“It’s all about making an environment so that many children will not be lost in the world, but be able to be raised within the providence. Thus, I intend to talk to the parents about ‘filial duty’ during my next European Tour. On that point, our elder brother Hyo Jin loved the True Parents more than anyone else. Most of his songs are about praising True Parents and serves as a tool for gathering humankind in front of God’s Will. That’s how beloved music is to people. The lyrics that he wrote speak of filial piety in front of the parents. It’s about education. I’m saying that they must listen to it. Let them be enlightened with it.

The history of the providence is to move forward, and not backward. I’ve been saying this for 3 years now. I’ve said that the church is a place of the Divine Spirit and the Truth and that I will invest in cultivating leaders of the future. The 1st year graduates of UPA (Universal Peace Academy) went out as foreign missionaries. Every report that I receive from each one is tearful. As members who have taken responsibility you must have a very close relationship with me and fulfill your responsibility. You must be successful. That is how you can enter the realm of novelty in the ancestors’ position. I’m telling you to take that chance. We have only hope. You cannot lose that heart of gratitude and heart of regret. That is how you can stop that excessive desire that controls you. It might not apply now, but isn’t the world so difficult when people focus on their own desire? Isn’t the world like that? It’s same with God’s Will. You cannot be greedy. You have to understand yourself. You have to attend everything that you do with a heart that you are insufficient. That is how heaven will come to support you.

(After listening to a testimony about a 40-day workshop trainee shared by President Gi-seong Lee)

That's it. That's what all blessed families of the Unification Church should be like. They have to walk a path of filial piety to True Parents from a very close position. Then Satan cannot intervene. That child is so precious. We have to share this story about this child with everyone. Korea still has a culture with great family relationships, right? There is no individualism here, right? There are still people who think about their parents first. There is still a tradition of thinking about Heaven, Parents and siblings that exists in the East."

True Parents suddenly ask Mrs. Won-ju Jeong to sing a song. After leaving the CheongShim Bakery, True Parents took a photograph with all the staff at Chung Pyung and left the Chung Pyung Heaven and Earth Training Center.
