

Prayer at the Death Valley Holy Ground, Death Valley, Nevada, USA

Hak Ja Han
January 13, 2024

Beloved Heavenly Parent! Today, in Nevada's Death Valley, at the lowest point in this continent, we feel the touch of the Creator, our Heavenly Parent. You knew that for life to circulate and reproduce according to the principles of creation, salt is absolutely necessary, and You generously provided it to both humans and the animal world. What a tremendous thing this is, and how grateful we are for it.

However, humanity has lost the essence of the Creator and also lost its own essence. Amidst this, You have endured so much while waiting and carrying out the providence to save fallen humanity.

After a long wait, in 1960, You sent the True Parents. Through them, many true families have been established who can come closer to Heaven, but when we think of the 8 billion people in the world who still do not know You, the Heavenly Parent, we realize how very small that number is.

Heavenly Parent! In this Year of the Blue Dragon, the 12th year of Cheon Il Guk, Your children are ready to expand the Heavenly Providence. Their efforts will enable leaders from over 200 countries to lead lives akin to 'salt,' becoming role models for humanity and drawing closer to You, our Creator and Heavenly Parent. With more blessed families in Cheon Il Guk and the CheonBo couples, people capable of fulfilling these 'salt-like' responsibilities will emerge in every corner of the world. Through these righteous people, nations that serve the Heavenly Parent will be established, and if this time can be advanced to be realized in 2024, We desire to embrace the day that leads us towards the [Cheon Won Gung] Entrance Ceremony in 2025, where all of Heaven will prepare to receive glory. This ceremony will be a feast of praise before You, Heavenly Parent, honoring Your enduring patience.

Heavenly Parent! Today, in Death Valley, we, your children, "the salt of the earth," desire to expand Your realm through the efforts of those who respect Heaven. May such righteous "salt-like" people, arise abundantly in this continent, this country, and all over the world. Bless our efforts, Heavenly Parent.

May this place foster the rebirth of humanity worldwide and may this nation produce many righteous "salt-like" people, remembered by Heaven. We earnestly pray this in the name of True Parents. Aju!
