**Opening Prayer of Gratitude**

Most Beloved Heavenly Parent

Beloved True Parents of HEH

We thank You endlessly and for Your endless grace and love for calling us to Cheon Shim Won which You have Blessed as the Main Sanctuary of devotion and Cheon Shim Won the center and heart of all Providence and the center of the Heart of development of all BCFs as worldwide as well.

TY for guiding us to pray before True Mother, with one heart and one mind. True Mother Who always believes in Your children time and time again. You have believed in us despite our shortcomings and earnestly asked us to move forward in Spirit and Truth and through our devotion at Cheon Shim Won. We

know You have emphasized time and time again that all churches must become one with Cheon Shim Won.

We have place our earnest trust in Your telling us that, if we pray at Cheon Shim Won, we can clear away the stumbling blocks of the Providence. However, as we see this stumbling block prolonged we realize, just as You said, all members must pray and offer devotion with a life-or-death resolve.

The flames of devotion here at Cheon Shim Won must burn even larger and even hotter. True Father Who works with Cheon Shim Won as Your Office, we know so well how You offered devotion, battling in pray even over 17 hours straight, sweating like rain and until callouses formed on Your Knees. We engraved the Words in our heart that prayer is the greatest battle of all battles.

Please guide us so that we can form a base of give and take with You. We pray as if waging a war. We prayed, that if we pray with life or death resolve, You will mobilize the entire SW to work with us. We firmly believe that if we put our lives on the line and pray at Cheon Shim Won, ever problem facing the Unification Family will absolutely be resolved.

We believe that through our perfect devotion, we will create a wind of fortune that turns this process into a great Blessing. We believe that True Mother's tearful prayers in the DC will absolutely bear fruit. We believe that our devotion here at Cheon Shim Won with the shimjeong of Hyo Jeong, will absolutely create miraculous results.

Our deeply missed and beloved True Father, at this hour our most earnest wish is to protect True Mother's health and safety. Please mobilize the entire SW to protect Her, bring forward the day of Her release and work to make Her Physical Body even stronger and healthier.

Pledging that we will absolutely offer the day of victory of this day of Cheon Shim Won, I offer this prayer in gratitude, in the name of Kim Ju Won, a BF gratefully attending HMH.

## HJ Praise

Team Leader

Kim Song Oh

'Warmth'

---

Chairman King Jong Myun of HJ Magnolia International Hospital

---

An honor to offer this report and my gratitude to Heavenly Parent and True Parents and to PL for his constant support.

In the winter we achieved a great victory at GWs.

True Mother served as the first Chair Person at our hospital. I truly hope that our hospital will achieve harmony inside and out and become an institution capable of curing diseases of people who are sick both physically and spiritually, restoring them to their original human state.

I pray it will infinitely develop into the ultimate sanctuary of education and healing that can save all of humanity. (She bestowed upon us this Blessing.)

Although our hospital, which may not match the external scale of True Parents's Words and Will, as a hospital it practices a special value that no other hospital in the world has.

First, it is the hospital deeply cherished by True Parents. It is the only hospital where we can proudly testify to True Parents and reveal their Glory. As you go up the stairs from the hospital lobby, you can see

a large photo of True Parents. In what other hospital in the world could we so prominently display such a photo of True Parents.

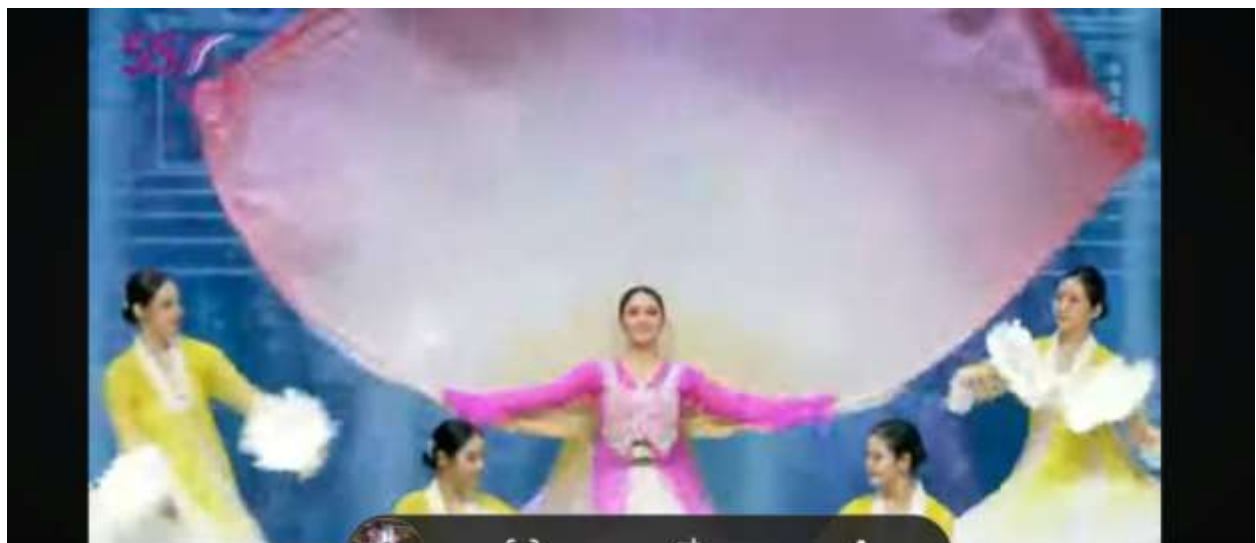

At the front of the first-floor lobby, we have a place with a form and a plaque gifted by True Parents making clear Their Blessing. True Parents pray for all the people there to receive abundant spiritual energy, and emphasizing that they always remain healthy.

On a large promotional board on the 2nd floor we list the hospital's history and proudly introduce True Parents presiding over the opening ceremony.

The second main point is that this is the ultimate holy ground where True Father Ascended, and continues to play a vital role in caring for True Mother's Health even up to recently.

I feel deeply apologetic to True Parents and all the members, but since its opening, our hospital has been maintained through external financial support... from the TC, the Global Foundation and the medical foundation centered on Il Hwa.

And in the difficult circumstances of 2023, leaders from various organizations reported to True Mother several times that it was difficult to continue supporting the hospital in this way, and that maybe it could be downsized to a small clinic or that departments like the emergency room and orthopedics be closed. At that time, in response to these continuous reports about downsizing, True Mother spoke firmly that She did not want to close the Emergency Room.

True Mother asked what the residents of Gapyeong would do if we closed the only hospital in the area with an Emergency Room. She also said She did not want to close the Orthopedics Department, adding that She too needs to receive treatment there.

Following this, we are so fortunate and grateful that over the recent two years of 2024 and 2025, we were able to reduce our reliance on outside support by more than 50%.

More importantly, throughout 2025 and 2026, the hospital has played a massive role in providing the health care for True Mother, following the immense challenges She has faced amidst Her hardships. I am truly amazed and deeply moved by True Mother's foresight when She resolved to maintain the hospital

saying that She too would need treatment here.

The third special point relates to True Mother's Words. She said we should become a Blessed institution that completely cures the diseases of people sick both spiritually and physically, restoring them to their original state through the external and internal harmony of the TC and the hospital.

As She directed, we are the only hospital in the world providing spiritual healing and becoming completely one with the Heaven and Earth CheonBo Training Center through Spirit and Truth.

The fourth special point is that we are the only hospital pursuing both spiritual and physical medicine. This is the approach where spiritual healing is through this oneness that we are already putting into practice with patients.

Now for the main presentation... Even though the TC Main Hall is completely packed every single day, PL showed us special consideration, allowing us to offer two previous HJ Reports. After the Chairman Li gu Matsu took office in February 2025, I gave a general report in March. Then in November the Team Leader Kim Jun Ah gave a report on the Orthopedics' Department.

Following that report, we received a flood of inquiries about surgeries, and 12 members actually underwent surgery. I want to take this moment to express my deepest gratitude to all the members who have shown such care and offered such devotion for our hospital.

I am even more grateful to Heavenly Parent and True Parents and PL for permitting this third report and would like to ask to be able to offer a report about once every quarter. Today, I would like to introduce our hospital's comprehensive Health Checkup Center and also, because I feel it would help you to have even deeper affection for our hospital, I will briefly introduce our medical staff to our BF members.

For 23 years, ever since the hospital was established in 2003, we have been operating a Health Check Up Center capable of performing a wide variety of comprehensive medical examinations. This center fulfills one of the two core missions True Parents gave us when founding the hospital.

The first mission of the hospital is to be the mecca for curing incurable diseases, for spiritual healing and collaborated practices of Eastern and Western medicine.

The second mission to lead preventative medicine, blocking illnesses before they start through the health management of mind and body.

The HCUD takes charge of this mission. Its role is to discover illnesses as early as possible through examinations and prevent them from progressing. It is my sincere desire to serve all the members from all over the world, to identify illnesses through health screenings and stopping their progression.

I know there are members who have not received the health check ups, are not interested, or simply find the process bothersome. However, as True Mother has often told us, modern society is seeing the outbreak of various diseases with unknown causes due to climate change and their various environment issues.

Furthermore, the ages in which various illnesses including cancer develop is gradually becoming younger. Health checkups are an excellent way to discover these diseases as early as possible, (the best way to treat disease and also reduce medical costs) the first purpose, diagnosing early on. And secondly diagnose and evaluate the progression of chronic diseases such as high blood pressure and diabetes.

The methods of health checkups are 4 points:

1. The early detection.
2. Identifying risk factors for lifestyle relating to it.
3. Reducing the medical expenses.
4. Improving the overall health of the nation and its people.

Now, looking at the necessity. In South Korea, the government provides free cancer screenings for all citizens over 40 and older, and that is increasing every year, and with the cancer incidents rising annually, it become absolutely crucial to discover illnesses that advance quickly, through regular health checkups.

It is no longer true that cancer affects only the elderly. Looking at statistics, the number in 20s and 30s is

rising continually. Because illnesses can strike anyone due to environmental issues, screenings are necessary for every person. In the past people used to call cancer an incurable disease. However, thanks to the advancement of modern medicine and catching it in initial stages, it can be cured completely and greatly reduce medical expenses.

I urge you not to work too much, but rather to practically manage your health through routine screenings. Medical expenses increase at least four times with a late diagnosis. This is also why the government is expanding the scope of its national screening programs.

At this point, I would like to introduce the MHCUC... The Magnolia is always ready with these advantages: medical staff with professional experience for thorough exams, and in one single space lay out and cutting edge medical equipment on par with university hospital, state of the art, and because we also treat True Parents, you will be examined using the same equipment and also the natural environment of breath-taking scenery.

Comfortably enjoy your exams while absorbing the beauty and spiritual energy of CheonPyeong Complex, where there are medical angels, and you can enjoy the bird park and other Garden of Eden atmospheres, and also have chance to meet True Parents within the Cheon Shim Won CheonBo spiritual atmosphere... also receiving the absolute best services with the discounts for members of 50% off for all members.

We have a total of five package programs with 20% discount starting from the noble? (advanced) checkup level. It can be completely customized for every individual to freely add or remove any test you wish. Aside from the package tests, members can receive only the specific tests they want.

Compared with other hospitals, for the exact same screens at 1/3 of the prize, even famous domestic university hospitals. For those overseas, we researched comparative prices for those in the US, and it is 1/10th of the price here. Because of this, it is quite common for Korean ex-patriots living abroad to come here. The medical standard in South Korea is absolutely comparable to the very top levels. Please take advantage of this and manage your health well.

Next, a few real-life examples. A woman that had no history of cancer in her family and does not drink or smoke and just before her wedding was diagnosed, and another on the brain... When occurring, even if

malignant, when young, the survival rate is much greater than older people. Another 43-year-old received a check and had stage 1 cancer, but her recovery was very good.

Another man 40's was with cancer and we performed a complete removal and allowed him to avoid surgery. Losing your health is losing everything, it is said.

Another assuming that it was natural for getting older, it was older but could be cured with endoscopy alone.

72-year-old woman was urged by her family to get checked and early detection of liver cancer could be treated well detected early.

Please any symptoms in your body, please do not ignore them, even if not our hospital, please get checked and treat your condition well.

Introducing staff... Blessed members with excellent training medically and next one of psychiatry and urology... with experience also elsewhere... Dr. Kim Yong Yong... 2nd gen, active full member of Korean Association of Medicine.. 2nd gen graduate and member of Korea Association of Medicine... braces and orthodontic care needs... next oncology with Doctorate from Catholic University... ultrasound and obstetrics and screenings... Head of Eastern Medicine and dealing with cancer and Oriental Clinic, restore your bodies foundational fertility and others internal medicine and Emergency Room Medical Team... All will care for you with absolute devotion...

Gratitude to Heavenly Parent and True Parents of HEH for letting me offer this report.

For the well-being of your spiritual and physical health, thanks to this Chairman who welcomes our members with a big smile...

Next is video of the GWs.

### HJ Report about the grace of the Great Works

Was caught at a loss of what to do well for this report, but prayed and through the lenses of absolute faith I was able to see what I couldn't before and organize this report, but feel inadequate and hope that the things I couldn't manage, I hope you will experience through your own devotion.

True Mother's Words: We have tightly united and become one through this opportunity globally.

I thought through this and it was an absolute faith towards Her children. What is True Parents' absolute faith. Amen, mean 'Let it be done', but what does that mean? It means you must stand in the position of saying before True Parents that you have absolutely achieved it.

It means praying as if it is already done. That is the type of faith that True Parents have.

True Mother also said that we have become absolutely one, and also the raw material of the Creation is AFL and O.

Hebrews 11:1 'faith is the reality of the things not yet able to see' True Parents said that Heavenly Parent has created all things by believing they were already created... said True Parents... With that kind of faith we were able to surpass over 144,000. (145,341)

However, it was in the evening not on the first day... showing us the results of our faith. Every evening for the third consecutive time, we were able to go over the goal. With True Parents help and I truly believe we could build the pillar and offer it to True Mother.

True Father's Message from 1,500 Night Vigil. True Father started this GWs with absolute faith. 'You

must understand what a monumentally important Event this GWS is... This is the first GWs commemorating the Holy Birth of True Parents in this era of Heavenly Parent's Direct Governance.

This GWs will be directly hosted by HMM, the Substantial Embodiment of Heavenly Parent. Why do you think Mother went the 144-day Course of Suffering. She walked it for the sake of all humanity liberation. Will we just watch or fully embrace and rejoice with it, where the cosmos becomes one, and with AF that by uniting with Mother, your devotion can unify Korea and the H unified world.' (True Father's Message)

With the AF of True Father, we will be able... This is the Asan Hospital where True Mother has been getting medical care. Our 2nd gen was passing by and looking at the cloud on top of the hospital on morning of Feb 13, on the morning of the 1,500th Cheon Shim Won vigil... this figure like a crane. Because of the direct oversight of HMM, True Mother was free as a bird, and that was how the 2nd gen interpreted it.

This is the message: Since the 1,500th Cheon Shim Won, the SW has been preparing for such a time when the cosmos unites to offer praise and gratitude for Mother. Because this is the night vigil devotion where AGSs and all Heaven converges and the GWs will be completely different than ever.

At that day in the morning, all of the devotion from the world, we were able to register the names of the pre-registration. And Pres. Lee Bang Sok's testimony is as follows:

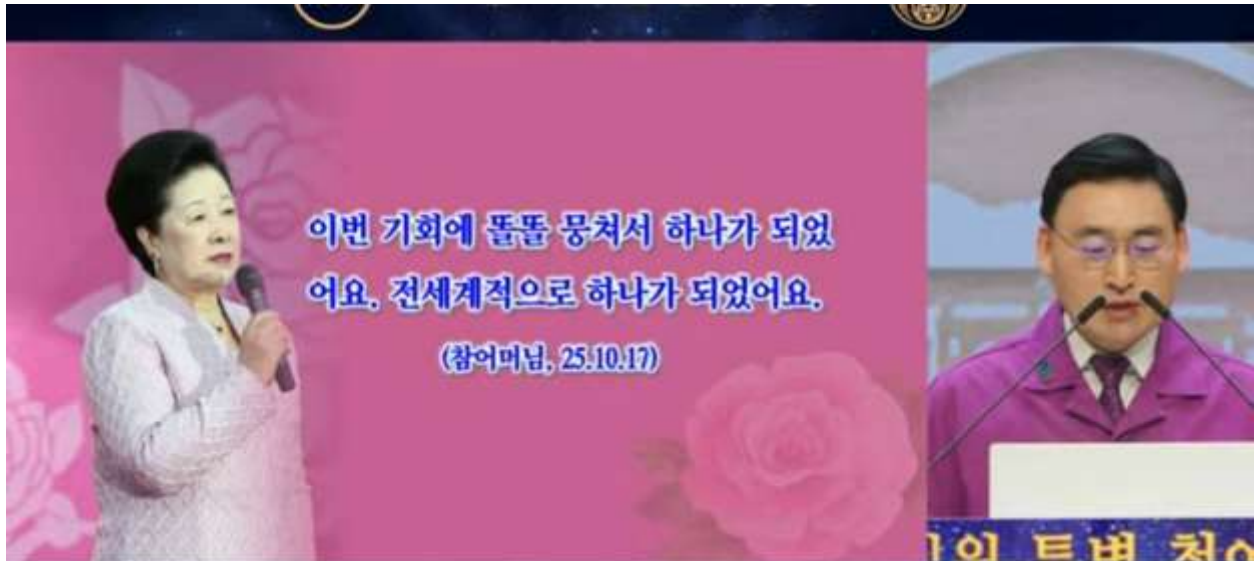

'When the Ceremony was announced to be held in the Main Branch on February 13th, the hearts of many pastors, CheonBo Workshop staff, pastors and members caught on fire. The members of H Japan, realizing anew the critical importance of registration, submitted over 10,000 reservations in just a single day. Following the Ceremony, Heaven elevated the consciousness of all our H Japan members.

I really realized before and also after the GWs, the importance of the pre-registration, and after the testimony. After registering the entire family, they received the special income. This was a reflection during the weekend Workshop. I heard guidance that it's good to pre-register and even register by proxy for the whole family. Since then, I have been registering for my entire family and conducting liberation for at least one central resentment spirit each time and even offered a HJ offering paper.

I wanted to do this, but was hesitating due to financial difficulties. However, during the Cheon Shim Won

vigil HJ Report, Education Director reiterated those same words. 'Even though it's difficult, stepping forward brings joy to Heaven.' A spirit of financial fortune actually came in. I realized that even in challenging times, when we move forward centering on H's Providence, we are Blessed to live with healthy minds and bodies. applause for this member

This is the registration team leader, Lee Hu Won's testimony, that I will read a part of: True Father is waiting for us at Cheon Shim Won. The moment that I entered Cheon Shim Won to dedicate the GWs registration roster, tears fell from my eyes. True Father asked me, 'Who is here?' and I offered up the roster for registered members. I could deeply feel True Father's boundless love, realizing just how much He had missed and longed for the members.

From the moment I entered, offered my bow and left, my tears would not stop. Recently, whenever I hear reports that Mother asked, 'Who is here?' to those visiting Her, it heart-breakingly overlaps with True Father asking that very same question in Cheon Shim Won.

So, True Father is truly missing and longing for our members. H Japan's AF and D... this is testimony of H Japan's Cheon Shim Won President Lee Bon Sok: Centering on Cheon Shim Won President Masaichi Hori, H Japan's members became completely one and H Japan also embraced the 144,000 goal deeply in our hearts and participated with devotion at the Main Branch led by Pres. Lee Gi-seong and devotion of Pres. Hori and local church and every single pastor and members, and I deeply feel that when all those devotions piled up before Heaven SW worked mightily across all of H Japan.

The precious result granted us the incredible number of 85,000. That is not a mere number. It is the absolute crystallization of H Japan's prayer and tears and the shining testament of devotion accumulated before Heaven. I truly feel that all of the leaders and members set new record... applause

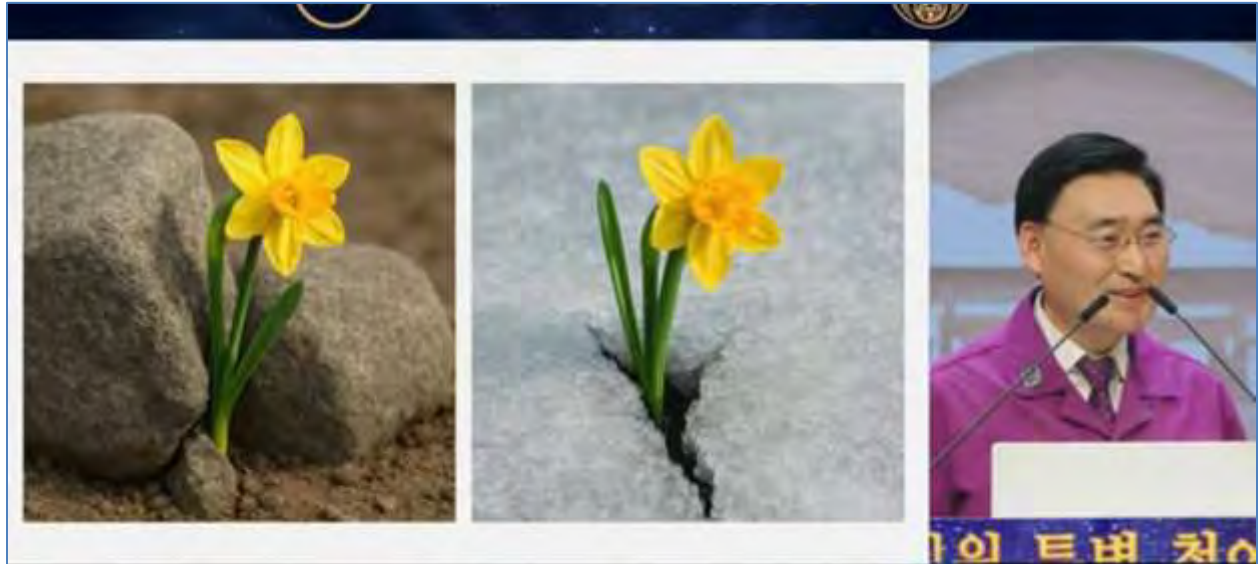

Also in West Africa, he said not to report about it because he felt burdened, but I truly feel to mention that all the members felt compelled and because of the devotion set a record.

Also in Europe and all of the Branches all over the world did their best. applause.

H Korea was not able to set a new record but centering on the national president and leaders were able to give their devotion of their best...

Testimony: I searched for the best way to encourage all the members and gathered all my strength and previously 60 people and now 74/78 and with the 144,000 overall victory I was so overjoyed... President Song is here and applause for their devotion.

Do you know what this is? First daffodils coming out of the ground on the first day of GWs. This sprout, even though the rock is in the way, they are overcoming with absolute faith.

Also in the Garden of Cheon Jung Gung another sprout... I actually used AI to regenerate this image of the daffodil... but precious are the actual sprouts. True Father said spirits who absolutely trust you are looking over you with a heart of jeongseong. Your AGSs and countless spirits surrounding you are holding onto you and pleading, 'Please resolve my bitter grief, please wash away my sins. If you do, I will march forward for True Mother.' They are praying to you.

So, if you register in advance, those spirits will have hope and we can get abundant blessing, and any place, any time, we will be able to give our devotion to True Mother.

PL's Words to True Mother and True Mother asked, 'Are you preparing well for the GWs' He answered, 'Centered on the 4PF True Father and the Inheritors, we are preparing well, and yesterday's vigil we went over 10,000 more than usual. And the first day around the world participated.

Reflection: The Spiritual itinerant Haraiki...'What became the greatest turning point for me this time was the profound spiritual experience, while trying to grasp Heaven's shimjeong. During the Epic reading in Japan currently taking place, I resonated deeply with the life-risking shimjeong of H Mother, Who appeared to me spiritually shedding tears of Blood with Her Hair unkempt.

She was crying out at the top of Her Lungs, 'My Beloved sons and daughters witnessing the tragic, desperate figure of a parent, when entering Body searching only for Her children, I wailed and simply could not stop praying.

How desperately must Heaven have waited for the OBD and how deeply must Heaven have longed for those direct children, experiencing that unimaginable, deep love, I could finally understand the true

meaning of why True Mother calls the 2nd and 3rd generations pure water and treasures them.

Moving forward, the March 4th ruling on dissolution of the Unification Church, I march forward with conviction of a great victory, where Mother will not be in vein and on the victorious foundation of 144,000 people. applause

I believe this reflects the faith of all of H Japan.

testimony: I felt hope in the AF of our leaders. Remaining deeply in my heart during the Cheon Shim Won devotion were the words of Chairman Hori leading the Oeg Monsei cheers. He declared that 'even if a dissolution order is handed down, let us witness ten thousand times more and proceed with absolute, utmost devotion. There's no problem at all.' Those words were profound encouragement to me and gave me the strength to stand up once again.

We have already been victorious with the dissolution ruling. With True Parents having already been victorious, we will be victorious by just marching forward.

With the liberation and Blessing Ceremony, the spirits become AGSs and all members become one will and offered SS and the grace of CY and special prayer room prayer and special ansu, 48 of our volunteers did it for over 1,000 people.

Centering on Director Kim Myung wok were able to offer special consultation as well. The one who has been attending True Parents gave testimony and we had a program of Kim Guy On lecturer for the heavenly medication breathing exercise. We were enjoying and receiving a lot of grace. Those who participated in the Main Branch shared a coupon, and let us offer applause for Pres. Hori and Han Un chol for their unending support.

A lot of our trainees did so much volunteer work, setting up the booths and handing out the vouchers... etc. applause...

A lot of people receive grace during their dedication and volunteering making us one.

Change of heart and spiritual resurrection and rejuvenation and one says feeling the powerful liberation

from negative thoughts and elements hindering me from walking the right path of life. I had resentment and negative thoughts, but during the CY yoksa, even it is the same thing, I had an experience of joy, like a warm and healing video resurrection of shimjeong. Some say they don't have the result of their devotion, but when I ask them to reflect deeply, there is something that has changed for the better inside you, and that is the result of the devotion.

2nd gen member: For the first time in elementary school, our son participated in the general 40-day after the moshim I asked him to pray for his brother and he felt that negative energy left his body and that he would come again as often as possible... Also the daughter went straight to Cheon Shim Won to pray after the 21-day, firmly establishing her vertical relation with Heaven.

A lot of our 2nd gens are reviving. We should have one plus one Workshop practice, each one bringing one... We had only 2nd gens and we should be inviting new guests and easier for young ones to bring their friends. This is the one church of Seonghwa students numerous there, and if they bring one of their friend and do this Workshop, with that TC support, we can do the WSs and be able to witness to students and opening a new era of that...

A pastor Pak Son Oh prayed for all of the soldiers who died while receiving treatment during the war and with the Cheonsim Choir at the GWs, afterward those fully liberated people dance in absolute joy waving their national flags with absolute gratitude to True Parents. There were a lot of miracles of liberation and healing.

another: starting from the morning of the first day, my husband continuously was cursing and I prayed to True Father to please show the victory of the 144,000 when we did ansu on his side and I saw the form of a resentment spirit whose eye had been injured by sword of one of my husband's ancestors in the past, and I prayed, 'Please be liberated from your bitter grief, receive the true love of Heavenly Parent and True Parents at this TC where HyoJN and HeungJN are and please be reborn anew.'

A short while later, my husband called me over and I saw him writing on a piece of paper. HJ Attendance Practice and Faith is trained in true love. Let's become children who can be proud of the proud Republic of Korea. I felt I was hearing words of profound gratitude from the spirits who had been separated through the CY session... and during the liberation ceremony I was able to resolve the issue by doing CY on my husband's eye.

Applause for this family... She was able to save her husband

In the ansu room a lot of miracles as well... hives completely disappeared... and stomach, head and lower back, during ansu felt the angels and True Father's large hands giving the ansu. I was so incredibly grateful because True Father comforted me and repeatedly said, 'You've worked hard.'

video... came with a medical problem... Today was my first time and I felt it was H Mother's gift to help us continue with the Providence, and TY for your investment with the young people seeing hope for our Movement through that...

At the Cancer Research Center, miracles...

---

### **Hoon Dok Hae**

You must attend Heavenly Parent with a Heart greater than that of a parent praying for the life of their child. The life of attendance is not easy for you, and it's certainly not easy for Me. Whenever these heavy matters weigh on My Heart, I cannot sleep. If I do not take action, God is unable to move and cannot be liberated.

The same is true for you in your own sphere of life. You must become so indispensable that without you I couldn't move forward. Just as your foothold must stand with authority, you must carry this heart for the greater whole, transcending even the love of a parent for their own child. Thin of the Heavenly Parent laboring for their child for millions and millions of years, just to finally meet the children.

You must not ever think you have done enough. God is the One Who Loves and Yearns and Labors for you beyond conception. You must call out 'Father' and experience and understand Heavenly Parent's sorrow and tell God... God is not an illusion or some abstract Deity but always with us right beside us, not passive, but by a shared and mutual love, shares our lives.

No matter how fiercely a world may persecute, once one experience this, the dark forces that strike will inevitably collapse...

### **Pres. Lee Gi-seong Message**

Currently Heungseong nim is in Pusan preparing for the first performance and is attending by Zoom. Centering on the foundation of True Parents, I hope you could offer devotion centering on Pres. Seunginchoong and members are attending that devotion as well.

### **More than 40,000 people are offering**

'Looking at True Mother Who became the Light of the dark world, but looking at Her current situation, we repent ourselves and resolve to fulfill the responsibility and offer devotion with one heart and mind, and grateful on behalf of the members, I will bring this devotion.

Those who came here will be receiving the grace and we hope you will offer utmost devotion for the foundation that Heaven can work after the 1,500th devotion...

### **'Let Us Offer our Devotion so that We Can Stand'**

Nagano Church leader was able to catch a lot of fish and recover so well because of the devotion of the

church members...

going to the DC, but because of the snow and stuck in the car and he underwent surgery in the hospital with a lot of complication, and I thought it went well, but during the GWs I had an urgent call of an emergency, and Pachungbi and he might die, he had so much inflammation in his lungs and I sent the medical angels application and 210 chanting of spiritual academy and some then was over 2,100 time and someone got the message that Secretary Pah was revived and moved from the emergency place, and he was holding my hand and crying... and those kind of spirits were looking to him, but he cast them away. We should look at the spiritual things happening to us and be able to cast them away.

But those related to Cheon Shim Won, the spirits want to attack but we can be able to cast away the dark and also currently H Korea's hardships of darkness can be cast away...

I got a message that True Mother asked someone to pray. It is a battle and if we pray like that and unite as one, we can fulfill True Mother's Words and revive ourselves. True Mother whenever She meets the leaders, She says to take care of their body not to get sick... True Mother says also to me to become healthy, take care of myself, but we are in really a hard situation, I could not eat for almost a month and I couldn't even drink down the water and I lost 12 kilos from my normal weight, but from the entering of the spring last February I feel that the new time is coming.

The numbers offering devotion and prayer should be multiplying from 40, 43, 000 to 100,000 and then we will see Heaven working... (more grateful and progressing more than yesterday, not staying the same... Let's show that tonight)
