HMH visited me in 4 dreams with the realization that She is searching specifically for me.

I was suffering from tinnitus and disease and saw the students on the boat and begging me to save them and standing in front of the lights of the church and pouring holy salt all over my body. Suddenly Wang Omma was there and looking at me with such deep heartbreak, already knowing everything I was going through.

In the 2nd dream I saw Wang Omma standing in front of 1st, 2nd and 3rd gen children gathered at the World Center, waiting and greeting us with a bright smile.

Beyond my difficulties Mother would appear in my dreams to protect me. She always held onto me assuring I wouldn't drift away into wrong thoughts.

With these experiences, I started a job as an assistant at a day-care center last March, and deep down I prayed and offered HJ papers, asking H to lead me to the 40-day Workshop. Thanks to the kindness and consideration of the Director and the other teachers at the day care, I could come here, but I felt the pain of leaving the day-care children behind and it made me think of the heart of Mother as a Parent who had to leave us behind from WSs in the past...

From this all of the feelings of loneliness and sadness I had held against Her were completely resolved. While working as a teacher, when the children screamed or buzzed with their talk, my mind would become chaotic and my mind was mentally exhausted. I truly loved the children but because my mind wouldn't cooperate, I knew there was a central spirit and came to 40-days.

The first days struggling and palpitations and a voice, 'I hate it here. Get out. I hate this' It was so hard to really hear the lectures and I had palpitations and could hardly breathe. When I asked Mother about this She said to liberate the central spirits of anxiety, and I applied.

After that I ran into a friend who had just been to the spiritual academy who encouraged me and I made it through the lectures. I prayed earnestly for the central spirits could receive training and be happy. I felt the spirits saying, 'I'm sorry I made you so sad and please be happy.'

The bullying in school, I was able to take my courage and go beyond the person of my past and embrace that person and speak of it without fear. I had been hiding my true emotions with a smile. I thought about the children living like that and how painful for Heavenly Parent and True Parents to witness.

I also felt my relation with my family improve. I realized that this Workshop is not for just perfect children. Also, by the ansu I received relief from the ear symptoms like ringing and throbbing pain. I was shocked by that but realized all of it was spiritual.

I remembered the dream of Mother smiling and guiding me here and felt sincere gratitude. I realized the liberation and circumstance of here was never a coincidence but what True Parents are unfolding in this era.

The grace not just to me but to my family, I confess that all of this is a history achieved within True Parents True Love. I will return to the day care center, but I have resolution to participate to the Spirituality Workshop, a such a child receiving grace and set out to live a life of pure water and devotion to receive the Blessing. And gratitude to my friend who helped, family and the Center Director Kim myung wok and all the volunteers and Directors... I love You Wang Omma...

'I'll Love You Forever'

Testimony

Sakiti Kao

3rd child

The past 6 months I was a trainee at the 8th Spiritual Academy, volunteering at the HJ True Family Counseling Center... I had planned to return to Japan immediately after the Workshop to work as a dental hygienist, but while praying, I began to think of my maternal grandmother who dedicated her entire life to the will and saved so many people. I felt deeply in my heart that she had wanted to heal people through ansu, but she passed away without being able to fulfill that wish on earth. So, I resolved to offer ansu service on my grandmother's behalf.

I prayed and True Father said to go to the academy not just as a volunteer... Doing the ansu, thoughts rose questioning whether I was helping anyone at all, but I realized it was a spiritual attack to make me quit, so I shouted HMH while doing it, and poured my entire heart in the service. I have always been spiritually sensitive, and if I felt the slightest sympathy for the person, I felt the spirit entering my own body.

Ansu involves pouring out not just needles but my own energy, so after the morning session, there were many times I was so drained, I couldn't stand up. I would wind up doing ansu with people who had problems similar to mine, and I had to make sure my own emotions didn't get mixed in, and at the same time realized the SW was moving to help me grow. I realized Heavenly Parent's Love, and that allowed me to push through those times.

Through ansu I heard the stories of the resentment, a 5-year-old girl who died alone, not loved by her parents and starving. A mother who wanted to love her child but couldn't because of the war, but no matter what they went through, nothing could surpass the suffering of True Parents. I often saw people whose arms would rise suddenly when they couldn't and leg moving freely and felt the spirit working through us and Heavenly Parent and True Parents working through my body.

I hadn't believed in the HJ offering papers at first, but wrote one on behalf of a spiritually suffering

member and watched with my own eyes how one moment they were screaming and then became calm. Because ansu allows the spirit world to work through my body, it brings me close to dark spirits, but more than that, I can feel the Presence of Heavenly Parent and True Parents and AGSs always with me.

Every time I offered devotion in the vigil prayer, I felt True Parents with me able to finish the ansu service. My mother and father who didn't know much about the SW, came to know it really exists, and the TC in America became the gathering place for the family, and was able to accompany the Director on a tour, and I was nervous and tired, but strength rose up experiencing a different spiritual atmosphere, and through ansu I personally experienced the power that drags me into negativity by always facing Heavenly Parent, and how much grace from the prayers of vigil and offering papers.

I will begin working as a dental hygienist in March, and I'm now full of joy and anticipation for the days ahead. I feel I was able to grow this much because of Director Kim Myung-ok and staff and b and s who loved me every day. At first, I decided to do ansu for my ascended grandmother, but I realize staying here was to make me stronger before going out to society, and I sincerely thank my grandmother and mother and listened to me on the phone and my young brother cheering me on. HJ Report

Yokoi Shiaki of the Education Department

Grace of the Japanese 40-day

In H Japan...the court will make a decision on March 4th about the dissolution order, but we believe we will be victorious...

There's a new wind blowing in Japan, not seen, and we hope this will expand to all our Unification Movement.

True Mother's Words: Mother's health is not good, with the tension in Her legs built up severely and Her Legs keeps cramping up and it will not release... and Mother is pleading to us, Heavenly Parent Japan and entire world to move this world. The Mother nation must step up to help the Father nation and education of the Epic, so that this nation realizes the Truth and please offer deep devotion for the sake of Korea.

Japan went through struggles and trials but now 596 people are attending the Workshop... During the late registration, the number of True Father in the Hungnam Prison, like True Father was victorious although incarcerated and we believe True Mother will be victorious also with a new era unfolding.

Last 4th 3-day Workshop it was 1,943 and on that foundation becoming one with True Mother, one with True Father as well and will give devotion for the quick release of True Mother... These b and s have

arrived in Japan.

True Mother has allowed this new wind to blow in the Unification Church. Hori Masaichi, the new President of H Japan, through the devotion of Cheon Shim Won, internally Cheon Shim Won and externally N.A.B.I. and the miraculous things happening in East Europe happening in H Japan.

The Pastor Tado Takoni, the song 'Butterfly' was written by him. I would like to give the behind story... the theme song of NABI because the President made request.... looking at the 2nd gen standing up for the will and showing their hearts, I was moved, and there were a lot of 1st gen and SW supporting and so happy to be with my b and s and wanted to encapsulate that feeling and be the butterfly to go out to the world.

I usually use the guitar to make a song, but this one was already finished, and the President sent me a well-written lyric. It was time-consuming, but with the devotion in the night vigil, inspirations appeared to me for the melody and I built upon that foundation. This is also released on You Tube and a lot of people are singing it. We gathered the dreams of the people of the world and we will ascend high into the world and will become one with Heavenly Parent and True Parents Blessing and do our best with Them. TYVM

This Professor is pouring out devotion in the frontline as well.

President of the NABI... A lot of 2nd gens showing their HJ and respect for their parents and firm faith, and the 2nd gen who brought their friend to listen, that friend was so moved, and there was another person who was distant who heard from a young age he was a 2nd gen and he was really thinking about that and now is attending church, and other 2nd gens have returned back, and there was a leader from another religions who was so moved. and to testify to the world about your faith is not easy especially at such a time, but these people have true ownership of their faith not seen in other religions, and leaders are moved.

Before university, no faith and against my parents. Having religion or faith, I felt negative about it. But I was reborn through CARP experience and during middle and high school, if I hadn't cut off my friend, I wouldn't be able to witness to them, especially who was my best friend and was walking through the Shebu station and embrace and able to meet past friends, and felt the great heart and HJ of the 2nd gen, and felt such spirit sent to True Mother and Inheritors...

Rev. Yokoi: The same way, I was moved and felt this is a new era, and we should be declaring True Parents Words and not think of the other side, but now the 2nd gens are giving the speeches that so moves the listeners, and afterward could open their hearts. So, to give the message after that would be easier for them to accept.

testimony about trainee that did NABI and then came to the 40-day... In the midst of the persecution, I came to hear the 2nd gen and experienced my original mind to the point where I couldn't stop my tears, how Heavenly Parent and True Parents must have felt so much more pain with their experience, and I want to deepen my roots while singing. And he shared while doing his speech that he's conveying his own heart to True Mother.

After that I offered praise and a surge of shimjeong came over me, and we want to show Mother our resolve of deep heart... and gratitude to Heavenly Parent to lead me to this..

reflection: I truly felt that this TC and H Japan and the frontline should become one and have good

relation with HQ or we cannot really break through. So through the devotion at Cheon Shim Won and HQ and frontline becoming one, these miracles can happen. The reason we are giving these reports is because we need to become one.

From the 183rd 40 day, this is a sketch video

testimony... healed from ansu and water of life... realized the people offering such devoted ansu just for me and had more thankfulness rather than centering on the pain and shouting out HMH... sincere gratitude and bowed to the person who gave me ansu and bowed before the image of True Parents...

Testimony another healing

Heavenly Parent has lived with the children that don't know Heavenly Parent is their Parent and True Parents also with children not knowing their True Parents

testimony 120 days Workshop experience... Previously hurt by the matching and then Abe assassination and members leaving, and I had dispute to go to the Blessing or not and fear and in a dark place. I felt time was passing so I dedicated to the 40-day, but so hard for me. But through the CY yoksa a lot of spiritual experience and b and s were loving and became close...

Those in the 80's, I wanted to inherit their devotion, and went to another Workshop, and I was able to meet True Father, 'You have returned. TY for returning and so happy to see me and 'Have you eaten' and tears flowed. I had a dream that Father was waiting for me in Cheon Shim Won. Because I wasn't believing and Father said 'Since she is not believing, sing to her' and I was wondering why a song, but seeing the lyrics I realized that Father was educating me. I was able to face my fear, and I wrote down notes and was able to see objectively myself, and my heart became lighter.

Heavenly Parent and True Parents had entered my heart, so my resentment toward the Blessing is gone and I want to fulfill the hope of Heavenly Parent and True Parents for me to build an ideal family, and bring the family of happiness for Them, and grateful to be born a 2nd gen and will offer my Blessing and show my happy appearance there...

2nd gens are thinking about the Blessing, having experience of it being so hard and seeing others break the Blessing, and how could they return? Because of the devotion of the 1st generation, there were miracles. One sister was a public leader who brought all of her family to the 40-day, and through it they could realize that she was the problem of her Blessing, not her husband, and through repentance they went back to Japan and met the son and the husband's heart was completely changed. Easy to see the fault of others and then we need to see through Heavenly Parent and True Parents as a mirror.

This 40-day is where Heavenly Parent's grace is abundant, and I have the announcement and there will be a Seonghwa 21-day in Japan as well... The leaders came for the Epic education. They said they will do it. starting August.

From the summer vacation... breaking news: There's a song 43, a new song for the 40-day Workshop as well. Mysumi member of MODU, I told her we need to finish it until 7, but so hard and they finished at 8 and it will be given during the closing ceremony...

Break

Hoon Dok Hae

Any group and the greatest groups were all built on a foundation of sincere devotion. When I first came here to Cheon Shim Won, I saw that the location was very good, and that is why I settled here and decided to offer my prayers and for the road of prayer of my entire life.. It seems like only yesterday that I was climbing the Mt. Yurok to offer prayer.

Though I have started with only my two empty hands, there is nothing I have decided to do that I have failed to accomplish, once determining to do something, making sure to achieve it without fail.

Establishing an economic foundation that can liberate the world, one must offer tremendous indemnity of devotion. Only then can we stand in a position recognized by oth God and satanic side. I lived my Life in this way. That is why I would miss this place and go back sooner than expected.

Only when you offer your devotion with blood and sweat can you stand without shame before your Subject Partner. Before the Heavenly Parent and the world, I have Lived strictly adhering to the Principle. It was at the age of 16 that I experienced knowing God, while I was in a humble position.

From My boyhood I began to agonize over the things of life. 'Where do we come from?' 'What is the Purpose of life?' 'Is there life after death?' 'Does God truly exist?' 'If God is all-powerful, why does God not solve the problems of this world?' 'Why is there so much suffering?'

For 9 years I lived constantly with God and Jesus and on many occasions I entered and explored the SW. Gradually, God taught me, as if the long dark night passing and seeing the dawn rising... I could see the dawn of culture with this teaching having the power to bind all into one, that is called the Divine Principle today. And I received the cause to spread it to the ends of the earth.

When you experience the Divine Principle today, you have spiritual experiences and indeed you must have them. Furthermore, you must receive True Father's teachings spiritually in abundance. You must experience this 100%. If you research professionals with that standard, you will be taught how to achieve infinite development in those areas... The SW will teach you and Father will appear to teach you. You will be taught what you yourself cannot imagine. This is the invisible strength of the Unification Church that no one else knows.

'Longing Towards Heaven'

Main Message

Yeon Ah Nim

Thank you b and s. It's been a while. Thank you for devotion for True Mother, and True Mother truly knows and is grateful for every one of your devotion. And True Mother has given us the words to be aware of your health, and whenever we go see True Mother, we used to do this report of True Mother, but it's been a while to give reports officially, and what I felt is that we should be, I personally felt it was a time to be giving devotion silently.

Traditionally, in the early years, there was a time for the newly-wed wives to endure, even though you had a lot of worries, there was a time to be quiet. I really felt that members all around the world are giving their devotion, and True Mother Herself wants to say a lot of different things, but Mother is enduring a lot of those things and just driving on to Heaven.

And what I reflect on that, I really use the time to be more quiet and giving the devotion to reflect on Mother. It was a time of reflection for me, but I really wanted to give a message today because there are court hearings and trials when we couldn't really see True Mother. And we had to schedule to meet True Mother.

True Mother has always emphasized the responsibility of the chosen people of Korea and also the chosen people who are the BFs. True Mother truly hopes the BFs could fulfill their responsibility of the BFs. But True Mother said you cannot fulfill if you don't know, and those who know are the BFs and they should be the ones to educate those who don't know. And those were the Words of True Mother. And how can we send this message to b and s. This is the message that actually has been repeated several times, so I felt conflict if I should be able to... but today I felt that this is the message and love of True Mother and I needed to share this and I stand before you to give that Message from True Mother.

True Mother first gave me these words: During the accident of the helicopter, someone who was fishing on the lake saw the angels protecting the helicopter, and even there was the accident, no one was hurt. So, through your devotion, I hope everyone can see how the SW works.

After that, because our members are giving their utmost devotion centering on True Parents, and in the field doing their best and the leaders are reporting it, and True Mother has been emphasizing once again that the SW should be mobilized and work and guiding the way. These people should be attending Heaven, know the direction of Heaven's Providence for their attendance.

True Mother, I was able to really feel the internal thoughts of True Mother and the Message She wanted to give. True Mother wanted to share the Heart of Her Love and wants to encourage us to do better and I felt I needed to share once again. And I could see the purple jackets and see that this is the fruition of the devotion of Cheon Shim Won. And True Mother, whenever we give the report that the devotions are made by the members, True Mother says She know and Heaven know our devotion and we are connected as one family through our shimjeong.

So, our devotion should not just be coming from our mouth but dedicating ourselves put into practice in our daily lives. TYVM and let us do our responsibility so people can see that SW and Heaven is cooperating. Since this nation as the chosen people has their responsibility, we should reflect on that once again, and put our devotion. TYVM...

Main Message

Pres. Lee Gi-seong

1,497th devotion... Today, from H Japan, they came for the 3-day... the SW can work proportionally to how we physically gather...

The True Father and 4PF True Father are giving their devotion online... Through the words of Yeon ah nim, we need to give devotion even like the time of the helicopter accident with such miraculous result coming from it that the fisherman could witness angels...

Actually, there was a helicopter accident 2 days ago and actually 2 people died, but in the helicopter accident of True Parents, the angels protected it. We cannot even imagine how much suffering True Mother is going through in the DC, and when we think this is because of our inadequacy, let us gather our devotion and think that we are also currently in the DC think about True Mother whenever we eat or do anything and have give nd take with the Heart of True Mother. If we can do this, we will be able to grow our spirit self higher.

This is the message of Pastor Seong In Yong at the DC: We're are so sorry for the detention of Mother. (names the churches) Because of our inadequacy and we couldn't protect Her. We truly repent and dedicate ourselves to live the life of the will and through this 1,497th devotion, I hope to send energy to True Mother to become healthy and free, and that is our earnest devotion prayers.

Today more than 40,000 are offering the devotion in unison. People are attending in person.

If our group devotion is piled up, the devotion of the individuals also will be more...

596 came from Japan... GPP 11 Academy 105 Tongil mo 68

Looking at the title of the media, these are the arrows that are so much attacking our souls... and aiming at our members. We should have an armor of the substantial Holy Spirit guiding us, and then those arrows won't penetrate us. If you see the rumors going around our church, you won't get any positive thing from them. So, during this time, we should be congratulating and giving gratitude to each other.

There are people who had good dreams and shared the dreams through their messages. So, if you have a great revelation, a great dream, please share. There might be personal dreams, but some might be Providential, please share for them to also gain strength. If we know that there's hope, we should never make a minus but always go forward.

If this 596 desperately offer prayers and connect and communicate with the Subject Heavenly Parent and Spirit, they will witness and feel the power there. Heaven's work will show you the way. As When you look at the HD Message, it is that when U members enter the church, they have spiritual experiences. If not, how could you believe before you die. Upon that foundation, a spiritual guidance and help will come to you, and you will be able to develop yourself unlimitedly.

All of these organizations are developing their finances and are we on the standard to give back to our True Parents. We are not on Their Foundation. This 21st Century is an era of the SW where we will be competing for true love. For this Fifth Resonance Prayer 40-day, and if they are able to go back to their country and pray with one heart, Heaven will be moving. You will be able to resonate on the Heart of HMM and 'feel' and 'see' the results of the power of the prayer.

Our District Leader said there was a possessed person in the church, but just saying the word of Kim Dok su, he could remove the negative spirit. We should feel how we need to be attending Heavenly Parent and True Parents all the time, a living, breathing church, where when we go out and see someone depressed in their household and are able to show the miracles happening in the church, they will be witnessed to.

There are a lot of deaconesses and elders in the church praying a lot, and there's a member who didn't know how to apply for the ansu and there was a friend and a message from F who told them to bring that person to the ansu.

I was able to give ansu to participant. The SW looks upon the hearts of everybody. If they see that you are suffering, they will guide you to the ansu and special prayer room and the? room...

Today Kim Moon-yong gave a testimony of her difficult, but through vivid dream, she was able to come and be healed..

The ansu members must resonate with the heart of the person they are giving the ansu to. Whenever you go to the ansu room, you should have the heart of resonance where you are able to pray and then the SW will be guiding you to the place that needs ansu. Through that she was able to go to the frontline, to the other churches, and through her devotion the father and brother could firmly establish their faith.

She will become a dental hygienist, and I hope she can witness in the field and keep giving devotion at Cheon Shim Won... The Vice Director of HJ Education Dept gave a good report... H Japan still going through so many difficulties with the decision on March 4th. They cannot go through this without centering themselves on True Mother... not to think about ourselves, but only True Parents. True Father said the most beautiful Being is Heavenly Parent, more than any other beautiful being.

That is also why True Father wanted to liberate Heavenly Parent, even He Himself had to walk the path of thorns. True Parents always thinking about the Will, not themselves, but we really do think about our individual selves. Whenever, you are thinking with that focus on self, satanic spirit will enter... spirits attach to you and accusing attach to you...

Whenever there's a reassignment in the church position, you should always be grateful for whatever position you get. When you enter the Unification Church, you dedicated yourself, but after getting the Blessing, to look at the past, there were so many positive things to be grateful for in your life to focus upon.

If you keep on complaining, it's going to affect your partner and children and you won't be able to enter Heaven. So, the biggest trial is the trial before your seonghwa. Then this trial of the moment is actually a small trial compared to that.

Elder Pastor Cho is over 80 but so healthy. He goes to the DC and gives devotion, despite his age and still drives his own car. There are time when I feel both spiritually and physically tired, but among our piers, there are also those who got cancer, and thinking about that, I could be grateful. And thinking about True Mother, you can give the most sincere prayer.

When Heaven asks, what kind of devotion have you given. Are we giving our utmost? That was the devotion of early Christians hoping for the 2nd Coming of Jesus. We need to be giving more devotion for the needs of True Mother, praying even more than the early Christians, and see the miracles...

It is the era of direct governance. What kind of miracle should we be able to see?

Pres. Moon Im Pyo is going all around Europe giving devotion. He had been the Director and Father appeared and was breathing in my ear and I thought what kind of breathing is this. And Father said, 'Tell Moon Im Pyo to give devotion at Cheon Shim Won' and I wrote it in my phone and he was so busy, he didn't come. And only ten people gave the devotion. But a few days later the Ukraine War began. Rev. Chung was then the Branch Pres. of Africa but giving so much vigil devotion.

If you see the war still going on, you know the SW is working and it's not a thing that could end. There's a time when Heaven can directly govern, so our devotion must reach the Heaven, so that the angels will protect True Mother and we reach the righteous people to stand up and support our True Mother. Let us do that. Aju.
