

The 2nd Generation Is The Center And Flower Of The Future Of Blessed Families

Hak Ja Han

November 19, 2023

Namyangju Grand Church True Love Festival for the Unification of North and South Korea

It has been a long time. I am so pleased to see you.

I don't know if you will remember, but during the Jardim Providence, we saw large trees with very pretty flowers.

And some of you may have seen the beautiful flowers blooming on the Monkey Pod Tree on the Big Island of Hawaii.

And some of you may have seen the beautiful flowers blooming on the Monkey Pod Tree on the Big Island of Hawaii. The Monkey Pod Tree has a trunk that when it grows large it will take 10 people to encircle it. That's how big a tree it is.

That's how big a tree it is.

When you see that tree, the roots and trunk have become one and it is growing. Yes, it is growing many branches, bearing fruit, and its flowers are blooming. So, if you go to a place called Hilo on the Big Island of Hawaii, you will see a tree where about 100 people can sit and rest under its shade in the summer.

The reason I am saying this is that it was 10 years ago when I bought this church for you all,

The reason I am saying this is that it was 10 years ago when I bought this church for you all, and when I look to see if the church has kept the promise it made to me, fortunately, this church has many early members who have played a central role in the providence of the Unification Church.

So, those elders have become trunks and have grown in a place where they become one with Heavenly

Parent and True Parents.

I pray that this beautiful church in Namyangju will grow many branches, bear fruit and blossom.

What are the current responsibilities of our blessed families who are living in the

What are the current responsibilities of our blessed families who are living in the Cheon Il Guk era, the time of the completion of God's providence?

The Creator, the center of the universe, had his dream. God created the first man and woman in the divine image and gave them a period of time during which they should mature. God waited for the first human beings, who were supposed to take the central position, to grow and perfect their characters.

Yet they were unable to do so and fell, giving birth to the human race in the present time. The history of humanity,

Yet they were unable to do so and fell, giving birth to the human race in the present time. The history of

humanity, which for 6,000 years has been marked by constant war and conflicts, has, through ignorance, resulted in the destruction of this beautiful earth God created for humankind. Furthermore, scientists say that there is no hope for the future of the earth let alone the future of humanity. Heavenly Parent searched for a man and a woman who could become the victorious human ancestors.

Since our almighty and all-knowing God is the same at the beginning and the end, he had no choice but to carry out the work of the providence of salvation, restoration through indemnity.

What do you think is the mission of the Second Coming Messiah? What was Jesus' hope? Why did he say he would come back? He said he would return to meet the only begotten Daughter.

As I said before, Heaven must achieve the completion of its providence without fail. For the completion

of the providence, God must bring about the birth of the only begotten Daughter. In 1943 the only daughter was born on the Korean Peninsula.

Because we know what Heavenly Parent's desire is, True Parents must experience life in the kingdom of heaven on earth in attendance of Heavenly Parent. We have to show this. You cannot do this when you have nothing to show, right? So I stepped forward.

The Cheon Il Guk of the Cheon Il Guk era was opened though the True Parents, by True Mother, the only begotten Daughter. Heavenly Parent must bring Heavenly Parent's dreams and wishes to fruition while

True Mother is on earth. This must be accomplished while True Parents are on earth. That's why I created [HJ] Cheonwon; because I wanted to show how heaven on earth in Cheon Il Guk, which we should see and welcome in the future, should be.

Blessed families living in the era of Cheon Il Guk must take responsibility. I showed you everything and created the environment for you. Then what should you do? You must accomplish national restoration.

All 50 million people in this country must come to know True Parents and live in attendance of Heavenly Parent. Heaven raised the chosen people in order to bring about the birth of the only begotten daughter. God cultivated the chosen people. This is 2,000 years of history.

Is Namyangju a city? You must work to become the number one city to accomplish city-restoration, national restoration. You will do that, right?

As I said before, I hope that, like the Monkey Pod Tree, the roots of the True Parents, the body of Heavenly Parent, and you, the elders and blessed families, become a very strong body, create many branches, and become a beautiful Namyangju Grand Church that bears much fruit and where many flowers bloom. [Applause]

[Additional message]

Next year, UPA will have cadets graduating. Shin-chul and Shin-heung will also be part of that [group]. I plan to send our graduates to the worldwide mission.

We need to inform not only Korean families but also 8 billion people about True Parents and Heavenly Parent, right? So, I am very interested in the second generation because when they graduate from college, they will have to do one or two years of public service and then they can continue with their university or do what they want the following year.

The second generations are the center and flower of the future of the blessed families. I hope they will bloom and flourish across the world!
