Core of True Mother's Message

Thank you. It is so nice that you came. It is said that rivers and mountains change over 10 years, but as 40 years have passed, they have changed four times. You are somewhat older now, aren't you? What shall I say to you?

Heavenly Parent's dream and humankind's wish is to form one family of humanity under Heavenly Parent. The Creator gave freedom to those who were meant to become our first ancestors.

Yet the Fall occurred when our first ancestors were unable to enjoy that freedom, but lost it instead. Hence, human history has been interspersed with war, conflict and disease under the unwanted dominion of Satan.

As a being whose beginning and end are the same, the Creator must without fail realize the purpose of creation. God therefore reluctantly had to begin the work of the providence of salvation and, as a result, when we consider human history as a whole, four major religions have emerged today. They have one common purpose, to become Heavenly Parent's children.

However, there are more than 200 countries in the world today, some of which are following wrong ideologies. They say that they do not know God.

Even so, Heaven's providence is being carried out. It will be completed without fail when the victorious True Parents emerge from among humankind. I am saying that we will reach the end point of human history and a new history can begin. This means that there is hope for all people through the coming of True Parents, who restore the freedom that humankind lost due to Satan. Yet there are no words to describe True Parents' endeavors to bring that day about.

Because the prepared environment of Christianity failed to be a protective fence around True Parents, they had no choice but to start from the lowest position.

Furthermore, the relationship between Korea and Japan has been strained throughout history. Thanks to your hard work and devotion, Japan will come to have the true freedom bestowed by Heaven.

You are proud blessed families, CheonBo families, true children and citizens of Cheon Il Guk. Henceforward, through you, all false histories and false forces will be driven back.

I am really grateful to you. You are beautiful to me. So for the sake of your strength in this final stretch, I have brought ginseng products to share out. Please think you are consuming them as representatives of all the people of Japan and take heart.
