

## True Parents' dream is to raise the 7.6 billion people of the world as His children

Hak Ja Han  
February 15, 2019  
2019 Cheon Il Guk Leaders Assembly  
Cheonseong Wanglim Palace, Chung Pyung

I feel stimulated to see you all. After True Father's Holy Ascension, I was in an indescribable position in which I had been left alone. Many elder members were around but I could not consider discussing matter with them because they could not perceive the providence."

Heaven wanted the Holy Ascension Ceremony to be done in a place where the current heads of all nations of the world recognized True Parents' status on the national level. However, that situation did not even happen. I was in the position of having to finish the providence alone. It felt as if I had to find a small needle in an environment in which I could not open my eyes because a sand storm was blowing in a desolate desert. With my heart in this unimaginable state, I, alone, found that needle.

It is not easy to heal all those flaws, full of scars that had not come during the past sixty years in the history of the Unification Church and the FFWPU. Moreover, today you heard the progress reports of the Secretary General of the International Headquarters about the global providence. No one believed in what I wanted to do. People told me that it would not work. That was what happened in Africa. "Why do you choose a country like South Africa, where we have no foundation and even Senegal, which is a Muslim country?" Everyone was blocking me.

Heavenly Parent and True Parents' dream is to raise the 7.6 billion people of the world as children of Heavenly Parent through True Parents. In the lowest position, where the environment was not appropriate, we could not avoid beginning the Holy Spirit Association for the Unification of World Christianity. I had to start the providence in an environment that did not fit the Messiah, who comes on the foundation prepared by Christianity for two thousand years.

Moreover, while proclaiming the era of Cheon Il Guk with Foundation Day, I said that Cheon Il Guk should not just be a word. The significance of my proclaiming that I am the only begotten daughter, the True Mother, is to show to humanity that True Parents have realized, substantially and physically, Heaven's providence on earth. Did you accept that? I think that answer was easy to give, but when I think about the incorrect education and that a three-year old habits remain as long as eighty years, I do not think correcting people is easy. Isn't that true? But now are you convinced?

After True Father's Holy Ascension, as I promised Heaven, I will achieve national restoration with you before 2020! Leaders of FFWPU-Korea, are you confident? [Yes] Regional presidents, are you confident? [Yes] I said that we need to restore at least seven countries. "National restoration" is not just words; you should do it practically in order for Heavenly Parent to remember you. The people responsible in each

region for doing this work must work with the International Headquarters. Especially important is showing that Vision 2020 centers on Korea.

However, during this assembly, when I heard the reports from each region, I discovered that Asia was planning to hold a summit next January. A decision on that matter should be made in consultation with the International Headquarters. Each region has to make Vision 2020 a success by making sure you center it on True Parents. There is an order. In order to keep that order, you make decisions with the headquarters.

A year remains. Heavenly Parent has been waiting for you for six thousand years but still you are standing here with True Parents. You have not been able to bear fruit but now you will start. Going through step one, step two and step three, how much do we need to do when we think about how the world may be in twenty years? Can you do it?

So I hope that you will be able to get substantial help from the spiritual world. When I went to Africa, righteous people helped me. Heaven has prepared many righteous people for us. Shouldn't you inform them? You have to show me that you will do it. You have to help them to bear fruit since they have been offering devotions to Heaven for so long. Will you do that?

Chung Pyung Heaven and Earth Training Center's new name, "HJ Heaven and Earth CheonBo Training Center"

First, I said that I would announce a restructuring during Foundation Day. Today, I will change the name from the Chung Pyung Heaven and Earth Training Center to the HJ Heaven and Earth CheonBo Training Center. The hospital will be renamed HJ Magnolia International Hospital. The scope of this training center is not limited to the area near the town of Chung Pyung. On the contrary, it is on a dimension that reaches the whole nation, that reaches all of heaven and earth. The significance of this training center is that it raises people of many ethnicities who can qualify for registration in CheonBo Won to become people whom Heaven will remember. From now on, please change the name of the training center when the official notifications are issued.

Now, we have to speak with one voice within our organization. So I do not want you to waste your time saying unnecessary things. In particular, I would like the regional presidents and all other leaders to set aside all of their self-centered thinking, and always think of the whole as they are working. This is an instruction from True Mother.

Only one year remains until 2020, but I saw you in a position that was not right. Isn't that so? If so, how much more effort should we offer? I truly wish you all to be the ones who will bring great victories and glory to our Heavenly Parent in 2020 with all your heart and soul.
