Summary

A very important message sent by the Chairman of Okinawa

"Dear Beloved Family Food Mouths of the Whole World, I Believe That Wherever We Are In The World At This Moment We Are All Standing Before Our Heavenly Father With One Mind. We sincerely apologize for the shock and concern this has caused to all the foodies worldwide.

On March 4th, the Tokyo High Court issued a ruling in support of a dissolution order against the Family Union. In the trial process we have appealed to the fundamental issues of human society such as freedom of religion, from the constitution and international human rights perspective, but it has not been accepted.

As a result, the Japanese Family Federation has entered into liquidation procedures as a corporation. On the day the judgement drops, I was planning to review the judgement statement in detail, no matter what results come out, and release a statement at 4pm. However, shortly after the verdict, the liquidator's lawyer contacted me, and just an hour later, I had to face them and get on with the liquidation business. Same time, liquidators arrived at over 200 church facilities nationwide, and each church had to sort out their personal belongings and leave their institutions within the day. Looking at this flow, the judgment was not an announcement to inform the outcome of the trial, it was just a whistle of the start of action that instantly grasped everything in the Household Union.

The Household Union does not agree to this ruling. But law enforcement is not in a position to face off. So I sent public letters to churches across the country to respond sincerely to the liquidators and not attract confusion. As a result, we didn't have a single trouble across the country, and the next day, we even received words of appreciation from our concerned officials for our response. I don't think this is the kind of victory we are going to win from now on. We are not fighting a nation. What we are accusing is a misjudgement the state has made against us. But that voice has not yet been properly communicated to government or judiciary. Seen as though we were enemies of society, judgemented as if our eyes were covered. Once, when the kidnapping and confinement issue started making headlines, the media that thoroughly covered it up before the public became quiet with reduced coverage of the Family Union. However, the media gained momentum on this decision started repeating the biased reports that made a fuss three years ago. It's as if they're trying to blind the entire nation again by repeating the same story like upholstering even wallpaper. I prayed hardly that the whole society would mercilessly tear apart the flock of pure faith like sheep.

But beloved food, here's something I want to tell you all. We are not defeated. After the judgement, I was

surprised to see what I had been observing with concerns' reactions. It is natural to shed tears of sorrow and discouragement at the great impact. But rather it's starting now. It's the fact that there were many more bright and powerful voices like this than I thought. As chairman, it was really remarkable and joyful. No wonder I had an anxious heart. It's never a bad thing. But Japan's food is waking up. Standing firm and looking to what to do now. God Japan is not dead everyone. Arguably, the instant loss of a church institution that was our hub for prayer and activities is a great pain. But I'm sure. We shall surely overcome. Actually, the figure has already appeared.

Approximately 400 second generation youth from across the country gathered voluntarily to hold a press conference. They spent their time as if they were going to be judged. But they did not run away and told the truth. Give them a round of applause everyone. They are truly fine young men with courage and truth not to adorn themselves. Heavenly Father, please give them encouragement and blessings again and again. And give a round of applause to the true mother. We, Pure Water, have proved before history, have become one with the True Mother.

Even the morning after the decision to dissolve Shimonoseki Church, the foods remained unchanged in cleaning the town. This is just one example, but I think this figure is the symbolic figure of the god-Japanese belief. There are times when you speak up and shout louder, but progress without interruption is unwavering, wordsless, and practiced and shown. Also, the food mouths who are fasting for 3 days and delivering street speeches are planning and executing that they will soon head to Supreme Court to deliver street speechets.

Dear beloved foods, only true mothers come to mind. "God's providence does not go as man thinks. "But God will surely lead us to victory. Looking back, providence has moved forward through a path beyond human expectations. When Joseph was sold to Egypt, it seemed to be defeated. When David was hiding in the cave, he looked like guerrillas and robbers. And when he carried his cross, he was like a condemned to be punished, and his disciples fled in despair. But Heavenly Parents set history in motion through that event. So were true fathers. 6 degrees in prison, countless misunderstandings and persecutions. Life in jail has to change 7 times now. And yet the providence never stops.

Dear beloved food, we have only one thing to do. A prayer for the sake. To all the foods of the whole world, please pray for god Japan. And pray for the completion of our Heavenly Father's providence. Let's pray for Holy Mother Han's true mother's victory in her golden age. Heavenly Father never gave up on his own providence history. We are in the midst of the directions. Today, I pray that the devotees of the whole world gather their hearts and devotees to Heavenly Fathers at this Tenshinzen no Hiroshi place will be the condition to accomplish the will of Heaven and reestablish God Japan. Heavenly Father, let this trial be a door for a new providence. Guide us God Nippon Church. God bless your household all over the world. And let us witness that we are the people of heaven who walk with the Father and Mother in all circumstances. May the blessings of heaven be with you all world bless household. Let us walk together as one with the true fathers to the end. "\

If God Japan were to give away all the churches, there would be a miracle to search for all the churches again from now on. In Buddhism and Christianity, there will be a role in becoming one with Holy Mother Han. We have to watch how the officials of hit and snatch is going on. The duties of our Heavenly Father who lives shall continue without ceasing.

Yesterday's reading of the reading of Kun-doku: "This place is a place of tears It's a place that cannot be described and cannot be shut down by anything. This resentment and resentment must be felt as an infinite value that cannot be replaced with millions. It takes a heart to be able to think of this and take responsibility to complete this. It is a very solemn place where we can inherit 6000 years of deep sorrow of our Heavenly Father. Only the belief that we shall lay a foundation to return and give the universe and the world as a thing of joy. A heavenly turn with a sad history, let's not forget it. "\

If we will not forget this wrath and regret even if we are given millions of money, we will carry on eternal intention to fulfill our wishes and to fulfill Heaven's will, we will have the ability and power of our Living Heavenly Father to serve each one of us, family by family, and Heavenly Father will be present in every home that departs as a home church. I hope this is Tenshinzai where such surprising officers occur, and I believe that such officers will happen. If the evidence is united in the elected families of the whole world, like a single human body, the head of the true father and mother, and the four limbs are moved by the spirit of heaven, quietly, weeping and mourning, then the kingdom of heaven will be fulfilled on earth. 14 years of heavenly kingdom when we live in real life with our heavenly parents, we ask that this will be a time of prayer for us to enter into the world completely united with our heavenly father's feelings.
