February 2, 2016

By FFWPU Argentina: We hold a 21-Day regional workshop from January 13 to February 2, it took town of Cañuelas, 50km from Buenos Aires, with the theme “Rooting the culture of Cheon Il Guk.”

We had 73 participants from 8 nations in our region, who joined together to deepen their understanding of Divine Principle teachings and the words and life of True Parents.

During the workshop we also had sports, team challenges and other activities to apply these teachings in our everyday life. It was a wonderful opportunity for young people the first- and second- generation to start a new year of Cheon Il Guk and fulfill the needs of God’s providence.

30 % of participants, including several new members joined as full time members of CARP.
