WELCOMING ADDRESS

YEON AH NIM

(She bows to True Parents and audience)

At this moment, at the same time there are members from around the world who join to offer devotion.

Hello everyone. It's been a while.

Last Monday, gratefully, I was able to attend the trial. I was given the opportunity to register and go into the courtroom and I was able to see True Mother, and as I was there, I felt that a lot of members would be

curious to know what happened with True Mother and what was going on.

So, most importantly, above everything else, True Mother knows that all of you are offering prayer and devotion. And because of your devotion, True Mother feels strength, and True Mother is very proud to think of you guys as sons and daughters.

And True Mother was always staying with a Heart of Gratitude thinking of you guys. And this time, although it was very short, True Mother Said that you guys are doing very well, 'Well don'.

And also to the lawyers who were working together with True Mother Side by Side, True Mother wanted to boast about you to the lawyers. So, True Mother Loves you. True Mother is very grateful and proud of you.

And True Mother thinks very admirably toward you. And I wanted to share this message to all the members how True Mother is Feeling toward you.

Also, although a short time, as I looked upon True Mother from far away, She was not wavering. She was very calm. And I cannot know the Deep Inner Self of True Mother, but it felt like, for me, it was like a vast ocean.

And without wavering, without any hindrance to anything, She was Standing there Listening to everything while Firm and Strong.

In fact... I heard this later... in fact, because the lawyers, they didn't know what would happen in the trial, and they were concerned about what True Mother would feel, but True Mother, without any wavering, staying strong, and the lawyers told us that True Mother is really amazing how She can stay firm and strong.

To be honest, we have witnessed True Mother, just how the lawyers witnessed Her. Now matter what kind of circumstances, no matter what kind of things came to Her, She always set the standard, and She has always been Living with Heavenly Parent. That's what we witnessed throughout our lives.

So, True Parents's Safety, True Parents's Safety, of course we concern and worry about it, but the fact that She is moving forward and keeping Strength, that in itself gives us great strength, gives us great hope.

So, True Mother will not Say much, or will not hinder or waver. At the least that is what I felt. But we all know, during this important period of thee Golden Age, in this important era where it is for Heavenly Parent's Dream, for that there is a lot that needs to be accomplished.

That is what True Mother Thinks, and in order to accomplish that Dream, True Mother is pushing Herself forward. And the fact that the time and progression of the Providence is getting slower and slower, I believe True Mother is having a Heart Ache because of that is why all the Truth must be Revealed as soon as possible so that She can become free and come back to us and in order to Fulfill all the Promises that True Mother has Made before Heaven.

I believe that is the Heart of True Mother. That's what I feel. I'm pretty sure all of you guys already know, right?

So, in that sense True Mother, the same True Mother that we know, She is only looking to move forward. And that's what I wanted to convey today. And truly, after the first instance ruling, True Mother Said we

must prepare for the next step. That's what you heard, right?

Just like that, True Mother is only looking forward. And after that, as I reflect myself, I was thinking to myself, 'How was I?' For the past year or so, I wavered emotionally. I was unstable. And there were times when I wanted to blame someone. And I had sorrow. And sometimes I felt like I lost all the energy. And sometimes I felt like I wanted to give up.

So, I worried and hindered. I showed a lot of signs of hindering, but despite such signs of hindering, despite such signs, one thing that really led me to push forward is because of True Mother, and because of times of devotion like this.

Because of this foundation, I was able to stand here and give this message. Especially, in my heart, of course it would be good if we could share only good contents, but there are also negative contents and negative about how people share this negatively. And I know that all of those negative things come out because of the concerns and worries.

And whenever I hear of someone taking the responsibility on this (negative way), to be honest, hearing all those things, it made me very sad and sorrowfully difficult to endure, because I am also one of those responsible, so I don't know what to do.

But in the end one thing that I eventually find to conclude is that True Parents, True Father, True Mother, what did They Teach us? So, those are the things that I reflected upon again and remembered again. And as I prayed, as I reflected on them, I relearned them, and I was able to regain the strength to move forward.

I realized, 'Oh, this is True Parents Whom we love. True Parents in this situation to Their children, to us BFs, what True Parents have Taught us, I wanted to convey that message. When I started searching for this kind of thing, I gained strength again and I realized, our Beloved True Father, True Mother, I must move forward with the same Heart as Them. And I feel that I need to put more effort in doing this.

So, what gives me a great Source of Strength, I brought this. This isn't something that I had prepared for sharing my message, but this is rather, right before True Father went into the Danbury, this is the Content of what True Father Said in Danbury, about 14 pages...

As I read that, all the people in the SW, I felt True Father very Lively, and I was able to hear True Father's Word as I missed True Father, and I realized, 'Oh, yeah, this is Who True Father was (with us)' And His Center is always the same, and no matter where I am, we can always lean onto Him, and no matter where we are at, True Father has always been (with us)

So, reading True Father's Words, I received a lot of strength. So, I hope, my members, when you have time, I hope you reflect on True Father's Words, Who Faced similar experiences as us, and I hope that you find strength and energy to move forward centering on that.

And truly, as I remember True Mother's Final Statement, I reflected one more time, True Mother's Heart, True Mother's Shimjeong is exactly the same as what True Father has Said, what True Father was when True Father went to Danbury Prison.

So, from this, in this sense, I realized that True Parents have always had the same Standpoint, the same Standard, and have been only moving forward ((because They don't stop absolutely Loving the same, Loving Heavenly Parent and all people as children the same, Forgiving, Loving, Trust again... and Cheon

Shim Won Hoon Dok Hae Content says to pray to overcome our failure to be substantial beings of true love, is the reason for prolonged problems)), but I was wavering, I was worrying, I am complaining, I was weak.

But myself, I know from Their Teaching so I should put more effort into this. That's what I thought. So, truly among the Danbury messages, from True Father's Danbury Message, I would like to share a few... some of them. True Father Said: In the beginning, True Father Said the following:

Heaven's Will is to make one.

We say in the Unification Church, Unification family, unified mind and body, unify husband and wife, unify... We always talk about unifying, right?

True Father Said that Heaven's Will is unifying.

The last and ultimate goal is to make this world one, and finding the path to make one. And that is the path that the son must go who is in the position of God's son and the path the daughter must go who is in the position of God's daughter.

That's what True Father's Words were. So, when True Father had to go at the set time, even though the time of departure had passed, and people were telling True Father to leave, but True Father wanted to convey a lot of messages. And I believe this is the Word that True Father was trying to tell us. We must become one to move forward in order to become one.

As I reflect this, I realized, 'Oh, I have been forgetting this.'

Truly, True Mother has been worrying about us, and telling us to become one, and cooperate and move forward together. But I realized that I had been forgetting this. So, I was very grateful that True Father gave these words to us.

At the same time, in the middle, True Father says that, 'How sad would True Father be? How worried would True Father be?' And one of the members that was there, I heard a testimony. And she said that all the members were crying, all the members were weeping, and the environment and atmosphere was very low.

And True Father Said, 'Even if you must shed tears, then shed more tears for unification, and shed tears as a motivation to move forward with great strength. That is the Principle of keeping the Law of Receiving Strength, staying strong through the time until the time of taking back (for Heaven). So you must stay strong and move forward with great strength.

So, if I can find the Path that is making one, that is Heavenly Parent's Dream, that is my will. That is my ideology. I will find that Path.

So, as I look at True Father, when I was looking at despair, which looks like the end, True Father is looking beyond that, going over that. And True Father gave us Words of what Heaven has prepared for us when we go beyond.

So, instead of looking at the cliff down below our feet, we must look beyond, look ahead and look at the time of the future. And once we overcome like that, God has Prepared (everything). That's what God has been telling us. True Father told us to become one, and walk that Path so that we can become proud sons

and daughters whom True Parents can boast about to Heavenly Parent. That is the Words True Father gave us.

So, after reading those Words, I reflected, I thought again, 'That's right. I too. In a way, I met my physical parents. I was able to be Born as a Family in True Family. And I was able to learn about the Love of True Parents, especially True Parents. And I am still learning that love.

Of course, this Path is not easy, and a lot of people cannot give up despite how hard this Path is, because we knew that great Value of that Great Love, and we know that for true happiness, this is the way we must go.

While others are living for the sake of themselves, and resting for themselves, we are moving forward for Heaven, for True Mother and for True Father, and we have gathered here for that Purpose. And when I think of it in that way, if we give up this world, what would happen to the rest of the world.

You know what's going to happen. You know how miserable the world will be. The world without Heavenly Parent and True Parents's Love. Because we know that for all of us, and ultimately for myself, that is the best path for myself. So, that is why we're walking this Path.

And as we walk this Path, you know I may ascend to SW on this Path, but I realize that I should never run away, I should never... I should just move forward. That's what I realize.

So, we always say, 'I love you, thank you.' And when I reflect on the Word of Love, on the last Sunday Service, those Words struck me very big. You know, I don't... I'm not used to saying, 'I love you.' When my children were growing up, I needed extra effort to say, 'I love you.' to my children.

Because I was born in the traditional, authentic Korean family, where you don't need to say that. All you need is action. So, that's what you need to express. That's what I thought, and that's my Family Tradition. So, in a way, for me it wasn't easy to express love. But when I heard the Words, 'I Will Be With You Forever', that Love actually struck me.

'No matter where you are, I will always be with you. Whether you are in a good place or a bad place, I will always be with you. Whether you are in a happy place or whether you are enduring suffering, I will always be with you. And not just be with you for the moment, but eternally I will never abandon you, I will never leave your side. I will be responsible for you.

In a way, that gave me a great love, but also it was scary. Why? Because of course, we would make the promise to Heavenly Parent and True Parents, but can I proudly say that I will always be with you to my brothers and sisters, to your guys, to my parents/Parents. That's the question I ask myself.

If I say that out loud, I must fulfill that Promise, right? But I thought that, if I'm not going to run away, then I should be able to make that Promise before anyone else and express those words and keep those words.

Of course, right now, I'm in a state of putting effort, but that's what Heavenly Parent has been telling us. Throughout the 6,000 years of course that through the Bible we have learned, Heavenly Parent has always been telling us. I will always be with you. I will be responsible eternally. So, let's go together. Let's move forward together.

So, despite our lacking aspects, Heavenly Parent sacrificed Jesus, sacrificed True Father, sacrificed True

Mother, sacrificed all those righteous people, and opened the Path for all of us as Heavenly Parent's children.

When I reflect this, I realized that those Words, 'Being Responsible and Being with you', I feel that I need to reflect those words every day, keep those Words in my heart.

I'm sorry that my words got a little longer, but I would like to share one more thing. Mother's Providential Time is being delayed. And we have to endure a lot of suffering. And unfortunately, we couldn't become one fully, but we are trying to become one, and we have reached this far.

So, the question is, 'What should we do now?' Now, we just went over the first instance ruling and you guys all know that we should not settle ourselves, lay back and relax. We should not do that, right? For the next level, next stage, I believe that True Mother is walking the next step toward the Providence as well.

So, all of us must resolve so that we can offer more devotion, tomorrow more than today. I believe... That what I thought. We talk about Vision 2027, but that 2027 is right away next year. It's right around the corner. So, the January of 2027, honestly is only a few months away. When I think of it that way, truly, when True Parents began the Providence, when They Proclaimed the True God's Day, when They Offered the Prayer, to be honest, the entire world should have been substantially together to celebrate that Day as children and offer glory.

And that Day, the next year is the 60th God's Day. It's the 60th Anniversary of God's Day. And when we think of 60th Anniversary, it's actually 2028. So, we should not settle ourself (otherwise). At least in the Eastern Teachings, the #60 represents ending one cycle and beginning anew.

I'm pretty sure some Western members know. We talk about the Zodiac, and how we calculate the # or year, so, right at this moment when we are reaching the 60th God's Day, as Heavenly Parent's children, we must be recognized and we must be proud before the world. Every day, we should offer utmost devotion for Heavenly Parent for the remainder of the time, that's what I felt.

So, up until now, you have been working so hard despite how good your health is or not, whether members are at the DC or around the world in your respective places, we all must know each other, that we are offering prayer and devotion, right?

Up until now, you have been working so hard, but until we reach the 60th Anniversary of True God's Day, I would like to say, 'Let us offer devotion together. And let us make results together, so that we can reveal devotion something visible.'

So, I wanted to ask you guys for a favor, to offer devotion together. That's why I'm standing here. When we think about the result, in a way, we can see it positive, but of course it is sorrowful that She could not be released as innocent. The fact that True Mother cannot (yet) be recognized as innocent, that in itself is very disappointing and a very sorrowful thing.

But the years that were sentenced on True Mother was way lower than what prosecutors have said. And that... probably we might have to go a 2nd and 3rd trial, but we believe that will become... We have a great hope that will get better and better.

So, in that sense, I could feel how much True Father is working so hard and putting a lot of devotion for this kind of thing to happen. Truly SW has been moving forward with graced Works of effort, but because

of our lacking efforts, why don't we give a great round of applause to True Mother and True Father.

Truly, as I think about how I was not able to align, SW will try their best to work with us, to cooperate with us above. Now, it's only our duty. It's our responsibility now. We should truly, before we meet the 60th Anniversary of True God's Day and for True Mother's Release as Innocent, of course, I may be lacking as an individual, but I feel I need to offer utmost devotion without any regret and be able to express that to Heavenly Parent.

But I want to say that I hope that we can do it together and I hope we can say that we did it together. So, I wanted to ask you TYVM... (Yeon Ah Nim our and Heaven's beloved...)

PRAYER AND PRAISE

Prayer and tears: Min Yyau un

Cheon Shim Won Sany gyj

Today, we stand before True Mother, Please guide us all so that we will build up a conginition of large and deep devotion with the most earnest heart. Please guide us. We come to realize that the heart of

earnestness stems from the true love received from the Counterpart.

Living as we do through the sacrifice-laden true love of True Parents, the earnestness originating from that Love makes us do our best from every moment that develops into a heart of caring for the other more than self.

Please guide us today, so that this offering has the most earnest devotion toward Mother with such a world of heart, will be realized.

The Unification Church has not emerged embracing a God of Joy and a God of Glory but rather a God of Sorrow and a Heavenly Parent with True Mother standing in a Place more heart-rending than anyone else. How are You enduring those harsh realities in that most miserable Place. With what Heart are You living out a day as a thousand years and a thousand years as a day.

How many Words have You Given us over all this time ((repeated to us)). How much have we lived putting Mother's Words into practice. How much substantial resolve have we accumulated. We repent at this hour, realizing that until now we did not realize how precious it was to have True Mother by our side.

We lived putting our own circumstances ahead of Heaven's circumstances. Mother Who Led Your Aged Body and Walked into the Flames of Fire, to Save Your children. At this hour, we kneel and repent to realize that the child who was blind and deaf was none other than myself.

Please awaken us from our ignorance and rouse our slumbering spirit. Please open our eyes so that we can behold the Providence led by Heaven.

Just as no darkness no matter how deep can prevent the morning from coming, and no raging snow storms or bitter wind can stop the warm spring from arriving, we absolutely believe... harboring Your Heart, we will advance toward the world, mobilizing Your Spirit for Mother's Release, Please Work!!! AGSs "!!! All pioneers of the early U community mobilize... AGSs please mobilize for Mother's release... Please mobilize... loyal subjects and saints throughout history mobilize for Mother's liberation... Earnestly for Mother's release...

Mother please return, Mother please come back as soon as possible... Waiting solely for that day, we will move forward...

Since we will become the offering, please use us for Mother, True Father, although it may be small, accept our devotion... offering for the day we can offer bows together with True Mother... I hope this brings comfort to True Mother... finish of Weekly Report
