Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We sincerely thank You for leading us once again tonight to Cheon Shim Won where Mother awaits and Father works... Because of the lacking children, True Mother again today is suffering... At this Cheon Shim Won, we advance in endurance and love like our Mother and for our Mother and Providence with heart of cheonseong... True Mother Who finds Gratitude and Hope in times of despair...

Hearts of BFs are being resurrected and 2nd gen are gathered here to become one with True Mother. The miracles are happening and because the SW is mobilized, we are being Born anew, experiencing the advance of Spirit and Truth and witnessing Father working.

Our Omnipotent Heavenly Parent, here at Cheon Shim Won we pray with life-and-death determination. Please open the Gate at this very moment. May HMH be revealed to Heaven and earth and like a swarm of bees around Her attracting their love, and let us move HPs and mobilize all the SW and inspire even a satan, demonstrating our love and filial piety, how much we love Her, and all devotion dedicated to protecting True Mother's Being and Heart.

In Ju Ahn of BF gratefully attending HMH

TESTIMONY

gratitude

I Un Gi, 28 years old daughter from Seoul

120 days here, not merely time at the TC but committing to know Heavenly Parent and first 40-day, I was

much more timid and lacking confidence, conscience of others around me, trying to stay in the back and saying I can't do things I was asked.

but major transformation at the 2nd 40-day with my mother traveling back and forth from the hospital in a lot of pain and every time she went back for treatment and I prayed for her relief of pain and holding onto Heavenly Parent. While praying earnestly for my mother, the thought of True Mother's Heart, 'If I feel this way about my mother's suffer, how must True Mother and Heavenly Parent's Heart be feeling the children but unable to reach them to help.

True Mother, the One Who resonates deepest, tears naturally flowed and I became more able to speak honestly and openly to Heavenly Parent and my Mother unable to use her arm before, could use it and pass regular check ups without any issues. I gained faith for the first time and even after returning home, I attended vigils every day, and when the new pastor arrived, we were filled with joy knowing we could gather our hearts and offer devotion for Mother and building the relationship and for my mother's health and my father's spiritual recovery.

Offering 2,000 calling out and (can't hear) other conditions... How many years did my mother and True Mother pour out their devotion. Then I heard the news of my father's changing to be more spiritually involved... I tried to think of the Heart of True Mother, not desiring us 2nd and 3rd gen to shrink back any more but rather that we step forward and instead of hiding my heart, take on the things I need to do one by one.

It is with that heart, I offer testimony today... changed that I even joined the choir and my feelings are much more naturally expressed, even still feeling lacking, I gained courage and stepping forward little by little growing to someone who truly holds on to Heavenly Parent and True Parents and be a child who brings comfort and joy to True Mother as She walks Her difficult path...

HJ PRAISE

40-day trainees

'Happiness'

A life that is not fancy but is pure

A life of gratitude even though I don't have much

A life where I can share the small strengths that God has given me

This is the happiness of my life

There are many things that make me cry

but I can pray

Though my life is short and small,

living for my Parent's Will

This is the happiness of my life

A gift from God that the world does not understand

This is my joy

Living as my Parent's child

This is happiness

Pak Su Heh

TESTIMONY

gratitude (seems really shy)

2nd son of one son and 1 daughter

Only followed my mother to attend church when young but through schooling drifted further and further away, not attending even the main formal gatherings, not knowing if Heavenly Parent really Existed or why True Parents Photo was in our home, or why my mother insisted on going to church by herself.

After that, I faced so many hardships and making friends was harder than anything else. Even at church, I could not get along with the 2nd gen b and s. Unable to find a reason to live, I wanted to leave and became in severe depression, but True Parents led me back to the church through my mother.

Having nothing left to lose, I resolved to try a proper life of faith. After entering Sun Moon University, I went through the general 40-day Workshop and then the 13th Spirituality Workshop, during which I experienced the vast and infinite Love and Grace of Heavenly Parent as never before, realizing also even if only a little, the Heart of True Mother Who had lost Her children, and I resolved to return to my local church and pour myself entirely into restoring the future's children.

For this I served as a Seonghwa Sunday School teacher for one year and actively engaged in devoted efforts at Sun Moon University as well. But no matter how much I poured myself out, I began to feel an emptiness. I realized this was from not attending True Mother properly.

Thinking that I must offer greater devotion while Mother is still Alive, and that this opportunity exists only right now, I came to participate in this 10th Moshim Workshop. I felt at the Workshop with my entire being that Heavenly Parent truly loves me.

From the 2nd day and during the resonance prayer time I prayed, 'Why do I want to love myself, but why is it so difficult? and why do so many 2nd and 3rd gen children left, and how can I embrace them with love?'

Then, Heavenly Parent made me realize that He loves me even more than I love myself, and the very fact that I have b and s that I want to love is a joy in itself. ((It seems these are really sincere but intimate and personal things that he doesn't really want to publicize... love is vulnerable...))

I came to really want to share Heavenly Parent's Love with those around me. Having gained some realization right from the beginning of the Workshop, I was grateful for the infinite Love of Heavenly Parent. I believe that, if I move forward, centering on this realization, this Workshop would surely be a victory. However, even amid such grace, there was continued invasion. Even when I prayed, no words would come out, and even while participating in praise and devotion sessions, I could not feel any particular heart and thoughts arose that I should perhaps give up the Workshop right then and there.

I desperately tried to shake off those negative thoughts, but with each day only frustration grew, to a point where I became utterly exhausted. Nevertheless, thinking that the more lacking I am, the more Heavenly Parent would work for realizing not to just go on my own, and I did not give up.

Then, I realized that Heavenly Parent had always been with me. And that day, there was a volunteer program at the Hyo Jeong Traditional Educational Forum starting in the morning, and while working hard with that, I happened to have a conversation with the coordinator, who asked me various questions:

'Why do b and s not come to the church? How to help them return? as well as, fundamental questions like what a filial heart of attending is, that I had really never thought of before, but that I also felt were the very questions that Heavenly Parent had wanted so earnestly to ask me.

I realized that my devotions specifically for Mother had been lacking, and a heart arose within me to offer wholly for Mother, but when the time came, I momentarily hesitated, and a Voice came from deep within me, 'Have you ever truly attended Mother with all your heart?'

I wanted to feel Mother's Heart more deeply and I approached It with a heart of devotion, wanting to be allowed to pray for Mother's sake, and continuing earnestly, tears began to flow without my knowing and I realized something of Mother's Heart Knowing how Heavenly Parent has Endured until now, holding onto the Absolute Faith, that even if it takes time, we would eventually come to know Heavenly Parent's Heart.

I cannot but think how frustrating it must have been for Heavenly Parent to see me failing to understand that Heart, unable to fully Attend Mother and offer proper devotion for Mother.

We can rest when we get tired. Even while offering devotion, it is possible to take a temporary break when things get difficult. However, when I realize that Mother never could rest for even a single moment, and taking a break is impossible for Her right now, I came to realize that Attending Mother and offering devotion for Her is not a choice but our absolute responsibility. Thinking upon that Heart, during the 2nd part of the vigil, I cried out, 'Mother! Return to Cheonjeong Gung!' with an earnestness I had never felt before.

Offering prayers of deep repentance and resolution, I was able to feel with my entire body that Heavenly Parent was truly with me. I was able to experience an earnest heart and true love of living for the sake of others through volunteering, and that the heart of moshim comes from attending with hyojeong, a filial heart of devotion... and that hyojeong means knowing True Mother's Heart first.

I realized that by thinking from the perspective of the other person rather than myself and lowering myself, can I become one to fully attend this moshim Workshop, which is already passing its 30th day. During the remaining period, I will do my best to attend others with the Heart of Heavenly Parent.

After finishing this Workshop, I will move forward by sharing the realizations and graces gained through this Workshop with the Sun Moon Academy Community, centered on the Sun Moon dormitories, and furthermore, for the various 2nd and 3rd gen there and across the nation, always sacrificing and serving from the lowest place anywhere and anytime so that others can feel the infinite love of Heavenly Parent through me, I will move forward attending others everywhere, as Heavenly Parent and True Parents do...

I know full well that difficulties will naturally abound as I resolve, make determinations and move forward on that path. However, could those difficulties be greater than the suffering Mother Feels as She looks upon Her departed children. I will earnestly offer my utmost devotion with a sincerity that moves Heaven and earth for the sake of Mother's children, and b and s amid any hardship whatsoever, so that they may surely return to Mother's Side.

I believe that the SW will surely work through our prayers and devotion. I believe that no matter how difficult a problem is, it will be resolved one by one starting with the smallest things.

I will offer devotion so that all of Mother's children may return to Her Side. And I will surely fulfill Mother's Dream, singing HMMH to the very end, I will achieve absolute victory. I deeply thank True Mother Who Guided me to this Place and bestowed such tremendous grace and love upon someone as lacking as myself. I will never forget this grace and love for all eternity. I will repay it during the remainder of this Workshop and after returning to the field... TYVM for listening

(He bows to the audience and to True Parents)

'Spread our Wings'

On the road where we spread our wings and fly

The future we love becomes this very moment " Ah, Ah, Ah "

In the glow of the morning sun together with Mother, together with everyone

On the road where we spread our wings and move forward the hopeful morning sun is waiting for us

HJ REPORT

I Gi Chul Special Itinerant

(greetings and bow)

Title: The Key to Victory we Hold

True Parents's Words:

What do you win with? It is not but love. Do you understand? Losers become losers because they cannot love. To become a victor of all ages, you must sacrifice your blood, sweat and everything, bound to love beyond all ages. This saying that you will burn everything with love. There is nothing that can rise above love.

That is where God's universal re-creation would unfold. God's Creation Begins with Complete Investment when viewed from this Perspective. Let's see how far and how much you can go.

Last times' tour South Pyeonggi Province, the Special Hyo Jeong CheonBo Workshop starts with devotion for that event, with people on the individual family level offering their devotion to the church level.

When we go to the church, there is a main message and CY and consultation as well. Hak Sang Jeh Pastor was previously working at UPS... everything with his wife together... and 38 participated... 76 actually registering and the # of the resentment spirits, ancestor and collateral liberations, and especially the one pastor offered those and came and offered me breakfast

all members offered a 40-day breakfast fast and 103 bows to welcome the special itinerant... As MC, did 33 of the 40 days.

If we make 50% of our bodies absolute good spirits, they will bring everything from the SW (can't hear) going forward with Cheon Shim Won devotion, centering on True Father 4PF and Inheritors, all for our True Mother.

Not only centering on the devotions here, but for a very long time, she offered devotions.

testimony: seeing the itinerant's smile as if saying, 'I know everything about you' and feeling True Mother and that I could call Her 'Wang Omma' from now on.

Sumar Kochi Pastor next church: And there's a place where the spirits died during the Inji War, and they finished liberation and Blessing of 94 of them, and asked me to pray for them to support the East Unsang Church and witnessing to others.

We offered such devotion and Cheon Shim Won. It was a Place where I could also tear up and participate with the heart that I hope the central spirits who had received pain and suffering and had deep-seated resentment because of my ancestors will be liberated.

With the ansu, for the first time, I felt an unusual pain and was so startled. And when I gave the report to the pastor's wife, who asked if I applied for the ancestor liberation. I realized this is the feeling of the spirits.

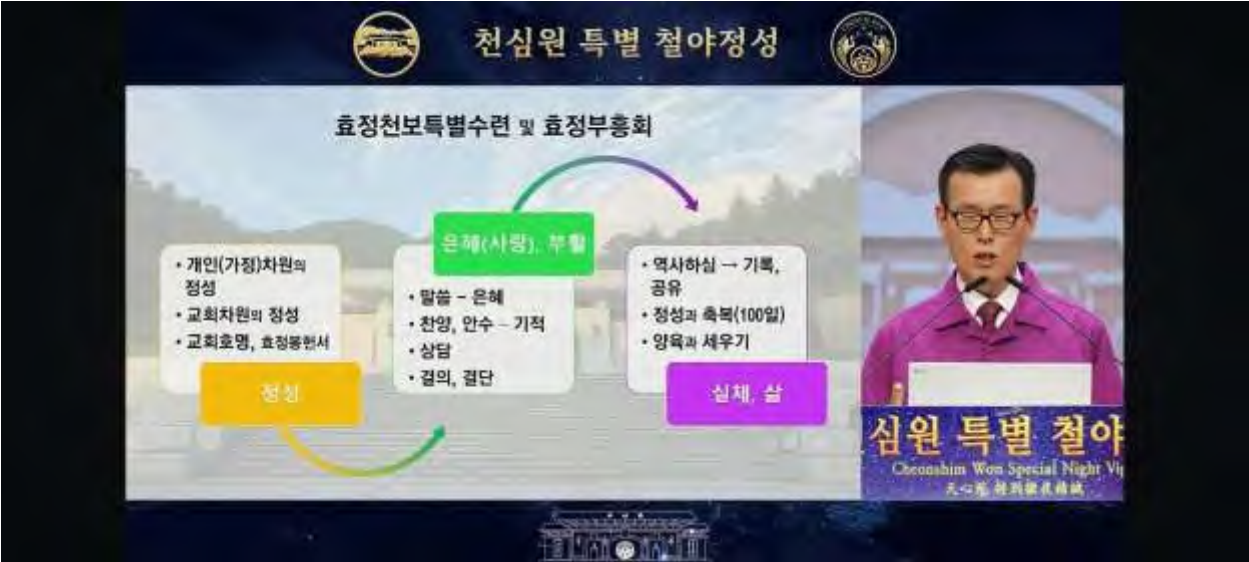

Pastor was from the same area as the church. They invested so much for the youth, and have a table tennis center and buffet. I thought to myself, 'They want children of Heavenly Parent to grow with a confident pride' applause

BFs felt we should live attending Heavenly Parent and True Parents, not only in our hearts, but also in substance, and a Place where every single family member can establish a fervent faith and intermingle with Heaven... We will devote our entire hyeongseong even more so that our district can bring joy to Heavenly Parent and True Parents.

The Heart of Heavenly Parent saying, 'Let us live together' reached me. I want to move forward with more confidence and as a pure water, converse in love with Heavenly Parent and True Parents.

And I will participate in church more actively...

another... thinking more about my responsibility as pure water, and remaining with me is not to think of faith as my parents' faith, but of my own... We are not people who are just sacrificing for the world, even though it is a path of giving good influence to the world, applause for our pure water.

the Pastor was stationed where Shin chul nim visited and you could feel the grace. The most important thing was, even after liberating the spirits, we must continue to pour devotion to nurture those liberated spirits continually...

The Inheritors attending the precious members, and I will run to the very end.

They are doing a lot of care of the environment, following the Words of True Mother. And after liberating the central spirits, they must grow to cooperate with me...

I could feel that we can be one together and hope and tears shared in eyes of b and s...

After wondering what should I say, I entered the consultation. Two of them were about a child that miscarried, and even they did the liberation, there was something else was there and tears filled my eyes. And this shows the result of spiritual matters when living without organizing our spirit world...

I felt grateful to the elder who led the praise and grace... the history about the Fountain of Life, Water of Life, and testimony about giving devotion at T of Blessing 120 times, and he gave the words that he wants everyone to receive such grace and Blessing... Now we have the Hyo Jeong Tree to inherit the Shim jeong Heart of Heavenly Parent.

True Parents said there will be a liberation of the descendants, and that the earthly liberation message was that it was the value where we receive...

Hyeungjeong North... seeing renovation and change and they will move and change the interior walls. The father of the pastor was working so hard remodeling because his son was working so hard and wanting to help the pastor. This was an atmosphere where the members become one with the leaders naturally and the #s increase.

As a young pastor lacking ability and with limits, when I could do nothing but worry and send tears of prayer, and then Heavenly Parent would send the itinerant, allowing the heart and spirit of the families, feeling that Heavenly Parent and True Parents are working and guiding us, and for the day True Mother returns acquitted, and for the dormant to be returned and so that True Mother's Body can be completely healed and strengthened.

From the day of True Mother's return, we must be able to report that we have become one with the Inheritors... Seeing the church leader giving ansu with utmost devotion, tears poured out knowing that

they had been offering jeongseong for a long time and as if Heavenly Parent were directly issuing the jeongseong. Heavenly Parent Who knows all of our love and difficulties, and let us be one with Inheritors who resonate with Heavenly Parent and True Parents of HEH...

True resonance of true love is when we have the heart of thinking of our b and s and a community... and where we went to the South Pusan Church where True Mother would go whenever She visited Pusan

Since awe and gratitude arises in you, how great was the cheonseong of True Mother Giving Her Blood, Sweat and Tears. From now on, I will seek to attend and repay the Mother Who cut off the dark spirit within me and untangled everything...

East Usan Church, a filled sanctuary on a Saturday, members one with the pastor doing activities centered on the Great Epic of the Chosen Han People of Korea...

Everyone had a grateful and active part... The pastor's wife cultivates the youth with such motherly love. It is easy to blame the environment or circumstance, but when we come to know that before that, True Mother is Walking the path of Love with Her Whole Body Given over... and that Mother is Guiding our spirituality with a bright light never extinguished in the dark.

As we move forward with the Lamb of Truth and Righteousness, truly love each other so that the SW will also cooperate and we can make resolution for the unification of the Korean Peninsula and we can become the Families pleasing Heaven and True Mother...

331st day of True Mother's suffering but our church leader always goes to offer devotion and I once went there offering devotion under the tent and it felt as if we were at CP... We felt more power to see a pastor really invest and pure water as well, leading the CY yoksa.

The visit of the itinerant was truly a great grace and 1,600th Cheon Shim Won devotion brought True Mother's Love all the more and the song 'Way Maker' and lyrics, assumed the path opened by Heavenly Parent and True Parents... We make the responsible resolution, and immediately following the revival meeting, we will fulfill our responsibility.

Missionary: Earnest prayer for the blocks to be dissolved... Deaconess came up to me several times with

gratitude for the grace.

I am the one that wants to know how to solve the problem more efficiently, but hearing of the resentment spirits, I got answers and refreshment and why the Cheon Shim Won and why we must become one with True Mother

First revival meeting, a lot of missionaries offered conditions, and making jeongseong and preparing everything through HD prayer... liberating the Catholic martyrs... Looking forward to coming together for what is necessary to create a unified Korea, and whatever Mother's situation is, She will move forward, and we struggle to become one with M more and move forward.

healing knees that she could only offer a standing bow, and praying to True Father to let me offer a full bow, praying like an earnest child. And I received, 'Offer 23 full bows throughout the day in one day' There was some pain, but while I was offering bowing, I wanted to offer something more and offered a 40-day bow condition.

As soon as the CY began, I heard, 'You can be happy now'... but she was still struggling but I heard also, 'You can be happy from now too' and then seeing her so happy afterward, and I will never forget...

True Mother: Now, if you pray and offer jeongseong, you can solve problems by yourself.

True Parents: With one heart and one body, let us become one with True Parents when we have received the Blessing and with the Words 'Welcome Me and Receive Victory', it is with the absolute love and conviction of True Parents... We need to inherit those, because with the love of True Parents Sacrificing everything and making the Words of Restoration and Showing the Path where the Ideal of God's Eternal Dream will be Realized.

When I was meeting with the other Special Itinerants, one of the things shared was that we need to offer devotion for all of the members who opposed us in the tour. And we ended the tour, but the reason we had the revival tour was to share and inherit the Love of True Parents and confidently show that these miracle things were happening, and all the Heavenly things done, sharing this is the most important.

The central figure needs to take responsibility, not only separating the spirits in our bodies but them being liberated and Blessed as Heavenly Parent's children, and when they come down, we will be able to live a life through the protection of the AGSs, and the more we realize that, the more the spirits can liberate that realization.

True Parents: The miracle of miracles for us is having the Shimjeong of our True Parents and becoming true children of our True Parents

and 'The Word 'Blessing' is what many have yearned for and the Desire of Heavenly Parent for 6,000 years. Until the Word 'Blessing' could emerge in the fallen world, there was untold effort of HPs. It is a Word that could emerge because True Parents Indemnified and Restored the entire history of the Providence and They were Victorious.

and 'Sacrificing everything because of the Victory of Love, has found us in the decision of Blessing.'

So, we who have gathered here, who are participating in the Cheonil Vigil Devotion are the substantial manifestation of those miracles... Aju?

Since True Parents are Saying this, do not be afraid. Wherever you go, speaking the Name of True Parents, the SW and the PW will participate. What are you afraid of. Cry out boldly and boast before the world that you are the sons and daughters of True Parents, bearing in mind that, only then, can you stand in the rank of ancestors who guide the 7 billion people of humanity and ancestors who visit Cheon Il Guk.

I want to ask you all to become the filial sons and daughters and loyal subjects of victory.

the Great Works that commemorate Father's Cosmic Seonghwa, let us meet the living and working True Father that the Works of Revival Unfold. TYVM

BREAK

BUSKING

Hoon Dok Hae

The Place where Satan cannot enter is stained with BS and Ts. Through true love, our families must become the owners of Cheon Il Guk and filial sons and daughters. To speak of becoming an owner can only happen after becoming a filial son or daughter.

Next, you must become true families of saints and loyal sons and daughters and owners. That is not said lightly because this is a position that lays an invisible cornerstone. The invisible Law you must practice with AFAL and AO going forward with the heart of gratitude, even though a myriad of path of blood, sweat and tears, only when your prayers are surrounded by that can the satan not enter you, because there are those tracks of BS and Ts shed for the sake of others and shed blood for the sake of others.

But because the satan is egoism, it cannot invade that Place. The person who lacks a sense of responsibility in all things is simply drifted away and is swept along. True owners must not forget this for a single day, hour or minute or second for the sake of restoration of this nation and this world.

Thinking and thinking again, borrowing Heavenly Wisdom we must mobilize all the methods and abilities available to us as human beings to turn things around. If you do not turn things around, there is no future for us. We are one Unification Family. Wherever we are, we must achieve this Purpose with One Heart and One Mind.

Therefore, let us become true filial sons and daughters and true loyal subjects who return achievements to our Creator Heavenly Parent, even greater and higher each year, so that we may trust and rejoice. We must not become people who merely come and go. In terms of taking responsibility for everything, we must have a sense of ownership and add responsibility.

From now on the Unification Community will ascend beyond the nations of global fortune. If this people do not accept it, the world will accept it. I am convinced that the days will surely come. The shout of 'Welcome!' to True Parents will resound from all peoples of the world in the hearts of 30 million patriots.

The thought of living in comfort is never forgiven for someone who represents Heaven. You cannot know unless you directly experience what hope God Holds. Unless you die to yourself, you cannot know that heart and only through hardship can you finally come to know it.

You must become a person who lives within the Heart of God, even if the entire world opposes, we must carve a way through this path. Even alone, we make this firmly set.

CHEONSHIM CHOIR

'I Will Love You with All My Life'

PRESIDENT LEE GI-SEONG'S MESSAGE

Aimi the church leader... Internationally 70 at the HQ in Zambia? Sambato? missionary currently participating in the Workshop and connected to the HQ every day and the video we viewed..

H USA, Cameroon, and all around the world... marking the entire Life of True Mother to Fulfill the Dream of Heavenly Parent, it was Her own determination on the path of HJ... We are hearing...

Heavenly Parent is Alive and will be revealed and the Truth Judgment will be shown, and reach the Heaven with our unconditional faith...

Unji trainee... 3 WSs she attended... She said there is so much transformation... She reflected upon her shimjeong and her mother's situation, how difficult for her to pray for even one person, how must it be for True Mother and Heavenly Parent...

She went back to the church and was protecting the church... and continuing every day calling out and her mother's health changed and her father was able to participate in devotions.

She had a time to resolve herself and fulfill the Words of True Father, and that is how our lives can change, our faith transformed... More important than our faith is being reborn through our True Parents... The day of that rebirth is what's important.

Trainees sang the song... A lot you may know him from his testimony... when Pres. Tsujingte went to his hospital bed when he was unconscious, when he said 'Holy Mother Han' the pitch black room became spiritually purple.

Starting from middle school distant from the church, wandering around and became in deep depression. But because of his mother's devotion he went to the spirituality Workshop and experienced love for the very first time, and continued volunteer work even he was empty at heart. He reflected on why. And continuing devotion, he realized it was because he was unable to attend True Mother.

Since then, he has been in a position of such joy to be able to attend True Parents. In the course of Moses, there is about the covenant and the holy of holies, where nobody but the high priest goes...

(tape cut at about 9:17am... Pres. Lee's Cheon Shim Won message different post)
