

## Chung Pyung Workshop for Korean Members of the Seoul Southern Area

Gi Seong Lee  
November 15, 2014

Members of the Seoul southern area conducted a workshop on November 15, 2014 at the Chung Pyung Training Center on the theme 'Workshop of True Love to Experience the Holy Spirit and Truth.'

On that day, about 60 members gathered for lectures on the 6th floor of the Chinwa Building, centering on the words of the Principle, and spent a meaningful time sharing together, receiving the abundant grace of Chung Pyung works.

The Regional Leader, Mr. Yoon-ho Ok, spoke, explaining that 'when the couple becomes one at the center of True Parents, there will be a blessing for them from heaven.' As husband and wife become one, through them parents and children can be united, the children are united, and a family is united.

Especially, in the testimonies of members who attended the 'Grace of Chung Pyung Works' (October 24-26, 2014), were verified their experiences of the Blessing of All Things. Testimonies of those members who experienced such Blessing gave evidence of certain common points, including the fact that it was through their belief in great things, and substantiating that belief (words) in their lives, continual blessing and grace were received from Heaven.

**Mrs. Chiaki Katagiri (36 million Blessed Couple, Yeong-Deungpo church)**

As a participant in the Chung Pyung Workshop for Korean members of Seoul southern area, testified: 'I spend my life with Jeongseong, as I offer prayer early every morning. One day, I received a phone call from the school attended by my children, and they informed me that 'I didn't need to pay tuition for a particular class which was being offered free of charge.'

I was very surprised since even though I introduced 3 new students to the school, there was no stated benefit for that. At first, I didn't realize that this was connected with the Blessing of All Things; later on, I realized that this was, indeed, connected with the Blessing of All Things. 'Our church has the opportunity of taking part in the chanyang sessions at Chung Pyung, and when we do chanyang with true love, we

are all moved to tears.'

I felt my job because I received so much grace, and lately I have been doing a lot of dedication for the church. True Parents also traveled a less-desirable path, so we cannot say that we won't go this way simply because we don't prefer being involved in church life. I felt that I must achieve this if it is Heavenly Parent's wish.

**Mrs. Gabini Park (36 million Blessed Couple, Yeong-Deungpo church, from Thailand)**

'Every morning, I light a candle and offer prayers and hoon dok for Jeongseong. I do interpretation and translation work at the court. Up until now I have only had 1-2 cases per week, but now it has increased to 2-3 cases per day. My time is filled with reservations for the next 3 weeks. Through the Chung Pyung Workshop for Korean members of the Seoul southern area, I have realized that it is important to have absolute faith. I deeply felt that I must accomplish as an individual and as a family, remove my evil nature and develop a blessed family.'

**Mr. Jo-hoik, Mrs. Hisako Watanabe (6,500 Blessing couple, Yeong-Deungpo church)**

'Since we had economic difficulties, we received financial help in paying for our children's school tuition. However, suddenly we received an offer of a scholarship from the Government with which we could solve our tuition problem.' She added, 'My husband and I have been coming to Chung Pyung Training Center every weekend for this entire year.'

My husband is involved in the construction business, and he often brings stress with him when he comes home, and takes his stress out on us, his family. Now, through this workshop, he reflects on himself more, considers his family more and has become gentler in his nature as an individual. Our family has become more harmonious than before.

Through this workshop, I could understand clearly about True Mother's life path. I felt True Mother's deep heart, with which she went through the difficult path for women.'

During the time I was witnessing, I thought that I should shed a lot of tears due to my inadequacy. I made the determination that rather than thinking about the will of God and the Principle only in my head, I should in the future be a person who practices God's will with a true heart.

# 청평터널 이야기

Especially today, Mr. Ok, the Regional Leader, delivered a special lecture regarding the names and numbers, and the length of the Seoul-Chuncheon highway, explaining the hidden meanings in the providence, which Heaven had been wishing might draw everyone's attention.
