October 21, 2015

3rd week of October: The Work of reform

The mountains and fields surrounding Chung Pyung have changed crimson like a burning heart. In this plentiful autumn, a time of harvest, our hearts are also full of true love. The millions of lives scattered around the word have gathered here in Chung Pyung and fused into a harmonious unity. This week too we would like gather all the magical works of Heaven happening here and share them.

1. 1288th Chung Pyung special 2day workshop

During the 3rd week of October, from September 05 to 06 on the 3rd year of the Heavenly calendar (10/17~18), the 1288th 2day workshop took place in full grace with international members from all around the world.

At the opening remark, Director Ki-seong Lee read True Mother's speech on page 1590 of Chambumo Gyeong.

"Looking back, my life could be compared to the ocean. The ocean has a broad enough bosom to embrace and become one with the heavens above, even coming to resemble its sky blue color. The ocean lies at the lowest level, receiving all the waters of the world. The ocean embraces everything and gives birth to all life. Many kinds of life grow abundantly in the ocean. In

response to the moon's gravitational pull, there is an even flow of the tides and the change of the seasons. In response to the sun's warmth vapor forms on the surface of the ocean and climate is regulated. A calm ocean may look peaceful on the surface. But deep beneath the vast currents such as the Kuroshio Current surge. In this way the oceans are constantly in motion. When a huge wave breaks, it can swallow up everything. Moreover, people cannot see the whirlpool forming deep beneath the ocean. These phenomena resemble Heaven's providence and at the same time symbolizes the dynamics of the life I have lived. Standing at the center of God's providence which raged like a storm, I have experienced many deep and diverse situations I only know but can never speak of. Suffice to say that despite all the difficulties, I did not get sucked down in to the whirlpool, instead by riding on and overcoming them. I was victorious and fulfilled the providence of restoration through indemnity, always standing alongside my husband the Rev. Sun Myung Moon."

By reading this precious message given by True Mother and looking back at her glorious life resembling the ocean, Director Lee emphasized that we too needed to live like the ocean in order to become filial and loyal sons and daughters in front of Heavenly Parent and True Parents of Heaven, Earth, and Humankind.

The next hour was a glory filled changyang which was then followed by Vice-director Myung-gwan Lee's reading of True Mother's speech. "Now we are in a time when True Father and True Mother are completely united in the spirit world and the physical world and work directly through Chung Pyung Heaven and Earth Training Center. Since Father ascended to the spirit world, direct separation of evil spirits as well as the ancestral liberation and blessing are taking place automatically. If you unite with True Parents, miracles will take place. Through prayers and conditions, solutions will come to you. Such spiritual foundations have been laid. Now is the time when the spirit world aligns itself automatically. Father ascended to Heaven and has cleared the whole spirit world as well as the physical world. The heaven and earth are completely united." Such readings allowed the participants to correct their faith and unite centering on the core to gain greater energy.

The next day, Hoon Dok Hae began by reading page 314 section 3 of Cheon Seong Gyeong entitled "The Love of a True Husband and a True Wife". During True Mother's speech session, sharing the precious love, heart, and grace within the message of True Mother, the participants watched the video of the special words given at the Japanese TOPGUN completion ceremony and the global TOPGUN luncheon.

Next was the glorious chanyang session for the ancestor liberation. Every participant repented their past and promised to begin anew while offering bows and praises in front of Heavenly Parent and True Parents.

Y.N. from the South Gyeonggi Province testified that during chanyang session she heard a voice that said "why are you so late!" For 4 years since the passing of her husband, she was planning to come to Chung Pyung but did not. She repented once more after hearing Heaven scold her for being so late.

A 50year old member from Nagano, Japan was overjoyed that "during chanyang session the lecturer helped separate the evil spirits. He then felt something go out of his head and all of a sudden his body was alleviated."

2. Chung Pyung Special 40days workshop

Currently the 198th Chung Pyung 40days workshop is going on with lots of participants receiving Heaven's grace on a daily basis. Through such work, many are promising the start of a new life.

Y.N. (2nd Gen, Chungbuk Region) pregnant with her third child, who visited Chung Pyung for a healthy labor said: "I did my best, all the while believing in the work of Chung Pyung centering on True Parents. During this workshop, I enjoyed the lectures very much and my days of prayer also inspired me." As we can see, such Chung Pyung training system which is meant to guide the life of faith is indeed achieving great success.

H.L. (2nd Gen, South Gyeonggi Province) testified the following: "I was forced to walk this path of faith because both my parents are in public mission. But I soon realized I could no longer fake through my life this way. If I found no hope in this Chung Pyung 40days workshop, I wanted to give up on everything. But now I am different. I am very grateful to have participated in this workshop. I was able to offer prayers, make conditions, meet good people. I finally want to find my image destined by God."

Participants have found joy in offering conditions, especially 2nd generations, which shows that the work of building a firm, strong foundation of faith is ever more important.

T.R. (2nd Gen) from the Philippines also said "I especially loved going up Chun Seung Dae Holy Ground to offer prayers and condition. I wish I could stay here forever and I wish the world was like Chung Pyung."

More than anything, the therapy sessions with Lecturer Myung-ok Kim turned out to be very effective.

One sister planning to begin her family life in the near future is a sociophobe and this used to ruin her relationship with people around and worst, did not allow her even to look at her own husband. Lecturer Myung-ok Kim suggested that this sister greet 30 people every day and try to build a relationship with them during the workshop. She also suggested to write love letters to her husband and have a conversation through her heart at the tree of heart. Through these practices, the sister by the end of the workshop could laugh in front of her husband and finally sprout her difficult love.

Among the Japanese participant as well, there was one 2nd gen troubling the people by constantly trying to commit suicide. To this member as well, the lecturer suggested to share love and build relationships by buying something delicious to at least 30 people every day. That 2nd generation testified proudly that she "no longer wanted to commit suicide. I am so happy right now." This made even the translator clap with joy and embrace each other.

Another 2nd Gen suffering from a bad relationship with her husband was told to write all her feelings on a letter and read it loudly by the lake. She wept bitterly while reading her letter. She cried and cried and spilled out her heart again and again. Finally, when she was done, she burnt the letter. This 2nd generation felt as light as feather having let go of all her hatred and thanks to that the acnes covering her from stress completely disappeared.

3. Other workshops and events

This week, on October 15, the South Seoul Regional Leaders' Workshop, the Chung Pyung 5days Workshop, and especially the 6000 couples general assembly took place with a total of 250 participants.

President Kyung Seuk Ryu, through his congratulatory remark appealed the following and moved the crowd. "To restore the

history of 6000 years, True Parents carried out the 6000 couples blessing. And on the foundation of the 6000 couples blessing which was the 8th blessing since the first 3 couples blessing, the 2nd generation blessing was proclaimed centering on a new start number. In that sense the 6000 couples blessing is a very meaningful blessing. With this in mind, on our 33rd anniversary, all members of the 6000 couples blessing should accomplish the central mission so as to fulfill vision 2020, complete Heavenly Tribal Messianism, and establish Cheon Il Guk by serving our True Mother."

Moreover, last week, 'A workshop to establish an experiential faith' was carried out for 3 days. Yeon-jeong Kim (2nd gen, 300 couples, Chung Pyung Church, North Gyeonggi region) testified the following.

"This workshop was recommended by another sister who had been to a previous session. Participating in a workshop in Chung Pyung built a spiritual atmosphere that allowed me to speak with Heavenly Parent. All other participants agreed that the accommodation was great. More than anything, this period was a time of learning that connected me to the heart of Heavenly Parent. It was such a precious time that allowed me to learn to become a filial and loyal child in front of Heaven. This opportunity not only taught me to serve but also to build a relationship of Jeong between Heaven and Myself.

This coming week is the Chung Pyung Autumn Special Work. Chung Pyung Heaven and Earth Training Center is overjoyed and grateful at the promise of our noble True Mother who will visit the training center and directly carry out the Chung Pyung work as True Parents of Heaven, Earth, and Humankind so as to bestow upon us the tremendous blessing and grace. We are all doing the best to have the training center ready for such great blessing.

In addition, the "Heaven G Burger" that carries the true love of endless giving is being prepared with grace. Just as Christians identify themselves with the body of Christ by eating the bread, the grace of "Heaven G Burger" carries the meaning of members uniting with the body of True Parents and promising to start anew as filial sons and daughters.

Lastly, the grace of opening the 'water of life park' before the special work which is the birth of a new 'holy site' will be an eternally cherishable moment to all the members participating in the special work as well as all future visitors of Chung Pyung.
