The “Holy Ground Pilgrimage for the Inheritance of Heavenly Fortune” was held successfully for the second time (since the previous Special Great Works held last March). This time, especially, this Holy Ground Pilgrimage was held simultaneously with the pilgrimage to the Cheon Jeong Gung Museum and the CheonShim Boat experience. It became a precious time for members to physically and heartistically feel True Parents; it was a propitious time for them to experience a new beginning.

The members followed a “trail” of the history of True Parents. They began at the Original Sanctuary built by True Father, then moved to the CheongShim Tower followed by a walk to the Tree of Love, a prayer at the Jeongshim Won Prayer Hall, and a drink of the Water of Life. They then walked up to the Tree of Blessing, following the road to the Holy Ground, enjoyed the beautiful Azalea Park and ended at the entrance of Chinhwa Educational Building B, which had been offered by True Mother on 12.30 by the Heavenly Calendar, 2nd year of Cheon Il Guk (February 18, 2015). As members visited each of these locations, they could receive a stamp on their itinerary, and once they received all the stamps they travelled to the Cheon Jeong Gung Museum, where they could receive the final goal of the Stamp of Heavenly Fortune. Having procured all these stamps, members were able to receive a beautiful bookmark of Heavenly Fortune.

Many families participated in this “pilgrimage, ”following the trail by which to inherit the heart and history of True Parents who have been working zealously to fulfill the divine providence. They could also take family photos at the “Photo Zones” located at each point.
