Song of the Garden

Bow and Pledge #5 and 6

Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved, Victorious True Parents of HEH

We offer our thanks for offering us the precious day today of 1,645th Cheon Shim Won Devotion.

Even though we have resolved to live loyal lives today as well, we have so many shortcomings (As Father said to pray, 'We have failed to substantiate true love after Holy Mother Han / True Parents)so please forgive us and guide us so that we can become (reflections of Holy Mother Han's Heart and Life to the world) (awaken us to choices before us for the sake of Holy Mother Han Your as children who have been Blessed and reborn to give ourselves over, to transform ourselves and the world) born through love and grace.

We come to confirm that today's Cheon Shim Won Special Vigil Devotion is a Place of wondrous miracles, educated and governed by True Father in the SW and True Mother on earth, who have become one and with the mobilization of all AGSs. As we must face the 346th day since True Mother walked and our filial responsibility as children (chosen people)(let us seek directly with questions in our hearts and true desires in our hearts how True Mother must be our Central Pillar)

We children who cannot (give You our desire and need to show You our desire to) fully express our remorse and apologetic hearts, however because True Mother has granted us Cheon Shim Won, which is the foundation of prayer and devotion, we firmly believe that, if we simply become one with HMM True Mother in this Place where we can liberate all people and liberate the SW, a wondrous history of grace will occur.

Through Cheon Shim Won Devotion, we must move the entire spiritual realm to restore True Parents's Providence back to its original position. Since we have been attending True Mother in the Providence, the Homeland of Korea has been stained with Blood, Sweat and Tears (of True Mother/True Parents) and we must give earnest prayers and devotion...

Please let all the trainees deeply experience (Mother's Heart and Love) and bring forth the wondrous works of miracles and marching forward for the sake of Mother's Hope and with boundless gratitude...

Before all You Grace and Love, expressing gratitude I pray all these words for Mother's well being and longevity,

Kim myung Jun

CHANYANG

TESTIMONY

Gratitude to Heavenly Parent and True Parents for allowing me to share my experience from the International 40-Day Workshop

Hello, my name is Karen Uda, the eldest daughter of Seiji and Mikiko Uda of the 30,000 Blessing. I am of a Japanese family. I received the Blessing last year with Manny Muyongo, now living in Minnesota in the US.

(I love this translator... He looks at the the person and feels with the words)

In 2023, I came to America and began to understand the importance of the Words of Cheon Shim Won. I made a commitment to attend night vigil every night, unless circumstances generally did not allow it. I kept that devotion for 3 years, even when I was sick, exhausted or didn't want to go, I still attended whenever I was able.

Within the first year, one of the aunties in our Minnesota community, was inspired to start night vigil in our own state. Together with her, two other aunties, my mom and myself, the five of us began offering our own night vigil, and reached our 500th 3 months ago.

I can see how this devotion became an important foundation in my spiritual life. I had experiences with Father and HyoJN at Cheon Shim Won. I could feel their presence and it stayed with me.

With this foundation of devotion, I felt inspired to attend a 40-Day in CP. Neith my husband or I had ever attended a 40-day but we felt inspired together to go. During our first weekend, we walked to the cafe talking about what kind of career I would pursue after the Workshop.

After the CY, I had a vision of Father being with Manny and me. I felt Him speaking through my husband, showing me that He cared for me. I hadn't been so close to Father and had some misthoughts about Him. I was moved to tears that He would love and care for me this way.

I had always known Him intellectually, but it was entirely different to experience Him Personally and I could stop crying through CY.

Reflecting on it, this experience was undoubtedly connected to the Cheon Shim Won conditions continued and made a spiritual foundation for me to have these personal experiences.

I came to understand that Mother's Call for us to attend Cheon Shim Won is entirely for this Purpose, for us to feel their Love and share that love with others.

Another part is the relation with my husband and how true it is that it's good to attend as a couple.

I learned so much more about myself. The struggles I've carried throughout my life, and how they've

affected, not only me, but my relationship with my husband.

Before the Workshop Manny and I had been separated for more than a year because of my mission work in Chicago, while he stayed in Minnesota. Especially during that time, but especially during our relationship, there were hurts and wrongs that had never been fully addressed.

Surprisingly, some of these began to surface more fully during the 40-days.

Throughout the Workshop, I could feel the SW helping me through this process. The lectures in particular on relationships, on experiencing love through the body, on understanding how to handle spiritual problems. It felt as though they were given specifically for my situation.

All of it felt like a Gift from Heaven, practical ways to work through what I was struggling with, alongside the healing Love of Mother.

I also felt love simply being with the other Workshop members, practicing singing, enjoying worship and enjoying snacks together. I felt that the people here truly are Heavenly Parent and True Parents's family.

This time helped me understand that everything I go through is to help me become a more loving person with my husband and True Parents. I want to love my husband more deeply, love and support my family and keep loving my church and community. I want to take what I've learned here and carry it into my everyday life.

TY for listening.

Hannul bumo nim Chambu mo nim Sarang hamnida Kamsahamnida

Black brother speaking Korean... not translated

TESTIMONY

Chang Young Shu

Korean Workshop trainee

Hello, I am daughter and thanks to Heavenly Parent and True Parents for the grace to give this testimony

The reason I came to Workshop was to find the Direction and answers for my life. I followed my mother to church because I love my mother, but not much interest myself, but I like to give love to people that they suffer less and be happy, and by that I feel happy.

I heard that the secular world is different and if I approached people with sincerity, I would only get hurt. So, I began to fear relations with people and built wall. And from the intensity of study, I barely had time to reflect on my heart and came to a state where I didn't even know why I was living.

In order to find my new self again, I decided for a new work place unrelated to my major that I would try treating people with sincerity once more, without being afraid of getting hurt. With the desire that my colleagues and boss would suffer less and be happy, I offered love and good will.

At first I was happy as if breathing and alive again, but there became people who took my good will for granted or took advantage of it, and cases where they poured their negative emotions onto me. And at times like that, I would leave work crying with upset feelings.

Even so, the next day, I tried to treat them with sincerity again. However, the question came, 'Is treating someone well really helping that person?' and 'Why am I getting so exhausted while giving love?'

I still wanted to mingle with people and become a person who gives love sincerely. Therefore, I came to this Workshop in order to find how to give appropriate help tailored to the person, and gives true love that forgets even after giving.

I heard, 'Trial are a single path given to understand Heavenly Parent's Heart' and that struck a deep cord in my heart, coming to think that the trials were for that. At the same time, I realized that the pain I felt was so small compared to the pain of Heavenly Parent Who loves Heavenly Parent's children.

Then, during the Cheon Shim Won Vigil Devotion, I shed tears for the first time thinking of Heavenly Parent's Pain and offered praise and fervent prayer.

Also, through the testimony of Vice Director Yokoi Toshiaki, at Cheon Shim Won Devotion on August 15th, I felt that Heavenly Parent's Heart as Heavenly Parent Watched me struggle was so much more painful than my own pain.

I used to think of my pain and ask why there are no people in this world who love so sincerely? But Heavenly Parent was persistently Giving me True Love. Realizing too late that Heavenly Parent was always with me whether struggling or happy, I prayed with tears of remorse.

My question whether the love I gave that was taken advantage of or discarded by people, meaningless? First, 'Divine Mind cannot be stolen (by changing faith?).... If one well cherishes the value of goodness, it becomes a precious treasure

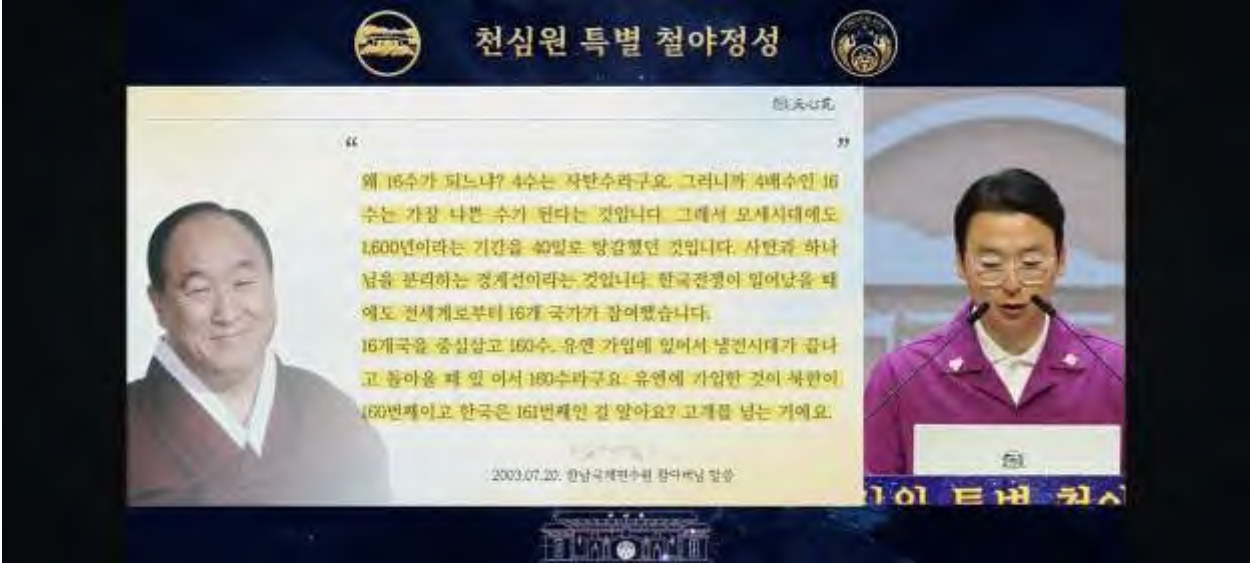

... Even though it hurt me at times (with peoples' abusive reactions), the value of goodness remained intact within my Divine mind. That love was never in vain.

Second, true love does not become a minus the more it is invested, but rather its output becomes greater than its input.

Up until then, I thought that I gave and forgot, but in Truth in my heart, I think I was expecting the recognition of the other person. That is why, while giving love, I got hurt and exhausted. I realized that because it was not true love completely for the sake of the other person, my heart had become a minus.

Third, I learned that when you invest with joy, you do not get exhausted. But give and take action is completely by seeing the person receive the love genuinely rejoice.

Through this I realized that true love is not about what and how much I gave but rather resembling Heavenly Parent's Heart, feeling the other person's joy as my own joy.

Also, True Mother has Walked a Lonely Path to Liberate Heavenly Parent from the lowest position amidst countless moments when even the children She Trusted, departed. Nevertheless, I came to feel in my heart the Immense Love of Mother Who Forgives Her children and embraces them once again with true love.

I felt apologetic for my past self receiving so much Love yet failing to realize it, wanting only to receive. From now on, grateful for the abundant love I have received so far, I will strive to be a child who can continuously give love and fulfill True Mother's Dream.

Through this Workshop, I learned that the answer does not lie in becoming a person who never gets hurt, but rather becoming a person who understands Heavenly Parent's Heart of Wanting to Love limitlessly.

Moving forward, I will cherish the traces of my good actions as precious treasures in my Divine mind and I want to become a child who returns joy to Heavenly Parent.

Rather than expecting or relying on the reception or reactions of the other person, I will focus on the joy that I can creatively care for them (in place of Heavenly Parent), and be happy together for all who do receive that love and rejoice together with Heavenly Parent.

Embracing others with true love can also be difficult and hard beyond Words, but I felt the Love of Heavenly Parent and True Parents Who always stay by our side and give us love simply because we are their beloved children.

I could not have learned this kind of true love anywhere else. I love the FF and Unification Church and True Parents that made it possible for me to learn this. And I will become a pure water who strives to practice true love, thereby comforting Heavenly Parent and True Parents's Heart. I Love you...

HJ REPORT

Kim Ju Won

Grace of 16th Resonance Prayer 3-Day Workshop

From PL's words we received a hint

The Era of Spiritual Warfare, A New Wind Blows in Korea

In the Workshop our goal was more than 330 member and 3 days before so distant from that goal and we were worried, but the day before we met 340 and now 461...

Also, the 3-Day was difficult to go over a hundred people participants of males but many came with their wives

PL: If you pray with desperate mindset thinking if you cannot meet Heavenly Parent this time it is completely the end, a new wind will blow in H Korea through your devotions.

This #16 is important. There is an energy that changed completely after 1,600 Workshop... The 16

nations, as we received the 16th Workshop, it mobilized all the AGSs in the SW to pray and offer devotion and make this condition so that miraculous work can happen in this nation and for Mother as well

testimony... Oh, I didn't know it was such a grateful prayer... I took a spiritual shower and was reborn... Even it was only 3 days, I completely inherited the essence of receiving a 40-day Yeongseong Workshop.

And if you go out with 3 or 4 people to offer one-heart prayer, the instinctive work of the Living Heavenly Parent will happen there.

And about the #16 True Father Said:

Why does 16 become? #4 is Satan's #. Therefore, the 16 multiple of 4 becomes the worst #. Therefore, even in the time of Moses the period was 1,600 years was indemnified as 40 days. It was the boundary line separating Satan and God.

Even when the Korean War broke out, 16 nations participated from around the world. Centering on the 16 nations, the 160 of UN entry, when the Korean War ended and the Cold War continued, it is 160.

Do you know that North Korea is the 160th and South Korea is the 161st that joined the UN. It is crossing the ledge. This Workshop is truly the 16th Workshop that crosses over to make victory.

testimony: Icuro Pastor of Ilsan Great Church, who brought 16 members from their church... He speaks:

Hello, amidst Mother's cosmic suffering, I thought we needed to offer devotion here and build a foundation where our members could come together during this hottest part of the summer, and truly offer devotion for Mother. And 16 members came together for this.

Director Kim Ju Won and Director Chun Mu san and Manage Ang nyung man? and all of us were so filled with grace. It was truly a precious time when we practiced praying for one another with tears through one-heart resonance prayer for our members.

Moving forward, we will earnestly offer prayers together, becoming one with each other in true love, and

bringing joy to each other so that Ilsan Church will surely live up to the expectation.

I am Chil uh mini, the wife of the Ilsan Church Pastor and will continue, upon returning, to share even a little bit with all members what we have learned...

Pastor, We didn't set out with a specific # but just that as many as possible should go, but when we arrived we saw that there are exactly 16 of us for the 16th Workshop, and there were 16 participant UN nations helping in the Korean War, and the 16th has already passed, and I hope that the 16 Workshop conclusion can serve as a condition to unite nations worldwide

Returning home, not a single one of our members will be an exception. We will participate in Cheon Shim Won Devotion to be a strength to Mother and we will definitely revive our Church. Mother, please have strength. Mother, we love You. Thank You.

True Father: Pray with earnest heart and it will be fulfilled. While praying you must pray with tears and sweat and conviction. Even if events of persecution occur, you must know that the time of God is drawing near to fulfill prayers.

As you walk in the Unification Church, and it gets more difficult, you must know that the time has drawn near as much as it is difficult.

Our time is coming nearer and nearer... And this Workshop is to give us the power and armor of prayer... and the weapon is the HJ staff, not a sword, in order to make victory with tears and life-and-death determination.

With the spiritual weapon of prayer, we will be able to lead and make the victory...

All WSs offer morning devotion, calling out, resonance ansu devotion, praise and bowing for Mother... In the Main Hall, a total of Yeongseong and staff received more grace.

testimony Feeling the entire SW and True Father mobilized and deep gratitude for those who offer devotion for Mother every day... thinking only of True Mother's Heart, and with such an apologetic heart my tears do not stop and I will live for Heavenly Parent and True Parents

Also, lunchtime with many other programs we have Cheon Shim Won Special Devotion at Cheon Shim Won and offering prayer and reading Mother's final statement...

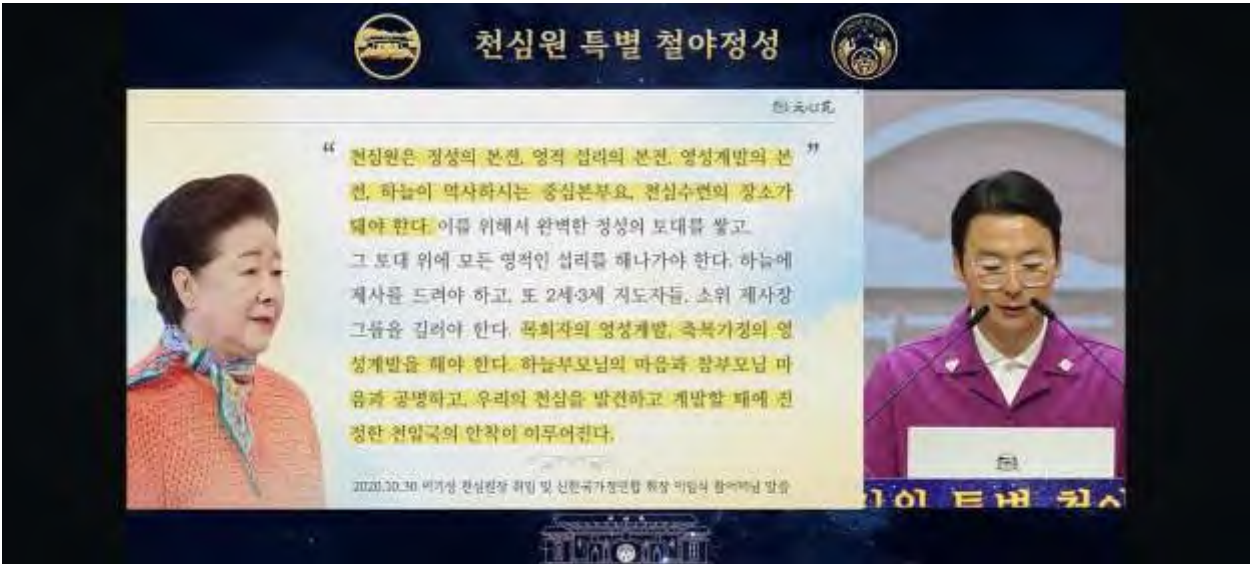

testimony... sound drums like Mother's Heart beat feelin Mother's Embrace. At the same time I realized passion and devotion is needed to make satanic things retreat... and keenly feel that Heavenly Parent was knocking and waiting in front of the door of my heart that I had shut, and as soon as really praying and repenting, the door swung wide open... and praying for True Mother's Health safety and well-being, not for myself...

testimony... at first doing ansu just for myself, but then for Mother and it became resonance ansu for the greatest grace, while picturing each part of Her Holy Body's suffering.. Mother's Eyes, Mother's Shoulder, and how much Tears and Suffering over Her children. I came to feel even a fraction of the Heart of True Parents and ashamed for not understanding until now. and the words out from my mouth, 'Please save True Mother. Please save Her.'

Before the love of Parents who trust me, I too will trust implicitly and plunge forward. Cheon Shim Won

must become the main Providence of Spiritual Development...

I believe when we resonate here with Heavenly Parent and True Parents here in Workshop, the Will of Heavenly Parent will be achieved..

Through us, I believe truly a lot of churches came with their pastors and interestingly, right before the HJ Report, 16 churches came with the members. I believe True Father worked for the victory of this #. And Grand Church brough 22 member and 15 and 13 member receiving awards. I didn't ask members to do this, but as our volunteers calculated how many members, they made this slide I'm sharing and I hope our trainees are not expecting this kind of rewarding though.

applause

Ho gi meh and Sun ae the wife, and their motive is from offering devotion together and for accomplishing 1,000 for Mother's release...

Cheon Shim Won Special Devotion continued for a long time and the heart in the beginning cooled down slightly so this became a time to elevate to the next level, especially one-heart prayers that made us weep praying with all our hearts and tears...

We will continue beyond the members currently attending and for more members participating together and we will bring together those from past time and next time and not just speak with words but act

'With Cheon Shim Won Devotion definitely becoming one with True Mother definitely together today until the very end, Victory " " '

We didn't know he would give a chant like that and I hope all the churches will create their own way of chanting.

testimony

Father came and said, 'If you help what will you do?' and the thought came 'What can I do? I don't have money.' But the feeling to help was strong. So, even my household was not having generous giving, I

promised to sponsor five people.

I was asking if anyone wanted to go to Workshop and 6 people asked me and attended in succession and the pastor made a time for them to testify about it to the church. And the interest and spirit grew. For the 130 needed for Mother's trial result, our couple participated again to make the # by the 16th and then we went over the goal of 430. (Susang Church and Sawasaki so member)

(He names the churches)

Icksan Pastor Moon Baeg won received the most grace and he wrote a very long testimonies and picking them and shortening them was the most difficult task for staff...

I had a time to deeply engrave True Mother's 1,095 days in my heart, a meaningful starting point, realizing that cheonshim heart is not about moving Heaven first, but I must change first to resonate with Heaven.

Establishing a life of praying while working and working while praying, I will establish a Cheon Shim Won prayer room.

More and more members are reviving and coming out...

another pastor: This became a devotion for the first ruling and corresponding to the #16 victory...

True Mother: Feb 24 2023... How wonderful would it be if member's witnessing occurred explosively. Witnessing happens when members revive, but leaders could not do so. We must go forward with Spirit and Truth. It has been said that we will go forward with a two HQs system in the future. The church must go forward becoming one with Cheon Shim Won. We must go forward with Spirit and Truth

... However, there is a stagnant state. There is no spiritual revival. Therefore, we must strengthen Cheon Shim Won prayer. We must feel it ourselves and live a Heavenly Life. Love is important.

Just like PL's words, new wind of revival is occurring. These Mother's Words are being fulfilled through 3-day Workshop...

(reporting focused on attendance and there were rewards, and making competition for this Cheon Shim Won vigil)

testimony : 2nd attendance and came to look back on the religion life I had practiced in the field and praying for each other and could have fulfillment of child's Blessing and Victory for CheonBo family... There is a couple who became trainee during the Workshop.

As they voluntarily serve others, they received Blessing... Her son changed actual appearance by being active and praying earnestly... 'Father, seeing my son's appearance, I am truly moved' and Father saying, 'That's right. I educated him'...

Through this Workshop, I felt that one-heart prayer is not simply praying for one's wishes but a devotion of loving one another with Parent's Heart and fulfilling Heaven's work.

I will practice the grace alongside my team members...

testimony: Direct experience of Heavenly Parent's grace, I wanted to participate in 3-Day even difficult because I had to take care of my daughter, but we all went and received the robe and graces....

My husband suffered a major accident and we were told he would have to use a wheelchair for the rest of his life, but with the Cheon Shim Won prayer and ansu he was able to walk again without crutches and for my daughter of autism diagnosis and the baby who knew only to say mom and dad began singing by a miracle of Heaven's grace.

I received Heaven's grace every moment but by the Cheon Shim Won devotion and 3-Day was a time to give thanks for the graces and return love and devotion to True Mother.

Before attending there were various worries and difficulties in my heart and I laid down all the worries in prayer...

There was a surgery needed with prognosis not guaranteed with one of the highest rates of death. But in the Workshop making the conditions and entrusting everything to Heavenly Parent and True Parents, and had the news of amazing recovery of my brother in law.

applause

Han san sung in the last stage of his cancer and now in the lung and every day very difficult and he came to the 6th Workshop and they said in the family the two of them will come to the Workshop until the day they died. and at 5am he would wake up and go to the Tree of Blessing, sleeping less than 3 hours... and soon he will get a check up...

The church offered calling out for him...

And they went to the Tree of Love, waking up early and doing the voluntary work without being asked...

***There was News that the Allegation of political funds accusations in Mother's trial have been closed without charging True Mother

All the staff and volunteers offered such devotion entitled 'Supporters of true love' going around and giving massages and small talks and the members said they have been sacrificing and volunteering in the secular world but moved to see the volunteers do this in the Service.

True Mother Said the Korean early church started in Spirit Devotion and Truth. You say you're earnestly offering devotion for Parents but in doing so there is an individual condition necessary where the entire body unites and offers devotion toward a single goal.

After these Words, PL was appointed as the FF President of Heavenly Korea, and True Mother Said that Korean Churches must center on the Training Center to move forward in Spirit and Truth. And She made such strategy, and because of that, we experienced the victory of vision 2020.

During this difficult time, I believe we must reflect these Words in our heart and put ourselves into practice to fulfill these Words.

Next week 3rd to 12 Workshop we set the goal is 500, but Heaven told me there must be more than 600 coming to pray for True Mother. And I had thoughts to go back to 500 goal because 600 would be so difficult, but Father scolded me.

This song and dance is becoming much more popular and we will make easier moves so that older people can dance as well... and with the Words of increasing gratitude, I was able to overcome all the obstacles and those close to me, to greet them, I use the word Kamsachukhaengbu... When Father Passed, the most difficult time for True Mother, Mother gave us this phrase...

There were words of testimony about using this term, let us move forward with this and with all prayers and devotions WSs and all the Truth will be revealed so that Mother is found innocent.

BREAK

BUSKING

Hoon Dok Hae

The SW is unquestionably perfected through the practice of true love. Your lives must harmonize well with the physical and spiritual standard so that you live and depart after perfecting the substantial spiritual body where spirit and flesh are united.

This means that you have to responsibility to use your physical body as a foundation for the spiritual world, which is a phenomenal world and finite world to perfect your spirit self. It does not come about automatically. It bears fruit only on the foundation where a mind and body become completely unified unquestionably through the practice of true love.

Every single action of yours in recorded in the physical world without a sing omission based on Heavenly laws. Therefore, when you enter the SW, you are in the appearance of a spirit self that has recorded 100% of your life in the physical world.

Whether it is a good fruit life or a worm-eaten rotted life is revealed with complete clarity on your spirit self. This means that God is not your judge, rather you yourself become your own judge. If you know this immense and fearful Heavenly law, how could you ever dare to end your earthly life as a life of

immortality falling into all sorts of satanic temptations and pursuing only selfishness and pleasure...

You must guard against anything that wounds or blemishes your spirit self, risking your life to abstain from it. Please keep firmly in your mind the fact that going to Heaven or hell is decided right here and now in your thoughts and deeds.

Blessed by the great grace of God and able to stand before you once again, My Wife and I (the Only Begotten Daughter) are simply filled with boundless emotion. We as True Parents of HEH, We as Husband and Wife, received the Heavenly Mandate to Rescue and bring back the human beings who are born of the fallen lineage and have been wandering for thousands and tens of thousands of years as orphans without parents.

Rev. Moon is the champion who knows the SW best, SW which is the world after death is the real world through which you must go as a natural extension of the earthly life.

Therefore, for those who receive the Blessing, shed their physical self and receive their spiritual body, rather than death a holy ceremony called 'seonghwa' is held to send them off and celebrate their journey to the H Kingdom of eternal life ((Heavenly Parent's KingFather and KingMother Realm)) ((if we fulfill our chosen people responsibilities to the end))

You must know that countless saints and sages who came and went throughout history ages, currently exist in the SW, and after receiving the Blessing from True Parents and becoming AGSs, they are helping God's earthly Providence.

The recording of every moment of earthly life is as it is in the spirit realm, becoming the judgment. Therefore, all human beings must practice the life of true love, taking joy in sacrificing for the sake of something greater.
