Bow and Pledge #7

Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

Here in Cheon Shim Won, where Heavenly Parent and True Parents Presence and Works are alive, we are truly grateful to be guided to offer this time committed solely to You and True Parents.

This past week we have been living each day with truly heavy, aching and apologetic hearts, seeing the Reality of our True Mother, Our Holy Mother Han Only Begotten Daughter Who has come after 6,000 years, Who must Endure the world's ignorance, misunderstand, and harsh persecution, with Her Precious Holy Body in constant Pain, and now this time of the cross prolonged again.

We now reflecting ourselves anew, that we are the chosen people living in this same era as our True Mother, and we realize our part in Mother taking on this indemnity in old age, and we now determine

more earnest prayer and devotion, making a new beginning of gratitude and sincerity that we can still transform ourselves to protect Mother.

The trial is not over yet, and we pledge to go forward even more passionately beyond the trial to the end of the fulfillment of Your Will and Your Liberation. Please guide us, to mobilize the SW and bring Your Works to full Power that Mother is fully exonerated and released and Physically recovered, to be welcomed by the world and attended by the world...

(Let us reflect on Holy Mother Han's Word and Direction to us past and present, to make changes toward perfecting realization in surrendered lives to obey Her Direction... living in Her Direct Dominion that is The Oneness of Your Direct Dominion and True Father's Direct Dominion at the same time)

Truth will definitely come to light for us and the world, if we spread our two wings of it through yeongseong prayer and devotion moshim. I believe the power of those Wings will stir up a Typhoon of True Love as we show Her True Love in our own lives to the world. Cheon Shim Won Vigil can untie every single knotted thread and unblock us to go together in victory in this spiritual war.

When we look at True Mother Appearing so Parentally in Love unwavering for the world, in Purpose of Yours unwavering before the world, proud in the impossible Love Victory She has already Made, in the True Parents' Holy Wedding that forever proudly remains...

Let us also gain the conviction without a moment's hesitation that we can overcome any difficulty, becoming one with True Mother, never giving up until the very end. Earnestly wanting and praying that we each form proud Blessed families that fulfill the Mission given to us for the rest of our lives in our families and churches, revived to be the witness and protection of our Holy Mother Han

Gratefully in Her Attendance in my name Kim Guy Yon of a BF Aju

8th and 10th Yeongseong Academy

TESTIMONY

Cho Won Je

Yeongseong Academy student

Bonjau, gratitude for overcoming 7 years of shut-in life, and be standing here... 2nd of 4 children

In the past I was filled much more with wanting death than life, even being motivated every day for dying...

In the first grade I wet myself in front of the class and developed a severe complex about my appearance and grew up to be an incredibly negative child. Stressed from school, I could control my anger. I inflicted wounds on my family, especially my younger brother. But my mother would always tell me,

'You are a 2nd gen Blessed child and you are different from other kids, and when you grow up, you must receive the Blessing.'

I heard those words, and I felt incredible resistance and yet still vaguely thought, 'I guess I'll have to receive the Blessing some day.' And just naturally by living with my parents, also having some consciousness about Heavenly Parent and True Parents and the SW. However, in middle school, I was exposed to pornography. I couldn't erase the feeling that I was completely defiled.

Thinking that it was all over for me, I completely submitted to giving up on life with no purpose. After returning from the military, I also quit my job and began living as a hicamori for 7 long years, with a daily routine of tossing and turning while muttering, 'I don't want to live before finally falling asleep.'

One day during my third year of living like that, Mother Appeared in my dream and told me, 'Try praying to Heavenly Parent.' After having that dream I somehow felt that I couldn't just ignore it. So, for 4 years I read at least one verse of Cheonseong Gyeong and prayed to Heavenly Parent.

I asked, 'Heavenly Parent, if there is anything You want from me, what is it? And when I refused to go outside, my mother continually urged me to attend the 40-day Workshop.

then in August 2025, when I was 29 years old living hicamori, I finally resolved to go to the 40-Day and meet Heavenly Parent before turning 30. From that day on, I did HD reading with my mother for 2 months. And that is how I entered the general 40-Day Workshop.

On the 3rd day of the 40-day, the moment I saw Mother's Portrait at Cheon Shim Won, my tears poured out like a waterfall. I wasn't feeling sad at all, yet I was shedding tears uncontrollably, which felt so incredibly surreal to me.

The next day, before the CY Session started, I was watching the trainees leading it, and I suddenly prayed, 'Heavenly Parent, if there is something I need to do on that stage, please give me the answer tomorrow. And miraculously, the very next day, I was given the role of CY leader and group leader. I praised this as Heaven's guidance.

From that point on, my devotion started in earnest. I woke at 6am every morning and devoted my faith by offering calling out prayer and bowing devotion. This faith carried over into the 40-Day Attendance and Moshim Workshop and to the Academy, with my faith changing little by little, copying the other trainees with rigorous devotions, going to Holy Grounds...

The Spirituality was profoundly learning about WSs and True Mother, an area where my mindset became to fully understand why people say the SW only educates us during the WSs. I desperately wanted to leave behind something of result from my Workshop, and one day I caught myself as a matter of habit formality.

That's when I thought, 'I need to do this right and put in my whole heart with attitude of devotion, even the smallest condition with absolute sincerity.

So, after the academy, I started a 21-day condition to pour my whole self into, and accomplish perfect devotion for what even I could be completely satisfied with. I did the conditions and wrote in my journal the things I was grateful for and wishing Mother's Health and Longevity written there.

On the final day, after receiving encouragement and advice from a righteous person, I changed 180 degrees from who I was before. Many had given me similar advice before, but on that particular day, an inexplicably positive bolt of energy welled from inside me.

I vowed to give up my life of constantly comparing myself to others, to live my own life completely. People around me started telling me how much brighter I had become. The person who used to never smile and think they did not want to live is now happy and smiling every single day.

Incredibly, gratefully, I met a precious person sent by Heaven, allowing me to receive the Blessing in 2026. applause (He nods)

I felt to join the Volunteer Overseas Corp that led me to visit Jardim and Central and South America. Whenever difficulties arose, Heavenly Parent gave me profound realizations through my devotion.

I can't explain that entire process here, but in every single moment, there was the undeniable guidance of Heavenly Parent. Whenever, I was struggling, if I offered devotion and prayed to Heavenly Parent, I would receive the answer through people and circumstances around me.

Previously, I thought going to the 40-day Workshop was pointless and that it was impossible or my life to ever change. But now, because of Heaven's Guidance, I have become able to accept whatever situation as Heaven's Love meant to educate and train me. And I have gained the strength to meet everything with a positive attitude.

I later realized how my mother had been offering devotion for me all along. I would like to take this opportunity to express a deep respect and love to my mother. applause (He smiles and nods)

I also want to express gratitude to my family and apology for hurting them especially my younger brother.

And I am grateful for him understanding my heart. I had wanted to give up on life altogether except for having one dream of True Mother. But now, utilizing my Japanese skills, I have set a goal to become a touring guide interpreter.

From here on out, I must forge my own future. What I realized under Heaven's guidance is that, more than anything, my life absolutely requires devotion.

I will no longer be chained to the past but move forward step by step to offer devotion together with my spouse as we welcome a completely new life ahead. Pledging to become a child who brings no shame to Heavenly Parent and True Parents, I will conclude. (He bows again IChu Wante)

applause

'Warmth' wigi

TESTIMONY

Mikakasokuyachi

The youngest daughter of 2 sons and 2 daughters

Until entering university I was an inactive member. In middle school I suffered from an illness making it difficult to form relation with people and lived with no purpose in life.

My parents lived a passionate life of faith, driving me to church every time, but I just couldn't feel a need

for faith myself.

Then during my second year of high school, my second oldest brother ended up marrying outside the church, despite endless arguments with my parents, and eventually my 2 older brothers and my sister left the church.

Watching my parents weep so deeply, I thought, 'If I walk this path, wouldn't my parents be less sorrowful. I have to stand on my parents' side'. With that thought I came to study at Sun Moon University.

For the first time, I felt true love through the 2nd and 3rd gen members.' I finally began my life of faith. However, I gradually fell back into self-centered life. My loneliness and depression persisted, and I eventually had to take a leave of absence from school.

During that time, I became even more distant and even when I met someone of romantic interest in me, and I thought of my older sister and felt Heaven warning me. So, I participated in two WSs.

During the spirituality Workshop, I realized to the core of my bones just how self-centeredly I had been living. I finally realized that this was exactly the very cause of my loneliness and depression.

One day, during the unison resonance prayer, I found myself weeping out loud and praying, 'Heavenly Parent, I so deeply sorry.' Then I felt a heavy, crushing weight on my chest and shoulders. I went to Cheon Shim Won and continued to pray. Later, during the Chanyang yoksa, I received ansu. My whole body grew burning hot for some inexplicable reason with tears flowing nonstop. Afterward, the heaviness completely vanished and a high fever I had from a cold went down entirely, through the grace of ansu.

Then from the spirituality Workshop and meeting Mother for the first time at the 2025 New Year Prayer Meeting, I was finally able to find the purpose of my life and challenged to no longer live just for myself but for attending Mother is still on earth, with the awareness of being a chosen citizen of Cheon Il Guk.

Then while praying for what I could do, I was appointed as a class representative with my Japanese International Student Association, working for a year with the heart determined for the inactive members to return, while constantly offering devotion at Cheon Shim Won, with the joy of living for others, and with that desire growing endlessly in my heart.

In the midst of this, after Mother went to the DC, I began to agonizingly wonder, 'Should I really just get a job right now. I desperately wanted to offer deeper devotion for Mother. I joined the 5th Moshim Attendance Workshop.

I felt how incredibly grateful and purely joyous it is to be able to personally attend Mother during this Golden Era. Also, while offering 24-hour devotion for 4 days, I felt the desperate Plea of True Father in the SW, 'Please let us Work realizing that as long as I have a healthy body, I want to absolutely dedicate my all for Mother's triumphant return to the Palace.

I then firmly resolved to join the Tenth Spirituality Workshop. In the Academy my heart was set on doing absolutely whatever I could wherever I was needed, so I didn't request any specific team.

At first I was assigned simple interpretation tasks, but while pondering what I could do more, I suddenly received to proposal to serve as a coordinator for the 20th Spirituality Workshop.

Honestly as someone who is terrified of speaking in front of crowds, I was anxious about whether I could

really do it, but I desperately wanted to become a strong unyielding person for Mother.

At first, while doing concentrative interpretation, my whole body would shake while hitting the severe limits of my Korean ability, I struggled with my own inadequacy. I came face to face with my fallen nature, because there wasn't much I could actively do. I simply started calling out prayer for all the trainees and memorizing their names.

I actually called them by name and approached them first. I surprisingly began receiving many requests for personal counseling and the struggles they shared were exact situations that I also had experienced. I realized that Heaven had precious children Heavenly Parent wanted to help through me.

As I began Hoon Dok Hae and leading representative prayers of gratitude, I realized that my terror standing in front of people could be dissipated by knowing Heavenly Parent was right there with me, and I gradually gained real confidence.

Meanwhile, on May 26th, my father participated in the 3-Day H Japan Workshop that my mother had already attended in February, so I was overjoyed that 3 family members were joining here. I met my father, and we were happy to see each other but then his face changed to have to tell me that my mother had terminal pancreatic cancer.

My mother was someone who never even sat down to rest. She continuously served newspaper work, household chores and served as a church leader while also caring for my 96-year-old grandfather. She appeared as a healthy, incredibly strong person, but I suddenly remembered her saying her back hurt starting a few years ago, and a crushing, agonizing wave of regret passed over me, wondering why I hadn't realized it sooner.

I am living for others more than ever and my mother being a most faithful person, why is this happening? Why does my family have to walk this path? Is it because my devotion was lacking? (tearful) I blamed myself first, but then immediately called my mother, hearing her usual bright voice. She told me, 'It's okay. I will absolutely not leave until the day True Mother is vindicated'

Feeling my mother's unyielding heart, not giving up, I was able to stand back up from my sorrow. And my father and I offer a HJ Paper and 120 full bows and calling out prayers and prayed at the Hyo Jeong

Tree for 120 days now.

However, serving as coordinator, there were times when I was too physically exhausted to offer my devotion properly. Whenever that happened, my mother would always tell me, 'I'm just so grateful that you're offering the devotion at CP. While serving as the coordinator, do not worry about me. I want you to invest even more for the trainees!'

Hearing those words I vividly, painfully felt the Heart of True Mother when She Said, 'Do not pray for Me.' I desperately wanted to help the trainees feel the Heart of Mother, Who Thinks only of Her children first, even while Walking an agonizing path of hardship, and I began investing myself even more completely.

Actually, right after the cancer diagnosis, my father immediately registered my mother for the Workshop at the Magnolia hospital, and every day I gave ansu to my mother with an earnest, desperate prayer for her rapid recovery. My father joined us on the last 3 days and on the final day, we received the immense grace of going to Hyojinjon together, the Holy Place that True Parents desperately wanted to go.

On the last day of the Workshop, I found out through my father that the Workshop fee was almost 3X more than the regular Workshop, but amazingly through a sheer miracle, from the brother and sister and spiritual children my mother had done mission work with, there was an unexpected severance pay that could cover not only the Workshop fee but the medical application and also central spirit liberation

And receiving chemotherapy every day, the marker of over 500,000 has dropped all the way to 50,000. Applause

I'm so sincerely, deeply grateful that her physical condition has not worsened either.

My father's hometown is an area that was devastated by the earthquake. At that time Father called for them, and my mother went to the LV family members. Father went to them and gave them the Words: 'Have a faith stronger than a tsunami' My mother never forgot those words, and she is still walking forward with an incredibly unyielding strength.

Inheriting those words also, no matter how physically exhausted I become, I will not stay down if I fall, and Heaven's boundless Grace has enabled me to serve as a coordinator for a total of five times over the past 6 months, pouring my all into the trainees.

Because we have Mother Who never gives up despite facing countless persecutions and unfathomable hardships, walking forward solely to fulfill Heavenly Parent's Dream and Her eternal Promise to Father. I absolutely no longer want to live for myself. Looking at True Parents Who have Walked the Path of Hardship, I willingly too will walk the path under the desperate Call of Father who endlessly holds hope in us despite our shortcomings, pleading with us to become a strong shield to protect Mother.

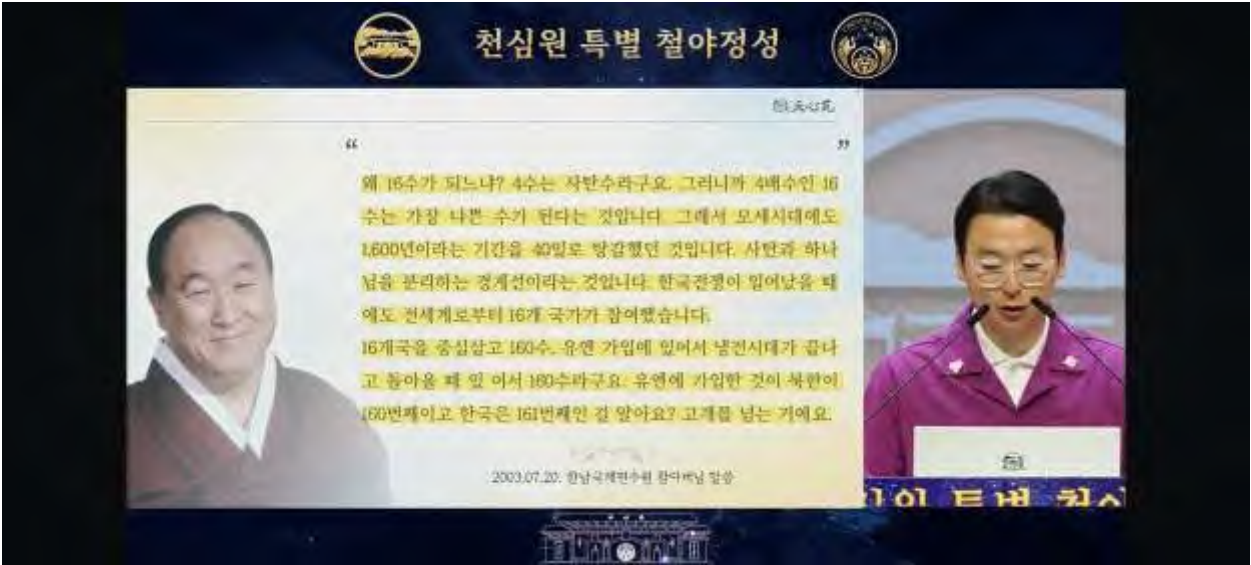

I will take responsibility for, deeply investing in those who have gathered here until the very end, with gratitude for them and Heavenly Parent Who has given me such boundless Grace.

HJ PRAISE

Japanese Workshop trainees

'Let Us Rise Again'

VIDEO made several years ago and I Chong Oh, who actually couldn't speak for 11 years, actually is here. And during this program, PL was actually watching this video from his office and it was sent to the father who was in the hospital, and after watching and after her father's songwo? she participated in every Cheon Shim Won vigil. Applause

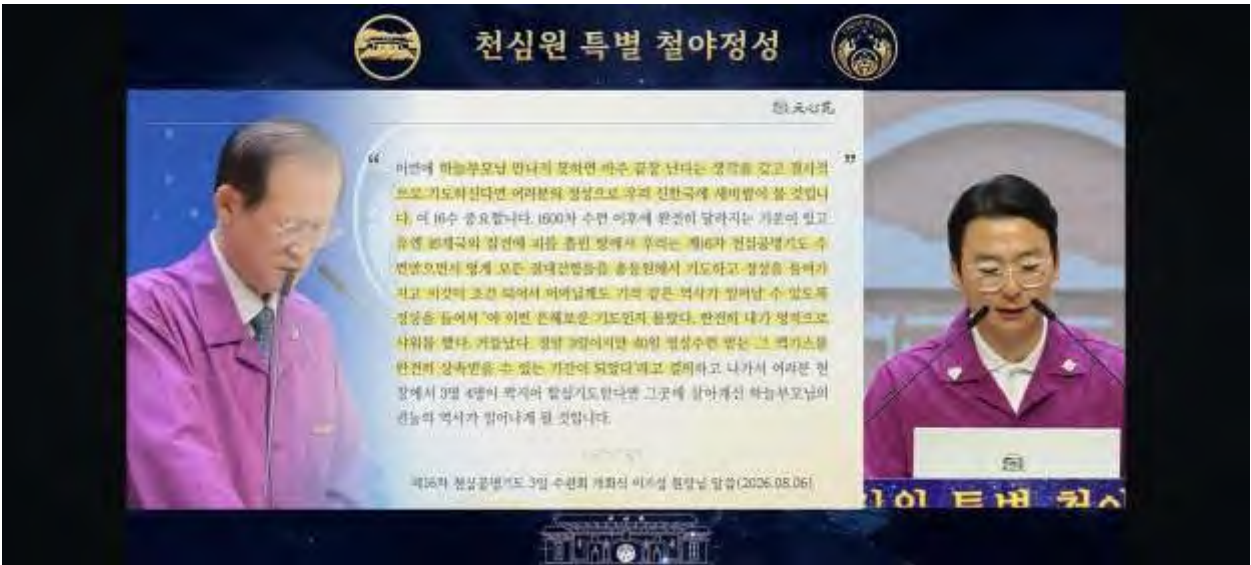

I reflect on 11 years of my work and also, PL has told me to pour myself into working for the families to build their relationships. During the Covid, we were able to open the era of Family Relation Education for all the churches. I remember not having time to rest with constant counseling and yoksa and 315 churches and 33,000 because of PL's support and I feel we can grow and develop.

The trainees that hold the rod do not feel pain during the ansu, also myself, I did not feel pain. PL allowed for the HJ rod bestowal.

True Mother's Words... attend GWs... There are many problems and hope is dominion over the SW and for them to receive education... and all of the Workshop, we are able to see what is being manifested... 35 staff performed the ansu. They are volunteers... and the brothers helped out... 592 of them received ansu and 31 counseling...

We are able because of unity and for 3 days with all of their heart given.

testimony.. husband makes salt over fire... sold at the store in Muhyung and 18 years old sister who couldn't speak just coughing.. but with ansu something came out with a loud cough and voice was normal... I was outside of the GWs and she had been talking normally, but when I suggested we go to counsel and she starred at me... We went but then she looked like she was trying to say something but couldn't speak and going to Cheon Shim Won she had to type on her phone to communicate and I took her straight to the Counseling Center...

It was a spirit and I realize how active the spirits are in this time... TY Heavenly Parent and True Parents

We did ansu for the entire day but because she was so young, my heart... and the gratitude... applause The

next day, they came to the counseling center to visit.

testimonies of healings repeating HMH... I gradually felt my heart toward True Mother... 'Is what you are going through greater than what I am going through?' I asked this of myself and pain disappeared... I am grateful mostly to become one with True Mother's Shimjeong...

another from Canada with the son actually scratching his eczema a lot and also schizophrenia... told to go to the Hyo Jeong tree and drink a lot of water... Now his hands are fine...

another 2nd gen couple herniated disc...

True Parents's Words: Philippines must fulfill its responsibility as the eldest daughter and if you do so, the realm of your environment will expand. And the way we're trying to prosper is to become Cheon Il Guk Taiwan. There is a huge main land, and don't worry about anything but becoming one with HMH, the OBD, and in this way we will prosper

President Mindusai said, 'We want this tour to be centered on counseling for so many things going on in families.

One brother currently participating in the international team (from Taiwan) Before tension between him and his parents. And his mother said, 'We can't continue like this any more' and I was not wanting to go, and felt bugged, but with the consultation it was different. She was very kind, and gave the good advice. She came and I could feel her warm heart and she came here to help me really was my feeling and she made a promise with me and gave me to do things.

Major change is the parents' shimjeong not just worry but a lot of comfort and relation is improved, still need work, but family consultation they let me say my things freely and Dr. Kim was so attentive... and really like confident in love, on my side, understanding and giving the things what she empathized but also could explain. Faith is someone who fathoms their parents' heart.

Your patents received the Blessing and they want that happiness for you. Truly following that heart is what makes you a devoted and filial child (She spoke while holding my hand, wanting to truly connect with me where I was and even my feelings made understandable, she had the words of guidance with love and wisdom for me to be healed and grow from...)

She had me make a pinky promise, really like a friend that I had to laugh and could agree to what she put to me to do as my part... I said, 'I will'... He made the promise and kept it and came to greet me... and after Workshop, he actually called his mother, and he is graduating with Life Engineering at the Taiwan University.

True Mother's Words: The family is where children broaden their education of love and the notion that teaches what only parents can provide as a constant foundation on which their character is formed '

Whenever I'm touring, I say this to the Japanese missionaries: The reason the children have gone bad is because the parents have not fulfilled their responsibility, coming to church is not enough. The parents need to reach out to the children (hear them) and our spouse and our parents, so that we can be happy and joyful BF's.

In 2022, I started 415 churches

(partly missing)

BREAK

BUSKING

Hoon Dok Hae

A joyful day will come when Heaven and earth harmonize and sing. The filial piety of the devoted daughter, Shimjung, who threw her body into the sea, at the tender flower age of a maiden, just to open the eyes of her blind, elderly father is the absolute standard of Korean in tending and serving their parents.

Chunhang's heartbreaking love and steadfast fidelity, upholding her promise to her husband even up to the point of risking her own life, has become the guiding beacon for the lives of all Korean women.

Amiundmshintim... if indominable loyalty, sacrificed his life to save his nation and people, even before the leaders who abandoned him as a true patriot of the Korean people. These noble conditions are not merely isolated ones that appeared by chance in history. They were part of Heaven's Providence for foundation preparing these people in order to establish them to reside upon that very condition.

So finally, the righteous Spirit of the Korean Peninsula and the True Parents, the King of Kings (Father and Mother) Have Manifested Receiving the Seal of Heaven.

By participating in this Rally today, we have received Heaven's Calling. Though it may be invisible to your eyes, living as you do, relying on your own 5 physical senses, behind each and every one of you right now stands tens and thousands of your good ancestors.

They have rushed here to help and encourage you. They are shouting 'Halleluyah' right now overflowing with joy and rapture. Please awaken your 5 spiritual senses. Even all things of creation, which are

absolutely essential to our lives, are opening their arms wide to welcome you.

Today, while racing toward 3000, it is the Era of True Love centered on Living for the sake of others. The one walking behind the One of persecution must also receive the hours of persecution. And I know that those who follow glimpses of the One Shedding Tears in loneliness are also facing that very same position.

Until now, whenever we face such circumstances, You comforted us and whenever we were lonely, You held onto to us and You encouraged us. Please Bless this pitiful nation and please Bless the tens of thousands and millions of saints in Heaven and the tens of millions across this earth as well as the countless remaining beings.

Knowing that there will come a day when the Authority of Heaven will shine like sunlight and Heaven will harmonize and sing, we are joyfully hoping and longing for that day. I earnestly hope that we may become who endure while they remain until the very end.

HJ PRAISE

CHEONSHIM CHOIR

'Our Promise'

Hello everyone... congratulations... gratitude Heaven will be more moved when we pass through the difficult times while offering sincere devotion...

Internationally 40,000 offering devotion

(District Leader Yongun Gian 80 are here... transcending the realm of just watching but really united and resonating, those are able to see drastic change and development, elevating to a different realm.

H Japan... 600th devotion and another 600th devotion, connecting every day and building this tower of devotion. another 700th vigil and 600th... 14,000 families in H Japan are participating

internationally H Europe and Middle East Branch, in H England... WSs and in the UK centering on H North America, TYSM

The trainee from the Academy gave such a precious testimony. These are the ones from the 1 year Volunteer Course and 40 graduating. They are able to really deep root the faith and bring a qualitative change.

After discharge from the military, shodden with the heart of not wanting to live and he said he was able to only motivate with the idea of not wanting to live. How amazing that he could go through 3 years... and then the dream of Mother and in order not to be accused when he went to the SW, and his mother offered such devotion for True Mother to be mobilized and ask, 'Why don't you pray to Heavenly Parent' and there should be the one-heart prayer team for such mothers.

The very next day of receiving this dream made the difference. This culture needs to be established of one-heart prayer for mothers of these 2nd gen who curse and spread hatred of the church. There needs to

be the sound of prayer in the prayer hall. All when we cast off this energy can we feel this bright life and be able to be victorious in our spiritual battle, by the prayers of the mother continually.

And he came to have some motivation and then HD with his mother, by that condition he could go to the Workshop. How difficult to bring the 2nd gen to the Workshop...

How difficult it might have been for Heavenly Parent, and through that we are able to feel the Heart of Restoration of Heavenly Parent. And through this offering such a transformation could happen. How much do we need a culture of prayer and devotions and one-heart prayer (for all 2nd and 3rd gen and all for each other

(missing)
