3 months old surgery for cleft lip and several days in intensive care, unable to stand up until 2 years old, but leg development delayed and rehabilitation and help of many people, able to safely graduate in 2020. applause

Despite many difficulties and after entering university (tears) ended up dropping out... Wondering what to do about my future career path, my mother considered my attending 40-day Workshop... I thought I did not want to go to a place I thought was for people with problems.

I liked cleaning and would participate in the volunteer work academy... and then WSs...

After that with a desire to do something more for True Mother, but eventually began to struggle with interrelationships again and prayed and as if Father was suggesting the tenth Moshim Workshop once more.

Two goals: Become a person who enshrines Heavenly Parent and True Parents in my life unshakeable no matter what

Second: receive the Blessing

No matter what, if act centering on Heavenly Parent and True Parents, miracles will undoubtedly happen...

The work of pulling weeds allowed me to reflect on my faith and the way the weed roots were reminded me of my roots far too shallow...

The Training Dept said to participate with a mindset of clearing all obstacles that True Mother Faces, which made me more happy myself, and desired that True Mother come and Visit this Place...

During silent meditation, I encountered God Grieving so deeply, and eating lunch alone had feel of God's Loneliness always shedding Tears. Grateful to touch if just a little the Heart of Heavenly Parent, and while speaking in the future, I must keep that Heart in my heart.

From the lectures, the most impressive were of HyoJN and HeungJN and that each and every one must possess the posture of absolute obedience to Heavenly Parent and True Parents, with no choice but to become an offering of sacrifice.

applause... I fell it is the same for us today. Even Mother strongly emphasizes Heavenly Parent's difficulties, I feel that Mother has Her Present circumstances because of our lack of attending Her and began more earnest prayers for Her release.

Also, listening to the lectures of True Parents's Life Course, I wanted to discover what could I do to witness to True Parents, and I thought I must put into practice the moshim of HyoJN and HeungJN in their life course.

At that time, the Will that emerged was non other than the welfare of others, which was a joy to live for others and was the very Love of Heavenly Parent. So, I want to wear in the welfare field attending the elderly with special care... and also because of my disabilities, I want to be a source of hope for children who also have disabilities. applause

While receiving the Moshim Workshop means always enshrining True Parents at the center of my heart where I and others rejoice. I will become the best in the welfare field with a heart of comforting True Mother big applause

Currently active as student in the Academy and in the process of 21st Spiritual and 9th Moshim Workshop...
I practiced faith passively growing up, but received a lot of love from b and s without hardships. I wanted to know more about the Church, but with the perceptions people had about it, I wondered and wavered in my faith, but with desire to regain my passion and regain my faith, I took a leave from the University and in the that Workshop I encountered a new direction in life, setting goals and standards and with devotion began to know the Heart of Heavenly Parent and True Parents, and wanted a public service life.
Heavenly Parent and True Parents, gave me the most precious love, and True Parents poured love upon me and I wanted to share it with others, and feeling far too lacking still, so feeling if was something I could only do now with a year of leave.
Hearing, that I should attend Heavenly Parent and True Parents seemed like a burden, but from the Workshop I learned what that truly was as a true way of life. I was able to overcome, rather than by denying negative feelings, learning to love and embrace them.

I had not been spiritually sensitive at all, from then tremors came when I did devotions... When marking the Anniversary of the Korean War, my right hand began to shake violently and if I tried to control my hand, my legs would shake violently and then my stomach and a heavy pressure and I slumped down, difficult to raise my hand, then vision of a woman being tortured with unspeakable atrocities, having to suffer as a victim from the war and a sense of resentment and agony I could hardly bear.

I had the feeling at the same time, that I wanted to be happy too, and why did this happen to me? I was able to resolve for that spirit but then other incidents and I was told it would be dangerous to continue to center of myself, and I began to see how wonderful a life of cheonshim is with Heavenly Parent and True Parents, and I want to make these values known to many others, but I felt I needed to nurture my faith more...

I will cherish every moment from now, and before the academy activities, I set a goal to find the mission Heaven desires for me. My future career path was not resolved... fine arts, cultural affairs, the path of a public official, but I want to grasp this and have an offering devotion of my own consistently, to build that habit.

So, I sincerely offered small devotions for True Mother. Also, to find how to be stronger when colliding with challenges, even if no immediately change after hard work, I will always overcome challenges with a grateful heart and TY Heavenly Parent and True Parents always guiding me.

HJ REPORT

Title: H Mom and Dad Wang Mom and Daddy

Journal of 40 days... favorite song of HyoJN 'Sailing' Sailing with our

sailing together... Can you sail, hear my voice, flying...

Why did HyoJN like this song and I asked Ai...and actually, the person who composed it made it with a spiritual meaning and so I made the title...

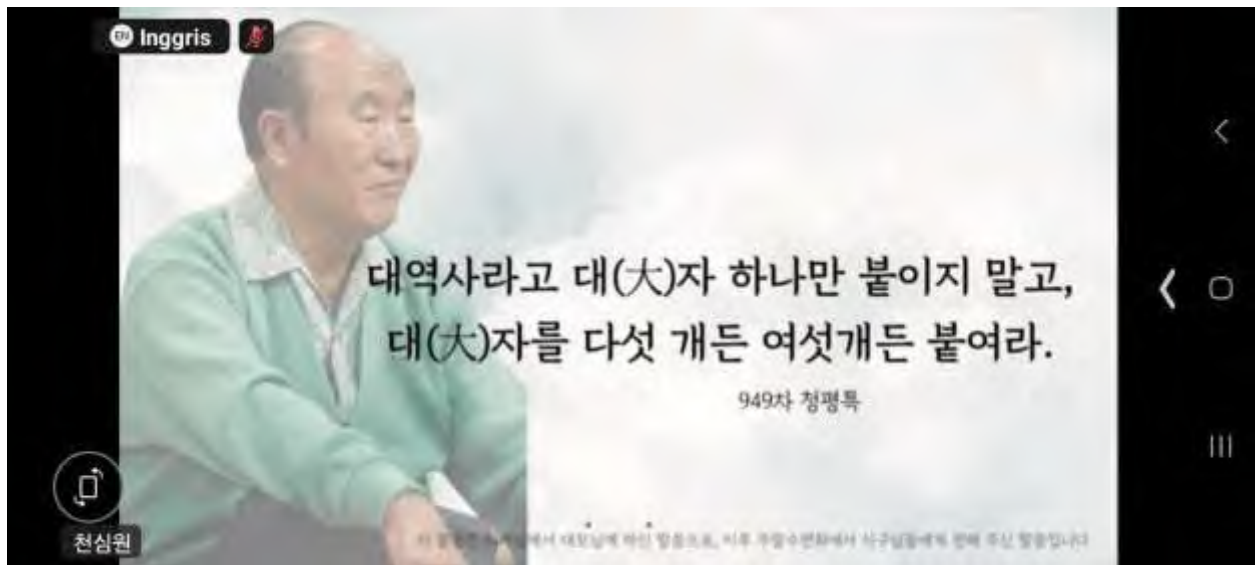

What is happiness, to find the Parents we lost for thousands of years... This is the Journey of loneliness of our Heavenly Parent stained in Pain and Blood 'Can you hear Me, My Baby?' That was the desperate cry of Heavenly Parent that we learned, shedding and crying for thousands of years...

We could hear the voice of our Mother, so I will join your Voyage Heavenly Parent, with that devotion, on behalf of our God, become the magnet of Your Love. The favorite Word of our True Parents is jeongseong... Through devotion we perfect the magnet to be of True Parents's Love.

So, tearful prayer shedding Blood. Jesus was praying in tears and shedding Blood. That is the pine tree and rocks being gone, with His trousers stained with blood and tears in winter days.

So, centering on Rev. Chung of International Dept, we were to put a deep anchor of love. For 9 days offering devotion before the Workshop, centering on Rev. Lee, 7 great leaders and international covers most nations... me and counselors and staff and volunteers

I was told that my devotion was not enough, so I did fasting

True Parents's Words: Parents love their children, care for them, and earnestly hope for their success in all respects of life. Such a heart reflects the heart of our Heavenly Parent

So actually the coordinator job is quite difficult, but while facing those telling others to move on. And in this picture a clock... 3:48am time after vigil, every day and night offering devotion and creating and perfecting Heavenly Parent's Magnet of Love, and centering on that devotion the staff's Workshop came... many came as staff to the staff Workshop, 1,000 bows, special prayers and calling out name chanting every day, not an ordinary one but it was like my son and daughter can't you hear the voice of your Parents... like that kind of heart ----

Your sons and daughters, Heavenly Parent, are coming to this Workshop, so please Embrace them...

This sister who does not speak English applied for the staff of the Workshop. She testifies that she had a fear not to be able to do well, but still when offering 1,000 bows, she heard True Father, 'Look at you, you're doing good.' Even when I did not believe in myself, Heavenly Parent believed in me and instead of 'I cannot do it' my heart became 'Let's try'

Many age ranges and from many nations... 1/3 Taiwan...

Malaysia, USA, many trainees... So, as we departed on this voyage, we concentrated on the Cheon Shim Won devotion. It is our desperate yearning to our God amid the storm like the child looking for his or her Mother, crying out.

So, not only Friday but also Saturday and Sunday with our bodies all sweat. There was a couple who did 7-day fast and many did 3-day fasting. With that, there was an amazing spark with staff staying up all night. By this, we perfected the magnet attracted HPs...

My flesh was weak, but my heart was rejuvenated...

One Couple... This was a momentum where the resentments of a thousand years was melted down, everyone just a baby to our Heavenly Parent, and Heavenly Parent crying out, 'Can you hear me?' but still we couldn't hear, but now 'I can hear You Mom and Dad'

When I was praying at Cheon Shim Won, I heard God's Voice, 'Good job, my son, my daughter, and I felt it was a success.

So, after long nights of devotion, they could realize the substantial experience of love. The program was proceeded in this way towering up the devotion.

True devotion is the love of God...

Yang En-Xin Taiwanese member

The deep love and desire to protect True Mother, I pleaded to overcome my limitations and cast aside all concerns about how others would see me and calling on HyoJN, HeungJN and DMN to share even a small portion of Her Loneliness and Suffering

I came to the realization that I had only been protecting myself and no True Mother. I could not stop crying as True Mother's Anguish and Sorrows were coming to my heart...

True Mother had told us to pray for yourself and your family and Heavenly Parent telling each and every one that God and True Parents want to Embrace and actually touch them and many members felt that their hand became God's Hand. There were many testimonies...

Beyond the shoulders of each other, I felt the Embrace of Heavenly Parent... Through the resonance, they have felt the Love of God.

Actually, I had a big scar from my childhood, but when my fellow trainee embraced me like a Mom, all my resentment was gone. It has become an ensue practice to resonate with the Heart of God and this Energy of Love encapsulated within ourself, we realize we are b and s, sons and daughters of God

Through one training coordinator we heard True Mother instructing us and it led me to reflect on the US as the elder son nation, and we shed our prayer points and focused on what Heavenly Parent desired... We can gain the spiritual strength to overcome any obstacles.

Then we wrote a letter to True Mother. Dear H Mom, Wang Omma, Your Lonely Path that You have Walked, Your Life is now resounding in My Heart, now I will be your Joy and bring You happiness.

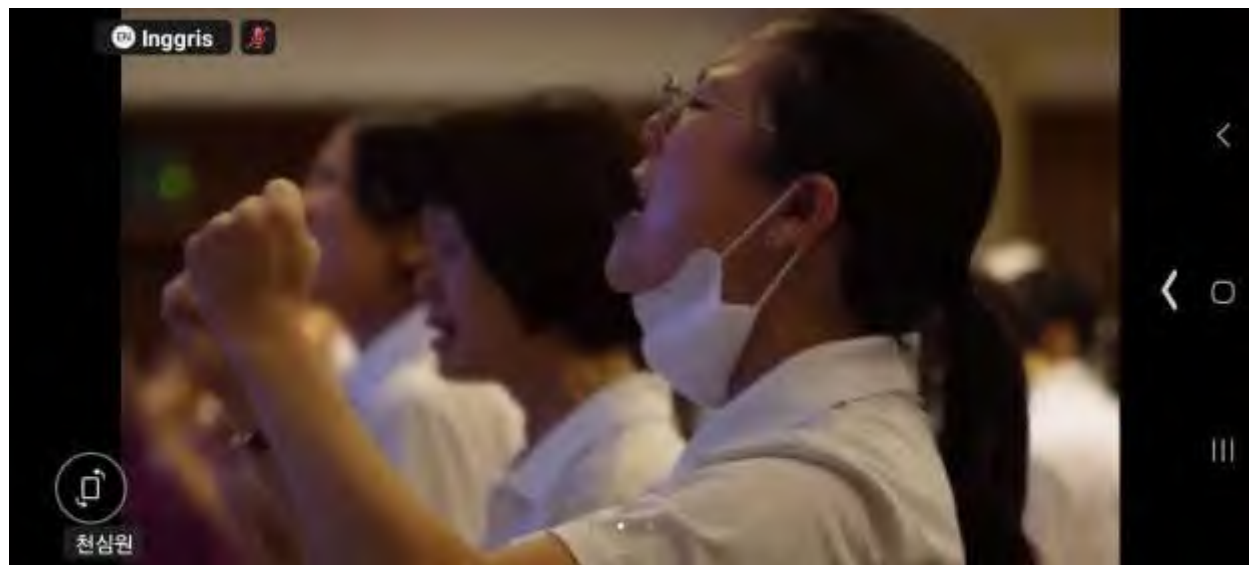

And we have the foot washing, practicing attendance to each other, we felt the life of faith taking deep roots in our lives, and the shin in ae il chae

the oneness of God in love

and we read 'We are Sailing...

It was difficulty, but now it is settlement, not like we're still on the storm voyage, but rather we are flying (with that determination, afterward, hand in hand, shoulder to shoulder, leaning on each other, walking together... loke Holo Arirang)

not just sailing, but now we are flying in this time of settlement, and we have offered this song of True Parents... and they are dancing to Every Praise... (Every praise is actually a song for our Lord, as a servant of God, every praise for Heavenly Parent, rather than for the Lord, a praise for Heavenly Parent... changing the Words... changing the words to Heavenly Parent... changed the words... and the level of growth and Providence in our hearts with our Heart of Heavenly Parent Yearning to see babies crying like that, returning back, a time of returning back as the children of our Heavenly Parent, and this praise became like the purest prayer.

And the reflection of the trainee: When I put down all ego and persona, this was the purest prayer... And the Workshop trainees did this praise worship and this reflection:

The praise moved me and the tears I shed during the praise were tears of happiness, overwhelmed by the immense love of Heavenly Parent and True Parents...

Liu Taiming, Taiwan

special meaning for me in an experience of love

I deeply repented on the Grace of True Parents Who continue to Embrace us with Love without ever blaming us, and that the physical efforts amount to almost nothing. I will fight to the end of all my life to achieve the victory without fail.

So, the trainee made the resolution that they are the true sons and daughters...

And in the Ocean of Cheon Il Guk, they have gained back a lost God, Heavenly Parent, and become one with Wang Omma and made a resolution to be the Temple of God, the flames of God and Grace to spread the love to the world, such a determination... to be the Hands and Feet and our Voyage will not stop until we embrace all who are suffering...

Looking back, not just the teachings, but Heavenly Parent and True Parents were in Solitude, 'I was the only One Remaining' so in our heart's bond, we will set out together, not the ones with our fallen nature, but just with this momentum, we will fly with our Heavenly Parent.

Se set out to sprout out with our God... And in this Photo there is a gorgeousness of True Parents Dancing... Actually, True Mother didn't learn how to dance, but still She's so beautiful, and Tears Smile in the Festival of Hyo Jeong, actually we are not just the ones to cry but to fly also with our God, and Heavenly Parent wanted to see this liberation of God's Children...

So, please start the music and this will be a time to offer a joyful dance of delightfulness... GOD IS HERE

Those who offer devotion must offer even greater measures of devotion. Those who do not offer devotion have many excuses. Those who offer devotions have no room for excuses because they ((are received in shared joy and not wanting to be alone from each other with God))) and remain endlessly wanting to give even greater measures...

God kept silent. From the Creation of the world until now, God has not Said a single Word and continues to offer devotion, starting from the Position where God can say that there is no Being throughout the entire universe with which God does not have a relationship, God is offering even greater devotion with loyalty so that the lower Work can extend to the higher Work.

The Path our Parents are Walking today is precisely the same. They always start anew. The Path our Parents are Walking today is precisely the same. That means that new devotions must be added. The only Joy of Victory follows laying the Foundation that can remain for the nation and the world, establishing the indemnity conditions for the liberty of all people and stand in the Position to be recognized by both God and Satan.

The amounts of devotion must be offered. Father Lived that Way. That is why He went to CP every single day, returning home at midnight, because He longed to see that Land. He would go right then on the following morning. He always offered Devotion.

We must offer devotion. We must bind our devotion together and return it to Heaven. Although Father was 80 years of age, He added one thing every single day. Even is He was sweaty, He shed one more drop

today than yesterday. Whether Walking or Moving, He added one more action rather than subtracting. He Advanced.

For Father there is no such word as 'stagnation'. For Father stagnation is linked to death, while (more devotion is) prosperity is linked to the Kingdom of Heaven.

Centering on Spirit and Flesh, the Land of CP is a base where an individual can be reborn in emotional and heartistic ways where family can be born, a nation can be born, and furthermore, not only a heartistic base but a place where Heaven and earth can be reborn, but also a base of heart where the Kingdom (Heaven Realm) in Heaven and the Kingdom (Heaven Realm on earth) can be constructed.

Through trials, you can develop by leaps and bounds. The fact that the young people from around the world gathered to receive education, BFs received WSs to advance into the World is taking place right here in CP, something that can be fostering in all the land of South Korea, not only for the nation's sake, but for Asia and all across the world...

PRESIDENT LEE GI-SEONG MESSAGE

TY for that encouraging applause

Today the 1,633rd Special Vigil Devotion and also the 30th Chil Pal Joel... We were commemorating with Shim Il Joel... so this is the Formation of True Parents's of Heaven on Earth and in Heaven. So, we were reciting this Pledge.

And when True Parents Proclaimed that They were Proclaiming the Realm of True Parents on Earth, still we haven't expanded this realm of our confidence, and our families haven't built a Realm of Comfortness for our God.

There are many different courses as an individual and as a family, and with the Spirit of True Parents's Proclaiming the Comfort Realm of Heavenly Parent and True Parents... so, inheriting the Spirit, I would like to Bless everybody here and your families to become the Realm of Comfortness for Heavenly Parent and True Parents.

So, the Comfort Realm of my Tribe, the Comfort Realm of my Mission areas, and the Comfort Realm of H USA, H Korea and H Japan and H unified world, I would like to invite everybody that they can make their resolution and determination to start anew tonight.

We have True Father 4PF tonight... Yeon ah Nim is here. She is so busy, but she came. (HeungJN's Wife) She has many performances in many places and cannot be here, as I'm told. I hope and think that, in these times of difficulties, those performances will show Hoon Soon Nim to become a great devotion for our

True Parents... She is offering tremendous devotion... applause for all members of 4PF True Father...

332nd day of True Mother's hardship... many churches are gathered in front of the DC now for many nights, not just a series of days, but on behalf of humanity and for this nation, and behalf of True Mother and Love of True Mother, not just the trial of our unfilial heart and attitude, still we realize that True Mother Herself is a Light of Truth, and as we offer 1,633rd devotion, when the Truth is Revealed True Mother will be acquitted and comforted on the realm of this cosmic Comfortness.

Message at the Main TC, they have finished but there are those remaining, maybe attending the pure water Attendance Workshop and they offered praise.

And we have about 41,000 gathered here tonight.

Many are increasing #... H Japan, I hope the renting problem is resolved. For Heaven to work and give us wisdom depends on our hard work, and many are online to offer devotion... Africa... Yeongseong Workshop, every day offering devotion US and Sweden many members and Mozambique, there is a yeongseong academy and Philippines and Russia and Washington Church 1,000th vigil...

When you offer a thousand times every night, your spiritual flow and vibes are different, and when you pray connected to the Main Branch, there are many on line watching and not so much offering devotion, and even just watching there are many complaints, but even on Zoom, they are offering like really into it, and connecting to the Main Branch, all that is happening in the Main Branch when it get higher the amazing work of God will cure and the ways and methods are with the WSs.

Also, in Russia, there is an amazing work of resonance. You heard from Rev. Moon Im pyo where diseases were cured. We need to not just watch devotion, but with ALAF and AO, the amazing grace will be unfolded.

This the GWs right before True Mother's legal sentence will be given. So, I hope many members will join and gather our hearts to touch the Heart of Heaven and lay the foundation for the SW, because in the SW they are doing their best

Message: All the church need to gather their fullest devotion to mobilize Heaven and offer the victory, the Work of God visible.

In H Korea and international, all has to gather the devotion to touch the heart of our Mother.

Second gen testimony, many hardships, thinking of a career path and his mother suggested Workshop GPP to restore the environment of Gapyeong County, hard physical labors... but he graduated from 3 GPP WSs and then underwent 6 times so 240 days and 6 months and centering on Heavenly Parent and True Parents, he had the mindset and now he is preparing for the Blessing, so his goal is to be one with Heavenly Parent and True Parents and in the welfare field, I believe he will be the best.

And he went to winter service to Academy and other things are much easier, but I believe he will be a great man, having experienced many things, and when we fail our responsibility True Father will be offered as a sacrifice,... many members of True Father were offered as a sacrifice, so we must try our best...

Tonight our 3rd gen, granddaughter of...

In the past, when she joined the Workshop, she was influenced by the trainee spreading bad rumors about our church and she was downtrodden but now starting anew, realizing the love and heart of Heavenly Parent and True Parents, but to become really steadfast, she joined the academy and attendance Workshop, and while going through it, she found what is the proper mindset.

She had her hands and legs shaking and seeing the visions, she shows the spirit of a woman victimized in a time of war, and she must be the one to control the spirits. So, this great victory is making her strong enough to control the word of angels and control the spirits that come to her. That is the goal we need to reach...

Many members were trolled, swayed by those parasite-like resentment spirits, spirits controlling them, swaying their life. Please come into the perfection of controlling those spirits.

Our dear sister wants to become a public figure, find a mission centering on Heavenly Parent and True Parents, and life of devotion, and seeking a life-long life of faith to the end... So, this is good.

Now, we heard Dr. Moon of the international Workshop, and the 3rd batch was a good thing. Japanese/Korean/International Team are all competing and moving forward, and our mentoring center can become the amazing team to move on to harmony...

Nevertheless, even the 1st and 2nd were good, the third is the best.

True Parents's Words: Those who offer devotion must not complain or offer excuses. Excuses are not good. When we offer devotion, no excuses, but instead offer more devotion, so that there are many papers from the HQ saying morning fast and prayers and telling and commanding, but if members do not offer it voluntarily, it is not good. So, let us voluntarily offer such a life.

The title was that we need to offer only greater and greater levels of devotion. There are people going to Holy Ground, offering fasting... there are many measures, 3-day fasting 7-day fasting... this is not something that they are told to do or forced to do, but they have the self realization and resolution to offer it voluntarily.

So, the special Cheonseong Special Devotion is not my doing to start, but the Words of True Mother to offer Cheonseong Special Devotion... They are doing like 24 hours of devotion in rotation. bowing, CY, praise, reading... Their spiritual vision is opening, talking with Heaven. This is the realization of True Mother's Words. We need to talk with True Father and have these realizations personally.

So many are deep rooting their faith... and to offer even greater measures of devotion, let us ask each other and offer. - chanting prayer even 3,000 even 10,000 times... There was one member he did 10,000 times and the next day 12,000... Even in the visual, when does it end... 210 times of devotion...

So, we must touch the Heart of Heaven, putting this into action and our volunteer course is a spirit of touching the Heart of Heaven... We have tribal messiahs working in Kagok town and when Kagok town, the President of Korea came, he said, 'This town is the most hard-working town' We did kick-off ceremony there. And the leaders invited all the church members centering on our Gapyeong City Leaders, they had some kind of event and 30 guests came, an open SS last week, so the word is moving... their heart is real and genuinely touched by our actions, they feel it...

Even, Heavenly Parent is offering devotion and creating s and d, creating devotion to offer, for restoration, recreation, and the picture of Dr. Moon... You have sin parents crying out to find their

solution, and we never know except how True Parents told us Who God is.

So, to lay a foundation for indemnity conditions for all people, a tremendous amount of devotion was necessary. He would long to see that restored Land. We must find out devotion. Father added one more rather than subtract, one more step, one more devotion. That is why progress is linked to prosperity.

Even in this TC, we are offer new WSs, not the same as in the past. There will be an amazing work dor prosperity and resolution, a place where the individual and family and nation can be reborn and Heaven and earth and the earthly Heaven as in Heaven constructed. We can go by leaps and bounds... It is taking place here in CP to be boasted upon through all of Asia and the world.

I also hope that the Yeongseong Workshop is something that can be boasted of by all humanity across the world, when we move in Spirit and Truth, something never witnessed before. Despite adversity, please do not go down but move forward. Heavenly Parent and True Parents are Wishing and Working through us tonight and the power of AGSs will be unfolded tonight, when the SW is fully mobilized and working through us, amazing works will happed... TY

CALLING OUT / FIGHT SONG

When I look at my sweat covered palms

reminds me of True Parents hardship

The people around me are

spending their days, unaware of the passing of time

Bu we will go the path of the Will

With the H Army pushing our backs

I remember it when I'm weary

Father's Face overflowing with Tears

Any hardship will be rewarded

When I see Mother's gentle Eyes

We go forth on the Path of God's Will

Backed by the angels and H Army

I will not be defeated by Satan's trials

On rainy days, windy and snowy days too

If I give my utmost sincerity and do my best
True Parents Know everything
We go forth on the Way of God's Will
Until Mother's Mission is fulfilled

Remaining true at all times
Today too, my brethren with smiling face
Walking on while praying
Indeed, True Parents's are by our side
