Most Precious Heavenly Parent

Beloved True Parents of HEH

The fact that we have completed the 40-Day condition 41 times and now the 14th Anniversary of True Father's Cosmic Seonghwa shows that Heaven is Living and Working. We believe that in the Era of the Cosmic Seonghwa, and Era of remarkable prosperity will unfold alongside expansion of the civilization Attending Heavenly Parent.

Before the Cosmic Rally of the 77th Anniversary of True Parents of HEH, True Parents Achieved Ultimate Oneness and Completed the Era of the Whole, Entire Authority and Omnipotence upon the Era of Perfection and Completion.

After Father's Ceremony, while offering Shinhwa Devotion at Father's Tomb, Mother's Thought became Father's and Father's Thought became Mother's Thought. Up until greeting this day, True Mother becoming One with True Father in Heaven, True Mother Proclaimed the Foundation Day in 2013 and in 2020 Proclaimed the Settlement of Cheon Il Guk and Gave Birth the CheonBo Families as Citizens of Cheon Gul.

In April 2025, True Mother officially Carried Out the Entrance Ceremony of Cheon Il Sanctum, Proclaiming that Heavenly Parent is the Master of this Land and Opening Wide the Gates of Heaven.

Thank You very much, Mother!!! To greet this Day, all BFs should have become Heavenly tribal messiahs and become CheonBo Families, but because we could not fulfill the conditions internally and externally, True Mother brought all BFs along through the grace of Holy Wine and Entered the Cheonwon Gung.

Accordingly, all of us BFs should have united tightly through Devotion at Cheon Shim Won Attending HMH. But because we failed to do so, it resulted in Mother bearing a cosmic cross, leaving us with boundless grief and sorrow.

Even though True Mother came to live a Life of confinement due to our faults, True Mother always worries about the members and Desires that the members attend every GWs to receive H Fortune and H Blessing. During the Special Period, may all members participate in the Cosmic Anniversary of True Father's Cosmic Seonghwa, and by the

Grace of the OBD HMH, the Substantial Holy Spirit, may She drive away all the negative and evil energies, overcome evil with Good and Work so that all BFs and Fs worldwide will prosper. Please Work through us.

May all 1st, 2nd, 3rd and 4th generations Attend HMH and work to fulfill the Dream of the Monarch Butterfly, continuing the Lineage of Faith. Please Work through us.

Through this 1,640th Special Vigil Devotion, let us completely resolve all our failure to become one with True Father in Heaven and HMH on earth and dedicate the 14th Anniversary of the Cosmic Seonghwa of our True Father in Victory.

Therefore, our True Father in Heaven, HyoJN, HeungJN, DMN, and AGSs, Heavenly hosts and angels will be fully mobilized so that True Mother will be acquitted and returned the Cheon Jeong Gung in the first trial, August 31st. Please Work through this world.

Gathering the Devotion of families and Blessed members worldwide, I pray with gratitude in my name, I Bon Sok of a BF attending HMH... Aju

about Great Works

Yearning for True Father,

True Father we miss You so much. Already 14 years have passed but our yearning has not changed in the slightest. The warm gaze with which You looked upon each person with a Loving Smile and walking the Path of Love for the sake of humankind. Father, we will never forget that Love.

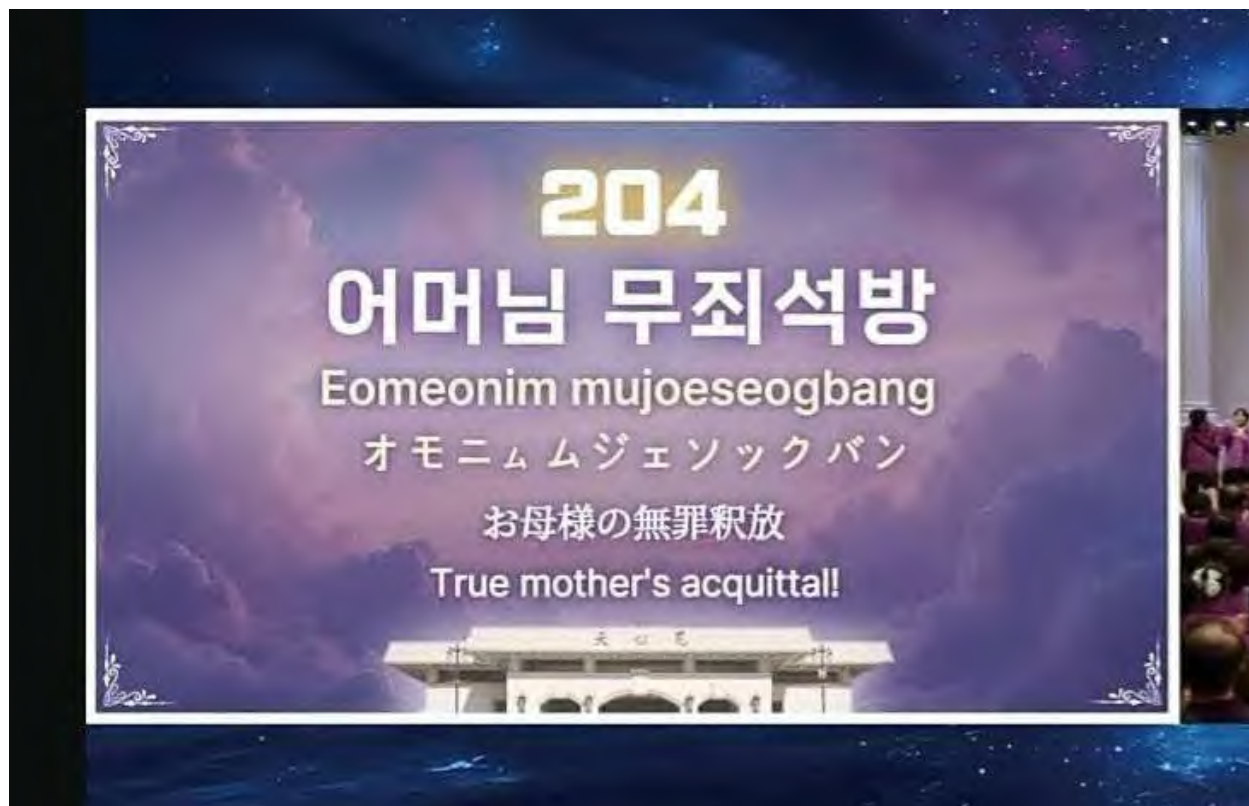

Father, we always think of You. That Day when True Father Ascended to the SW, shedding endless tears of repentance, we vowed that we would attend True Mother to the very end. However, the One Who spent sleepless nights Holding the Deepest Yearning, following True Father's Seonghwa was non other than True Mother.

The Path You Walked, though it should have been a Path of Flowers Amidst Glory and Praise, due to the ignorance of fallen ancestors, it was a Path stained with harsh persecution and sorrow, a Path Walked with a vow of Blood, Sweat and Tears.

Fourteen years since True Father Ascended to the SW, we engrave deep in our hearts this hour that the Words of Truth and Light Given down by True Father left a crystallization of Love behind children who are to walk the Completion Age of the Providence Attending Mother.

Cheon Shim Won the Office where True Father Works freely, just like the Embrace of True Mother, it is the global HQ of Devotions, where the Devotions build up the Lifetime of True Parents and become hope of the people today. Engraving in our hearts True Parents's Word to pray and offer devotion like a battle for the cooperation of Subject and Object Partners in the SW, we began the Special Vigil Devotion.

Amidst the cries of children earnestly crying out Aboji, Omoni, we laid bare before Heavenly Parent all the tears of gratitude, repentance and hope that we had buried deep within our hearts.

True Father, Hyo Jeong Special GWs Commemorating True Father's 14th Hyo Jeong Seonghwa Holy Cosmic Ascension. At this hour, the Providence of Blessing connecting to Heaven, Heaven and earth unfolds with even more astonishing grace through the Marriage Ceremony of the 1st generation that were unBlessed, the hope of Cheon Il Guk where all life becomes one transcending the physical and spirit worlds has burst wide open.

Though towering waves may sometimes role in and countless trials block our path, the CheonBo Great Works turns us back toward the Heart of Heavenly Parent. True Parents lift us up so that we will seek love rather than hatred and hope rather than despair.

With Heaven and earth becoming one beyond the divided world, before the HMM Substantial Spirit, we will fulfill the devoted prayer and action so that True Father can Work freely from the SW.

We know how many tears True Parents have shed to fulfill the Dream of Heavenly Parent. We feel the Love for humanity and the desperate heart of absolute loyalty and filial piety toward Heaven contained in Their Tears.

Resembling True Parents, we will become even more resolute with the determination to illuminate the dark night with the brilliant light of truth. We will walk together upon the Path of True Parents Who came as the Substance of True Love.

Hyo Jeong Cheonwon, the eternal home yearned for all humankind, the Light of Hyo Jeong bestowed by True Parents illuminates the 5 oceans and 6 Continents even at this very moment. We believe that Heavenly Parent is Working. We cannot stop, knowing the Heart of bitter grief and tears of True Parents, we will move forward with prayer and devotion toward the Ideal World of Peace that Heavenly Parent has so deeply Dreamed of, toward that day of a single worldwide family of True Parents, we will never give up.

Through the utmost devotion that moves Heaven, toward the Day when the Dream of One Family Under True Parents is Realized, we will march forward with only

Glorious Heavenly Parent, Beloved True Parents of HEH, TY and we love You.

Message

(He bows to True Parents and to the audience) applause

Beloved BFs and members, today we greet the sacred day of the 14th Anniversary of the Cosmic Seonghwa of True Father. As the years pass, our yearning for True Father grows even deeper, especially now as we pass through the solemn times in the Providence, that longing strikes us all the more intensely.

Even here in this Place, True Father's Resonant Voice and Warm Smile, which Embraced the Whole World arises deep in our hearts. On a day like today, when we miss True Father so accutely, Who does True Father in Heaven Long For the most and Want to See? That is right, it is none other than True Mother.

At this moment, True Father is likely asking us about True Mother's well being above all else. When He was on earth, if True Mother stepped away for just a moment, True Father would look for Her, asking, 'Where has Mother gone?'. And wherever He Walked, He would always firmly hold Mother's Hand, Walking side by side.

The narrative of a Life of True Love that True Father taught us was not a mere doctrine or revelation. It was the Substantial Fruit of Love that He Practiced and Perfected Directly in His Life together with True Mother.

Just as the Words taught us, the Husband Exists for the Wife and the Wife Exists for the Husband. When a husband and wife truly love, God dwells in that Place. The Two of Them Centered upon Heavenly Parent, Show the Complete Oneness of True Love.

I am reminded of an unforgettable time when I was attending True Parents in Las Vegas. It was when we visited Sedona, Arizona, known to have some of the strongest spiritual energy on earth, taking advantage of a brief moment during lunch, I stepped outside the restaurant, prepared a necklace made of gemstone produced in Sedona and respectfully offered it to True Mother as a gift after the meal.

Upon seeing that gift, the moment True Father finished His meal, He immediately led Mother by the Hand back to that same gemstone shop. He bought all the beautiful gems and fossils carrying all the millions of years of history and presented them to True Mother, sending them up to Cheon Jeong Gung.

Through the sight of True Father pouring His utmost devotion into making True Mother happy, I could feel down to my bones how dearly True Father Loved True Mother.

True Mother was the same. When She Traversed the front line of the Providence with the delicate Body of a Woman, Mother was Father's most steadfast Body Guard, a Physician and Nurse looking after True Father's Health and a Head Chef Offering Meals with utmost Devotion.

I clearly remember the time when True Father was at the Kongnam St. Mary's Hospital just before His Holy Ascension. At that time, I witnessed with my own two eyes, day after day just how deeply and genuinely True Mother Cared for and Worried about True Father with a Heart of True Love. Truly the

Two of Them were a Single Body of Heart and Eternal Companions Who could never be separated.

However, today, around True Parents impure falsehoods and rumors intent to drive a wedge between True Parents, claiming that True Mother is trying to erase True Father, or that She has betrayed True Father, are shaking the souls of our members. Father in the SW must be looking down upon this astonishing situation, wishing to know the Truth, especially in a gathering like today, where so many Family members have assembled.

True Father would likely want to hear an answer from you, 'Is Mother erasing Father's Footsteps? Is Mother betraying True Father?' When True Father revealed countless doctrinal Contents, including the Exposition of Divine Principle, in order to Inherit and Complete Jesus Who came 2,000 years ago as the Lord of the 2nd Advent, Christianity rejected us as a heresy, so called on the grounds that our doctrine was different.

Then, did True Father erase Jesus? Did True Father betray Jesus? Are we the cult that Christians are talking about? Do you bring the Bible with you when you attend SS? Most of you probably attend Service without a Bible. Is that because you're ignoring, erasing and betraying Jesus? True Father understood the Grief and Heart of

True Love of Jesus, more than anyone else on this earth. And True Father was the One Who Loved Jesus the most.

Therefore, True Father Completely Fulfilled the Providence. It is the same for True Mother. Mother is throwing Her Entire Body into Guiding the Providence in order to Save and Anchor the Holy Heritage by True Father upon the earth and for the future generations. So, today this Place on behalf of Father, Who would be curious about this situation in the SW, I wish to ask you, my brothers and sisters, please answer Father in a loud voice, because that's what True Father would Want to hear from you,

'Is Mother erasing True Father's Footsteps? Is Mother Betraying True Father? Again he asks and again and again. During True Father's Lifetime, Who was the Standard of our Faith? Was it Jesus? or was it True Mother? Was it True Father? It was True Father.

Then upon Whom must the standard of our faith rest as we live today? Is it Father or is it Mother? Today is a time when neither Jesus nor True Father is on earth. They are in the SW. Then Who now on earth Breathing the Standard of our Faith? It is none other than Mother.

2,000 years ago, the Hand of the Hour, pointing to the time of Heaven's Providence was Jesus. Therefore, at that time the disciples walked the path of Providence following the Words of Jesus. But 2,000 years later when the Lord of the 2nd Advent Came, the Hour Hand of the Providence was True Father. Therefore, we became Blessed families who followed True Father.

Today, True Mother Who Personally Leads the Providence in this Age, has Become the Most Accurate Hour Hand of the Providence, Teaching us Heaven's time. Therefore, the One we must Attend and Follow in this Age is True Mother.

Furthermore, in order to more accurately understand the Providence and Guidance of True Mother, Who is the Hour Hand of the Providence today, we must see that the Glorious Foundation of True Father Flowing continuously with the background of the Providence of Jesus 2,000 years ago are harmoniously imbued as One.

Just as you want to speak in minutes and seconds to know the exact time, all the background details of the Providence are what True Mother Fully Explained. The Providence of Jesus, True Father and True Mother Abide. They are by no means disconnected. Rather They Represent Complete Succession and Completion.

What do you think is the greatest Achievement True Father left humankind at the end of 6,000 years of Providential history? True Father enabled us to Attend the Creator God, Who Stood as the Majestic Jehovah God Whom mere humans dare not approach. God was a more distant God as our Eternal Master. Instead, God can now be together with us in our eternal homes. True Father Lived For the Parent God, and True Father Conveyed and was Connection for the Parent to a humanity that was like orphans, with the Values of True Love and True Families.

At this time of the 14th Anniversary of True Father's Cosmic Seonghwa signifying that elevating the Status of True Father and True Mother is about firmly establishing the Value of True Love and true families left behind by True Parents like a rock in our homes and in our faith community.

Today, meeting the 14th Anniversary of Seonghwa, we must bow before the Spirit of True Father with tears and loyalty. We must resolve to safeguard the eternal Oneness of True Love Achieved by True Father and True Mother in the face of any temptation or falsehood, and to become completely One with True Mother, the Hour Hand of Providence, steadfastly carrying on Their Wills.

Therefore, before giving any further worry to True Father, before Heaven, we must become filial sons and daughters and the protagonists of Cheon Il Guk, Who offer True Father complete rest and Glory of Victory.

The Eternal Love that True Parents have Achieved, all of BFs must engrave Their Love within our Heart, so that the True Love can flow unceasing for a single second and allow this world to breathe true love.

Another Welcoming Address

Respected true family members Cheon Il Guk leaders. and Blessed families from around the world, Hello everyone, I am Song Yong Chun President of H Korea FF... applause

Today, as the official first schedule Commemorating the 14th Cosmic Seonghwa of True Father of HEH, we beginning the Special Vigil Devotion and Commemorative Ceremony.

First, we offer our deepest gratitude and Glory to Heavenly Parent, the Victorious True Parents of HEH and HMMH, True Mother, Who has Guided us (and Bestowed) this Holy Place of Devotion. I also sincerely thank the leaders and BFs from around the world who fill this Cheonseong Main Hall at this late hour.

Furthermore, I extend a warm welcome and expression of gratitude to all members worldwide who are joining us live and through broadcasts worldwide who join us from their respective countries, churches and homes.

In particular, representing H Korea FF I sincerely welcome the leaders, BF's and brothers and sister from around the world coming here at this HJ Chung Pyung Cheonil Complex. Every single one of you who has sought out the Providential Homeland of True Parents feel so precious and deeply appreciated.

Beloved members around the world, throughout the HJ Chung Pyung Cheonil Complex where you are staying, there is a deep imprint of the Providential Stewardship and Heart of our True Father Who Dedicated His Entire Life to Fulfilling Heavenly Parent's Dream. It is also the Place of Holy Sanctum of Hyo Jeong where the prayers and love and devotion of True Mother, Who has Marched Forward without pausing for even a single moment toward the Settlement of Cheon Il Guk even after True Father's Cosmic Seonghwa, remain vibrantly Alive.

Therefore, during this Commemorative Period for the 14th Cosmic Seonghwa of True Father, I hope you will deeply feel the Heart and Providence of True Parents embedded everywhere here. With every step you take, I hope you will deeply reflect upon what True Parents's Gazed Upon as They Established the Foundation, and what They Prayed and Offered Devotion so earnestly for, to leave behind for us.

And I hope that you will feel the Heart of True Mother, Who even now looks upon this Place and Longs For members around the world. It is my sincere hope that you will engrave True Mother's Grief and Love deeply within your hearts, making this precious time to be when you grow ever closer to True Mother.

To all members worldwide joining us online, though your bodies are not together in this Place, I hope you will share in the devotion and grace of Hyo Jeong Cheonwon that permeates across the screen. Although our regions and times differ, I believe that our hearts toward True Parents are gathered together here in the Holy Land of Hyo Jeong Cheonwon.

My brothers and sisters, members here today at this venue and members connected online are united as one in heart. I find it deeply meaningful that we are opening the door of 14th Anniversary Cosmic Seonghwa Commemorative Event Amidst this Worldwide Oneness.

On December 12, 1997 regarding the Providence of Chung Pyung here, True Father bestowed the precious Calligraphy entitled: Cheonshim Iman Sun

This Work means Achieving Ten Thousand Victories with a Pure and Clear Heart.

And it became the core phrase of the New Year Motto for 2010: 'Monsei for the Realm of Cosmic Sabbath of True Love and Cheonshim I Man suleh.;

Beloved members, at this very hour today, we must deeply engrave the meaning of this Calligraphy in our hearts. No matter how many people are gathered, if our hearts are scattered, it cannot become the greatest Devotion. However, if

everyone here becomes one with a pure and undefiled heart toward True Parents, a unified heart will become a powerful force of victory capable of overcoming any difficulty.

Therefore tonight, the hearts of members worldwide must gather as a single Cheongshim, a pure heart directed toward True Parents. May our hearts directed toward True Parents, toward True Father in the SW and True Mother on earth, become one chanyang Praise that resonates across Heaven and earth.

Beloved members, tonight at midnight we will hold a Commemorative Ceremony. On July 17th of the H Calendar, the Commemorative Ceremony Marking the 14th Anniversary of True Father's Cosmic Seonghwa will be a holy time to deeply reflect upon True Father's Life and Love, and to offer our gratitude, longing love and hyojeong before True Parents.

True Father Who Came as the Messiah, the Savior, the Lord of the 2nd Advent for Humankind, Dedicated His Entire 93-year Lifetime Completely to the Liberation of Heavenly Parent and the Salvation of Humankind. Amidst countless misunderstanding, opposition, persecution and imprisonment, He did not abandon Heaven's Will for even a single moment, embracing even those who opposed Him and walking the Path to Save humanity and build a world of peace to the very end.

And after True Father went to the SW, True Mother inherited True Father's Will ((Father's Will for God's Will added to Her Absolute Resolve for God's Will in Her from Sinless Birth and True God, the Heavenly Parent, always with Her, Teaching and Guiding Her, and all Masculinity of God Sons Needing Birth through Her as Holy Hak Ja Han Mother))

Yet HMM, True Mother, is Shouldering incalculable cosmic hardships at the Center of the Providence. Beloved members, tonight of all nights, we must lay down all ourselves to feel deep within our hearts the Heart with which Heavenly Parent and True Father Gaze upon True Mother, and the Heart of Heavenly Parent, the Heart of True Father, and Heart of Hyo Jeong of BF's worldwide must

meet, resonate and echo loudly as one.

On July 10th, True Mother Stated in court: I believe Heaven is Alive

This Statement under the very utmost suffering must become our prayer tonight. That is right, my brothers and sister, Heaven is Alive.

Therefore, every single word of prayer and praise we offer must never become formalistic. We must feel Mother's own Pain as our own agony. We must make Mother's Faith our own Faith, and pray with an earnest heart wishing for True Mother's safe return to Cheonjeong Gung at the earliest possible date.

A single person's prayer may seem small, yet if BF's around the world pray and offer praise with the same heart at this hour, that devotion will, by no means be small. When our hearts gather when transcending different languages and peoples and cultures, this night will become a night of Hyo Jeong where Heaven and earth resound together. applause

Beloved BF's and b and s around the world, let us gather our prayer and earnest together for Mother's safe return to Cheon Jeong Gung... all praise for this. Will you do so? So, that our hearts toward True Father in the SW and toward True Mother on earth may resonate as one and let us pray with all our praise and devotion tonight. Will you do so?

Offering all our devotion before Heaven on this Anniversary, I pray that all Grace will be with your homes and communities BF's from around the world.

In this sacred Place that will be one of the important moment of Providence, a story of the miracle of true love, young Kim Yong Jin with the support of our members, a young man who shut himself away with

pain, son of Kim Sung Oh who served as Pastor, who brought his son, Chong Geun...

another husband quit smoking and seeing a person change so much is really wonderful and seeing others do it as well. If not having come to Cheon Shim Won... The husband stayed up all night with a prayer for our Mother's safe return...

Whenever I asked him, he would not come and I would just go, but then he was the person bringing it up...

The hairstyler used few words and was meticulous. It all comes together with the heart we had during our first wedding ceremony. True Mother looked down at me like this. My heart must have been having such a hard time, but Mother Said, 'Is it harder than My suffer?' Who could follow the tips of the toes of Mother's Journey, but when She Spoke that, it became such a strength and I could not hold back my tears.

Amidst a heart of gratitude, love one another and pray. Only such a Person could utter such things the way She does... Why was Mother struggling so hard at such a young age. And he wrote a letter that he invites others to sign.. that praises Mother, speaking of Her Entire Life and how She continues with such a Selfless Heart even from the detention, and to let Her continue unconfined.

Because we were ignorant and failed to realize that True Mother is suffering because of us, thinking that our Mother is so lonely and suffering so hard by Herself. Please Mother save Your Holy Physical Body and thought Your environment is so hard, please have strength and we will have strength too. Please eat better now, and until the day we meet again.

The Miracle that we encountered today is the True Love that Lives for the Sake of Others that True Mother has Shown us and True Parents have shown us. May this Grace not end today, but continue into our lives, so that we may become living temples through which True Father can Work.

I hope that our devotions and longings for True Father can reach Him through bringing deep comfort and strength to our True Mother. Mother, please return to Cheonjeong Gung as soon as possible. We miss You. Our pure waters will welcome You to return True Mother, and we will absolutely protect You, True Mother. Mother, we love You. Thank You

There are members gathered in front of the DC, hoping Mother will never return to that Place... And one brother did an 8-day fasting, truly hoping for Mother's Release and we have made such a Move of Heaven 155,000 more than 150,000 have registered, and H Korea set a new record.

And H Japan 87,242 have registered raising their number... 87,374 now...

International are still registering to raise their number higher...

A lot for liberation and Blessing of ancestors and Blessing of 1st gen unBlessed...

The 40 is multiplied by 41 times. Tomorrow's intensive prayer will be like a new start and SW said why not to do it on Sunday too. So, we will hold the 1,441st Cheon Shim Won devotion on Sunday to make SW mobilize more than ever before...

Prayer is one of the methods to be victorious. True Father said that I believe it is the strongest weapons to make the impossible possible. Offer earnest prayer with tears and sweat and great conviction and not just once, but pile up the devotion... and endure until the prayer is realized.

Also, True Mother told us to think of the 1,095 days of devotion Mother offered. And you must use Cheon Shim Won as the Sacred Place and no matter the weather talk to True Father heartistically every day, and without my Words, you must find the needles who can continue My Heart.

And today, among the pure waters, there are those who are communicating to Heaven. Our sister went into a position of talking to True Mother, an

amazing thing that occurred to our sister.

Once we cast away all the satanic energy, a lot of people are coming to that level of directly communicating with Heavenly Parent and True Parents... (Already he passed the time... says sorry, but he spoke so shortly tonight)

With the Vigil for the 14th Anniversary of True Father, I am the MC. Nice to see you all. (He bows) From the Providential Point of View, it is a difficult time but we gather together and encourage each other's hearts, and this is a beautiful scenery to watch all of you, especially all who truly desire for True Mother's release, looking at you, I am very grateful, and also it breaks my heart and is sad but also joyful, so a mixed feeling.

This Commemorative Ceremony. We will be holding it on the next day, so I hope we will prepare our hearts, our True Father Who came here as the Savior, Who Sacrificed His Entire Life and was our Father, and was our Teacher, it is time to commemorate His Ascension to the SW.

Although our devotion may be lacking, I truly hope that we can offer our Hyo Jeong to True Father so that we can inherit True Father's Will, True Father's Heart, (True Father's present desperation for True Mother's Well-Being)

And I hope that up to this point, I was wondering how we could reflect our Father's Life Course. What kind of heart must we have? What kind of Heart would True Father Have upon Looking at us? Before True Father, I feel very apologetic.

With the title of a public official after graduating from CARP, I try my best so that I won't be embarrassed with my life, and at this time, I feel that heart stronger than ever, and I want to resolve to be a filial child at this moment.

And I want to share that I thought there was a part of Father's Autobiography best to share to everyone.

For the peace world, I have searched for the places that are underdeveloped that are hidden in this world. The mothers in Africa, looking at their children that are dying from hunger, and fathers in South America

who didn't know how to fish, even though there are a lot of fish there to feed their starving children.

I have shared My Love to them so that they can live centering on Heavenly Parent. I have cut down the trees to build the school. I caught fish in order to feed the hungry children. Even if I was bitten by the mosquitos, I was happy to catch fish for the children. Despite My sacrifice, I was happy to see more and more people living better lives.

I also met Gorbechev and tried to resolve problems between the Democratic and Communist ideologies...
