Opening prayer of gratitude

Calling us into the infinite love of our True Mother and the HY CheonBo GWs and Commemoration of True Parents's Birthday beginning tomorrow... but You help us to understand that more than this CheonBo is our every day of heart and life attendance of our True Parents Who triumphed over billions of satanic spirits with true love.

With the separation of dark spirits, You have opened the path we couldn't have imagined. Even in the fallen world, children come to appreciate their parents' love and get matured. Let us resolve in this time what kind of filial piety we should offer as filial children and grant that all members may be victorious this night and we believe You will fully mobilize the SW and we can with True Father be the antenna for good works.

We desire earnestly that True Mother's Body be wrapped in true love for full recovery.

3rd of 5 children and husband and attending 19th spiritual 40-day Workshop,

I was an ordinary child who went to church activities if something fun was happening. My family was close so I never criticized the church, but I honestly had no interest in the Principle of the Word of True Parents.

Because there were 5 siblings, it was financially difficult for my family and for future education... I heard that if I lived a life of faith through Hoon Dok Hae prayer meetings, I could receive a scholarship... only thinking about a good job, and that was how I entered Sun/Moon University, and I began attending language schools and, and not having lived a life of faith before, I lived more by circumstance than conviction.

However at a time of studying the Life Course of True Father, such a difficult path struck me deeply. I had thought of Father as a God, as a distant Messiah, but at that moment I thought of my own father who worked in public service and came home late every night, yet even then, he would clean up the mess of my siblings before sleep.

Before thinking to follow his path, I told myself that I never wanted such a difficult life but an easy way, and I kept trying to avoid it, but then thought if I went to the SW, I would have no path of faith to show True Father. And so, I chose the path of public ministry.

Thankfully, in 2021 I received the Blessing with my beloved wife, and now we are attending Workshop together. While serving in Japan and educating members who have attended spirituality WSs, I realized that I myself did not truly understand the SW, and so could not truly become one with the SW and with True Mother (cooperatively), and although worrying about my mission area and the dissolution issue in H Japan, I came here.

I wondered if it was really the right time, if I should study on my own or if field work was more important. A leader told me that if it was only for myself, I didn't have to go now. But if it was for the sake of the city area, then it was okay to go. Those words moved my hearts, and I resolved to grow so that I could revive my mission area more, and felt that the SW was pushing me forward.

It was on the 4th day during the opening ceremony of the Workshop, the Director of Cheon Shim Won gave the message that was truly shocking to me. I realized that I had not at all understood the value of Cheon Shim Won, the importance of vigil devotion or Mother's Heart. I saw how ignorant and arrogant I had been and felt I had to wake up to truly understand Mother's Heart and inherit the H Heart.

As I repented in tears every day, certain words from Hoon Dok Hae and the lectures kept piercing my heart. Words like life-or-death determination... Those who seek to live will die and those who seek to die will live, and those who seek to die well. The words were all about death. It felt as if Heavenly Parent was

asking me, 'Can you die for Me?' 'Can you die for the True Parents?' But I could not answer right away. I wanted in my original heart that I could die, but I did not have the determination...

I have lived a relatively happy life until now. It was all because of Heavenly Parent and True Parents. I had felt so much love yet could not immediately say that I would die for Them. I felt so selfish of myself, and every day I prayed, 'Please give me the courage' and offered bows and devotion.

Then one day I had a conflict with my beloved wife. As Vice Director Yokoi once said, 'Trials that come to the 2nd gen servants, what might seem ordinary to others, was a crisis for us, because in 4 years of marriage we had never fought. I deeply regretted hurting the wife I had promised to make happy no matter what.

That night at vigil devotion I reflected on why I had first chosen public service. If I cannot steak my life for Heavenly Parent and True Parents now, I will surely regret it in the SW. I can apologize to my wife but once in the SW, I cannot turn back time. I feel that every moment of attending Mother here on earth is precious. And I went to Cheon Shim Won and prayed, 'I'm ready to steak my life. What should I do?' Then like a wind blowing, two words became clear in my mind: 'witnessing' 'Tribal messiah'...

At first I was unsure if this was truly the answer, but even when I prayed again, there was no further response. But I felt that Heaven always prepares the answer. It was in Tuesday HD that said, 'In the 14th year of Cheon Il Guk, we must witness. We must fulfill the mission of tribal messiah.' This must be done in the remaining days of our life. If not, you will have no place to see Father in the SW. Hearing this, I realized that Heavenly Parent had answered me directly.

All the struggles from the very beginning of my public mission were answered from that moment and I could no longer step back, but resolved to stake my life for True Mother and felt I could die for Her... applause

Soon, the court decision about True Mother will be made, and whatever it is, the future generation of H Japan will move forward. Mother, we thank You. other, we love You.

That was amazing reviving testimony

HJ CheonBo Counseling Center Special WSs

True Father: Spirits are more than the live people. You don't know how big the SW is. There are 3,320 on average for each live person.

Daemo nim... In the time of GWs, many AGSs come here and many are liberated, not just in the weekend Workshop, but there will be penetration for central spirits of resentment to be liberated, so please come for this...

There are small spirits in the superficial and center layer... 48 billion of AGSs now that go into our body and liberate them...

If you liberate, come to the weekend Workshop to cast away all the shadows. Because there is a necessity to liberate them who have a very great power and we must liberate them. At the 2nd stage, True Parents's work was give, 2013, the 2nd stage of CP Providence and the 28th of February all must join 4 times a year and receive that grace...

testimony... tracing back to the tour, I saw the river where many jumped to their death, and on my way back to Japan I had spirit and knee pain that I could barely walk, even doctors said there was nothing wrong. I have been enduring that pain until now... receiving ansu and feeling the love of True Mother and no more medication or pain...

person from Taegu Church... in the last stage of cancer... going through chemo and came for special ansu from time to time, and right before she moved from Cheonshim to another hospital, and I prayed to think of your daughter and please come back to her embrace, and there were tremendous adversities to this person...and there was a text message saying that she is about to die, and this is the conditions that our team offered for the life of this sister, 21,000 calling out, and after her being blinded, she opened her eyes and looked at the Kakao messages, and said that she should live...

And this little girl received a prize from the TV show, and all of our members supported Mother Kyo to liberate 100 resentment central spirits and she went and received the gold medal and her mother went to our team and is going there to the hospital twice a month, and currently went to see her own results, and the doctor said the cancer was smaller and overjoyed to meet the Central Director and she gave bowing conditions, drink water and continue with the main calling out, and my condition improved tremendously...

It is a miracle when I was at once as good as dead am alive to come to CP and gratitude to Kim myung wok and all who offered calling out prayers. So, Kayong (the singer) was invited to the US and her mother was so proud of her.

If we had achieved oneness with Her and walked our path properly, She may not be suffering... I feel ashamed to complain about my own minor pain, and if the church is cold, how can people of the world see us and cooperate, so I struggled to set myself right first. Regarding the donations, it was difficult to afford them and my husband very frugal and no way to cover it, but then my husband started giving me pocket money at some point.

Also losing my hearing aid at one point, miraculously my husband found it and brought it to me, and I donated the cost of the expensive hearing aid. We picked the cards that said to live for others and live a life of attendance moshim... Then I opened one book searching more to understand moshim life, and I found 3,000 won inside... I thought Heaven wants me to offer this and donated it. I felt that when you are a do-or-die attitude, grace comes, and I am so grateful...

True Father appeared, 'Do you know about central resentment spirits? Only when you understand CSs and come to know yourself can you resolve all difficulties.' I had not taken an interest before but made a promise to Father to pray with more earnest heart, and during the prayer session I clung desperately to Heaven asking for the sins of my body to be washed away so that I could more do all my best, and I sweat profusely and at that moment, my hands and feet felt burning hot and felt something massive living in my body... I dreamed again and Father said, 'There is still a way to do. If you pray hard, I will make a way.'

And I prayed and all the pain went from my body and could straighten my hand properly as not at all before... I realized how we need to start anew by separating the spirits...

Those who do not know SW are infinitely pitiful.

If you knew the reality, you could never speak ill of others. How would you navigate that path blocked by layer upon layer of obstacles? When I go to SW, I will make a revolution and cut away what needs to be cut, and where the path is blocked, I will pave the way and even drill tunnels. The SW waits for my coming, and once I go, thousands of years of history will take flight.

Those who were in ignorance will be forgiven, but those who knew but pretended not to, there will be no way to bridge the gap between

and how lonely one has become in proportion to the nobility. You know nothing about the SW place you will go. When I go to that place and the things that could not happen on earth will now not be a problem. The SW is waiting for my coming and a revolution of jumping over hundreds and thousands of stages is waiting.

Therefore, I will send the people from the SW back down to the earth, telling them to come through the

earthly world. When I go, I will not leave it as it is. With this great revolution, what will happen to the people in the SW? I'm telling you to take the lead. You have no idea what is happening. The SW is selecting who among the church members is the most diligent, and you must compete to see who can take the lead over others with a competition arising.

Hundreds of billions of spirits are launching offensive to occupy the earth. The neurosis? is one such example. The mission of the Unification Principle is to defend against this. A high antenna makes a beeping sound. That is the phenomenon of neurosis(?) The most fearsome thing is for only evil spirits to be mobilized to attack the earth. The problem is what will happen in that case.

No matter how many on earth, they would eventually be conquered by dark spirits. Therefore, God was prepared for even that. Centering on the good spirits, God has been expanding the foundation of SW.

So, we have 1,504th Cheon Shim Won with the Living Heavenly Parent... and all the Branch Leaders are gathered here, H Japan, H Latin, H West Europe and Africa... applause for their hard work... We have the 4PF True Father filling up this Cheonseong Wongrim Foundation Main Hall, and the GW of Heavenly Parent and True Parents have unfolded here tonight, many offering devotion and so grateful that the great Work of HPs unfolding here tonight...

Many are in front of the DC offering devotion and we have our Song In Yong Grand Leader, gives this message:

True Mother's Holy Body, for the longevity and freedom of Her, it has been the 151st devotion. It is getting colder and the Elder's Team and many offering for True Mother's Holy Body to have recovery nad the rays of H shine upon this world, True Mother not for Herself but for all the BFs around the world to fulfill our R... and running toward our Winter GWs in this year of red horse, I make resolution today to keep running forward...

We have Yeongseong Spiritual Academy and Yeongseong Spiritual Workshop Academy...

about 42,600 gathering their devotion

It Sun ku eh jon nim... Pastor Moon Baeg won sent a message:

Feb. 19th is the 500th vigil of ours and unchanging heart, we could be in this position and especially thinking of True Mother, our earnest devotion will touch H and there will be a mobilization of Heaven and 1,400 growth stage, it has been leading to the Completion Stage and this is our foundation of faith and substance to join our devotion, and if there is anyone who accuses our devotion, please come here.

There is no spirituality if we do not pray, but if we pray 1,000 people together, there will be a great awakening and we hope this will be an tremendous condition and resolution. Let us run toward the Cheon Shim Won vigil devotion.

Their goal was 100 and there are 98 people... so applause...

Many b and s joining worldwide Thailand, Joko Church, H Japan Nagano 142... 'Yi' means good in Japanese (and he is making some word play to have a great year this year)

True Parents said all BFs have to register all 4 times of GWs and jeongseong means to realize Heavenly Parent's Words, so it greatest word is the most precious Chinese character among 10,000 is cheonseongseong, which seong stands for cheonseong. So, even True Father in SW is still offering Cheonseong for us and is with us tonight. True Father told us Cheon Shim Won is the key and gift of the Providence, and upon our devotion, there is an amazing grace in the midst of adversity and let us join this with one heart.

The word 'grace'... There are so many sharing testimony upon this great adversity.. So, we have to offer such devotion so that when True Mother is carrying adversity and when b and s stumble and fall, we might say they are due to perish and run away, but we are not like that. We know Heavenly Parent and True Parents are alive, and we know the Providence of Restoration and must show our bond stronger than before. True Mother wishes us to be one with the 4PF of True Father.

So, since last GWs there was over 100,000, and then 120,000 registered wit True Mother in DC and in this winter True Parents's Birthday Commemorative GWs there must be more than 130,000 this time... The number is amazing, but if any are not yet registered, let them and this can be gift for True Mother, and because True Father is working... and True Father gave the message:

This GWs is where we open up th Gates and all the cosmos is united into one and this greeting and victory of resolve is given to True Mother, and our devotion will be given to Her.

All the AGSs and ancestors will be with us at this time of GWs, and this is a whole nother dimension, a whole new world, where we can ask for mobilization of the SW and for us to kick off this amazing work of grace.

Even HyoJN and HeungJN in the SW will be mobilized to nurture the future generations with Heavenly Parent and True Parents and pass down that work, and with this Heavenly Parent will work and educate all the people of the world and all the realm of AGS world will be expanded. Absolute humility and gratitude will absolutely be required as the central nutrient where we can grow our own spirituality as is now growing with young people.

In the winter vacation we had the seonghwa 70 student and 19 registered to continue the volunteer work applause... and for CY yoksa tomorrow should be amazing and that many youth will come

And our brother Pak Tong son gave amazing testimony... Once he had the realization, 'If you see the Eyes of True Father in the SW, you won't be able to look Him in the Eye.' If you graduate from Spirituality Workshop, you can deep root the foundation of faith and then truly start your own life of faith, but not a disadvantage for anything else... You see this couple, his wife receiving the spirituality Workshop and his husband again joining, and this is not a disadvantage. And he has offered amazing jeongseon in tears, and finally made his resolution to die for Heavenly Parent and True Parents, stake his life, and then the answer what to then do, 'witnessing' 'tribal messiah'

Finally, this Tuesday Words of True Parents were about witnessing and tribal messiah. He will become a great leader. How much did he deep root his faith? Whatever comes on the 4th of March (H Japan about dissolution), he proclaimed never to change.

Director Kim Myung-wok... amazing testimonies... Brother Kim myon won healing grace.. reborn.. chance with this foundation of faith... Heaven on earth and in Heaven is our responsibility...

HD today is the amazing text...People who don't even know the SW are truly so pitiful. True Parents told us about our spirit self and whoever doesn't know Heavenly Parent and True Parents and SW and the spiritual body, what will happen? Layer of layer how to break through and the great revolution of True Father... We could go beyond our level, a few hundred decades, going beyond the hundreds of levels... We go beyond... Then you become a H tribal messiah...

When you say messiah, this is an amazing name. We have received this grace. True Father did not leave the SW alone but is telling us to take the lead and stir up such a wind, and you have no idea how critical this is. And that is Cheon Shim Won devotion... In Iksan Church with 98 people, their resolution can

make a tremendous wind.

The SW says you must have competition who is the most diligent that will be selected to work through... And all the churches in H Korea must be the model, and True Father is anticipating for that, realizing His Words...

Let us do this tonight...
