Opening Prayer of Gratitude

Che Un Yong

14th Yeongseong Workshop Coordinator

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We sincerely thank You for guiding us so that we could offer devotion during this Hyo Jeong CheonBo Great Work Commemorating True Father's 14th Anniversary of Cosmic Seonghwa. As we wish to offer

devotion that mobilizes the entire SW for the acquittal of True Mother, please guide us so that we will hold onto Heaven and pray with a deep piercing heart.

After True Father's Cosmic Seonghwa, True Mother offered 1,095 days of Shimul Devotion with profound Devotion and Love. This was a Devotion that we should have offered but instead True Mother Offered it on behalf of humankind, Blessed families and 2nd and 3rd generations. True Mother Stated that She would return to the early days and revive the church in Spirit and Truth, and wondrous Works are now taking place through Cheon Shim Won Devotion.

Like small needles that were sought so desperately amidst the sandstorm, where not even an inch can be seen, they are gathering by True Mother's Side, returning to the zero position and being reborn.

Even now, True Parents are Tearfully, earnestly and longingly Calling Out to each and every child. True Mother, we miss You truly. We will no long pretend not to know the Heart of True Parents, so that you will know your beloved children, we will no longer suffer because of Your beloved children, we will Attend Heaven eternally and fulfill the way of filial piety.

Our True Mother has Dedicated Her Entire Life for Heaven, Knowing Heavenly Parent's Sorrowful Heart Best, True Mother has Attending Heaven with a single-mindedness throughout Her Life and Dedicated Her Entire Life to Realizing Peace and one family of humankind. Please Work Heavenly Parent, so that all humankind will attend HMM, OBD, True Mother. Please Work.

Heaven is Alive. Heaven will surely realize The Original Dream on this earth. As our Mother Walks the Path of Suffering today, please Guide us so that we will resonate with True Father for True Mother's Acquittal and offer Devotion through which True Father can Work.

True Father is here and Working right now. Please Guide us so that we can resonate in Love with True Father. We must be crying out in earnest for True Mother, to protect True Mother. True Father Said that, if we care for the Father, we should pray for Mother.

Knowing the Cheon Shim Won Special Vigil Devotion is a Spiritual Shimul Devotion, we will now Attend and Protect our True Parents ourselves. Please Work so that this will become a time when we cry out like pure little children, and resolve and determine that we will do all for True Mother. Please Work.

We know that the right time is not always there. Please Guide us so that we do not miss the right time. Please Guide us so that we can clear away anything that can become an obstacle to our True Mother's Path and to the Completion of Cheon Il Guk.

The more attempts are made to tear us down, please Guide us to Attend True Father, centered on HyoJN, HeungJN and DMN, to love one another and become completely One so that all humankind across the world will attend True Parents, we will today raise our voices and pray in complete unity of heart and mind.

Even if persecution arises and opposition breaks out, we know that the harder things get, the closer Heavenly Parent's Time to Fulfill our prayers has become strong. We know that the Miracles will happen wherever we go.

Knowing that we have nothing to fear in this world if we advance with Cheonshim, please Guide us to proudly step forward toward the world, attending True Mother. Please Guide us.

Earnestly wanting and hoping that we all will become one to Fulfill Heaven's Wish so that a beautiful world without war and conflict, a Heaven Realm on earth where all Attend Heavenly Parent and True Parents will unfold, I pray in my name, Che Un Yun, child of a BCF in grateful Attendance to HMM.

Kim Ju Won

Through the Grace of the CY yoksa and GWs, I truly believe evil spirits will be cast away.

Next, it's time for the HJ Offering Papers. Our Yeongseong Workshop trainees, every month, for the Will for True Mother, we've been Offering Papers, and as we come to this Yeongseong Assembly, the representative Yeongseong Workshop has been selected. So, today, the representative Yeongseong WSs will Offer this HJ Offering Papers.

So Representative Yun Chon Ho's trainee, Min Ah trainee will Offer the HJ OP.

Yeongseong Academy Kim Ahn I trainee will sing a song called, 'Bloom With Me'

Special VIDEO

Praise Kamsa Kim sangu

Be grateful, Be Grace-filled, Love You, Bless You, Be happy and Be Wealthy

So, as True Mother Told us that She Wanted to Live a Life to Be more grateful today than yesterday, and tomorrow more than today. True Mother Told us that is Her Motto.

So, we call that Kamsa Kibuk... Be Loving, Be Grateful, Be Blessing, Be happy. So we were able to write the lyric, and the song was composed by an Academy trainee, and as we prepare for the Tree of Love Busking, Seonghwa Youth Workshop trainees and Academy trainees, all of us have prepared to dance.

And I am also in the performance, so I would like to explain here first and then show you the performance... applause

VIDEO (Heart of needle in the sandstorm not able to open My Eyes, I have found it. I had to Fight. Who would that single, small needle be it is the child who can become One with the Only Begotten Daughter, True Mother.

Have you ever thought about how Heavenly Parent Felt while you were receiving your 40-day Workshop? You are the direct children of True Parents.

Especially you, young children receiving the Yeongseong Workshop, you must become one with the SW and clear away everything that could become an obstacle to the Completion of Cheon Il Guk. You just need to make it so that the SW can Work through the Devotion of Cheon Shim Won.

(Tak Ji Il... Unification Church Leader Detained... published 9 23, 25... Updated 9 23, 25 16.52.06... The Arrest of Mother Han: Korea's Unholy War on Religion and Reason... The legal grounds for the arrest were absent. The charges are implausible and politically motivated. This is not a corruption case--it's a purge.

(by Massimo Introvigne)

My dearly beloved children, I will be with you on the path you walk from now on. Whether times are hard or sad, have your joy be full... In every moment you make your resolve, I will be with you, right by your side completely Trusting and Supporting you, During such a period, hold onto HMM. Pray earnestly.

So, do not worry. Do not doubt, but cry out earnestly. Do you believe in HMM, SHS, OBD, True Mother? Do you believe True Mother is HMM?

If you believe, how much do you Love Her? How can you prove that Love? How intensely have you sought to protect True Mother? How deeply have you experienced Mother's Love? how much joy have you returned to Mother? What kind of resolve and determination will you show to HMM?

Answer Me individually at Cheon Shim Won to these questions? It starts with you.

DANCE PERFORMANCE

with Seonghwa Yeongseong Youth Workshop trainees and Seonghwa Youth trainees big applause

(Kim Ju Won at the podium still with gold tassels on his shoulders)... I am sorry that I am introducing the congratulatory address,

Welcoming Address...

Toi Yan Sau

Director of the Department of Future Generations...

He bows... He says: I'm not sure how to proceed to give the address with the atmosphere that has been made right now... I feel I need to borrow sunglasses from the MC or something.

Let me begin now... applause again... and he bows again... Beloved Members from around the world, the one thousand Workshop graduates who have gathered here are proud children.

Let me introduce myself one more time (I think he bowed again) I am very grateful that I can stand here to share my message. Above all I would like to offer my gratitude to Heavenly Parent and True Parents of HEH, as well as Glory.

Today, as we come to the 14th Anniversary of the True Father's Cosmic Seonghwa, under the great grace of Great Works and AGS Working, we have gathered here at the 1,641st Vigil.

At this time, our hearts are hotter and most desperate more than anyone. Why is that? That is because our True Mother Who is Walking the Cosmic Cross all by Herself, and we want Her to be acquitted and released to come back to us. And so all the Blessed families and yeongseong graduates have gathered to offer prayer and devotion piling up the tower of devotion with a passionate heart.

The tears of prayer and devotion we offer today will not be in vein. On top of the devotion that we pile up, I am certain that True Father will be with us. Our eternal True Father, why don't we offer a big round of applause to True Father, with gratitude and with glory.

Beloved Yeongseong graduates and trainees, True Mother Gave Her Words that BFs must Offer prayer and Devotion in order to Expand the Environmental Realm for True Father to Work, move the SW so that we can clear away the obstacles that are blocking us in this Providential Course.

Whenever we offer Devotion at Cheon Shim Won, we always engrave True Mother's Heart within our heart, we think about True Father, and we think about the Work of Heaven and SW and we've been offering Devotion with that conviction.

Especially as we come to the 14th Anniversary of True Father's Holy Ascension, it is truly a Meaningful Day. And today, True Father will actually listen to our prayers, will accept our devotion, and True Father will be Working through us. Today will become such a special day.

True Mother told us that Cheon Shim Won will be the HQ of Devotion, and the HQ of all the Providence of Spirituality.

If that is the case, what we must do is

very clear. All the BF's must Center on True Father and become One with Him and offer Devotion together. And with Absolute Good Spirit Realm, we must gather our hearts toward Heaven.

If we can offer Devotion in that way, True Mother will not walk the path alone. In fact, the Course that She is Walking by Herself, we will open the Path of Victory for True Mother.

My beloved BF's around the world, on August 31st, we are facing the very important day, and before that day, through CheonBo GWs and this Vigil Devotion, I believe it is not a coincidence that we offer prayer and devotion this period. I believe that this is True Father's Earnest Request toward us, and it is Heaven's Providence and Request that we must pile up the Tower of Devotion higher and stronger.

So, until the remaining hours, we should never let go of the heart of devotion, the heart of prayer within our heart. My Beloved BF's and members from around the world, also all the proud, young Workshop trainees and graduates, the Course of Trials that True Mother is Walking is truly a spiritual way that with human eyes you can never understand. Because of the inadequacies and because of all the human indemnity that needs to be paid in the human world, and in order to Fulfill Heaven's Will, True Mother is Walking the Course of the Cosmic Cross all by Herself.

However, we believe that, no matter what kind of hardships and trials we may face, that will never go beyond what Mother goes has and is going through now. No matter how deep and fearsome the darkness may feel, we will not fear because the spring is absolutely destined to come by Mother as the Central Point of our all, as we continue with Her in our heart, and soon after, the lies and falsehoods will fade away with Light as the Truth Radiates, just like how True Parents have shed the Light over this world. applause

My beloved Yeongseong Workshop trainees and graduates, our pure water yeongseong trainees offered earnest heart of devotion and praise. And also, we will be holding the one-heart resonance prayer. We continue... continuously to pray and believe so that it is guaranteed that our prayer will bring comfort and strength to True Mother and our devotion will become a strong Fence to Protect our True Mother. Our earnest hyojeong will reach Heaven of that HMH, True Mother will come back to us as soon as possible.

And thereafter, with connection of Power and Joy of Heaven (Her comfort first will then also most deeply come to each and all of us)

As I look at your earnest gaze and heart, I believe True Parents Feel the Hope. True Mother Told us to Move Forward with Spirit and Truth and in order for that to happen, True Mother Gave us Cheon Shim Won Devotion Place (for Conditional Offering). So, now, through Cheon Shim Won Vigil Devotion, let us go back to the early days of Spirit and Truth. Let us become people of prayer. Let us become people of Devotion. Let us become people who can feel Heaven's Heart. And let us become a people who can attend True Parents as Hyo Jeong people of pure waters.

And also, let us become the small needles that True Mother has been seeking after. Although the needle may be very small, at a very crucial moment, it can be most precious. And right now, True Mother is Walking the Course of Trials and Suffering. If that is the Case, we need to never leave Her Side as Her children.

Instead of becoming someone big and great, we should become children True Mother needs and walk with Her without hint of complaint. So, let us offer prayer and devotion that will shake the ground, move the Heavens and mobilize the entire SW, connecting the SW and PW. Let us become such a bridge. And until the August 31st, let us never let go of the rope of devotion.

For True Mother's well being and safety and for True Mother's absolute release, acquittal and liberation, and for the victory of Heaven's Providence and the Will, let us offer more effort, more prayer and earnest than ever before. And with our devotion, with our tearful prayer, let us offer our hyojeong through those prayers and devotion.

Beloved members from around the world, and all of you who are here, each and every one of your devotions of hyojeong, I would like to offer my bow to you in respect, knowing that if you do not waver to believe in and receive Mother's Word and Direction continued in your heart and actions, your prayer will reach Heaven.

I truly believe and have hope in your prayers creating miracles and multiply miraculous power, and comfort True Mother's Heart, and open the Path of Cosmic Victory.

In conclusion, to finish my address, I am hoping that True Parents's Love and Grace will always be upon you and your families (Hyo Yon Sok)

Dance

"I Will Love You Forever"

Testimony

Kuyong Su Yon

First, I would like to offer my gratitude to Heavenly Parent and True Parents of HEH, Who allowed someone as lacking as myself to stand in this Place.

My name is Kuyong Su Yon, the youngest daughter of 4 siblings, born from a Korea and Thai family.

Before receiving Yeongseong Workshop, my faith had not been very deep. Even when I went to Seonghwa Workshop in the past, I did not think of it as a condition of learning and receiving the Workshop benefit, I thought of it rather as a place to make many friends and have fun.

Then on day, a close friend recommended that I attend this first Seonghwa Youth Yeongseong Workshop. Seeing the number 'First' attached to it, I was intrigued because it seemed like something special, but then again similar to other WSs and I entered thinking I should go and make many friends again.

However, when I actually arrived at the Workshop, it was very different from what I had imagined. There were truly many more friends who had deep faith than I thought. And I saw my group members offering devotion a lot. Seeing my peers earnestly offering devotion with tears while receiving the Workshop made me want to become like that as well.

One day during the vigil devotion of resonance prayed, I prayed while shouting out to Heavenly Parent. I wanted to convey my earnestness to True Mother. I prayed earnestly for True Mother's acquittal. Until when must we make True Mother suffer? True Mother's circumstances felt so pitiful. At that moment, tears of sadness flowed without me realizing it.

Through that I came to have spiritual experience, and I came to offer calling out prayers even more earnestly, especially while receiving the Workshop, I felt that faith is not just something possessed only by special people from the beginning.

Seeing the people around me, my mind changed little by little. And by the end of the Workshop, the thought arose that I wanted to stay in Chung Pyung a little longer, so I tried to stay as long as possible. If it had been the old me, I would have wanted to go home quickly. The very fact that I wanted to stay longer on my own was a huge change for me.

However, just because the Workshop ended did not mean I immediately changed completely. I made slips of tongue in my relationship with friends, and even hurt them.

The thought arose, 'I thought I received the Yeongseong Workshop and had grown a little higher. So, why did I act like this again?' I felt that I was so lacking, and the thought that I did not know what to do crossed my mind. At that time the desire arose in me to go back to the TC and offer devotion.

I who used to dislike going to Chung Pyung and wanted to go home quickly, instead wanted to go to CP to pray and offer devotion when times were tough. So, whenever I could go, I went to the TC as much as possible to offer devotion. When I could not go to CP, I tried to continue my devotion by watching vigil or intensive prayer on You Tube or Zoom.

One day while doing intensive prayer, a coordinator told us that, since this is the final Golden Age to be together with True Mother, we must never give up. At that moment, I felt that, if I did not offer devotion right now, True Mother might not be acquitted. I felt that this GWs which connects with True Mother's trial rulings is critically important. It felt as though I was taking a step forward through that realization.

However, having that mindset did not mean I could put it into practice smoothly right away. When tired, I wanted to rest. And there were times when I wanted to postpone my devotion under the excuse of being busy. I continue to waver.

Still, thinking of True Mother and holding the mindset, 'Today, let's do whatever I can.' I tried to watch and participate in vigil devotions and prayer for as long as I could, not matter how tired I was.

Sometimes, during the baking course that lasted from morning to evening, when it felt too difficult to bear, I would think of True Mother and offer calling out prayers for True Mother's acquittal.

I'm still very lacking in my faith and offering devotion consistently. It is not always easy. Some days I do well, and on other days I falter again. However, before receiving the Yeongseong Workshop, when things got hard, I just wanted to avoid them, and I even disliked going to CP. Now when things are difficult, the desire arises in me to go there to pray. And even in situations where I cannot go in person, I have come to make a consistent effort to offer devotion online.

Therefore, instead of making Yeongseong Workshop something that happened and ended, I want to continuously carry on the Heart I received back then. I want to participate in the upcoming Third Yeongseong Workshop to reflect on my heart once again, and fill in the areas where I fell short.

Expressing my gratitude to Heavenly Parent and True Parents, Who have transformed me step by step through the Yeongseong Workshop, I will continue to be a Seonghwa Youth Student who does not let go of devotion and moves forward one step at a time.

Lastly, I want to tell my friends who stayed by my side and cheered me on whenever things were difficult, that I am thankful.

Heavenly Parent and True Parents, thank You and I love You.

--- applause

2nd HJ Testimony

16th Workshop trainee

Kwang Yang Mi

gratitude

I am second son of one son and one daughter

After my month of short-term service in the military, I entered the Ninth Cheon Shim Won Academy. After participating in the Fourth H Africa Overseas Volunteer Corps, last July I have now returned to secular society and I am preparing for employment.

Before receiving the Yeongseong Workshop, I was one of those people who disliked the Church and could not understand my parents for attending a Church that is negatively in the society.

After my older sister returned to Church through the Sixth Yeongseong Workshop through our parents' Devotion, I was the only one left in the family who did not practice Faith. And suggestions to attend WSs and practice Faith were repeatedly urged upon me by my family.

After that, I attended several WSs for two years, but my doubts and negative perceptions about the Church remained unchanged. As I was gradually drifting farther away from the Church, I found myself with a gap period of about 4 months ahead of my college graduation.

With the thought that this would be the last time in my life, I decided to attend the 16th Yeongseong 40-Day Workshop. The biggest changes brought about through the Workshop were the improvement of my relationship with my family and the beginning of a proactive life of Faith. I was able to resolve misunderstandings and conflicts that existed between my Faithful family and myself, confirm my Faith and Trust among family members, and receive immense help and Love from the brothers and sisters who received the Workshop together with me.

I can thank Heavenly Parent and True Parents for being able to spend these 40 days in such a manner. However, with employment right in front of my eyes, committing to six months of Yeongseong Academy

was not easy. Therefore, I first committed to a one-month short-term service, and came to think that I could learn and grow even more through that Academy period, I decided to participate as a member of the Ninth Yeongseong Academy.

Right around the time the Academy activities were ending, a recruitment notice was announced for the Fourth West Africa Overseas Cheon Shim Won Volunteer Corps. With the thought that I wanted to visit Africa, an environment completely different from Korea, and having heard stories from an Academy student, trainees who had been on a mission trip to Africa, I had a desire to go to Africa if I were ever to go on a mission trip. My family also provided financial help for my short-term mission, enabling me to apply.

Even so, the preparation process for the mission was not easy. There was so much to do, and feeling the heavy responsibility that came with it, I grew exhausted both outwardly and inwardly and quit midway. However, ten days before our departure for the mission, by a chance of opportunity, I was able to speak directly to the Branch Leader, who told me that if I participated, I might have to go alone, but I did not have to take responsibility for everything myself, by myself.

After much consideration, I decided to take on the challenge of the short-term mission once again. Although I made the resolve once more, I faced many trials during the Volunteer Corps activities. Three days before departing for Africa, I was involved in 4 rear-end collisions, making my mission activities uncertain.

However, with my parents' advice that this accident could serve as a condition to be victorious in Africa and my own judgment that I could go, I departed as planned. And throughout two months of activities, I was able to finish and return without a single issue arising from the injuries caused by the accident.

They are communicating solely in English in Africa, and having had no prior experience in English conversation was also a major difficulty for me. At first, while speaking English I worried, 'What if I make a mistake?' and communication could not take place without a translation device. But as I gradually grew accustomed to life in Africa and continued using English, my English proficiency improved.

Little by little as I reduced the use of translation devices, conversed face to face, and grew closer to the members, using English became enjoyable. Furthermore, unlike other times, because I had to do everything by myself, I had to keep going without a moment of rest outside of sleeping hours. However, since no one had ever operated entirely alone before, I was able to experience every single thing possible during a missionary activity, unlike any other time.

The experience of being able to experience all the different tasks that would normally be divided and assigned to different people became an opportunity to help me grow even more. During the activity period, nearly half of the trainees contracted malaria, but all three staff including myself, did not catch Malaria and were able to complete our two months of activities in good health.

Returning home after finishing activities, my flight was delayed, and my connecting flight to Korea had already departed without me. I had to wait a full day for the next flight, with no acquaintances and no luggage. However, using the English skills I had improved over two months, I was able to resolve the situation on my own. I received complimentary hotel accommodations, meals and transportation from the airline, along with enjoying the final day in Africa with free sightseeing before returning.

If I had chosen to think that my two months of activities in Africa were unimaginably difficult and hard, it could have ended up being an endlessly difficult and hard situation. But conversely, it became a time

where I could feel grateful for everything.

And even now, just as True Mother's Words Teach, I am striving to live a life of greater gratitude tomorrow than today. Moreover, through the short-term missionary activities in Africa, I could feel the foundation of the Unification Church. The realization that there is a family community centered on Heavenly Parent and True Parents, not only in Africa, but all around the world, is an advantage unique to our Church.

While I felt grateful to the Yeongseong Workshop for being able to forge deep relationships as brothers and sisters, despite the short span of 40 days, the fact that a complete stranger from far off in Asia could be Loved simply because we are part of the Family, felt like a culture unique to our Shurch. And no company or organization anywhere in the world could replicate it.

One week before concluding my Academy activities, my grandmother in Faith, though we share no blood ties, (She was like my maternal grandmother) suddenly collapsed from a cerebral infarction, and a myocardial infarction and had to undergo surgery.

As soon as I heard the news, I went to the Church and offered Devotion along with a Hyo Jeong Offering Paper. The word card I drew at that time read as follows:

"Do not pray and then doubt. Will God listen? Believe and say it will happen."

Centering on these Words, I offered Devotion with the belief that surgery would be successful, and she would recover back to daily life. Shortly after the surgery ended, she was moved to a general ward, but suddenly suffered a cardiac arrest, returning to a critical condition. After she experienced multiple cardiac arrests, we decided that if another cardiac arrest occurred, we would stop life-prolonged treatment.

Thinking that this might be our final farewell on earth, I hurriedly wrapped up my Academy activities and departed for Japan on a flight the next day. Until my arrival, I worried whether I would be able to make it in time for a final farewell, but thankfully, I was able to meet my spiritual grandmother in the intensive care unit.

Afterward, church members and my family continuously offered devotion, and as a result, the day after I

arrived, she opened her eyes. The next day she moved her hands, and the following day she responded to voices and greeted us, recovering bit by bit like a miracle.

Five days later she was moved back to a general ward, and now she has recovered significantly and has been transferred to a rehabilitation hospital where she is now able to walk a little.

Through this experience, I could truly realize that prayers offered at Cheon Shim Won are certainly fulfilled. And I was able to experience the miraculous-like grace of Cheon Shim Won. One year ago, I thought that living a life of Faith would become a minus in my life. Far from offering Devotion, I was someone who rejected the Church, through Cheon Shim Won, I was really able to learn, experience and grow in so many ways, and put all of those things into practice.

And through that course, I was able to feel a lot of Love from Heaven and I was able to change myself. Rather than turning my back on the Church, because I was able to experience Yeongseong Workshop, I was able to experience many things. Rather than turning my back on Church, and choosing a life in the secular world society, I do not regret even a little that I tried to find my Faith.

Right now, living proactively, I feel much happier than I did back then. Over the past year, there were truly many difficulties and trials, but I believe I was able to stand in this Place today because I did not give up and did my absolute best according to Heaven's Guidance.

There were many moments when I almost gave up, and I cannot say that the entire process was fun. But it was an immensely precious and valuable time, through my one-year experience at Cheonshim Won.

I would like to offer my gratitude to Heavenly Parent and True Parents for allowing me to spend such a miraculous time and I will conclude my report there. TY.

applause

'Mother's Request'

Report

(She is tearful like can hardly speak)

First, I sincerely thank Heavenly Parent and True Parents Who Saved, Raised and Guided someone as lacking as me all the way to this Place (and she turns and bows to True Parents from behind the podium) applause.

Hello, I am Won Jang Mi from Yongpo Church. As the leader who guided the Pure Wave Christian 20,000-year Cultural Sphere Pilgrimage Project, I would like to report on the seven months of Cheon Shim Won Devotion and the Contents of Miracles through which we struggled and fought to give hope to HMH, True Mother.

My life changed 180 degrees after I participated in the 2023 Yeongseong Workshop in 2023 and met True Mother. Realizing that we are precisely the needles that True Mother so earnestly searched for, I resolved to definitely fulfill the Will for Heavenly unified Korea and Heavenly unified world, which led me to serve for a total of one year and seven months at Cheonshim Yeongseong Academy.

Every day of that process was a grueling battle as if taring away flesh and bone, but through the Cheon Shim Won Vigil Devotion where I became one with HMH, I came to know the Love of True Parents for the first time, and miracles of surviving from the brink of death were tunes beyond price, immeasurably precious, and I am grateful.

Afterwards, I returned to secular society to resume my studies at university. In the beginning, I plunged head first into the world with a burning heart and passion. But I soon encountered a severe trial that befell the Unification Community.

Around the time when Mother had been walking the path of the imprisonment and suffering for 6 months, whenever I felt a sense of helplessness, and there was nothing I saw to do for Mother, the only thing I could do was hold onto Heaven at Cheon Shim Won and pray desperately every single day.

Then by chance, through a public official, Heavenly Parent conveyed a vision regarding a Pilgrimage to the Holy grounds of Europe and Israel for the restoration of Christianity. I felt that if I could truly understand Jesus through this opportunity and experience the Essence of Christianity, not merely as a concept but in Reality, I would be able to witness with all my heart.

So, we began pushing forward with the Pilgrimage in earnest. However, we repeatedly faced near-impossible limits. A conflict broke out in Israel, where we had originally planned to go, and I despaired, thinking that all our preparation until then would end in vain.

At that time, I received advice that we must not compromise the Providence. And it dawned on me that we had already promised Heaven that we would go. My mind was swept by shock and confusion. Why must we go to such lengths?

From that day on, I implored Heavenly Parent with all my heart, 'If this truly is the path for Heaven, please let me. Even after vigil, I continued praying for True Mother until dawn and collapsing from exhaustion in my seat.

Then suddenly, the cries of Christian martyrs reached my ears. I felt emotions of those who kept their faith to the end while undergoing the agony of their entire bodies burning in fire. And I sobbed bitterly with tears for a long time.

The fact I learned afterwards was that Christian martyrs worldwide reached 70 million people. I could feel Heavenly Parent's Desire to save even a single person engraving their efforts and sacrifices more deeply at Heart than anyone else.

On the day after the vigil devotion ended, when I was offered 500 bows of devotion for the Pilgrimage, Jesus Visited my body in a vision. He Appeared Covered in Blood, struggling and staggering, as He Bowed to Holy Mother Han. Seeing Jesus Weeping Bitterly while Begging for Forgiveness on the Foundation of Christianity (not following Mother/True Parents) broke my heart.

I realized what Jesus' Heart for Mother truly was. I thought that if I who had declared dozens of times that I would Love Her, even at the cost of my life, were to hesitate with the Will to restore Christianity just out of fear of bombs and bullets, it would make the sacrifice of Jesus and martyrs in vain.

I became convinced that, if we liberated countless believers through the CheonBo Providence, the path of spiritual cooperation for the Restoration of Christianity would surely open. So, I offered a firm resolve that, if we must go, we will make a way.

Miraculously, the power of endless Cheon Shim Won Devotion Caused people who shared the same heart to gather together one by one. Almost all of them came from Yeongseong Workshop and Academy, who had been on overseas mission trips. So, we were able to gather 8 people at the end.

With everyone gathering their hearts, whenever they had a spare time, they studied the Bible and Works of the history of the Providence of Restoration and visited Christian clubs at schools to conduct promotional activities.

Furthermore, through the team members' 3-day fast, and 21 days of 400 bows of devotion, we built a foundation for spiritual cooperation. Every Friday we conducted Cheon Shim Won Vigil Busking, Chanyang and fundraising activities.

We went around to hand out food as much as possible and to explain the vision. And thanks to the sponsorships and help of the TC and various foundations and scholarships in institutions and countless other individuals, the project was able to make gradual progress. Heaven Worked together in every single one of those moments. So, just before our departure, the lack of funds were gathered to the exact amount. And we were even able to offer a total amount of 20 Offering Papers for the liberation and release of martyrs and the restoration of Christianity. Applause

I came to realize that, if a Devotion can touch Heaven, it can turn the impossible into the possible. No matter how impossible the situation, Jesus visited me at every difficult moment Saying,

'Thank you for doing in My Stead the Work I Needed to Do. I have been Waiting for you for so long.'

And all my sorrow was washed away with tears, just from those Words. Not a single person believed we

could achieve it to the end. The moment I endured and persevered to put my foot on the airplane, an indescribable emotion of awe and gratitude surged over me.

So, we were able to visit 6 countries: Ital, Switzerland, Germany, France, England, and finally Israel. Over 18 days, what we encountered was the vivid, living reality of history.

As we witnessed with our own eyes the traces left by Christian believers, a scene unfolded as if it were alive and breathing before us. Even the thousands of years had passed, the urgently united heart of that time remained deeply embedded there.

Seeing Christianity surviving today with the ideology of preaching the Gospel to the ends of the earth before Jesus returned, I realized just how many lives it has saved.

I felt the potent, desperate love of those who were thrown to the lions in the middle of the colosseum, while over 50,000 mocked and spit on them, they never stopped praying to Heaven until their very last breath. Tens of thousands of paintings depicting Jesus over and over again, proved that He was not merely a part of history for humankind.

The courage and cries toward a religious reform of Luther, Calvin and Puritans instilled great hope in us today as well. With my team members, we sanctify holy places everywhere with Death Valley Holy Salt, laying on hands so that they could receive liberation through our prayers and devotion together.

Through this process I felt the path of spiritual cooperation opening up and deeply realized the greatness of True Parents and CheonBo Providence, seeing first hand the religious reform of Luther and Calvin mentioned in True Mother's Words, as well as the unyielding courage of the Puritans who sailed on the Mayflower, which made me reflect, 'Why have we not tried to make active changes of our own for the sake of a living faith?'

I came to know that our ancestors are breathing immense courage and hope into our future. And the moment I headed to Israel, our final destination, many things in my life changed. All the soldiers were holding rifles, and a cold tension hung over the City unlike other parts of Europe.

Guided by local second generation members, we finally walked the Places where Jesus Himself had Preached, Stood at the Praetorium of Pontius Pilate where the final verdict was executed, and we trod together along the Via Dolorosa Hill

(Latin for Sorrowful, Arabic and Hebrew: Way of Suffering... Via Cucis (Latin for Way of the Cross)

where Jesus carried the cross.

Seeing those Places, we had the realization He truly, truly Lived it, truly Experienced all of this. It struck me with Pain so overwhelming from the tangible persecution and piercing loneliness that I could hardly keep my wits about me.

I could only shed tears of deep apology. The Heart of Jesus that entered my heart at that moment was completely different from what I had expected. He Loved the Jews who drove Him to the cross so intensely, so that He could overcome the agony, and refuse to give up on them.

It was me that He Saved at the Cost of His Life. I felt so apologetic that I had tried to understand the Heart of the Only Begotten Daughter, Holy Mother Han, without truly knowing the Heart of Jesus.

I lamented the fact that I had never been able to fully understand that depth until now. I could imagine how long Mother must have waited for us to understand this Heart.

All the conclusions pointed to by the history left behind by those countless Tears of Sacrifices led to the Only Begotten Daughter, making me feel deep in my bones how long Heavenly Parent had waited to meet the Messiah Who Promised I will Come Again, and to Realize the Ideal of Salvation.

I now finally comprehend that Mother Wanted to Attend Heaven upon the 2,000-year Foundation of Earnestness. If we truly wanted to Achieve the Restoration of Christianity, we must Love Jesus at least as much as we Love True Parents and Love Christianity.

Consequently, I came to genuinely Love Christianity. I knew that this sincerity would touch the heart of countless Christians in the future and that it is what Heaven Desires.

Lastly, on July 10th when we were on our Pilgrimage, True Mother bestowed these Final Words of Her Statement:

'Heaven Will Surely Accomplish Heavenly Parent's Dream here on earth. Second and third generations of Unification Community who are capable of taking charge of that Work, are stepping out toward the world as true children Attending Heavenly Parent.'

Among so many Words, why did Mother Say that the pure waters must go out to the world. Stagnant water can achieve nothing. Flowing water has pioneered history up to now and led change.

Going out into the world we discovered True Parents's most precious Heart left behind through Blood and Tears, and having Experienced the furious Work of the Holy Spirit, Results naturally follow. One of our team members resolved to take Yeongseong Workshop. Another resolved to go on a mission trip to H Africa.

We learned that Heaven is with us, not when we say that we cannot do something because we're too busy with school, lack money or have no time, but when we accomplish it despite obstacles. To all the pure waters who will march forward, I want to convey this. Since we pulled it off, what could possible be difficult?

Now, I hope that the pure waters will no longer hesitate but step out in to the world to struggle and experience things to their hearts content. I am convinced that if 2,000 pure waters cultivated here at Cheon Shim Won will realize the Heart of True Parents, go out to every corner of the world and witness simultaneously, countless miracles and reversals will happen in the world.

I never want to lose Mother again by the same mistakes made as Israel. I believe if we do this way, we can fulfill what True Mother has Said. Therefore, carrying these experiences and testimonies, I will continue the Pure Way Pilgrimage into its second and third phases and develop it into an even more advanced witnessing platform.

Furthermore, the next time I stand in this Place, I will definitely bring at least one person to the Faith, and offer that Joy to True Parents.

I sincerely thank Heavenly Parent and True Parents and Jesus for trusting our lacking endeavors, and helping us along the way, as well as all the leaders and members who have gathered their Devotion and

my parents who believed me. (Sister Kwan Jang Min)

I would like to conclude my HJ Report. TY

Japanese brother

15th Yeongseong Workshop

Ayoki Malsahamoni

Hello everyone, I would like to offer my gratitude to Heavenly Parent and True Parents Who have allowed me to stand in this Place.

Hello, I am Ayoki Malshamoni, the second son... I completed the Yeongseong Workshop. I want to speak about the devotion I have offered up to Heaven since completing the Workshop.

Currently I had been pouring a lot of energy into church activities. However, I had not lived this kind of life continuously from the beginning. There was a time when I was away from the church, and there were also times when I only maintained a minimum life of faith.

The first turning point that caused me to change was the Blessing in 2022, and being Blessed with children. Right now our family has two sons and a daughter who is scheduled to be born two months from now. When I heard that our first child was in my wife's womb, I harbored a heart desiring that this child would proceed to receive the Blessing Marriage, and that I wanted to create a world where all humankind naturally advances to the Blessed Marriage. While continuing church activities with that heart, I was guided to the Yeongseong Workshop.

While investing my heart and soul into the Workshop to understand what yeongseong was, I received a shocking realization during the intensive prayer. I came to realize that the heart I had toward my children, to guide this child to the Blessing, is precisely True Mother's Wish. This was the second turning point that transformed me. From that moment on I realized that my own dream was not just my dream but True Parents's Dream.

Furthermore, I held the thought that my life is not something I walk and decide along, but something governed by Heaven. After finishing the Workshop, the thought, 'I must gather yeongseong graduates.' arose in my heart. Although I did not know what we could do, I continuously had the feeling that Heaven Desires for graduates to become one.

Amidst that, there was a Workshop for Heavenly graduates of Yeongseong in District 1 and a gathering that would align well with a brother from the same South Tokyo Region. After that the graduates from South Tokyo began to gather together. A few months later, we named that gathering South Tokyo Yeongseong Academy, or SSA.

Since SSA began this year, we had the Chanyang yoksa, discussion and productive prayer and study group on the Epic History of the Chosen Han People of Korea.

In Japan, opportunities to raise one's voice loudly during Chanyang yoksa are currently very rare. Therefore, not only the Yeongseong Workshop graduates, but also participants from the Elder Departments, the Women's? Departments and other departments are extremely joyful.

SSA steps are only just beginning. There are no grand achievements or results to speak of. Nevertheless, thinking of Mother's situation and the current situation in Japan, the feeling arises that Father must have Desired this kind of activity. This is because, although there is not anything extra ordinary, I felt that whenever we try to fulfill our responsibilities, Heaven prepared whatever was needed.

Right now, not because they were receiving instruction from someone, but of their own accord, Yeongseong Workshop graduates are gathered together to offer prayer for Mother. I feel that this fact itself holds tremendous significance.

Amidst continuing our SSA activities, there are 3 things we consider important.

1. The first is becoming one with the Center.

We did not gather by receiving instruction from public officials. We gathered of our own accord and we are pondering for ourself what we can do. However, that does not mean we move solely based on our own thoughts.

By becoming one with H Japan touring lecturers and regional church leaders, we receive their desire and ponder what it is we can do.

2. Proactiveness

Rather than just waiting for something to be given to us from the Center, we want to move for Mother with our own hyojeong.

Each and every one of us possesses uniqueness, creativity and Heavenly talents received from Heaven. While exercising those gifts, we not only decide what we must do but responsibly put it into practice.

3. Mission

Why are we able to walk this path? It is because we have been Called by True Father.

Although I am giving this testimony right now, I am not in this Place because I am an exceptionally talented person. The SSA members do not gather because they possess special abilities either. Nevertheless, True Father Called upon us.

When thinking about it that way, I feel that at the starting point of every motive that lets us go through and graduate from Yeongseong Workshop was Father. And Father Accomplishes through us. Therefore, we have poured out our utmost devotion to respond to that Will. applause

Not a single thing was achieved solely by our own strength. Whenever we wanted to stop or encountered difficulties, we felt that Father always pushed us from behind. We felt as though He was telling us, 'I

believe in you.' which enabled us to move forward. Because we felt Father's earnest Wish,

'Please help Mother!'

We were able have courage to press forward even with things we thought were beyond our own strength.
applause

Although we have completed the Yeongseong Workshop, I feel that we are still walking under Father Direct Education.

What I felt deeply especially recently was Father's Heart.

Two weeks ago, there was a 2nd Intensive Prayer Gathering. While Offering One-Heart Resonance Prayer in the latter part of the Program, I felt Father's Earnest Heart.

We must not be satisfied with gathering only the Yeongseong Workshop graduates only of South Tokyo. (speaking with more earnest) As quickly as possible, we must gather the yeongseong graduates of District 1 in H Japan to pray for Mother.

The Message was not to gather by someone's instruction, but for each and every Yeongseong graduate to gather and praise of their own accord. Until now we have centered our activities on South Tokyo, but we are currently hurrying our preparations to expand them from just District 1, to the entirety of H Japan.

Myself, I never imagined before the Yeongseong Workshop that I would pour this much energy into church activities. However, encountering the Wishes of Father and Mother, and the steps taken since then, I came to feel that there is something I too can do. Therefore, even though I am not doing everything perfectly until now, I want to take a step forward each day with a renewed heart. Moving forward, I will be one with Father and Mother and press on. TY. big applause

Break - Busking

Hoon Dok Hae

(It is the Final Statement that True Mother had Proclaimed)

True Mother's Words: I have Devoted My Entire Life to Attending Heaven and Realizing Peace for One Family of all Humankind. I do not seek money or power. I deeply apologize for unintentionally causing a great deal of trouble in many areas as Leader of FF.

Throughout My Life, while Realizing a World of Peace through the True Family Movement, I've always Emphasized that we must Attend Heaven. And I have Traveled around the world Living by this.

However, it breaks My Heart that someone in whom I Entrusted everything, brought about the result we see today.

Even now, bloody battles of war and conflict are taking place all over the world. Yet I Cry Out: "Let us

Attend Heaven!"

I have Appealed that all nations attending Heaven should become nations of brethren, Welcoming Heavenly Parent on earth, and uniting in this era to achieve Heavenly Parent's Dream, the Kingdom ((King Father and King Mother Realm, the Heaven Realm)) of Heaven on earth.

I believe Heavenly Parent is Alive. Heaven will surely Realize that Dream on earth.

The second and third generations of the Unification community, who are capable of taking charge of that Work, are stepping out toward the world as true children Attending Heavenly Parent.

Centered on April 2025, I created the Environment to Fulfill the Creator Heavenly Parent's Dream on earth. It is a Thankful and Grateful thing. Now that we have made ourselves known, only Prosperity will follow.

Therefore, I believe that the long-awaited Ideal of One Family of Peace for Humankind, attending Heavenly Parent, will surely be Realized. Until the day My Life reaches its end. I will continue to move forward toward that goal no matter where I am.

I will Pray that his Nation, which has Received the Blessing of Heavenly Parent, will Fulfill its Responsibilities as a Chosen Nation like a second Israel, and that the People of this Nation will Fulfill those Responsibilities.

I Say again that such unseemly events as are today's events must never happen.

Now, for the sake of our future descendants, I will Pray and Bless that a world without war and conflict--- Kingdom ((King Father and King Mother Heaven Realm on Earth) of Heaven on Earth Attending Heaven---will unfold.

Thank you.

Yeongseong Workshop Trainees sing 'Way Maker'

(We will not leave True Mother alone. Even if we fall down many times, we will rise up many times)

PRESIDENT LEE GI-SEONG'S MAIN MESSAGE

I would like to welcome and congratulate all of you who have come to the 1,641st Cheon Shim Won Devotion. Right after the 1,640th Vigil, centering on the 2nd generation group, I believe there is such grace centering on this Devotion, and with that we are continuing.

...
