prepare song

Bow and Pledge #7

opening prayer of gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We sincerely TY for permitting this 12,579th Cheon Shim Won devotion and for protecting us so that we could conclude the Chosen Han People 3-day Workshop today, as we welcome the month of June, the month of patriots and veterans.

Through this Workshop, guide us to reflect deeply on the patriots and heroic martyrs who dedicated their lives to national defense, giving their youth and lives for the sake of the country and its people.

Guide us to realize that today's Republic of Korea exists because of them and the foundation through

which we could attend True Parents's. Guide us to look back upon ourselves, we who lives because of their sacrifice, to see how much loyalty and filial piety we have actually offered True Parents in our lives.

Let us realize that we, the Blessed families are precisely the chosen people and the main protagonists writing down history of Cheon Il Guk at this very moment. Therefore, we earnestly beg and desire that through our Cheon Shim Won devotion, countless spirits may be resurrected as good ancestors and that they may be guided to cooperate in historic work opening the restoration of Gapyeong and the unification of Sacred Korea, North and South Korea

Heavenly Parent, our True Mother has embraced humanity again and again sparing nothing, giving Her Holy Body, while teaching us to love, forgive and unite. Please work so that True Parents's amazing value and holy work are revealed to the entire world, and let brave and righteous people, who testified to True Parents arrived from all walks of life. Please let us take the lead in making True Mother's achievements and true-love Life be known to the world.

Please work so that even our small devotion and service may be contributed to establish a beautiful Gapyeong. We earnestly desire that today's devotion be entirely dedicated for the health, safety and swift return to Cheonjeong Gung of Holy Mother Han, True Mother. And we earnestly beg and desire that this hour becomes a time when we resolve to become filial sons and daughters who never give up until the very end and can report a victorious result before Heaven.

Offering all of these words, I pray with gratitude, Kim Guy Yon, of a BF attending HMH.

Testimony

Testimony

Sakari Shiota

2nd son of the 3 million BF

I attended church with my parents until middle school, when I gradually drifted away and became a dormant member. But then a turning point in my life when a junior, whom I held dear, was a student suffering from school violence and I did my absolute best to save him, but in the end that junior ended his own life.

At that time, I felt a massive sense of responsibility. I endured deep despair amidst countless questions. 'Why do human beings exist?' 'Does an afterlife exist?' 'Does God really exist?' While searching for answers, I participated in a long-term CARP Workshop during my freshman year in college. There, I experienced inside my body, the Love of Heavenly Parent, and met The Heavenly Parent Who is still alive and working today. Through this I found the meaning of living as a human being.

Looking back, though I did not realize it at the time, Heavenly Parent has always been guiding me with a Parental and unconditionally forgiving Love. With the juniors death as a catalyst, I desired to learn and with conditions of devotion, I experienced Heavenly Parent's Deep Sorrow with a sight I witnessed of Heavenly Parent crying out, 'My son! My daughter!' toward a darkness inside them where not even Heavenly Parent's Voice could be heard.

Amidst the Heartbreak of wanting to Personally Embrace Heavenly Parent's children, yet being unable to do so, I felt the Heart of Heavenly Parent Who has Lived this way in the Providence of 6,000 years, and I too could not stop crying. At that moment, I resolved to become a child of Heavenly Parent who accomplishes the H unified world.

Following my college graduation in April of last year, I received the Blessing with the spouse H had

prepared for me, and I engaged in mission activities in Australia and Iceland. But during that period, I fell into self hatred by comparing myself with those around me.

My team struggled to become one. And I faced many difficulties, such as contracting malaria. Yet in the prayer room, I could feel the Heart of Heavenly Parent and True Parents, Who have walked for the sake of Heavenly Parent and humanity of 6,000 years. At that moment I realized that my suffering was a process for growth for Heaven, and I made a fresh start before Heaven.

Following this, I even had the grace of witnessing to 3 spiritual children. However, through this course of missionary life, I realize that my life of faith until now has been a self-centered one. I felt a desperate need for a H-centered life of faith. Therefore, in April of this year, I participated in the 21st spirituality Workshop with a heart desiring to become a true child whom True Mother wishes for.

The spirituality Workshop was a time to deeply experience the Heart of True Parents, especially by learning and feeling a little bit of the Heart of Mother's Life in the course True Parents have walked, having to bear everything and go forward for the sake of Heaven's Providence. While listening to the Voice of True Mother from the time of the Marriage Supper of the Lamb, my tears would not stop because of Mother's Heart, and at the time of sharing, everyone could not but weep with heart that could not be explained in words.

There was not a conflict in my team after that. At first, when becoming a team leader, I possessed difficulties to be one with the team members, but I recalled the Parents' Heart. While sharing, I listened to their hearts about life and family. I tried to think about how True Parents and Heavenly Parent would think, at those times when there were negative thoughts inside me. Then I felt that under any kind of situation, Heavenly Parent and True Parents unconditionally love Their children.

From one week after the start of the Workshop, our group of 4 men said to each other, 'I love you. It was truly good to meet you. Let us gather again.' We became able to receive the Workshop together for 40 days, and I realized that if one becomes conscious of the true love of Heaven Mind and Cheon Il Guk, difficulties cannot arise.

Especially among our trainees, there was one who intended to make a final decision through this Workshop on whether to leave the church or not. He even said that, if not for me, he would have left the

Workshop in just the first 3 days. By experiencing the love of accepting all his conflicts, I even came to hear his happy story stating that he was able to spend 40 days.

Applause

While offering devotion during the Cheon Shim Won period, I realized the path I must walk to fulfill Heavenly Parent's Dream and I want to be a person who contributes to developing nations and makes people's lives more abundant... by becoming a talented individual and contributing to the highway project True Parents have planned.

Even after returning to Japan, I will live by cleaning myself and through a life for the sake of others, becoming the pure water and one with my spouse as True Parents wish.

I express my love for Heavenly Parent and True Parents and for my parents who believed in me and poured out their devotion even when I left the church, and for the people of the Solomon Islands and staff members who prayed for me.

International Workshop trainees

'Shout Out to the Mom'

Testimony

Un Jah Sah

Eldest of 3 sons and one daughter with the Eksong Family Church.

Faith was not the center of my life, but a change came to me after middle school, after my father suddenly passed away from a heart attack. My mother struggled to take care of five siblings by herself, but she did not let go of her faith, but offered devotion even more than others, going straight after work and not missing one vigil devotion at Cheon Shim Won.

Asking why she did that, she said, 'For our family.' I felt then my mind that had been rejecting the church starting to move a little, but I didn't grow right away, still being a dependent faith not independent. I watched my mother offer bowing and Hoon Dok Hae devotion conditions.

I became depressed from job hunting preparations, and my mother recommended WSs. I did not want to go to escape job preparation, but I turned out to go with my mother. It was the 11th resonance prayer Workshop, and I repented for not knowing the meaning of devotion until that time, and wanting to be someone offering true devotion. I could feel the love of Heavenly Parent and True Parents waiting for me although I'm lacking. I listened to others and could understand a little through the lectures and realized how important it is to practice True Parents's Words in life, not just understanding them in my head.

I could not find my answers when the Workshop ended and felt I might return to life as before if I didn't go on to practice more here, but then another worry from a bone cutting surgery, I received from marshal arts, and that pain was aggravated to the extent I walked with a limp and thought I might need to go home. Yet my heart was crying out not to go, not to end the grace of being here, and wanting to offer devotion for True Mother, and decided not to listen to my body.

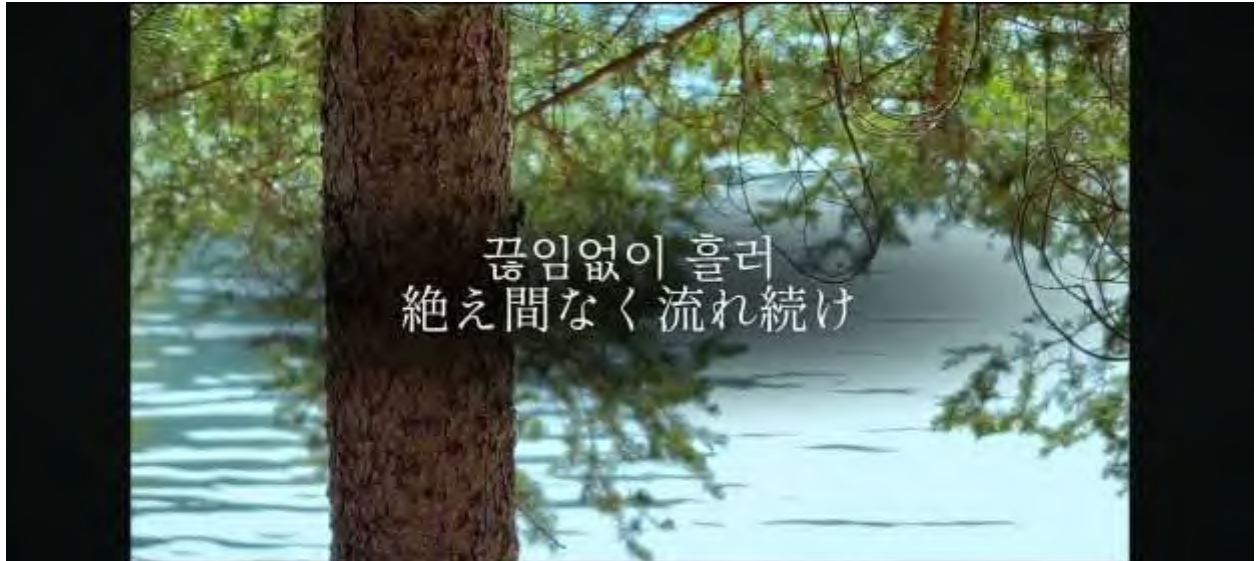

During the first Cheon Shim Won prayer, we were told that the trainees who experience shimjeong must then identify the direction of their own faith. While on the FR team, and leading attendance programs and special prayer room prayer, I felt myself growing from before when I couldn't even cry out loud, but the process was not easy. FR I had to overcome feeling so lacking from the others, but reflecting on the purpose to restore Heavenly Parent's children, I continued, and then a person willing to support appeared.

So grateful that Heavenly Parent gives us things to overcome so that we could grow, I continued. But then difficulties such as a cold I had since the spirituality Workshop, my coughing became worse combined with body aches and hip-joint pain, it was difficult to even stand. Rather, I was able to look back on what mind I had to come and how I could offer the devotion in this poor physical condition, my legs were trembling to try to stand.

At that moment, True Mother crossed my mind, 'True Mother's Body much have been much more painful than this. I came to feel True Mother's Heart where She could not stop walking the path of the Will through difficulty far greater. The thing that changed me the most was my perspective on attendance.

The first question was, 'What do you think attendance is?' I thought of it as something visible to the eye. But after the 40-day Workshop, I found that it was devoting and practicing with a joyful mind on a path that does not shine, with Heavenly Parent at the center of it. I came to realize that service, devotion and small practices must start from the heart of devotion to Heavenly Parent and True Parents, not my own experience, but giving up all for the sake of Heavenly Parent and True Parents and family moved me, and I could meet Heavenly Parent again.

I will walk after my mother with an independent faith and by Mother's Words to reach out to a wider world, becoming a missionary crossing borders to deliver life of true love to the entire world.

HJ Report

Cheon Shim Won Office

Yu Su Hun

gratitude

7th attendance Workshop...

True Mother's Words: Workshop to return to the original source, this is what our trainees realize while attending, the original source meaning the original point where the water begins, pure white water. True Mother told us to be that pure water that flows to the ocean. I thought the Attendance Workshop was to find that Source.

Beginning with the history of changes, the first Workshop, after attending the 40-day spirituality Workshop, the trainees made a determination to dedicate to the Will and the Academy came to be established and to prepare the Entrance, and people were needed to clean the Sanctum, so it started with people offering that service...

Afterward, the children who longed for True Mother's Heart felt gratitude that they could do the cleaning, and now it has grown to attendance in daily life. Those who experienced inside their body the shimjeong enter this Workshop to learn more and invest their efforts. Although the distance physically between the head and heart is short but it can take years and years to unite it, with the help of the Subject SW though it causes the works of wailing and determination before the Will... True Mother searched for the small needle, not a great leader, but those who could understand Her Heart, after She walked for 11 years alone after True Father's Asension, and not because we were outstanding or because of our work, even so ingorant but if a child can fathom Her Heart.

What is what True Father could offer here was precisely that small needle, and also HyoJN and HeungJN, what could they offer, our spirituality trainees singing and crying out with resonance with True Mother, M's grand Love through true love similar with their small efforts, the children in whom the seed of true love was planted. applause for the SW

There are those who come to offer devotion for the sake of True Mother, and to practice attendance and feel spirituality in a new way, trainees who want to be independent people of faith and deepen those roots.

Already two years and 6 months have passed before being assigned here. I had had a dream of True Mother coming and telling me She was thirsty and She gave me a golden card to purchase water and Her Portrait was attached to it, and I ran to get the water of the same brand True Mother wants, but there was not water. I thought this was a disaster and then coming to the Cheonwon Place, there was a place on in a

cave on the lower side, and then there was the spring water displayed all over. After purchasing the water, I returned to True Mother in the yellow sunset worried that I was late. This was realized later on, because the cave there symbolized Cheon Shim Won and the pure water was what could relieve thirst of Mother's Heart.

I came to interpret the dream a little late, realizing that the content is telling me to find such pure waters.

Our True Mother's Victory of 2020, on the Day of the 13 Anniversary of True Father's Cosmic Seonghwa, She spoke to the leaders gathered at the Cheonshim World Peace Center. PL, Jeongshim Won is the most important. It will be renamed Cheonshim Won in the future. In order to establish the tradition of the Providence, I put forward the third generation. Regarding planning and moving forward In order to make Cheon Shim Won a Place that nurtures talented individuals who can connect with the pure water, the pure and unstained H Heart, I want Pres. Lee Gi-seong to take full responsibility. It becomes the most important work.

We cannot give room for (wrongly) mixed things to enter. The tributary must become one with the main stream. Those who are not pure cannot remain. In this way, Cheon Shim Won is the place to find the small needle to become one with Mother's Heart, and lower roots ever deeper.

The spirituality Workshop and attendance Workshop came to a conclusion. Starting immediately the next ones will begin. Those who are hesitating, those who wish to overcome their limitations, I hope you will come and become one with the world True Mother's Heart and be independent in your faith...

sketch video

All river water has a beginning point that does not stop, does not dry. The pure heart with which you offer devotion, the good spirits will be a multiple to work through you. Understand? With a heart of happiness and gratitude we will attend our True Parents.

The goal and purpose of the spirituality and attendance Workshop and Academy are resonated...

True Parents's Words:

We must rear leaders to take responsibility for Cheon Shim Won and we must teach them to eliminate flaws and stain and live in accordance with the Cheon Shim Won Era. When moving toward the hearing of H's Voice and delivering of H's Mind. With the SW and PW becoming one, we prepare the WSs so that True Mother's Words will not fall to the ground.

- 1. Cheon Il Guk leaders who know how to read True Mother's Mind.
- 2. Devotion at Cheon Shim Won to eliminate flaws and stains, and establish 3 generations
- 3. Nurturing leaders who can hear H's Voice at Cheon Shim Won and read H's Mind

To attain these goals we nurture future, talented individuals of Cheon Shim Won resonance who are pure, pure white, unstained, gold, one with the Shimjeong of Heavenly Parent and True Parents of HEH.

When entering this Attendance Workshop, our academy will give you weapons of the attendance kit, using the funds of the devotion of the members: It is not a simple gift. With a heart that wishes to offer more special devotion, one with True Mother, and not to forget and record the contents of their dialogue and conversations with Heaven, we offer this kit, no simple matter: Cheon Shim Won notes, counters (for calling out prayer) and devotion T-shirts.

Mornings at Cheon Shim Won are devotions for HMH's safety.

After lunch gathering at the special prayer room

After dinner they offer attendance devotion again. And at late night, a basic foundation of devotion while they gather at the Cheon Shim Won devotion

Other daily routines are diverse with variety each time with attendance lectures and self-planning and various resonance of attendance, they discover the value and reflect upon it for meaning with their own attendance.

At the Opening Ceremony, PL passed on the secret method precisely to succeed and be happy, as Father said He would inform us how to attend well. The trainees can receive and practice well, without even

realizing it yourselves.

In the final completion, even inside the life of faith, if you do something with the mind of a mother loving a baby, there is nothing that cannot be succeeded. Therefore, it must be an attendance effort where True Father, True Mother and good ancestors come to visit and teach the secrets of the way... also of attending HyoJN HeungJN and Daemo nim.

Through spiritual cultivation of attendance, we draw closer to the Birthplace of pure water, True Parents.

1. Offering devotion we wish to draw closer to the Heart of Daemonim. She seldom spoke private words and mainly spoke public words (p. 195 of Cheonshimpuncheon(?))

'The person who attends God must always be clean in body and mind.'

'Think of God's Position before thinking of your own position.'

'Do not neglect prayer until it is accomplished.'

'Do not let your spiritual atmosphere become muddy.'

'Possess a good mind and heart.'

Daemonim established an absolute standard of family attendance and devotion. And from the very first days, trainees wanted to inherit the standard of DMN.

First is the rules of etiquette of a faith life. It is a time to write down and practice the attendance creed that we will establish and protect during this 40 days. It was written by becoming one team all together, and this became an attendance culture unique to the attendance Workshop.

Ten Items are written down:

1. Extending greetings and safety to brothers and sisters first

2. Treat each other as if treating Heavenly Parent and True Parents, using respectful words
3. With a heart of wishing to emulate True Parents's Life at every moment, take responsibility by oneself and participate in every activity and program.
4. Create a clean environment where we can attend Heavenly Parent and True Parents at any time

5. Say, 'I love you.' to myself 3 times a day.
4. Change negative thoughts immediately to gratitude and positivity,
5. When making presentations, practice attendance through applause and response
6. When coming out of Cheon Shim Won, offer a bow to the official Person and step back three steps before exiting.
7. Forgive, love, unite

In this way, even in small practices in daily life, attendees made rules by themselves and kept them. This rule of etiquette life of attendance is placed behind the name tag, so that it catches their eye, easily seen. So, it is a matter of overcoming fallen nature through attendance and humility.

There is the 40-day separation of water from the first day, establishing and proceeding straight from the first day, struggling by themselves to keep devotion for the sake of Mother's health and longevity.

With devotions at Cheonjeong Gung, they conducted a name-calling prayer 1,300 times every single day.

According to the order of exercise, they gathered at the Cafe for individual devotions

Understanding the basics of Hoon Dok Hae and Family Pledge, they connected their devotions.

Testimony: Because DMN's etiquette was so noble, I desired to possess an earnest heart to emulate it. I felt this was a time to invest my entire strength, so that the life of attendance becomes a natural, daily

routine and to live attending True Parents of HEH inside our heart anywhere and any time as true children.

testimony: Thinking once again about the deep meaning contained in the Family Pledge, which I had been reading as if memorizing it, a deep emotion came to me anew, realizing how important it is feel the words in the heart and proclaim them forward, rather than just recalling them in with my head. Feeling DMN's attendance, I felt that I wanted a life of loving and living with a Mother's Heart from a position lower than anyone else.

Next sharing the contents of how to resonate with HyoJN's Heart and the Hyoshim Heart.

MESSAGE given by HJN:

'You must now break the framework of thinking that you are just cleaning or praying in this Attendance Workshop. True Attendance is testifying the True Parents of HEH, through the culture of heart, becoming one with Them, and creating a culture that praises True Parents of HEH.

Especially the 2nd and 3rd generations pure waters possess the responsibility to widen the world of the culture of heart across the entire world.

What is the difference between the general art culture and the culture of heart. It is whether the attendance heart exists or not. It is that inner center inside the heart of filial piety, longing for the beloved, love for the beloved and heart to live for the sake of others to the extent of transcending oneself. That is the attendance heart.

By virtue of the attendance heart, the children come to face the Parents. So, that is filled through your filial piety, and that filial piety upholds the heart of the culture of filial piety together with the SW.'

Here, HJN gave these words indicating that the attendance heart is located at the center of the heart of filial piety. This is what he is teaching. And this time our attendance trainees embrace this kind of attendance heart and experience inside their bodies various worlds of the culture of heart.

I think you members probably know even better when singing spiritual praise together with the trainees and offering prayers of determination, you can feel their hearts becoming blazing hot.

When our trainees offer this praise, we are conducting internal education. This song is not simply reciting lyrics, but they're actually singing this song with the heart of offering Mother praise, finding Mother's Heart inside those lyrics, feeling it, and with a heart saying, 'Let us become one by virtue of this offering and dedicate this Hyo Jeong praise to Mother.'

And this time, especially together with the Inheritors of Heaven's Love and Blessing, we embrace this kind of attendance heart.

And with our Japanese members, we'll watch an inspiring video...

testimony: I was deeply moved by the appearance of so many gathered to offer devotion so sincerely even when the order of dissolution was handed down. Japan is not weak, even amidst the shaking situation. I saw the power of holding onto each other together. I saw that the Power of Heaven was alive. Although matching with one heart and one Will is important, moving forward as well. I hope this time of difficulty establishes a graceful time firmly establishing experience of Heavenly Parent and True Parents in the body more deeply.

We also offered a performance at the GY Cultural Festival. We attended the Gapyeong Gung, and officials who trusted us, we could brighten the venue for the Epic education by International President Yeongyonchun and offered a praise there.

testimony: If felt that while working as a staff member, one must be able to absolutely attend any kind of person in any kind of situation. Because this kind of attendance with our whole heart existed, this time was the highest Golden Age time of my life for me, realizing the significance of attending True Mother and the Unification family.

Regarding attendance, you can attend only when you know... I came to know how our trainees are also attending at Hyojinjong, and they're cleaning and contributing to meal systems and tech and Workshop preparation. When the Workshop starts, they become trainees involving with the program and also

spending time with distant or new members... and we have a time of culture of heart and also of resonating with nature, looking at the stars.

Through the special lectures and various lecture, experiencing HJN's footprints and... testimony... as staff, and in conversation with different generations hearing many words of True Mother's and HJN's Life. Encountering Mother's deep Heart, having to send Her children away first, and in Mother's Life, and while trying to fulfill filial life through songs, looking back, that time was not just of listening to stories, but a graceful time to re-establish life posture and a grateful attitude.'

We also had a time to long for True Parents's Heart. We 2nd and 3rd generations are so very lacking in memory with True Parents, no memories of fishing together with Them, no memory of harmony meetings or shared conversations, and our future generations will have even less of those shared experiences. Even so, because we have our senior members who attended True Parents, we were able to follow True Parents's footprints, at least a little through their testimonies and the record they left behind.

Yesterday, Director Kim Jong Hun gave a great report about the cheonyujong (bong sa) and the members participating in service of reviving the fishing providence that True Father so greatly anticipated. Picking up trash and planting flowers, we also tried to have some time to resonate with True Parents's Heart. At Cheonyujong where True Parents also wished to stay for a while.

And we conducted a program called 'Senior Members' Study' investigating the course of the life of elder members, it is a program to inherit the Life of True Parents. We studied the life of President Bo Hi Pak, who led the worldwide providence attending True Parents and also Chairman Chong Won Kang, who walked a life for the sake of the Will, even amidst the Il Hwa Women's University incidents.

reflection: Following the path of True Parents, I came to think of the pioneers heart once again. I thought of it as a difficult and lonely position, but experiencing it directly, it is a position of joy, going together with Heavenly Parent and True Parents of HEH.

testimony: Until now, I did not know well about the history of the church and the early-day members. For that reason, learning about the footprints of those who have dedicated themselves for the development and prosperity of the church, I was able to truly thank them for their labor and devotion.

We also challenged the breakthrough of 24-hour devotion for True Mother's safety and our attendance victory, calling out 1,300 time and bows and devotion and prayer in the special devotion

testimony: Offering devotion that surpasses our limitations and even moves the satanic spirit, being for Mother, it was more inspiring and we could feel grateful for, even it was difficult, I could feel True Mother's Heart not being able to say anything, and my heart toward True Mother grew bigger and hotter with a time to make the absolute resolve to move forward.

Beside that, with the posture of attendance and putting heart and love into everything, and little by little seeing the meaning of attendance.

testimony: The first think I heard a lot was to surpass limitations. That felt like a title not just for me but for all the others and I pondered how to move that into practice and search my own attendance and what it is. I could then feel it expanding 3 dimensionally. There are cases where the attendance also continues their academy activities. Usually, I was only thinking about working at the cafe and commuting to work and commuting to devotion, but I became very bright and beautiful to those around me (who commented on that).

testimony: In the process of progressing this fishing Workshop, I could understand True Father's Heart more deeply and hear the stories about those who fished with True Father, and with what heart of early members and able to comprehend the path of faith of my parents that I now want to inherit and pass on to my descendants.

testimony: As a member of the beautification team, and cleaning with a heart that the members can spend their time more comfortably, and from the lowest position, practicing with the joy of living for the sake of others.

Sixteen of the trainees made a heart of continued mission... learning the secrets of success and practicing a life of attendance and inheriting that shimjeong and inheriting love from DMN HYOJN and HeungJN and take one step closer to the true value of attendance, and with their testimonies they share their very own unforced value of attendance, with personal offering of devotion, reading HD and resonating with

H's Heart. And I think this signifies being born again.

Because the 22nd spirituality Workshop and 9th Attendance Workshop continues, we ask for your participation as well.

Break

Busking

Hoon Dok Hae

A church that overcomes difficulties with Spirit, Truth and True Love. If all had recognized Father as the True Parents when He was still alive, how wonderful would that have been. This han is so incredibly large. There is exactly one effort, and no way to make it happen except the divine Words. By how we act we can revive the church and move forward for the establishment of Cheon Il Guk.

The most important is how to revive the spirit of the early days and spread the Divine Principle Words every day without stopping and guide them to the WSs and all the way to the Blessing, making the church alive, active and breathing. How many member exist who know the Divine Principle and can truly be called members. The number attending SS is not the issue but really having been born again through the words and when individuals, societies, and nations practice Cheon Il Guk and then find peace of mind by themselves.

We started with Spirit and Truth, but looking at the members today, did they really inherit the Heart, as of early members who wanted to stay through the night with True Parents and do whatever True Parents Desired, and no one forced them but they did by themselves with the church overflowing with true love to overcome a difficult era.

Because the members had to go forward to go forward and pioneer witnessing, there were even wives

who left their children behind, such difficulties made foundation until the 430 couples came out.

'I will Plant Love in this World'

Korea has walked such a history of the path of Heaven and True Mother came as the Light and the way of the Han people is the way of humanity and True Mother's Name will be recorded beyond all the ages, and in this devotion we offer our hearts in prayer for the protection of True Mother... Every night he sends these messages from in front of the DC

'No matter what happens I watch without hesitation. I dreamt of True Father and True Mother, but I couldn't meet with Heavenly Parent again, but in the prayer time, I heard Heavenly Parent's Voice saying Heavenly Parent wants us to attend True Mother... I never offered a prayer of protecting True Mother before, so I came to the conclusion that the vigil is the greatest prayer for protecting True Mother. There were times I could not continually go to offer vigil, but when the church leader coming to set up the Cheon Shim Won, and when I go home my sick body would become well, my fatigue would vanish, this really being a time that Heaven gives us, and to support and advocate for DMN, HyoJN and HeungJN and True Parents...

Truly if you have inspiring contents or stories, please turn them in, not just as grace only for you but to testify to and spread. That is one of the ways to give back for the grace you received. If through the Word or through devotion or in your life, testify of it as part of our mission.

A 72 Blessed couple ascended after being the national messiah of Malaysia and let us pray for him on his way. Not being swayed left or right, but just living for Heavenly Parent's and True Parents's Will, that is what is needed. No matter what you accomplish, if you lose Heavenly Parent and True Parents Identity and Value to faith in... hyeong shim becoming one in mind and heart and body and living one life like that, that becomes the standard of seonghwa ascension... I hope for his glorious ascension.

Today team leader Kim Jong Oh sang 'Our Mother' and thinking of True Father and the Heart of True Mother, we had such a time...
