K-Pop, K-Dramas and More: the Korean Cultural Wave Circles the Earth

Everyone was surprised when *Parasite* won the Oscar for best Motion Picture in 2019 -- the first non-English language film to take that honor. K-pop groups BTS and Blackpink fill stadiums in the U.S. and Europe. Historical dramas, sappy love stories and *Squid Game*, resonate with large audiences.

What's driving the worldwide popularity of Korean popular culture? We don't know, but we found a group of enthusiastic students in Korea and the U.S. willing to stay up way past their bedtime during the middle of exam week to talk about it. Please join us for a very interesting discussion of "hallyu" (the "Korean wave"). Meet **Sandy, Jason, Hannah, Hansun, Boyeon Esther** and the thoughtful **Tony Lamborghini**, with lots of clips, as we surf this wave.
