Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

In this sacred time shared with subjective SW, we offer our sincere prayer and gratitude being able to attend Heavenly Parent Who opened the Doors of this 1,511th Special Devotion.

Heavenly Parent, we earnestly hope and pray that this time given to us today may be a time of pure, snow-white sincerity. We ask that You preside over this hour and that it may contribute to the fulfillment of the H Providence.

Heavenly Parent, no matter how lacking we may be, please blow away all the unrighteous energy through CheonBo CY yoksa, and guide all of our devotion so that it may march us forward toward the victory of H Japan trial.

We earnestly pray that all our testimonies may resonate with True Mother's Heart and that all our praises may become all the more longing for Her.

Please guide us to raise hope through the HJ Reports, and as we resonate with H Heart through Your Jewel-like Words, we will gather our devotion with one Heart so that True Father in Heaven can go forth, mobilize and work.

Heavenly Parent, if all our focus is concentrated on one point, we believe that we will surely break through and be victorious. If countless youth, senior members and hundreds of billions of AGSs become one and gather their devotion, we believe that the victory of H Japan's trial and the victory of Mother's return to Cheonjeong Gung will surely come to pass.

Therefore, please work so that even one more person and one more church can gather their devotion. We earnestly pray that we may fulfill our portion of responsibility so that Heaven may work and the Will may be accomplished.

Earnestly wishing for True Mother's long Life and health, I pray in my name, Yu Su Hun of a BCF gratefully attending HMM.

a miracle occurred where 144,000 attended the Winter Special GWs... True Mother's Course is bringing about the miracle of resurrection and gratitude to the staff and PL and all branch centers.

All churches and lecturers... 64-year-old member had separation of spirits, continual suicidal impulses and attempted several times... just by looking at buildings, trains and river banks and thought it would liberate me from the pain, but learned that suicide was the greatest sin... and could not hope that Heavenly Parent loved me... in the face of all the accumulated and karma and sin...

While wielding the HJ staff I felt the spirits leave and relief from the power of the Word holding onto me.

19th Heongseong Workshop

Gratitude

In 2014, I married my wife who is a 2nd gen in a secular marriage, and we have 2 daughters. For a long time, I lived a life distant from the church. However, through the witnessing efforts of my wife's parents, who are a BF, I was eventually guided to the church in 2019.

Although it took some time in 2025, eleven years after our marriage,

we received a 1st-gen Marriage Blessing. applause

I had opportunity to speak with a training member of the Yeongseong Academy. Through that I heard about the WSs significance. I had not even participated in a general Workshop before, but I began to feel a strong sense that I must participate in this Workshop soon.

My wife and I did a devotion together and then a problem with my company made a schedule difficulty but I had a stronger feeling and left all legalities in the hands of local staff and came.

I felt to restore my whole company, even my right-hand man made a betrayal and I put aside everything for the Workshop program...

In addition to being unfavorable to the group life, I am someone who disliked nature and has a tendency to misophobia, so CP life, and with exhaustion coming, I had questing thoughts of why I'm here. Comparing to the 2nd gen around me, I began to lose the meaning of my own existence.

Nevertheless, I had strong resolve to complete the Workshop, because it was for separation from satanic, and even with a high fever I continued, and my wife was a source of strong strength for me as I called her every day.

There were 21 days remaining when a crisis of company management where 2 years of profits could disappear and a lot of documentation was required for the trial, and I was in Korea unable to respond well.

When I reported this to the Workshop coordinator, I was told to consult my wife and we made the resolution to continue this Workshop for True Mother's swift return to Cheonjeong Gung and our mission as Tribal Messiahs.

The Director advised one-on-one dialogue with True Father and I stayed for 120 hours alongside the owl devotion team...

Every day 1,000 bows 10,000 name calling of HMH and 10,000 for each HyoJN, HeungJN, Daemo nim and 1,000 calling out for my wife and children and including company executives, I promised and put into practice...

On the first day of 1,000 bows, it came to me that at this time of difficulty, I offered an additional 100 bows then and every day thereafter...

There were times I fell asleep and if more than ten minutes I felt so sorry to Heaven... The skin on my knees was peeled and difficult even to stay awake...

Initially I started devotion to resolve the company issues but then forgot about the company and then 24 hours a day and then I forgot about the company and there were times I lost consciousness while standing...

On the 4th day, things previously invisible I could see... and True Father appeared to me and said, 'Do you realize how much jeongseong has been offered for you to be in this place and realize what you absolutely needed to do. Yet, each time you passed by as if you hadn't noticed.'

'Do you know why I called you, a 1st gen, someone with a short history of faith to this jeongseong Workshop? Normally, I would have wanted to educate you starting from a general Workshop. It is because there is no time left in the Providence.

(tears) Have you ever thought about why your spouse, a 2nd gen born without original sin had to descend into a fallen moral to save a person like you? What do you think the Heart of Heavenly Parent was like then? What was the heart of your spouse? (tears). You are lacking in considering the hearts of others. That is because you are self-centered.

For you this jeongseong Workshop is merely a general Workshop. This 120 hours is the real jeongseong Workshop for you.' (end True Father's Words)

(tears) Your strong against the trials of satanic. Do you know why? It is because of the people who did devotions for you. Yet, you are thinking you overcame it by your own strength. Because you cannot be grateful even when repent, you repeat the same things. The trial given to you now must be overcome by your own strong will and determination. Have you ever risked your life for someone until now. The problem is that you haven't. Do not run away. The time has come to return the love you have received to those who have loved you.

The moment I heard these words, I realized that this trial is not given by satanic, but by Heaven. At that moment I experienced seeing the last 12 years of my marriage exactly from my wife's perspective. My wife's heart flowed into mine like a revolving lantern. (tears) I realized piercingly how arrogant and self-centered I had been, living considering myself as the most important.

I saw my wife sacrificing for her husband and children even while being in a situation so painful and agonizing that she wanted to die, and being pushed to the point of wanting to let go of everything and be alone.

Thinking of myself first, in my weakness busy protecting my own heart. Instead of being considerate for my wife, I had made her shoulder the responsibility for the wrongs I had committed. When I came to look at myself objectively, I realized that, although I had committed many legal and moral wrongs in my life, the greatest wrong of all was failing to cherish my wife, who had sacrificed everything for me.

Afterward, while offering bows, True Father appeared again and spoke as follows:

'When you truly become one with your wife, the mission of tribal messiah will surely be fulfilled. If you spouses wisdom and your practice are combined, you have the qualities to restore even nations and countries. First, you must attend your spouse with a true heart.

The SW is a war. If you let your guard down for even a second, you will be struck. Your body must already be at its limit, however you must not let your head govern your body as you have until now. Lead you body with your heart. When your mind and body become one, Heavenly Parent dwells there.'

With these Words I resolved to carry my devotion to the very end, even at the risk of my life. It was to overcome my weak self, to love the person I should love, and to protect my precious wife and family. It

was also deep repentance for having lived self-centrally, stepping over my wife until now.

On the final day I reached my limit in every aspect. It took over 8 hours to offer 1,000 bows, but even then I clearly felt the cooperation of the SW and was able to successfully complete the 120 hours of devotion.

Afterward, while praying before the holy image of Cheon Shim Won, True Father appeared again and said,

'If you walk for the sake of the Will, everything you need is already prepared. I immediately called my wife and shared the entire process of these 5 days, conveying my deep repentance for my past self and determination to live anew. What we realized as a couple, that unless we establish a true family, nothing further can be accomplished (for tribal messiah).

The starting point of all Providence lies in establishing a true family. I believe the enemy exists to achieving it. If so, perhaps even faith would not be necessary. However, living in a fallen world, we cannot achieve a true family without faith. I believe faith exists to love the person we should love and to protect the person we should protect.

On the day I finished the devotion, I contacted the Workshop coordinator and was granted half a day of rest, falling into a sleep so deep it was as if I had lost consciousness.

When I woke up, there was an email from a business partner, and the companies issue had been temporarily resolved. The next day I heard from the legal counsel that the deadline for submitting the trial documents had been extended to the end of March. At the very least, all problems during the Workshop period were temporarily resolved. (applause)

I have personally experienced that the devotion and prayers at Cheon Shim Won are surely fulfilled, no matter how difficult the situation, if we continue to trust and offer devotion, the works of the SW will surely occur once the standard of devotion is met.

I am confident that, even in things seemingly impossible by human standards, they can surely be overcome as long as there is cooperation from the SW, and someone on this earth is offering their full devotion.

I want to thank my wife who understood me weaker than anyone else and in any situation supported me in invisible places, sacrificed herself to establish me as a person, and I thank my fellow 19th Jeongseong Spirituality trainees who fought alongside me and offered various devotions so that I could win victory during this time of under 20 hours.

I hereby conclude this report of victory to True Mother.

Resonance Prayer Workshop

Qwan Ayi

Coordinator

Recently, I was able to offer HJ Report, but for those who are seeing me for the first time, I had been someone who went to church but only at the Jeongseong Workshop and the Academy felt and did activities knowing the deep love of True Parents...

Three-day Cheonshim Resonance Workshop last week sharing.

True Mother's Words: (motto)

So, just like 13th year, True Mother wants us to be BF's fulfilling united with True Mother, and especially in this 3-day Workshop, the first of the 14th year with the same motto.

Many members joined and True Father's Words which are the words we remember from the Yeongseong Workshop, a condensed version of the 40-day Workshop. So, we have done the 19th Yeongseong Workshop already and so could begin the 3-day Workshop... Because many members joined, more than 100, this was held a week right after the GWs and we promoted it thinking not many would joined but many 149 joining... 1,792 members since the tenth...

So, this Workshop isn't done after receiving it once, so there were trainees who attended more than once... and it happened to be the pre-requisite of the Hyojonwon Workshop and then the 3 hours from the TC to it...

Special characteristics about this Workshop, teenagers 19 of them as well as parents and children and husband and wives... despite difficulties with their body, elders attend the most... so realized interest is beyond age.. They came to offer resonance with H Heart at this moment to support of True Mother... wanted to grow as a true child, experiencing the Heart of Heavenly Parent and True Parents (these are motivations)

learning about all the prayers... testimony of the 94-year old member... She had a dream before the Workshop (Che Yong Ja) 'You can only wear these clothes to offer devotion' and even we were sitting down balloons were going up. The registration closes so quickly and I told my relative to register me. Being with the younger people, I feel younger too.

Before coming she had a dream that many with the purple clothes were those who offer devotion and saw the white balloon going up to the sky and realized spiritual beings are also offering Workshop with us.

PL gave the words as he welcomed the trainees, 'During this difficult era, the thing we must do is offer prayer and devotion. Every time we go to offer praise, there are members who shed tears and I can feel when I see them that even True Father and all AGSs were preparing and are with us.

Tenth Yeongseong Workshop True Father said: With this worship you must go back to the young age, whether old or middle-aged, you must have a heart just like the young child. So, with the heart of longing for True Mother, you must cry out as children and accept everything with a pure heart like children.

So, through this Workshop, no one staying as middle or old age, but offer praise and devotion as if they are young children.

The first lecture was on cheonshim resonance prayer. He gave the essential part of the 1-hour lecture.

If you live a life of prayer, then great energy will follow.

Especially, for 6,000 years of human history, Heavenly Parent has been searching for Heavenly Parent's children. So, all the trainees were able to realize what it means to resonate with cheonshim, not only about us, but for the Heavenly Parent and True Parents, allowing to grasp what that actually is.

testmony... I was shocked to listen to the lecturer, in front of the Heavenly Parent Who lost all children, can you offer prayer to ask Heavenly Parent to fulfill your own desires. I never was able to deeply really understand about Heavenly Parent's Heart, and got the important hint to reach it.

realizing the motivation that led me to walk this path of the Will, and thinking about how I can go back to the beginning heart I had, and it is to comfort Heavenly Parent's sadness... walking the path of the Will to give comfort to Heavenly Parent's Will and the cloud in my heart disappeared and I will offer more prayer to cleanse myself... (to realize that more deeply with self awareness of our difference)

Lecture of how to mobilize the SW.

True Mother: You must raise the SW at Cheon Shim Won, offering your prayer to True Father until your prayer is fulfilled. Director Kim emphasized that we must mobilize the SW to actualize what True Parents want from us, to resonate with cheonshim Heart of Heavenly Parent and True Parents, and practice calling out very strongly at the special prayer room.

testimony... teen-aged 2nd gen... prayer to mobilize is to shout like a tiger and my thoughts changed about prayer and offered with more desperate heart with True Mother's circumstances more urgent, and what it means to offer not for myself but for True Mother...

Through earnest calling out name prayer, I will become the filial daughter to restore many brothers and sisters.

testimony... learned the specific method of calling out with the heart desire and H listens and fills us with more... I realized how important to organize our own spiritual realm, and through the grace of Cheon Shim Won and HJ offering papers and calling out in the right way and experience Heavenly Parent's Love.

trainees resolved and understood how important it is to experience the SW and doing calling out in the

right way.

The lecture about resonance, many member can feel many things with grace through the method of HD... Hiromi Coordinates and we asked her how she prepares and she said she wants to share various methods of HD, and based on her own testimony, to feel how strong the Words of True Parents are, focusing more on cheonshim heart, not reading fast (that is just a method of letting go of our thoughts, but the essence is to feel Heavenly Parent's Heart)

Many who came to this lecture were shocked not to think about HD like this before. In order to save someone dying and win a war, I must go beyond my limit and try my best, not just merely reading Words but resonating deeper with Heaven.

testimony... The core essence is to let go of all the thoughts I have and trying to follow I was speaking faster and an energy arose in my body and something let go from myself and a new spiritual energy... then we can more empty ourselves and deep going anew like that...

When I did this way, it is much more powerful than doing HD in a quiet place reading alone, and members joined and offered calling out for the others, so with the accumulated devotion many could have tears experience

Chun Yu Son Director give lecture how amazing and great and powerful the prayer is... In the Bible, 'I will be there were two or more offer prayer' During this time, trainees from their church or group of members they did not know, and at first awkward but as one or more starting shouting earnest prayer... and testimony of members that didn't know each other and were able to experience this prayer...

husband ascended and have been alone, but I felt my husband prepared these two brothers to come together...

There was an episode where the one asked the others to pray for his son, for their and each other's Blessing...

Prayer in groups of 3 or 4, and when didn't feel anything before, when for the other members heart was moved... to actually want to solve the problem of the other... and problems buried deep in the parents heart experienced others praying as if it was their own problem... sharing hearts and becoming one... experiencing the kind of community True Parents want us to.... establishing the culture of heart centering on Heavenly Parent and True Parents and being the one to first extend heart to others for love and comfort, then establishing a world of the culture of heart.

Based on the methods we learned and practice in this time with the drum and coordinators... Daemonim shared about the special prayer room: It is where Heavenly Parent directly governs, so it is a place where members become one with Heavenly Parent's Heart and offer all the realistic and heartistic prayer and all aligns with Heavenly Parent, under the light of HyoJN hearing him say the Message from Heaven, 'You must move forward with HMM's Heart'... feeling his smile or even just entering

We were able to feel the desperate heart of members during this time.

Praise is prayer with melody. And there is comfort in becoming one... so that not only do we comfort Heavenly Parent but we receive comfort in this time.

The praise has great power to tie everyone up as one and we are brothers and sisters...

With this heart the video

testimony of the cheonyeong praise team after graduating the academy and to lead the singing, and received comfort when trying to comfort Heavenly Parent and True Parents... even short, it has strong power... feel the love of Heavenly Parent and True Parents, and knowing we are not alone, abundant grace and ability to stand up again and resolve...

I'm really alive, he said after the praise gathering...

another said they achieved their dream through this... In 2007 able to remember being part of the praise team and realized doing that again with 2nd gen...

photo of Moses receiving Commandment from God...and asked members to write a motto that could last forever for them... one motto was 'attendance' centering on H Heart... 'Through devotion let me find H Heart and attend Heavenly Parent eternally' and the staff gave so much and then afterward they offered help to staff...

A week before they offered three times per trainee so that we can and H can guide them well..

couple's testimony... We wanted to offer devotion for True Mother but if only one came, only their ancestors could come... The husband said he is very dull spiritually but always followed my wife... after retiring I came listening to my wife, and I am grateful... We must think about the Heart of God that is crying out and then you can pray... In the calling out the number is always a thousand and moments when I couldn't focus, but realized I must always pray first before the calling out.

The husband said it was a session not experienced before and the method of speaking fast realized the ancestors working more through us...

Many members worried that 3 days was true short, but the answer is True Father said not to worry about that, because AGSs are with us, just believe and move forward and I'm certain we will be victorious.

We prepared a short message to True Mother from the members...

We will continue and turn the tables I'm sure

Heaven's strategy is to reclaim after being struck. If you are curious whether Rev. Moon will go to Heaven, try dying. You will know once you die and go to the SW. You must know how many times Rev. Moon has crossed the path of death to find this path, and is the one Who has made Heavenly Parent cry hundreds of times, loving God (with Jesus' Mission) more than all of previous history.

Therefore, no matter how much the world tries to eliminate True Father, Rev. Moon will never perish. It is because God protects Me, and if you enter the realm of truth taught by Rev. Moon, God will protect you.

My Life lived knowing the Heart and Will of God can be described in one word, 'I have forgotten day and night, transcended seasons and environments and devoted my entire soul and might solely to fulfilling the Will. Looking back on My 80-year Life, I am realizing that it is only because God helped Me that I am able to be with you here today, despite all kinds of hardships and persecutions.

The reason that the Unification Church that I have led has grown into such a worldwide religious body in such a short period is that I have labored through these original Principles. Looking back on My Life, as I walked the path of seeking Truth for humanity until today, billions of Satanic forces in the visible and invisible world opposed Me. Many religious leaders opposed Me as well as governments of various nations. However, as I lived proudly for their sake, I found Myself standing at their very center before I knew it.

Because they did not know the Truth, I invested for the children of those who opposed Me. And as I Lived for the sake of those that opposed Me, they came to spread Rev. Moon before they knew it.

Here we come to realize what Heaven's strategy is, what Satan's strategy is. Heaven's strategy is to be struck and then reclaim while Satan's strategy strikes and then loses.

I have dedicated my entire Life to Heaven and humanity, even in a position where My parents opposed Me, the church opposed and the nation and world opposed Me, I never despaired or stopped Heaven's teaching of living for the sake of others.

The path of True Parents was a path of Tears through extremes. As a result, the True-Love Movement, which is the way I have Lived is now spreading like a wild fire across the world. Through the practice of living for the sake of others, billions of families are being reborn as true families of peace and happiness.

True Mother: What I must do is show how the people of Cheon Il Guk, who are to live attending Heavenly Parent, should Live and Attend Heavenly Parent. That is why when I said I would build Cheonwon Gung, the preparations were not carried out immediately. There were many worldly and human obstacles. However, it has now been decided.

In this beautiful season of 2023, I intend to offer Cheonwon Gung, and specifically Cheonil Sanctum, the Sanctuary where we can attend Heavenly Parent.

Pres. Lee Gi-seong's Message:

As we go beyond 1,500, we have reached 1,511th and I appreciate and am grateful to all of you...

Today about 45,000 are gathered in one heart..

An important moment for H Japan to become true children of HPs, victorious on all the foundation...

Our Workshop trainee testimony, and I hope you don't doubt the SW and the Message of True Father he received..... and of course people who don't know how to offer prayer cannot, but when you know and you do not, H will feel such sorrow.

Last week, at Donsongwon Church, the pastor said about special grace... so painful to walk... piercing to clap my hands, but closed my eyes until I didn't feel pain and my body was warmed up, and with another check up the doctor said the rate is zero and everything back to zero and what had I done for this result... I realized that if I clapped at the risk of my life, how precious ten minutes of Chanyang is to heal my body so dramatically...

Missionary I Gwon U had this disease... So, let us remember Heavenly Parent again and the amazing grace and with utmost sincerity how can I make such a difference to Providence with that... I hope you think about it and put yourself into action reaching that moment... During this night, please reach that standard so that we can release True Mother and share our true love to this world...

And for H Japan's dissolution rule victorious, let us offer prayer...

Prayer and Praise

The trial for the legal fate of H Japan FF and we pray works of Heaven influencing the judge... please work through this plea, through this devotion. H Japan must be victorious... Please protect H Japan... Please protect H Japan... We will no longer be weak in any difficult situation, please let us be strong and courageous like Joshua and Caleb. We will not be silent no afraid, but will testify to and boast about our HMH...

By doing so, we will conclude 6,000 years of the barrier of sin and deterioration... Every day Mother spends in prison is far more precious than anything, just as the March 5th Independence Movement shook the nation, please work through us, let the flame rise among the members and reach over 210,000 in the next GWs...

Until the day True Mother stands before us with the bright countenance with Inheritors and 4PF True Father, let us move like the March 5th Monsei Movement... Earnestly praying for True Mother's long life and swift return
