

1st week of October: Spiritual experiences from Heaven

Gi Seong Lee
October 8, 2015

The scorching summer greens in the mountains of Chung Pyung have entered into a cooler breezy season of autumn. The holy site of Chung Pyung is experiencing substantial changes as it readies itself to change into a more colorful outfit. Standing in front of a mysterious land that moves in perfect harmony, we can easily discover the amazing love of God. Below is a brief report on all the busy activities that took place in Chung Pyung this week.

1. 1286th Chung Pyung special 2day workshop

During the first week of October, from August 21 to 22 on the 3rd year of the Heavenly calendar (10/03~04, sat-sun), the 1286th 2day workshop took place in full grace. This week a total of 643 members; 206 from Korea, 237 from Japan, and 200 International members, participated in the 2day workshop.

Director Lee, Kiseong read page 1372 of Cheon Seong Gyeong at the opening ceremony and emphasized that one cannot completely earn freedom in the spirit world if s/he dies with even a single condition for accusation; therefore we all needed to inspire ourselves constantly. Through True Parents portraits, through learning their life course, and through Hoon Dok Hae, we must be able to shed tears, repent, and make new resolutions to change. He also added that if we made the touching story of True Mother's 'Mission Butterfly' during her European tour into a book, it could stimulate and move the world. Therefore we must constantly stimulate ourselves with "True Parents' Life Course," our present "self," and our future "vision;" so as to bequeath our decedents a victorious lineage that will be cherished by generations after generations.

The next hour was followed by a chanyang session and Vice-director Lee, Myung Gwan came on stage to give a lecture on 'the proclamation of Foundation Day and the Grace of Chung Pyung providence.' He said that on Foundation Day, January 13, 2013 True Parents of Heaven, Earth, and Humankind achieved complete union with Heavenly Parent through the Cheon Il Guk coronation ceremony. From then on True Parents began to have direct dominion over Chung Pyung providence as well as everything else. That is why the most important mission for us is to practice the tradition of absolute faith, absolute love, and absolute obedience in front of our True Parents of Heaven, Earth, and Humankind so that we can walk the path of true children who can inherit Heaven's blessing and grace.

During the morning Hoon Dok Hae the participants read page 1289 of Cheon Seong Gyeong titled 'the structure and settlement of Cheon Il Guk: section 1 -- What kind of nation is Cheon Il Guk.' Later on during True Mother's speech everyone watched the video of the 3rd Universal Seonghwa commemorative speech and that of the commemorative remark on the 1000th day of the Universal Seonghwa. Through this the participants longed for True Father in the spirit world; however, they also realized that if they became one with the heart and the mission of True Parents through True Mother's words, nothing will be impossible. Therefore they once again resolved to work towards victory.

The next chanyang session to begin the liberation ceremony took place and all participants experienced an absolute oneness of heart, will and body with our True Parents.

Ms. K.A (36,000 couples) who came for the 2day workshop from Seihoku Tokyo church in Japan said "Until now I have ignored the existence and the work of the spirit world, but through this Chung Pyung workshop I am confident that it exists. I realized that we all needed to liberate and bless our ancestors so that we can receive help and support from the spirit world." He then said "By experiencing the love of Heaven, I could not stop shedding tears and now I know the direction of my life and I am full of hope that I will establish a true family."

2. The Chung Pyung Special 40day Workshop and the 21-day Registration Workshop

The next day at 6AM, the 63rd 'The Turning Point of the Three Ages Realm of Oneness Four Position Foundation Unification Blessing Ceremony' was carried out in the Small Hall of Cheonseong Wanglim Palace with 73 participants. Fumie Yamamura (36,000couples, Chungnam region Cheonan Church) who parti

icipated in the Registration Workshop reported on the special grace of Chung Pyung by saying "I am spiritually sensitive so I have had several spiritual experiences. Even during chanyang sessions at this workshop, I could feel the evil spirits evacuating my body." She then went on to say "During this 21days workshop period I believe the spirit world has worked to build a relationship of heart with my mother-in-law to the point that we could send each other "I love you" messages." Then she went on to speak of the liberation and blessing of the ancestors as: "In the process of building my 210 lineage I felt difficulties I could not solve find its own solutions." As we can see, the power of our spiritual ancestors is indeed very important.

Elder Park, Jae-yeon (Gyeong-gi Nambu region, Osan church) paid gratitude to True Parents by holding tightly the hands of the lecturer and saying "I have participated in several Chung Pyung workshops but I felt even more than ever that the spirit world is establishing its realm. During chanyang sessions, I repented everything, even incidents I did not believe to be a sin. Interestingly, when I did that my body which used to ache was completely relieved from pain and I was able to experience an exhilaration I have never felt before."

A spiritual parent and child from South Nagano also participated in the 40day workshop and the spiritual parent said "I was able to grow and mature in faith by experiencing Heaven's heart and love because I have gone beyond the individual level and participated in this workshop with the heart of a parent." On the other hand, the spiritual child testified that participating in the workshop under the protection and love of the spiritual parent led a great change in the heart.

3. The spiritual experience by new lecturers

Through the spiritual heavenly providence, the newly arrived lectures of Chung Pyung Heaven and Earth Training Center were revived, with a firmer belief in the historical providence of Chung Pyung directly ruled by our True Parents. Lecturer Jeon, Yusang was relieved of his chronic allergy just 10days into the 40 day workshop. He testified that he was completely cured from this disease that made him cough for ages and although several months have passed since then, the allergy did not recur and he continues to live a healthy life. Lecture Kim, Myeong-ok since her arrival experienced drastic changes in her body and suffered from constipation, hunger, and fatigue. But within 2 weeks, her body returned to normal as she began to participate in chanyang sessions every day. She said that many acquaintances around her are telling her that she looks brighter and younger than 10 years ago. Lecturer Seiji Takagi suffered high blood pressure since his diagnosis of a herniated lumbar disc 3 years ago, but since his arrival at the training center and living under the grace of Chung Pyung, his blood pressure also returned to normal.

These new lecturers all testified that Chung Pyung was full of the grace that enabled the recreation of the mind and the body; therefore, all leaders in public mission must clearly understand the grace and blessing of Chung Pyung and be born anew here so as to return to their work field and work harder for the providence.

4. Other workshops and events

370 CARP students from around Korea gathered at Chinhwa Annex B from October 3 to 4 and participated in daedongjae (university festival) to share the great blessing of heaven. After the commemorative event of the 3rd Universal Seonghwa, Carp members gathered with the goal to realize the dream and hope of our True Parents. Through several programs such as special lectures from FFWPU International President Moon, Sunjin and WFWP International President Moon, Yun Ah, the participants united and built new resolutions. Moreover over 200 workers of Tongil Group toured the holy site of Chung Pyung such as the Tree of Love and Cheongshim International middle and high school.

The Asia TOPGUN 40 day workshop participants also expanded their faith by having many spiritual experiences and through this period of resolution they became clearly aware of their mission. It felt like these participants were shining the prosperous light of revival towards the future expansion of Asian foundation.
