1,628th Cheon Shim Won

Bow and Pledge # 5 * 6

Opening Prayer of Gratitude

Most Precious Heavenly Parent

Beloved True Parents of HEH

We sincerely thank You for allowing us b and s from around the world to offer devotion with one heart and one mind again together in this Holy Cheon Shim Won, which is Heavenly Parent's Love and True Parents's Warm Embrace.

Through the grace of Cheon Shim Won, the most precious Gift True Mother has Given us, our Conscience and Original Mind is awakened, and You have allowed us to taste the joy of Cheonshim resonance. You have allowed us to experience that a self-centered life is uncomfortable and painful, while it is so great a life of joy to live for the sake of others.

Furthermore, we sincerely thank You for opening the Path of Devotion upon the firm belief that Heaven Parent's Historic History of Restoration is taking place at this very Moment, allowing us to advance without stopping for no interruptions towards a Heavenly unified Korea and a Heavenly unified world.

Our grateful we are that we have an Object of Devotion we are able to offer. Please move history through our devotion, as we become one through the prayers of Cheon Shim Won. We pray and desire that this devotion of the 1,628th Vigil opened today may become a deeper devotion than yesterday, so earnest that Heavenly Parent cannot help but Work.

We offer great vows of gratitude that Heavenly Parent and True Mother is Present, and to become true s and d who return our response ability. We gather our desperate plea for Heaven to forgive us to look for how to change to keep renewed attendance of Mother that can hasten Mother's Return and healed Health of Her Holy Body...

In my name, Guy Yu San as a BCF in grateful attendance of Holy Mother Han

CHANYANG

VIDEO H Africa Hyeongseong Report

Rev. Sukuwa (He bows so deeply and rises with such earnest seriousness to Heaven and bows again)

In this crucial time, the members of Heavenly are also uniting with Cheon Shim Won, offering a 40-day

devotion, fighting as if in a fierce battle, and experiencing grace during the 4th 40-day Workshop in Cameroon with devotion bridging all distance with Korean HQ Cheon Shim Won and directly affecting HMM, True Mother.

While I was praying at Cheon Shim Won, True Father Spoke to me in a loud, booming Voice Saying, ' You brat, protect Mother!' And we offered our devotion even more sincerely.

Just as the trainees and academy students at the HQ offer Special Devotion every morning for the safety and comfort of HMM, do also every, single morning and do ansu training...

A young 2nd gen, Barley Gamiez, applied the methods, and his mother who was suffering with limited mobility in her hands and immense pain, and he did ansu on his own hands thinking intensely of his mother. Standing before all the trainees, he testified experiencing the works of the Holy Spirit, True Mother, with his mother's relief.

another had relief of his wife's back pain

another in his 50's had a younger sister healed of severe knee pain even having expensive surgery, and after he did ansu on his own knees thinking of her, it disappeared...

Heaven is alive. True Father is alive. And the devotion of every one of us is being used to protect True Mother.

I pray for all of us to combine our hearts and have the power strength for True Mother.... applause

HJ TESTIMONY

Linsi Teen

International Workshop trainee

big applause

I'm deeply grateful to Heavenly Parent and True Parents for allowing me to stand in this place today. I am Linsi Hin from Taiwan Blessed in 2022...

From a young age following my parents and was passionate about the church and its role in my life and activities, but facing a new school relation and focus on studies that changed and I lost direction with an empty heart.

I took a year off university and joined a mission activity, but in the end I could not connect with them in heart and fell back into a busy academic life and after graduation, and even the passion I had once had was gone and the happiness and hope was gone.

My church community leader texted me with his wish to change my life through the Yeongseong Workshop, and even I doubted, deep in my heart was a small voice saying to go. I wanted to clearly define and root my path of faith, but after not long, my physical condition was still recovering from surgery and on top of that a sinus condition, making it very difficult to focus and invest my heart and follow the schedule.

But, thinking of True Parents Who advanced when Their Bodies were so suffered, and I went forward small step at a time. I couldn't complete the bows, but with my earnest I offered partial bows with full bows of 1,000. It was because I was relying on my own physical strength that pain came and difficulty to raise my body and no choice but the pray and ask for the strength that wasn't there, and then I felt a heart as never before, looking at the backs of all the trainees bowing. My heart ached intensely with the Heart of a Parent Who could not do this on behalf of the children as the Parent Wanted but so was crushed with hope for them to complete it.

For the first time, I realized the Parent's Heart of joyous Pain to watch their children overcome and grow. I heard, 'Feel and understand first' I started to naturally trust in the events that unfolded with H's Guidance. Before I would simply recite the prayer with an empty heart, but now I realized it was none other than myself blocking the Heart of Heavenly Parent. Most of the questions I had kept in my heart were answered in this Workshop. Heavenly Parent has always been giving me answers, but I had not opened my heart enough to receive them.

Before I came, I expected spiritual experiences and one day I felt a powerful sorrow and tears flowed down before I knew it and I felt something coming out of my body and an urge to vomit. When I prayed, I earnestly called out to my ancestors and hoped for their help, and then I felt some hold on my arm and that my ancestors were truly helping me.

Actually, I had always doubted myself and asking, 'Am I truly a value existence' but Heavenly Parent was not looking at my failings or lack but at my sincerity. It's more about completely trusting my HPs, learning to repent, and exactly what devotion is.

In the past, I could not understand True Mother so I could not become one with Her or know the value of devotion. But the reason for the BS and Ts of True Parents's unstopping devotion was knowing the Heart of HPs, and I felt a positive shame of myself.

Before the Graves of Grandmother Jo Won mo and Dae mo nim, I repented for making Mother Bear all Alone, but at the same time an infinite heart of gratitude... Mother, I miss You so, so much. I have completely transformed from living for myself and only by what was before my eyes to feel, but now I take this opportunity to deeply resolve to be a true child of life of high noon, constantly experiencing HPs and Your Heart and repay it with devotion.

I will also become one with the community leaders and even if I grow weary and struggle, I will surely continue this path. I thank Heavenly Parent and True Parents and staff and coordinators for their countless devotions for the Workshop, and the trainees who relied on each other and family who stayed by my side and supported me

big applause

The spring of life flows in this Place

As we pass through the Valley of Tears

--- long applause this time

HJ REPORT

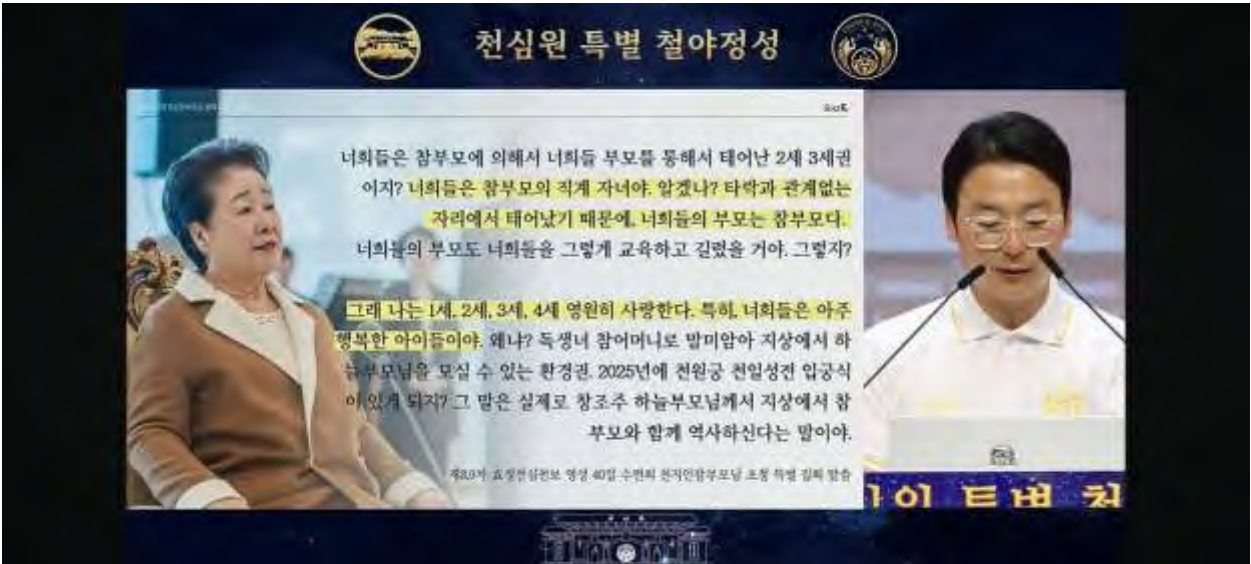

Director of Cheon Shim Won Secretariat

no files for this report so translator asks for grace

Preparing this report, I had a hard time...

From the beginning our LED system shut down and we weren't able to prepare anything, but now it is suddenly fixed and I can share everything... The person in charge was saying it would be impossible, but now here it is...

True Mother: We have to bring elementary school students to be fostered into spiritual leaders, and 'You were born through your parents as 2nd and 3rd gen of their matching, and you are born where you have no place in the original and historical fallen nature. That is why you can be really happy children (and this Workshop is the place for knowing that happiness) True Mother continues to emphasize that we have to know who we are. We have to know our identity (in this emergence of pure children)

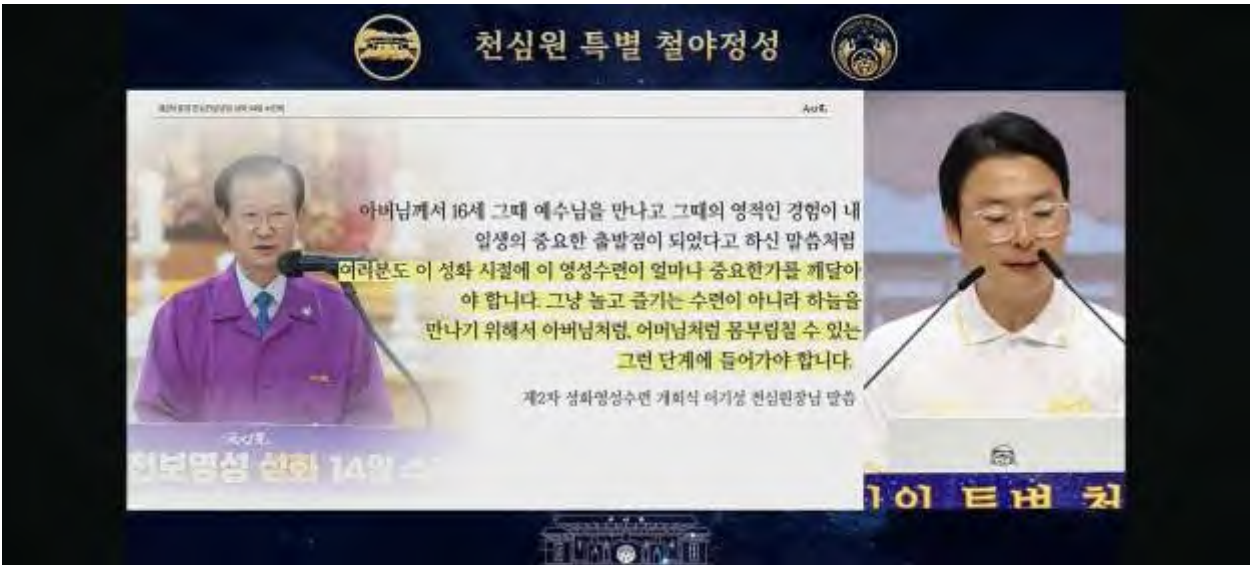

So, these student look back on who they are and what identity they have.

True Father said, 'Ideal faith starts from the youth... adolescence is the time where the flower blooms, and it has a beautiful fragrance. Such youth when they grow to become the soldiers for Heaven's ideal is when hope begins for this world

PL said: True Father said at the age of 16 He met Jesus in the spiritual experience and that is when this 'honghwa' this student time period is important. And it is not just for playing and fun, but you really need to meet True Father and work like True Mother is working in order to go through that stage.

I myself as well, in my high school years, didn't understand why I had to find my faith, why I had to study, but when I was 16, I went to Yoksu Cheonyu Garden and met True Father and that meeting changed my life completely.

From that time on, I decided to walk this life of faith. I gained purpose and studied hard and actually became one of the top students in my school. So, when I first met the Seonghwa students, I met them with the mindset to not treat them as a child, because I had experienced the change of heart and life, I wanted to meet them in the same way.

VIDEO

True Mother: You are not related to this world. You are pure water. Through you this world will become purified and brighter and it will become one. Do you understand?

... If you look in the rivers, there are small rocks that are very smooth and round. And those kind of rocks shine brightly. So, when I see you, you are all shining so brightly.

... understanding True Parents's Heart and realizing Their Dreams

... At first I thought I won't believe anything, but even still not 100% I strive to work one by one to offer prayer and to change my heart, and as I do, that's when True Parents's Life Course came to my mind. It's not that I had disbelief about True Parents, but I really didn't understand, and I really needed to study more...

True Parents, I truly love you and even my lacks TY for always loving me. I'm sorry and I will move forward.

True Mother Most valuable is the diamond that shines brightly. From Heavenly Parent's perspective, you

are the diamonds.

As you grow older, you might become more difficult. There are so many hardships and temptations in this world, so to establish faith before elementary school. Speaking for myself as well, when in elementary, if I wasn't able to understand that there is a spiritual world, then I would have left the church. But because I had spiritual experiences in elementary school, that is why I am still here I believe...

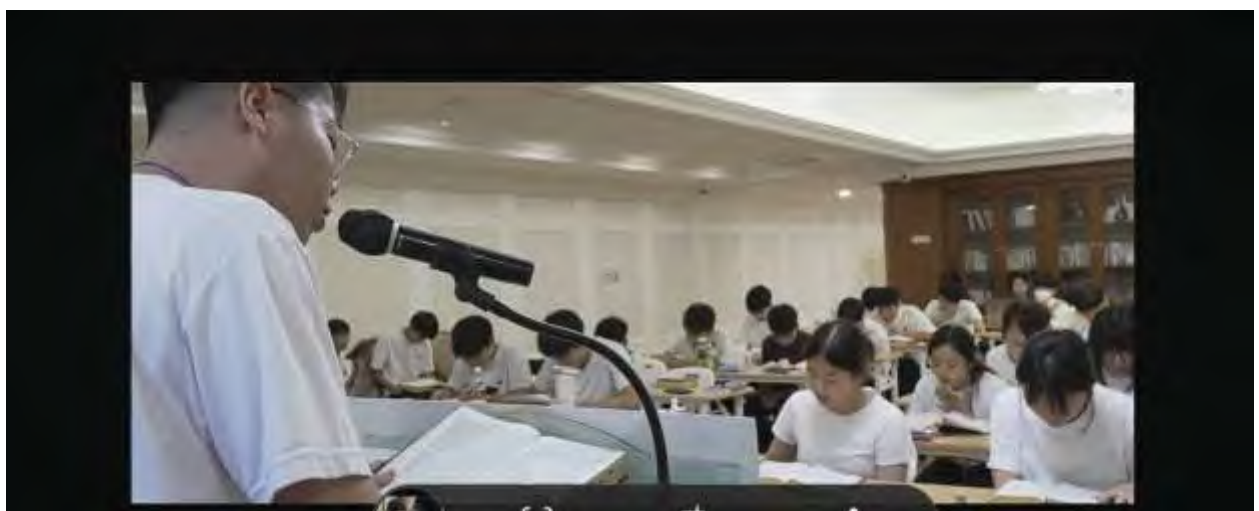

I asked the students what their first understanding became after 11 categories of Workshop, and they answered : the spirit world, Providence, Holy Mother Han, and then CheonBo Works

Before it was just Heaven and hell, but it became that the physical world is a place of practice for the spiritual world.

True Father: 'You have to know God first and know what kind of place the spiritual world is. If you don't know the SW, then you cannot know God.

I think of those who had the good grade in the Divine Principle test and gave the best lectures, but in the end they all left our church, and I came to think maybe they didn't have a proper understanding of the SW... myself as well, even there was a time that I briefly left, but I experienced so many spiritual works, because the SW didn't give up on me, I was able to come back.

That is the most important thing to understand True Parents. And from that perspective, Rev. Yokoi gives the Special Lecture with the CheonBo history and meaning of the Offering Papers. When the youth understood, they had gathered their allowance and offered the Papers.

We did the Cheonshim ansu with Rev. Kim Dong su and one participant said they wanted to make ansu hands to help their mother, and 3 created the ansu hands in this period. And receiving the Principle of Creation, incorporating that into daily life. And the students could understand how to do that.

And Rev. Igi Shik gave the lecture of True Parents's Course, and I was worried at first because he is very logical and from an historical perspective, giving these kind of lectures to university graduate students. But he actually, on the contrary, really like giving this lecture to the Seonghwa youth. Many loved his lectures as well and even became his fans.

Also the spirit world devotion lecture and bowing devotion lecture, students realizing, 'Oh, there is a SW and I shouldn't do anything bad... much more conscientiousness about it after this study with real life examples, also practicing praise worship Workshop, and Hyojinjon, where Workshop trainees all came together full of grace in the praise...

Staying 2 days at the Hyojinjon and first resolved to help True Parents and first time crying tears... and feeling HyoJN working in this Place...

We reduced 40 days to 21 days to fit the vacation period, and we put our heads together how to make it effective.

This is the drawing that a means 8 8s, meaning we are going to win and move forward with '8' in the people figures and names of the youth students and their goals, going to Cheon Shim Won daily and ten-minute prayer every day and to encourage each other...

Rev. Igi Shik has given many lectures in the past to young adults, but had the mindset not to bring his lecture level down to them. And one of the trainees said that through the lecture they were able to grow roots of faith deeply in their heart. Rev. Shik did not have much experience and said:

Because it was my first time, I didn't sleep, feeling joy, but also worried to convey True Parents's Past and Heart. But as I continued the lecture I saw that the youth had such pure passion with shining eyes, and I thought True Parents's History is being started and inherited to the Seonghwa youth.

We truly realized True Parents's Words saying food is love, and offered many snacks and food for them. I thought I also wanted to be a participant eating this with them as well.... spicy rice cakes, odang fish cake, watermelons, cakes for their birthdays, and donated some money for their snacks, so it was unending...

They volunteered and did cleaning and cooking from the Academy. 'I came here with a heart on behalf of True Parents to offer love to the Seonghwa youth, to volunteer in the low position, but received so much joy and grace from them. A precious time for me.'

Before it was our elders serving the 2nd and 3rd gen, but now our seonghwa youth has revived to walk in the front lines.

testimony about her voice condition... She sang Sangsori a traditional song... She felt that HJN was with her and afterward in the prayer room, she picked a card that said, 'True love comes from true sacrifice.' So HyoJN during the Cheon Shim Won, saying during the prayer, that a true hyojeong is receiving Heavenly Parent's love, healing through it, and thinking of ways to offer it back, and as children not just receive but offer back our love to HPs.

We asked the youth if they wanted to dance with the song, 'We Want to Attend Mother' but they had to show it on the next day during Cheon Shim Won and they said it was possible and really practiced for this. I was planning to do it with them but my body couldn't learn the dance well, so this is how they were able to dance so well in the video (I'm jealous of their youth)

When True Mother returns and looks at this video, I think of how happy She will be. I'm in the 30s but when I was following the dance, I injured my back and must go to the hospital. There was a request for an easier version for people in their 60s to follow.

Also, these three seonghwa youth were very popular so we called this a Parody of GPS... pyang tang so nyeong dang... They offered a lot of energy and good looking as well... I should be 4, but it's 3... and these three really helped each other and became a heartistic group... 'As God Lives, God didn't just come out alone, but God has Father, Spirit and Son and Holy Spirit is well known, but the main idea is 3 not just one... all three came together (Parent, True Parent's As One and Their Children - Parent, Husband Father, Wife Mother Trinity multiplies Children for the 3 Blessings... Sam i gi dae 3 positions... We must have groups of 3 as one basically is the meaning...

I Jong Su... before so many complaints and disbelief about our community and didn't understand why I had to come here, but was able to attend each program with my brothers and we began to help each other, and during the CY, I had an urge to shout our Aboji and Omoni, and a voice came out from my heart that said, 'If you don't shout out now, you will never be able to shout out.' At first resentful but now grateful for coming here.

Father of him said, Even it is a busy time in his senior year, I wanted him to harvest his roots of faith deeply, not just leave him alone, but the very most important thing of his heart with Heavenly Parent and True Parents and this was a Golden time for me to send him, so I resolved to send him.

Rev. Ni Hong mok offered a devotion in this time, at first 1,300 times calling out for my son, but looking at the parents' Kakao Room, I saw awareness of calling out for all of the trainees and staff... and we received a lot of energy

Rev. Hong Song-hwa said after the Cheon Shim Won devotion the parents still offered 40 times calling out for them with all their hearts, and I believe so much grace for this Workshop came from that...

Trainee Chae U Sok (from being at USA Cheon Shim Won) said that he thought he was a true filial son (pure water), but he came to realize that I had only carried one of True Parents's Burdens out of 100... and for 18 years I wasn't able to offer filial piety to my parents who raised me, and I felt sorry to them, but for 6,000 Heavenly Parent came looking for us, and I came to repent the fact that I had neglected Heavenly Parent's Existence, and through this vigil prayer I called out to Father, and tears fell, and I felt Heavenly Parent embracing me and encouraging me, a moment of response to my repentance and a moment I cannot forget.

This trainee will go back to America and go to the military school and offers big dreams to Heavenly Parent and True Parents... Shim Ton tan is his name...

Through this vigil devotion I came here and had mindset to do my best, and we came to help each other out and push each other for the utmost devotion we can in this environment where we could talk to and rely on each other to finish not giving up, starting with the staff and going into the environment of the seonghwa youth student,

and from Yeonhwa youth community, he did the Oeg Monsei for the first time. He had offered, Let us all become one with HMH... He was nervous and didn't deliver all the words he wanted before the cheers so he sent a recording of what he had wanted to say...

Also, they said we cannot wait for the Workshop so far away, but we must keep this faith devotion, so they made their own prayer meeting, which we didn't expect.

There's a song that says, 'Age is just a number, Hyo Jeong is real' a parody from a Korean Song... and there were 6 students we were worried about, but they really participated in this Workshop as if university

students with a mature level of speaking... This one student was taller than me in elementary 6th grade and one time I went as if I was his friend and he talked back like friends casually, and I realized this is a good way to approach them.

There were so many good b and s and staff to finish this Workshop well, and I thought my honesty and sincere prayer to True Mother and change of attitude became their biggest change...

another... after the vigil prayer, I looked at the clouds and during the program I felt very tired but it felt like someone was patting my back, spiritual experience also of someone hugging me. One of the staff told us that True Father was here hugging each one of us.

I came to think that I want to go to the Academy and Sun Moon University. (I came to see that they had mature and deep questions about life, opposite sex and many things)

24 to Workshop

18 to Cheonshim Spirituality Academy

16 to oversea missions

14 offer volunteer work at Cheon Shim Won and so on

Asking what they wanted to do in the future, from middle and high school for a career, and they said they wanted to go to the spirituality Workshop. Thinking why? It was because their older b and s really offered the devotion and tears and sweat for them, and they also want to become big b and s in the future.

And if there is another Seonghwa Youth Spirituality Workshop, do you want to come back? Yes, it is a place where I get to know about myself, and I hope many more can come... 2nd, 3rd gen can understand their own value and receive answers frankly to their questions, clearly... and the good experience carries to the other WSs as well... not wanting to have any sense of stopping or going spiritually low...

Usually I would just say, 'Okay, it was good, and move on... but this time I wanted to dig deeper to understand more' There are many who have questions what the Word means, Who are Heavenly Parent

and True Parents, and could resolve their questions...

These are the 14 guys from the Workshop, and I miss each and every one, and there were 21 girls as well, and I remember their beginning when they first came and how they grew.

They could realize their identity and be reborn in a golden time for them. After the Workshop finished, there were also many graces to the participants. During this time, we aimed towards helping them understand the feeling of the culture of heart, so went to the Begonia Garden and the Cafe and the cheonyujon and boating and karaoke and prayers as well. But most gracious was testimony time with everyone crying from their sincere heart, and we all realized that these kinds of worries and thoughts were what they had been having...

Cheonyujon meaning is 'fun' and then on the cruise and then Holy Ground Pilgrimage, Attendance Cafe, and Memorials as well... also a Conservatory Observation Deck and offered prayer for True Mother, and at that moment a strong wind came and we thought at the Memorial as we prayed for the nation this sudden strong wind like an answer from the SW and the one going back to America to the military, in front of the American monument, he offered a bow as well, and so, we went through this course from the recommendation of PL.

testimony There was a time to listen to each other's testimony and I came to think, through Heaven's Guidance and Will, all different situations of us came to gather here, and with desire to understand Heavenly Parent's Heart, tears came out that I can't explain, overwhelming emotions came. I came to experience Heavenly Parent and True Parents and I will hold Their Hands and walk to the end.

True Mother: I believe that H is alive and H will definitely realize H's Dream on earth and She said the 2nd and 3rd gen right now is moving forward as true children, moving forward for the world restoration in realization of the Word.

I was also moved by our staff's hard work and effort, some who collapsed from hard work, and one twisted their ankle, but they truly worked for all the grace of this Workshop with the heart of a parent, and wanting the trainees not to get sick and understand Heavenly Parent and True Parents's Heart even if just a little. And the trainees began of their own to want to help.

True Mother said that the Golden era does not come just any time and not to miss this chance and no matter how young they are, if they resolve to go this path of the will, and we will do our utmost best to foster this future generation, and for the next winter break, we will continue to foster this effort, not just by our own power, but mobilized with Heaven with the same heart and standard for the Seonghwa students...

(Rev. Kim Ju Won)

BREAK

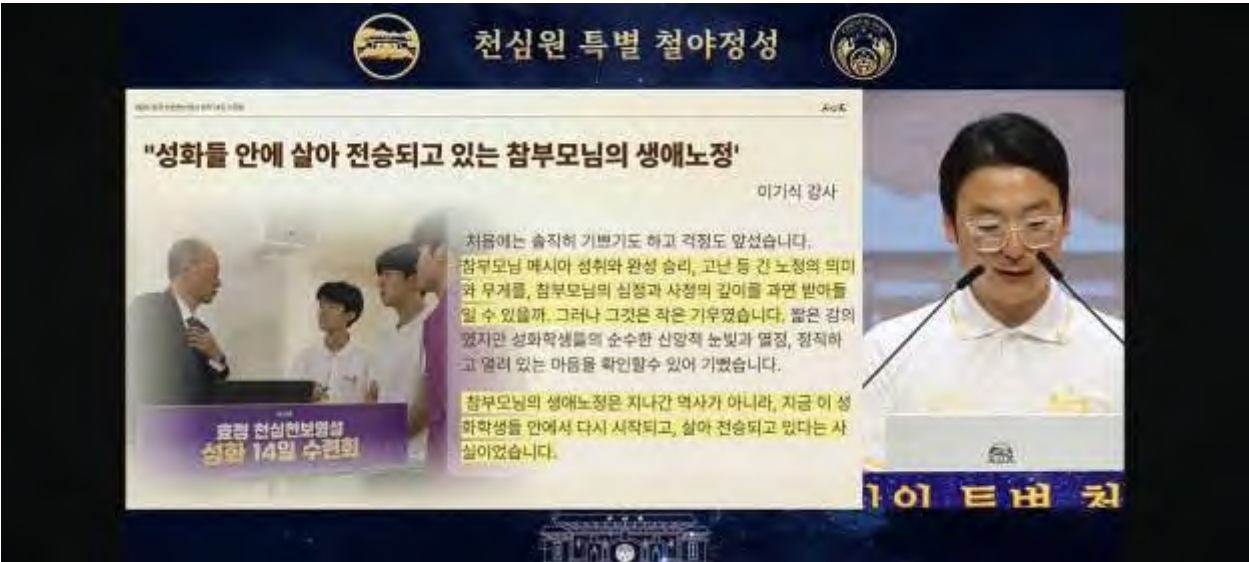

BUSKING

Hoon Dok Hae

Just as a single drop of water flows out to the sea, our future will shine with glory

Book released at Summer GWs August 2026

Hoon Dok Hae

Always think of True Parents when you are going through hardship. Our pride, our joy and our happiness cannot have any meaning without True Parents. The wish of a BF is the construction of the Heaven Realm on earth and to live attending Heavenly Parent. If it cannot be achieved in our era, it is the responsibility, it is for us to assure as parents that that day inevitably comes to this earth, even if it is through our descendants.

The Unification Movement is about completing the Will together with True Parents without fail. Therefore, I earnestly hope that our families and we ourselves may become people upon whom the future generations can truly be proud of. We are people who have already resolved our hearts and set out.

We must enable the Will of Heaven that True Father sought to achieve to be fully realized in this era. Even if True Father goes to bed late, He rises early in the dawn to offer earnest prayers. Whether the wind blows or it rains, night or day, He offers prayers for you, the children of the Unification Community.

When I see True Father deeply emersed in meditation to fulfill the Will, I think that He is truly a Person that God cannot help but Love. I hope that you will all be armed with the Principle and live unchangingly in a world of heart where you are firmly connected, not in a relationship of master and servant, but in a relationship of Parent and child. This means that you should always think of True Father, imagine True Father's Image when you are going through hardship.

I believe that prayer is the most powerful thing (mobilizing the SW) that can make the impossible possible. Prayers cried out to Heaven are bound to be fulfilled. You must offer prayer from a position where you can make a promise with a heart of true love. Pray with an earnest mind and wait faithfully. It will be fulfilled.

Prayer is a time when tears are the last state. And you must pray when not only with tears but when shedding blood. We have crossed the hill of tears and the hill of the cross. Jesus offered prayers of blood and tears in the Garden of Gethsemane. He shed tears while embracing the nation. Such prayers can suppress the authority of Satan.

You must pray while shedding tears and shedding sweat. You must pray with conviction. Even if you offer vigil devotion, you must build it up and advance. Even if there is persecution and opposition, you must know that the time to fulfill your prayers is drawing near. If it becomes increasingly difficult, while believing in and following the Unification Community, you must know that the time is that much closer to the extent of the difficulty.

HJ PRAISE

CHEONSHIM CHOIR

'Ten Thousand Reasons'

PRESIDENT LEE GI-SEONG'S MESSAGE

(not big enough applause)

1,628th Cheon Shim Won... now, since the date has changed, it became the 36th Declaration for God's Eternal Blessing and 30th Chil Pal Jol Declaration for the Realm of the Cosmic Sabbath for the True Parents of Heaven and Earth... TYVM for offering this devotion and let's offer the applause to Heavenly Parent and True Parents... applause

We took for granted that the LED screens would be turned on and working, but when they were fixed, applause of gratitude, not taking them so much for granted any more.

It's been about 27 years since the sound system was established, so we said we don't know when it will shut down, so we switched it last year, and the LED screen as well... So, we are at a time where we have to switch but not much time to do it, but all experienced the difference... also the speaker, one is about 4,000 won, and so it's expensive and the speakers are from abroad, and we would have to order them in advance. So, honestly we have to switch these as well, but even if they don't work, we must continue.

Someone said, even if the car stops, we have to get out and push it forward.

14,000 Places and 40,000 people are here (i'm sorry even less than other times and no increase) Last Friday there were 60,000 and if we offer calling out prayer, it can be an increase, 210 calling out prayers all together can make the difference... Every day over 200 people from the Cheonseong and Yeosu Community, offering their devotion at a small devotion at a sanctuary, but now entering the Main Hall. Increase will pour down more Blessings..

H Japan no physical center still, but coming online and offering devotions at their houses

Nomgami cheo member message: grateful to offer this devotion, and listening to many testimonies, we

can feel Heaven is alive. My husband also could come easier to join in the sermon. Also the one-heart resonating prayer becomes a standard of showing my fallen nature as well, and if chance arises, I would like to go to Workshop in Korea.

In Congo, the 11th mind/body Workshop... and about 60 members are shown here...

The video of greetings and Spiritual Workshop in Cameroon and suddenly he received the message from Heaven (Rev. Sakua) and they started prayers for 24 hours... and in Benin as well, the 10th Workshop from beginning to end for 24 hours devotion for True Mother's Longevity, Health and Return... Offering for True Mother but then resolution of person problems, family problems as well.

In Congo, from this Friday will be starting the Workshop, doing the same as in Korea, offering 24 hours, and I believe H's Blessing will be abundant in the spiritual land of Africa.

Today as well 586 long-term trainees in the TC, and in front of the DC, they continue 365 days from the Quanna Community and Message: We are here offering sincere devotion for True Mother and remembering Heavenly Parent's Love and True Parents's Gracious love and will never forget True Mother's Tearful Devotion.

Also, we will continue as in a fierce battle for Mother's safety and release...

800th devotion of another church... (I almost forgot to recognize them and I would hear about that)

There was the trainee who gave us the testimony, which was going to be in English, but she decided to give it in Korean. Such grace and change could happen with her life, despite health issues and difficulties, and offering 300 bows and 700 half bows, and as she was offering it, going over the 800th bow, she felt Heavenly Parent for the first time and was filled with joy....

Ever since then, she could sincerely and honestly pray about everything, and then realizing Heavenly Parent was always answering, always there, but she had not been open to receive it... Now how to repent and what devotion is. True Parents had understood Heavenly Parent's Sorrow and that is why They never stopped but kept moving forward.

She resolved to understand Heavenly Parent's filial Heart and resonate with it as well.

The trainees graduating... applause please

They really worked hard, coming from many different nations and through difficulties to the end working hard to achieve.

When I was listening, instead of 40 how great if there were 400 at such a workshop, coming here at a young age able to establish such a standard of faith and also practicing for the song 'I Want to Attend Mother'.. and they accomplished this in one day. How amazing is that.

There are videos created ten years ago with only a couple thousand views, but theirs has 14,000 views in a few days. Just as the Monarch Butterfly's wings can create a huge tornado, we can create the movement for a culture of heart, so that HyoJN and HeungJN can work through them, and through that standard, when Heaven and earth become one, we can overcome any difficulties.

We can see how amazing the devotion of the staff was, and even the elementary students could receive so much grace and the parents as well offering a lot of prayers and devotions for their children, and the community offering calling out prayers for the student... to be reBorn through True Mother's Womb and Her Words realized now, experiencing the Living Heavenly Parent and separating the resentment spirits where spirituality can be achieved and learned well and experience crying out in their prayer for the first time.

Elders also were able for the first time to open up and cry out their prayers. If you don't, you might regret that in the SW. So, honestly, from that perspective, if you are a parent with any chance, please send your youth here.

Last time of the Korean Workshop and 3-day with 700 applying, but because the pure water assembly will be here, they have to go to Chunabi?... These WSs are so precious to the young children and all the hope that is in them, no spec of doubt, going with absolute faith and obedience, Heaven's Work can do well on this earth, and the day of Mother's Return coming close. We believe that. And when Mother asks, what have you done while I was walking the cross, you need to have an answer.

If you weren't able to say anything, then satanic is always calculating for indemnity as well and Heavenly Parent is calculating whether the numbers weren't fulfilled, there are indemnity's for those numbers as well. True Mother has watched True Father walked the hard path for 53 years and She said that Heavenly Parent cannot help but love True Father.

And our hardship does not compare to True Mother's, and we always need to think of our Heavenly Parent and True Parents, and I hope you can take in the HD Words today. TYVM

CALLING OUT / FIGHT SONG

CHANTING

PRAYER AND PRAISE

... at this time gathered, and now that that scorching summer is passing and in the autumn season coming, TYVM, yesterday we heard the victorious news of non-prosecution due to insufficient evidence regarding True Mother... (and we feel moved with gratitude for this public news as we yearn for Mother's release with announcement of Her Innocence and True Identity as She has come to all the more national and worldwide attention...)
