Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

Today, we have gathered for this Holy Cheon Shim Won Devotion and with all of our hearts we come to the Door of Heaven and put down ourselves and desire to be filled with the Spirit and Truth and Desire of Heaven. The one-heart resonance prayer that we shout out may it bring about the works of the Substantial Holy Spirit.

Facing the 81st year of Independence in Korea, we engrave the blood, sweat and tears of the martyrs had

to go through for the liberation of this nation in our hearts as the SW and PW are united, may it bring about the unification of ourselves and North and South Korea, the conflict subside and the lamp of unification rise and the fortune of peace starting with the Korean Peninsula spread and become the great turning point, all starting from this Cheon Shim Won Devotion.

All of us under the Direct Governance of the Heavenly Parent and let each night we pray break down the walls and be full of the Word of Resurrection and Rebirth... Upon this Foundation of Cheon Shim Won, like the Womb of the Holy Mother, let us put down any resentments or bitterness and with love and forgiveness attend our True Mother and with a higher standard of heart, resonate and bring about a higher standard of devotion

Son of 360,000 Om Ku Park and...

When young, at my mother's urging a passive life of faith... urging also to lead a good life, I also received a reward, but the reality of going through school was ruthless (tears and can't continue) There were times when I felt that doing good deeds only resulted in being taken advantage of...

I had a friend a called a Unification Church 2nd gen friend and that person was being abused and I had no choice but to just stand and watch and I thought doing good brought losses in this society and I thought to be strong was better and began to work out, and I placed first, but inside I got swept into a life of violence and swearing against bad threats...

As a result my studies suffered, and denying the Unification Church I drifted away for a period of 8 years... Then my father was involved in an accident and had the prospect of a life in a wheelchair, but my mother did not give up (tears, very emotional) instead she practiced endless devotion toward my father, and true love pouring out of her heart and pouring out again.

Watching my mother's devotion and love right by her side, I began to contemplate my life... and I met a Christian person romantic partner, and I followed her to her church, but pressed True Parents photo and the question, 'Are You really the Messiah?'... and empowered by my mother's endless devotion, in answer to my endless prayer, True Father visited me in a dream where I got off the elevator of the TC amidst members preparing for an Event and F was Walking briskly and when he opened the Door of Cheonhwa Hall, the entire Heaven and earth transformed into His Countenance and He looked directly at me, 'The Returning Messiah will never come again'

Then, I wanted to know more about the WSs and through two of them learned more about True Parents's Life Course and that the SW truly exists. With so much grace, I returned thinking there would be no more problems, but it gradually faded and I reverted back to self-centered life.

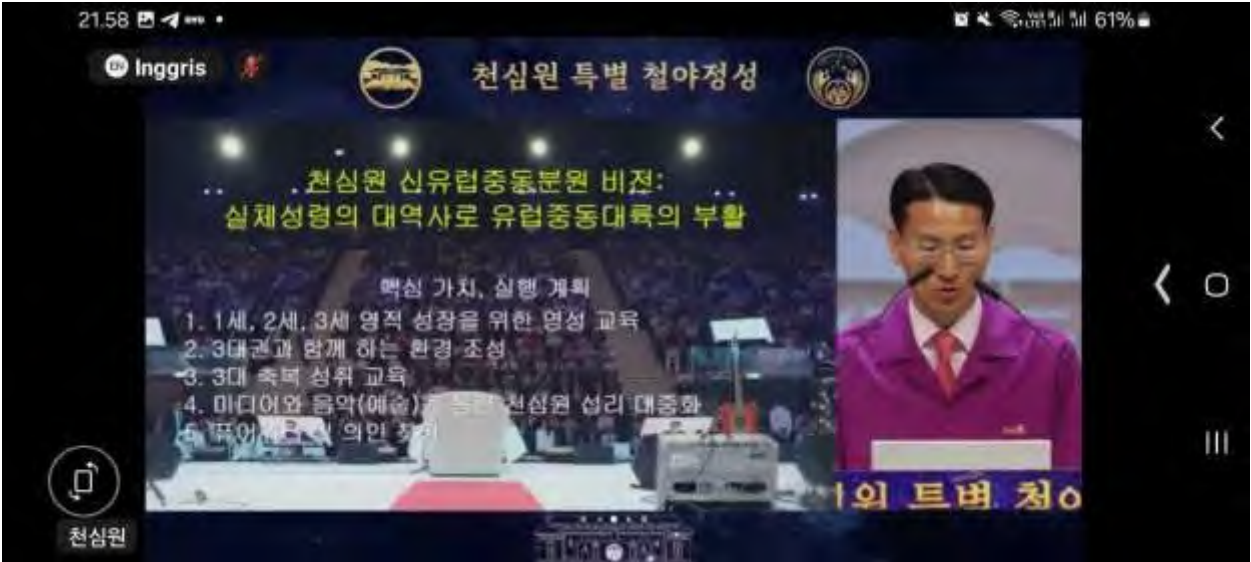

A car accident resulted in all the money I had earned vanishing. Realizing that Heavenly Parent watches everything and feeling ashamed of myself I came back to Workshop... I heard True Parents's Words that we human beings feel true happiness when living for the sake of others. I began to do things, picking up messy shoes, and throwing trash on the floor away, and I felt Heavenly Parent connects to even these small acts and I found myself changing to live for others.

I came to deeply understand what kind of Life of Suffering was what True Parents Lived, such excruciating torture and pain, even stabbing the back of His Hand with a pencil to endure such Pain. And with Mother bearing 14 children at such a young age, and then recalling True Parents's Suffering instead of my own, and climbing to the Holy Ground step by step and 1,000 calling out prayers, not stopping during the vigil devotion... and falling asleep in my dorm... True Mother Appeared Standing on the

podium and said, 'Bonje, TY for the 1,000 calling out prayers.' And my heart swelled with emotion.

As I continued the power of calling out and my longing for Her grew deeper and learning the Truth and devoting myself through prayer and earnest dedication, I once again realized how precious and valuable to be born as 2nd gen.

While trying to sleep in my dorm, True Mother Appeared again, coming to the dormitory looking as She does in the DC and giving me the revelations, 'Your name is pretty, but you have no luck, and you must continue the Work of Heaven' I had many dreams, but thought of, 'Is it truly right for me to walk the path of UPA. If it is right, please strike me down with lightening from Heaven... and then when I opened the door lightening from all directions, and I must continue to work to find the 2nd gen like small needles, back to Heaven (again pause)

Through 120 days, I planted roots deep and came to know that the work of Heaven is real, and TYSM for rebirth to someone like myself and I will become BakJonje of service to True Parents.

Workshop for 80 days starting June 1st with countless graces...

First the words, forgive, love and unite, thinking how True Parents suffer so much, and I thought the best I could do was build a small Heaven realm within my own family, however, there was a major problem within me, being unable to forgive and love and become one with my husband.

I kept praying what to do... One day while praying in Cheon Shim Won, I felt there was a spiritual woman calling my husband's name and saying, 'I love you'... So, while praying I asked, 'Who are you?

Are you an ancestor? Are you True Mother? Are you DMN? Then Are You H Mother and then I felt a faint Light shining from my body and I said, 'You are H Mother.' HM, asked me to tell my husband that She loved him speaking on Her Behalf, and I held too much han and couldn't bring myself to say, 'I love you' with my own mouth and explained what had happened and HM said, 'It's a money issue' and vanished.

But something happened that my husband suddenly handed me some money, hearing that my sister was sick, he prepared that for me. Then I thought, 'Is this what H Mother was talking about?' and the thought arose, 'Shall I forgive my husband just because of this, and my heart did not open easily.'

But hearing a lecture story from Pang Sang Il, when he was young he was eating snacks on his own, but when his father entered the room, he pretended not to notice, even though he knew. I thought, if I too can treat all the things I suffered from my husband as if they never happened, wouldn't I be able to love him? but the wounds over 30 years were too numerous.

I offered an earnest prayer in Cheon Shim Won, 'HM, I cannot do it. It is too painful. What should I do?' I felt a small light permeating deep into my heart.

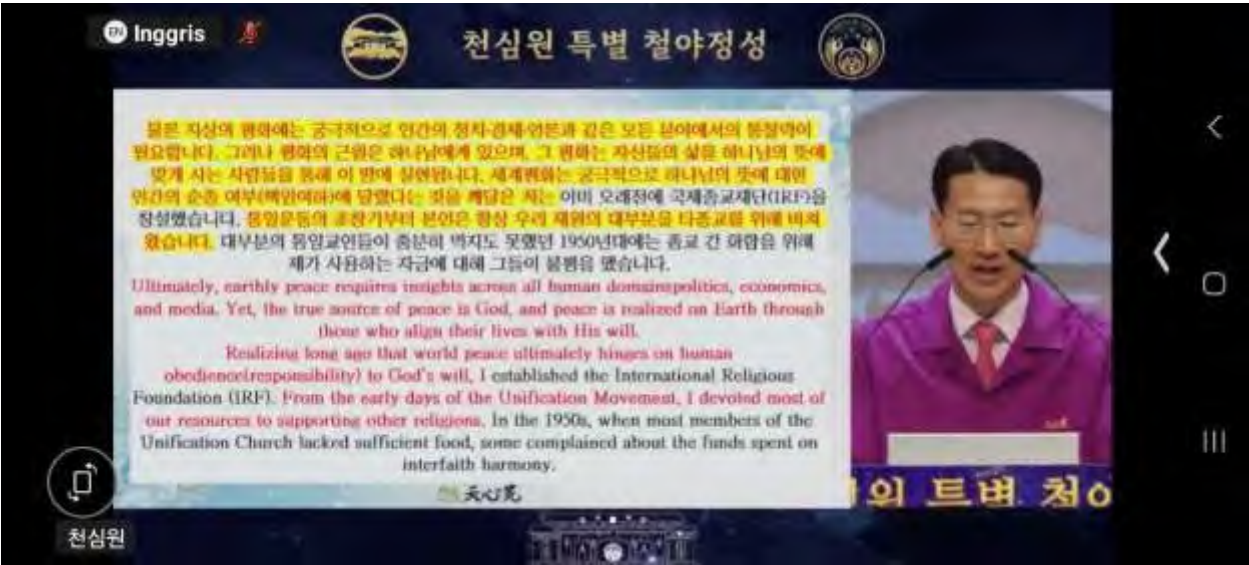

The next day as I looked at myself clinging to the ugly emotions and pain in my heart, I wanted to sort out my feeling and I felt the light that had entered my heart was a small seed that grew little by little into a tree of light, blocking the memories. Now, it is more difficult to recall those memories as vividly as before and the Words, 'Let us become one.' And opening my heart wide, I was able to do so. applause

The second grace was experiencing first hand the grace of HPs. I set a goal to visit the T of Blessing 120 times, a promise since last year's 40-day. Last year, not visiting enough, on the 21st day, 'Why did you come and not go to the T of Blessing? Climb when you can climb. You can do it or not. But if you do it, the outcome may change.' So, to build a H family, I went to visit the T of Blessing and did it 118 times and before the last, Heavenly Parent Appeared and I heard,

"In the SW, the CY yoksa session ends when the Workshop ends. At this rate it will end with you visiting the T of Blessing 119 times. Startled, I immediately went to the T of Blessing. The moment I arrived for the 120th time and touched the Tree, I felt an overwhelming sense of gratitude and the sense of bringing along a central spirit and heard the Word, 'The condition of 120 visits to the T of Blessing has been

accepted.

I immediately felt the atmosphere of our family centering on True Parents much more. I decided to offer calling out prayers for True Mother. At first my goal was 10,000 times but then increased it 12,000 and then heard the Words, 'I found it.' And I prayed, 'Please let me love what HPs Love and by becoming one with Heavenly Parent and True Parents' And I felt this was a devotion that must be continued after returning home and on the 33rd day of offering calling out, I heard, 'Just as a mother teaches her daughter household chores when she gets married, I will teach you the method. You saw what I do, didn't you? It's the same. Just forgive, love and become one.

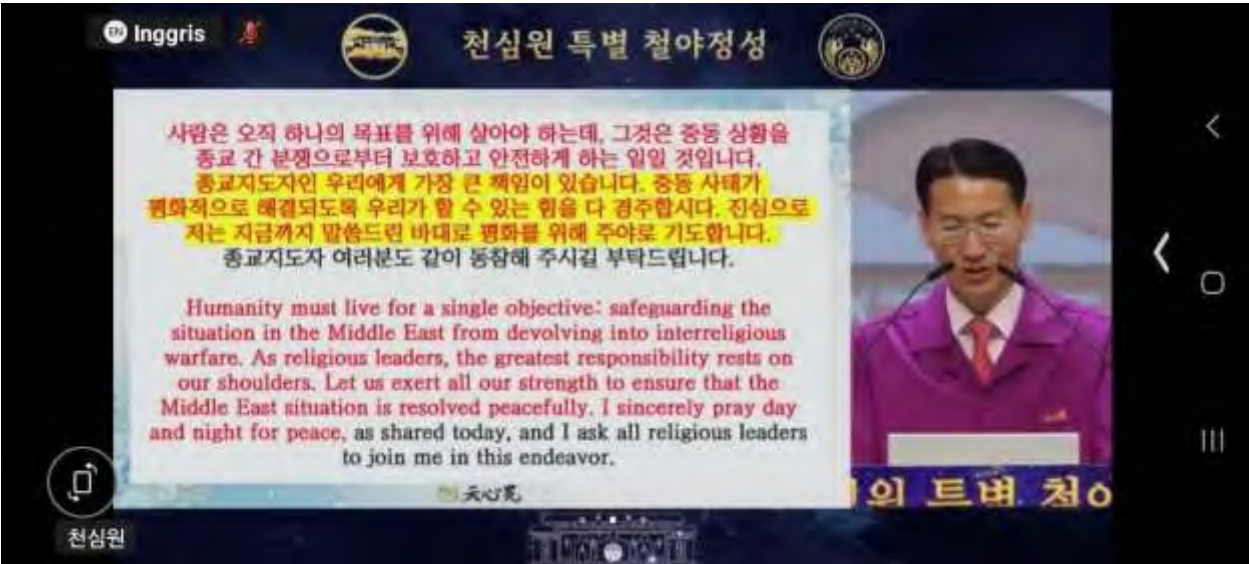

Through those Words I was able to resonate to True Mother's profound Love and sacrifice for Her children. In one's heart there are wounds difficult to untangle. For me too, so difficult to forgive and love my husband, but when I offered devotion and sought guidance from HPs, I gradually began to change.

Gratitude to Heavenly Parent and True Parents Who show us how to untangle our heart and guide our way, and even returning home, I will continue prayers and cheonshim heart, becoming one with my husband. I sincerely thank Heavenly Parent and True Parents

True Father's Words to leaders:

1990, Oct 21st...

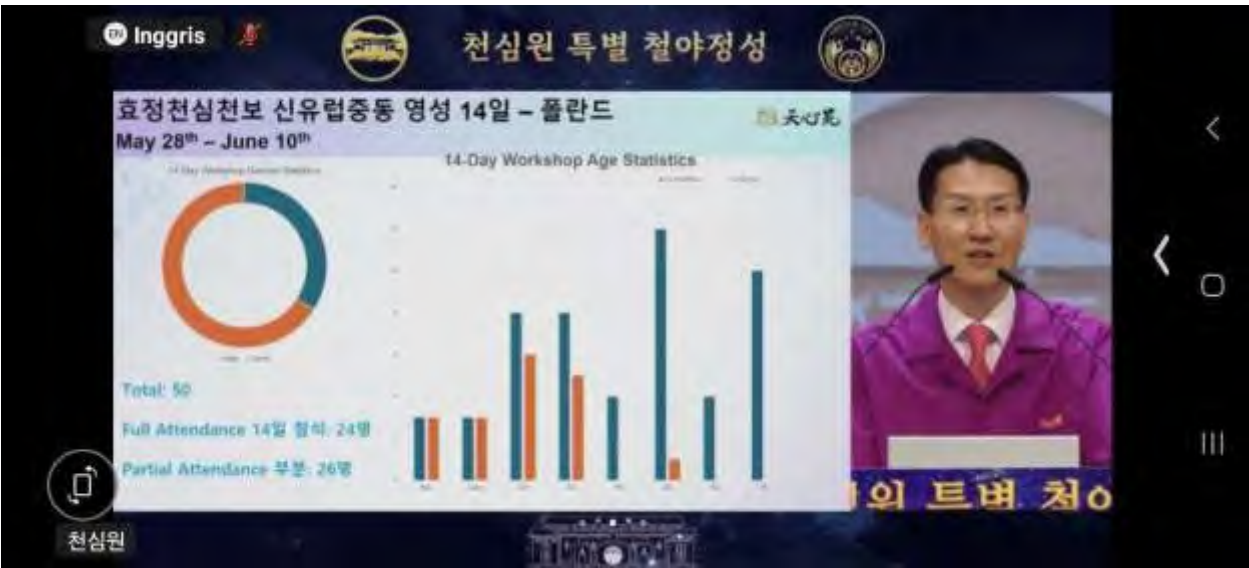

God is the Origin of Peace. As you are well aware, we ae surrounded by an extraordinary level of tension. Political and economic confrontations, combined with deep-seated historical resentments, have reached an extreme, posing a severe threat to human survival. Like the rest of creation, humanity faces the crisis of extinction, calling for urgent measures. This is precisely why we must be actively engaged across all fields.

In desperate attempts to prevent catastrophic tragedy, leaders put forward solutions driven by their own consciences, some advocating military measures, others relying on political or economic remedies. However, while such solutions may offer temporary relief, they can never serve as fundamental answers

for establishing lasting peace. Only true religious figures and people of faith can understand the essential nature and root causes of conflict. Only those who grasp the real reasons behind disorder can resolve these problems. This is why this meeting was convened with such urgency.

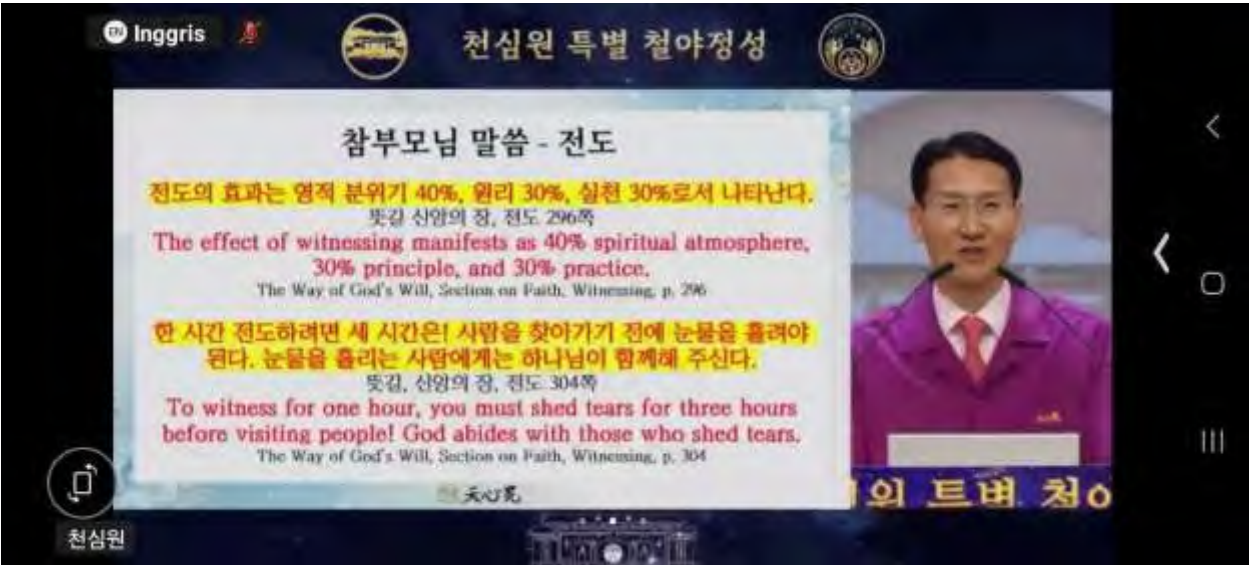

Ultimately, earthly peace requires insights across all human domains, politics, economics, and media. Yet, the true source of peace is God, and peace is realized on Earth through those who align their lives with His Will.

Realizing long ago that world peace ultimately hinges on human obedience (responsibility) to God's Will, I established the International Religious Foundation (IRF). From the early days of the Unification Movement, I devoted most of our resources to supporting other religions. In the 1950s, when most members of the Unification Church lacked sufficient food, some complained about the funds spent on interfaith harmony.

Although it pained Me to see our members suffer, I urged them to endure, knowing that Satan's ultimate scheme to ruin humanity's future would involve inciting racial strife and religious wars. For over 40 years, emphasizing true love, unity, and cooperation among religious believers, I have dedicated everything to the IRP.

The great religious leaders and peacemakers within the IRF, representing all high religions, now bear the sacred mission to preempt Satan's plan and forge lasting peace.

Throughout history, Satan has launched attacks to bring destruction and darkness upon humanity. In this century, Satan's strategy manifest through godless communism. State oppression and control prohibited entire populations from hearing God's Truth, and millions wee slaughtered under the guise of building a godless society. For over 60 years, this Satanic scheme thrived, dominating two-thirds of the world. Yet political analysts remain unable to explain how this empire collapsed overnight. Those with spiritual insight, however, clearly understand that it was the power of God and the strength of those living by divine law that brought down Satan's reign of terror.

Satan is now launching a final offensive to destroy humanity using two strategies far more malicious and threatening than communism: inciting religious wars and racial conflicts.

The Middle East as the Battleground Between God and Satan

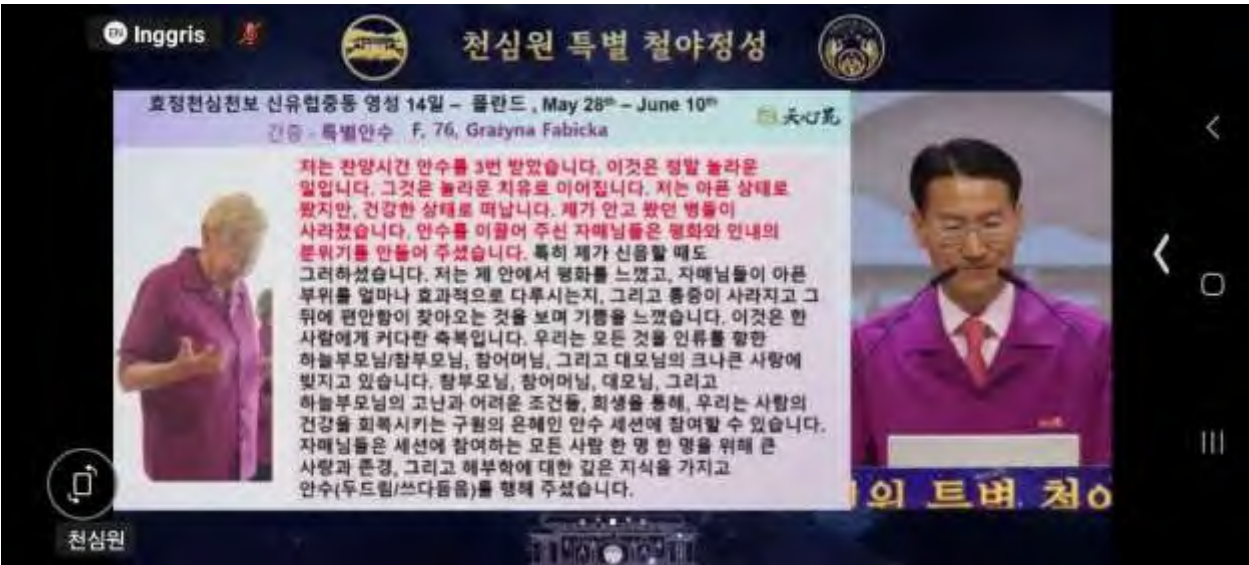

Why is the world's most severe tension concentrated in the Middle East? Is it simply because a military aggressor emerged there by chance, or because the region is rich in oil? No. Even the sharpest analytical mind or the most knowledgeable scholar of history and politics cannot explain the deeper, fundamental cause. It is because this region is the primary battleground between God and Satan.

Therefore, the current tension and conflict in the Middle East are not limited to the local population: the destiny of the entire world depends on developments in this region. Just as thee great prophets had to battle the forces of darkness to make God's Vision available to the whole world, your mission as peace makers is to reject the demonic forces that rejoice in religious and racial conflict, and to proclaim God's Will for global peace.

The Heavenly Side Endures initial attacks, Achieving prosperity through suffering and sacrifice. In other words, God's Side achieves ultimate victory through rightful order after paying the price of sacrifice and enduring injustice.

When addressing the current situation and speaking to our peers including political and military leaders who align with us, we must look beyond national self-interest and consider what best serves the world. Furthermore, we must consistently live for others based on true love.

The greatest tragedy of our time is the conflict between Christianity and Islam in the Middle East. Not only the US, but also Europe, the Middle East, and the entire world must awaken to this reality. This is why I am sending this message to leaders across all nations.

Humanity must live for a single objective: safeguarding the situation in the Middle East from devolving into inter-religious warfare. As religious leaders, the greatest responsibility rests on our shoulders. let us exert all our strength to ensure that the Middle East situation is resolved peacefully. I sincerely pray day and night for peace, as shared today, and I ask all religious leaders to join me in this endeavor.

Yeonkseong 14-day Workshop Poland after Turkey

National Leader of Ukraine came... In the past a woman, but now a young man. I asked him to receive

this Workshop together with us...

"Think of the peacekeeping work of the United Nations. Sometimes it withdrew its forces before the mission was completed. The Korean War was one such example.

For this reason, on October 20th in the Ukraine, during the world tour of 120 nations inaugurating the Universal Peace Federation, I declared before the world the establishment of the "peace kingdom of police force' and the 'Peace kingdom corps' for the welfare and future of humanity."

Next year June, in Golanoff, we will be opening a 21-day Workshop and here is the staff... and a few pure waters sitting here too, Irena and Tola, cooking for long hours... also Jacek Czysteczon, Hang Mi Gong, Eva Davidova, Ellen Stec...

They raised their own money to make this Workshop Center themselves...

There are about 50 people gathered in this dark place, one is a dormitory and the other a Workshop Center and in the middle we had a little camp fire, and we had people from Bangladesh and Nepal about 9 of them, and 2 of them came to the CY yoksa session and did it together and Oeg Monsey and bows together...

So, we did witnessing at the Peace Embassy and here and sing songs of each nation and eat marshmallows... 9 people in total came and joined the campfire... I believe that there was much love and condition of True Parents here...

Bangladesh missionaries came also... Timi Horvath

Russia, the land is very wide... a week-long train wide and then if you lie down, there are people with big physics and the train is old and smells quite a lot, but the views are truly beautiful...The Wifi isn't good with unstable signal, so I one time toured ten locations in Russia and how much the members loved...(there was a video of him descending from the sky... and the members are very pure spiritually...

True Father's Words 1990 'I am very happy to be here in the Soviet Union. My heart truly goes out to the people of the Soviet Union. Many of you have gone through unbearable suffering, and that saddens Me. I love your country and your people very much. I clearly envision a moral and economic renaissance for the SU that will dramatically affect the entire world. I will do all I can to encourage and support that renaissance.

(True Father and True Mother this is what they imagined for the entire world)

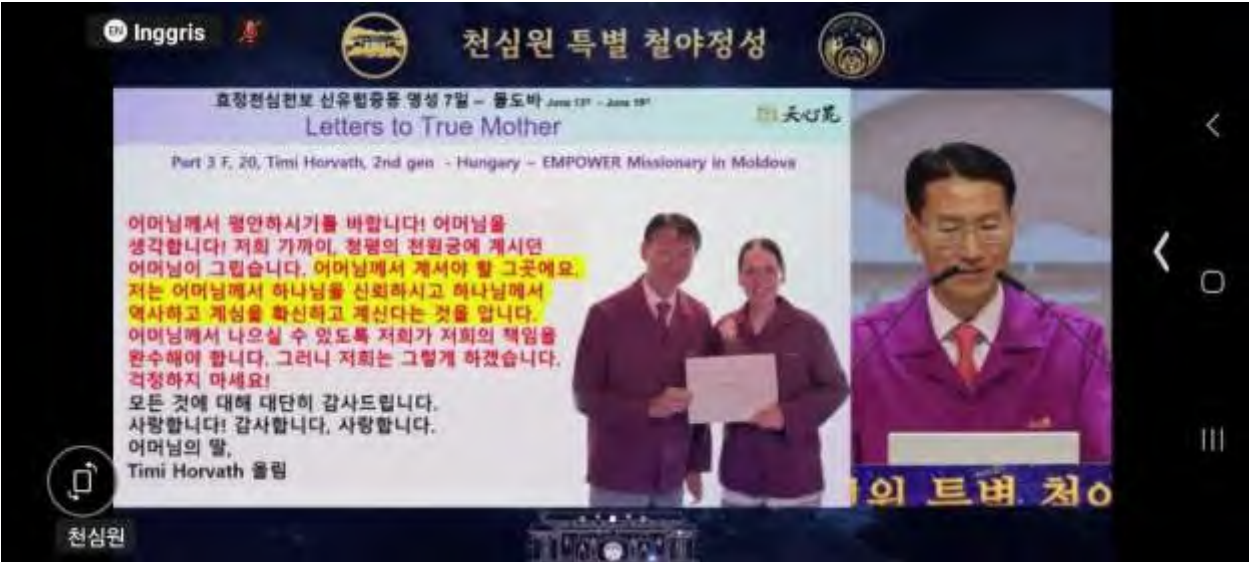

You are undertaking a new Soviet revolution, but this should be a revolution without blood or bullets--a revolution of the heart and mind. I have been speaking about the importance of the family. But I want to tell you that ain the depths of My Heart, I Feel children feel the same.

Also, I assure you that members of the Unification Movement world wide will do their utmost to work together with you for the future prosperity and well being of all humanity.

(True Parents are able to think so far in the future even ten thousand years)

What kind of nation is Germany, East and West were united...

Most of staff and members, their faith is so good, and after telling them to go to Albania after Russia, and start of that Workshop and from Poland they went straight and ansu sisters also, and a few staff came to Russia and I asked them to go to Albania... Thankfully our leader Angelucci, for 21 days, he was with me, with astonishing devotion. At first, we were in different rooms but he wanted to be in the same room... but then he had his own mission in another nation and had to go.

But after that Workshop, many of our 2nd gen and youth came and we had over 100 people, and the high-noon program about absolute sex had so many 2nd gen. Generally, they were 40%, but our first gen here are quite young... They really lifted the atmosphere and 18 of them applied for Yeongseong Academy...

I told this to Pres. Lee Gi-seong and so we officially started Yeongseong Academy in Russia, and 3 of them are full time and the rest come when they can and our Branch provides a small money each month, and the Continental Director liked this so much, and perhaps we will have similar news in Albania, and with National leader Bonyola, and she would ask about it and perhaps we will have our own Academy there

Only 4 minutes left, so maybe next time I will show this video of member with skin cancer cured.

Fulfilling Unity in the World Heart and Circumstances of Heavenly Parent

You 2nd gen must listen only to the Words of HPs. You must, otherwise you will fall away. The 2nd gen

must bear the cross. You are in a position so crucial that you must bear the cross even for your father and mother, and if necessary even for the mistakes you own sons and daughters may make in the future.

Unless you are willing to take responsibility and bear the cross and make sacrifices centering on the 3rd gen, you cannot avoid this. True Parents must pass over, even if it means sacrificing you. If so, you must absolutely obey the Words of parents and True Parents. You are not given a mouth to speak as you please.

If you complain against the world and society, Satan enters. The logic of dialect is the conflict of struggle. It begins with complaint.

At a time when Satan has shattered God's Will, established an ideological foundation and is plunging the world stage into confusion, you must not get caught in the grip and be tainted by it.

In this era of confusion, what we must contemplate is, 'Where was the original central goal for which God Created human beings. If there is a Purpose, then in order to achieve that Purpose, our Will must be the same, circumstances and Heart the same (as Heavenly Parent and True Parents).

Without this, Purpose cannot be completely fulfilled. There cannot be two diverging. Unless you stand in the position where you are certain that God's Will is your will, God's Circumstances and Heart your circumstances and heart, you cannot become a representative of God.

The goal that we fallen human beings must attain is to become one with God, so that our hopes and circumstances must be the same. Furthermore, we must attain a point of unity in heart.

Unificationists have walked a difficult path until now, but they have not vanished. God is Crying out until God is soar, for you. And as representatives for the sake of the 30 million patriots of the nation, in every place, God Longs to send God's beloved sons and daughters, representatives, desiring that you become those who can perceive to separate from Satan, receive God's True Love, and hear God say, 'You are My Representative, my son and daughter.'

792 at the Family Festival... great time of education and devotion and heated Closing Ceremony atmosphere grace filled... and next year should be bigger... seeing those we have missed and 3 nights and 4 days

testimony today, many difficulties in school and thought he had to be physically strong, lived dormant for 8 years denying the church, but his father burdened in a wheelchair but the endless love of his mother for his father... but he had romantic relation with someone who was a Christian, but he started to compare the

Bible and the Divine Principle, Is there an afterlife, Are True Parents the Messiah...

Despite this, the mother's endless prayers and he was able to have an astonishing dream of an ascending elevator with True Father wearing a suit, and as soon as He opened the Door of Chinapit, all the world changed into Heaven and the message that the Messiah would not come again... and he went to the Workshop and experience grace and spirituality, but it faded away and the after a car accident, he came back to Workshop

Coming here and 1,000 calling out every day, and attending vigil and Holy Ground, and two dreams of True Mother thanking him, calling him by name, for the calling out (while some think 210 is too much) and he could realize the value of being a 2nd gen.

Then again Mother came to him, 'Your name is beautiful but you have no luck. You must do the work of Heaven.'

He asked for a sign for what he should do in the future and the lightening sign came strongly that he should be a public official.

Hoon Dok Hae said Heavenly Parent has gone soar crying out to you... Have you experienced this. Some members are crying out until they are soar.

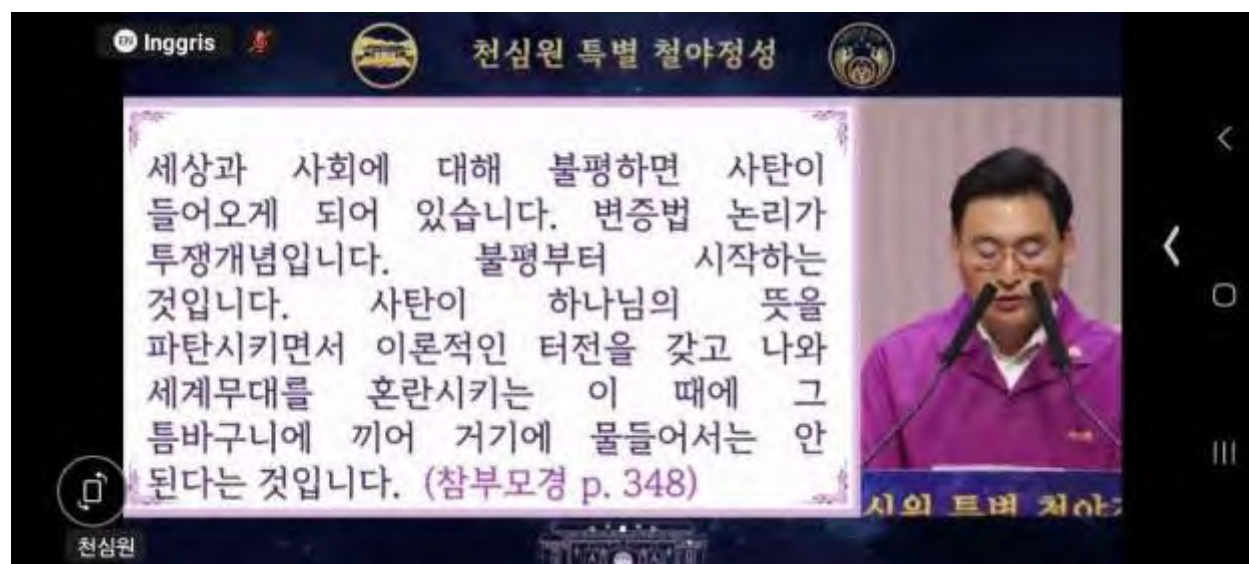

Heavenly Parent is crying out earnestly, and not knowing this your whole life is so regretful, and even now who cannot hear the cried, centering on their own thoughts and bringing confusion to the church. And True Mother prays to heal this and True Mother's Prayers are mighty.

Because the husband experienced a car accident, he is in a wheelchair and she left everything in Japan and came to Korea for a 2nd gen son, but he is opposing True Parents and going to Christianity with a romance partner. How much did that pain her heart and still she persisted to bring rebirth to her son. And if he can bring the Word to the churches and the prayer of a mother and especially True Mother's Prayer will absolutely

And Sumi Akiko received the Workshop twice, able to fulfil the words, forgive, love and unite with her husband. If she couldn't and left the side of the SW, what would happen? If there is anything you have for a person, express all of it. Let it all out. That is part of the official Seonghwa Ceremony, but while they are alive forgiving, loving and uniting, how precious is that. Even the husband had a hard time living.

Even when the husband gave money for her family to the wife, and she does not accept it with a grateful heart, what would the husband feel. There must not be families like this. True Love is living through the truth and giving and receiving love through the truth brings fulfillment of great Blessing, but to keep unforgiveness, in that family resentments spirits will reside.

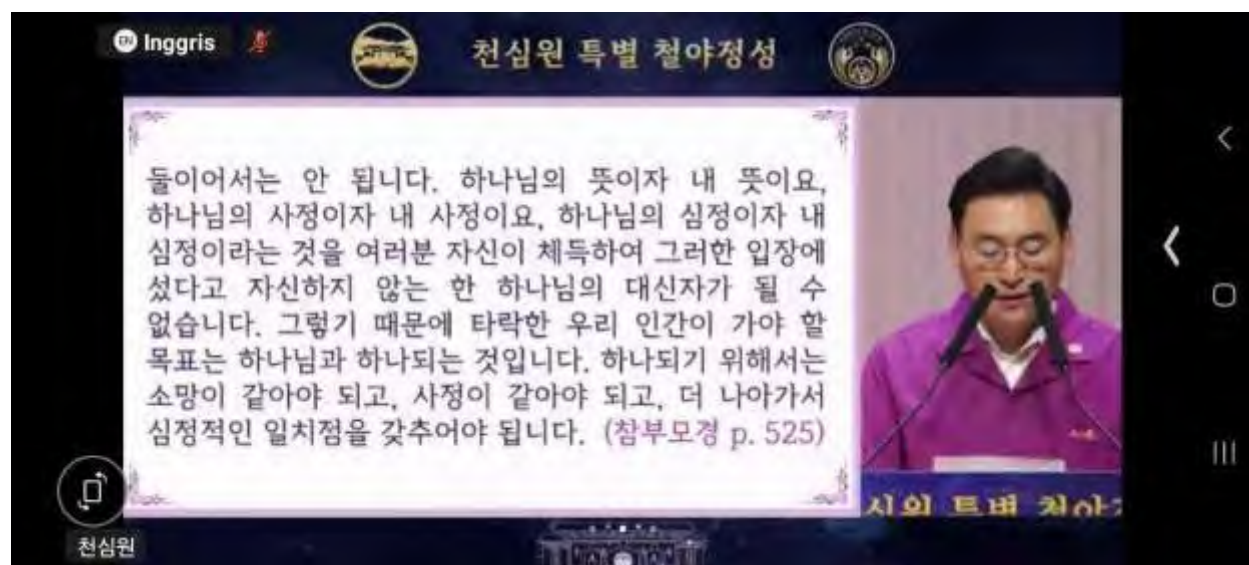

So, cleanse that resentment so Heavenly Parent can reside and blessings be with you. She was able to offer devotion and feel the direct governance of Heavenly Parent and True Parents... And to fulfill her promise, she had to visit the T of Blessing 3 times a day.

And she had to offer 12,000 calling out prayers... every single day... and she could have the experience of heartistically communicating with Heavenly Parent. And to live a daily life like that, she will be one with Heavenly Parent's Heart and the family can be exemplary in the Unification Church.

August 26th the Workshop will graduate...

And Moon Impyo gave the report and will then go back to the Middle East... He went to Moldova and the countries that are now experiencing a great revival. In the past when he was director of the Blessing in the world HQ, but one day I heard the Breathing of True Father, and, 'Tell Moon Impyo to offer vigil devotion' like the scolding of True Father and it was just before the war with Ukraine and like the Heart of sorrow for the war. He was not able to join, being so very busy, but still we must listen.

There are those who put their head on the ground in front of the T of Love... Even now, we are offering insufficient devotion... We need to offer what moves Heaven.

The sister offered devotion that could move Heaven... as well as attending every single program, and we too must offer devotion chichunkun... Is it worth what score or what scolding... We must feel this in our hearts. As the degree of the devotion rises in Europe, we can see miracles taking place as in the

testimonies and pictures we saw...

She actually had an appointment for surgery but she was too ill, and now we see how important resentment spirit liberation and devotion is.

Today's Hoon Dok Hae

Words to 2nd gen to only listen to the words of parents and True Parents, not to speak as you wish, not to complain or Satan will enter. It all starts fro complaint. At the time when Satan shattered God's Will and plunged the world into confusion, you must not be tainted again by that.

We must be willing to bear the cross. Whether you bear it or leave the side of Parents and stand on the opposite side persecuting, centering on True Parents's Words, we must reflect where we stand.

What is the solution to overcoming the era of confusion? We must think where is the Original Central Goal for which God Created Human beings? and is our Will and circumstances the same.

Say, someone said something to me online. Is it in line with True Parents? Is it to bring confusion and damnation to the church? In this age of confusion it is hard to bring all up without True Parents Words
