The position of Mother is extremely important, because for the first time in 6,000 years Heavenly Parent could stand in that substantial position. Heavenly Parent's dreams and hopes were substantially realized.

True Parents exist to realize the dream of Heavenly Parent. Each day, I think of the ideal of Heavenly Parent, beginning with the flowers and the grass revealing the heart of Heavenly Parent as He created the creation, from the smallest to the highest, with the heart of happiness and love. Adam and Eve were created to be the first ancestors of humankind. They had the responsibility to mature.

Compared with the father, the mother feels more emotions, has greater sentiment. Isn't that what they say about mothers? Mother is standing in that position. The responsibility is very heavy. However, while I am on this earth, I want to realize the wish of Heavenly Parent. That heart gets greater by the day. From my heart I am creating a new environment to fulfill that dream.

The reality is not able to support our providence. I am very sad. What does it mean? If you are blessed central families you must become filial sons and daughters, patriots. Your responsibility does not end with the Blessing. If you do not fulfill your responsibility, you will not be good ancestors and will not be remembered in history.

It took 6,000 years for the Only Begotten Son and Daughter to appear. True Parents opened the path. While Mother is alive on this earth, we must perfect this earth. You must fulfill your responsibility. The world has many problems and the solution to all of them is nothing other than True Parents.

The advent of True Parents was to have taken place at the national level. For 2,000 years, Christianity was prepared for True Parents. But there was no way they provided assistance, so True Parents had to start from the lowest position. True Parents established this foundation, working to this day. True Mother is still alive. You must be grateful. You must say, "Thank you, thank you!"

Adam and Eve fell because they had personal desires. Everything that is self-centered is forbidden. All must be attending True Parents: one mind, one heart, one body centering on True Parents. The wish of True Parents must be your wish. Once you realize the kingdom of heaven on earth, it will be the kingdom of heaven in spirit world. The mind and body that you develop here will be what you have in spirit world. If you don't create the appropriate environment, it will not exist in heaven. It is your responsibility. There are no shortcuts.

Yesterday I gave you the holy elements, which will enable there to be no blemish from Satan on you. You must understand your responsibility is our portion. No one else will do it. The same applies to the second and third generations. As citizens of Cheon Il Guk, how will you live? Realize it as soon as possible while I am alive on this earth, before Heavenly Parent, before all of humanity. During the lifetime of True

Parents, 7.3 billion people must be saved and restored. Accomplish this grand achievement. I am going to fulfill this. All of you, you must not run far behind me. How long are you going to live? Something accomplished while I am alive is very different from after I go to spirit world. I hope you live each day with that earnest heart. I want to remember each one of you. For that you must fulfill your mission. This is the love of True Parents. Live a life of gratitude. Let go of desires and the flower of happiness will blossom.

Yesterday was cold, but since you were very moved, the days coming are filled with hope. There is only hope for us. Do you understand? Let's stop talking and bring Apple Heaven. [Apple Heaven is the singing group of Chung Pyung staff members.]

There was also an afternoon meeting on April 23 with True Mother, the Regional Presidents and a few of us from the USA delegation. I (Tom Walsh) took some unofficial notes from True Mother's guidance, as follows:

From now we will have our larger conference at the time of True Parents' Birthday, and at the anniversary of True Father's ascension, we will focus on strengthening our membership base. At the time of Foundation Day, 2017, we will have a musical that focuses on True Parents' achievements in the USA. Please check yourself during the time of the anniversary of True Father's ascension. Ceremonies and programs should be held around the world at that time, in honor of True Father's ascension. I will also compile our history.

In Christian culture, there were many artists. Often they lived difficult, miserable lives, but they thought of the future. It is important that we invest in developing talent and creating a culture centered on Heavenly Parent and True Parents. We must restore the culture. We can comfort the heart of Jesus through songs and music. We can produce art centered on God. God created with an ideal. Therefore we need to raise up talent, to move forward and make progress. We need a culture of heart. Holy songs are important. We need new holy songs. The secular world has made high achievements. We must go higher.

David Eaton has an important mission. (True Mother talks about setting up an office at Chung Pyung for David Eaton as chair of a department of arts and culture, so he can be near by.) To build a culture of heart, we need professionals. This work is so valuable. I want to make a theater here at Chung Pyung and expand globally. This was Hyo Jin-nim's aspiration and mission.

There is so much hope. To all of you, please invest yourselves all over the world. Now is the time of harvest. Be grateful for everything. It took 6,000 years for True Parents to be born. God sent Jesus but it ended in human failure. Heavenly Parent wanted to embrace His children but they were ignorant of the providence.

Today our environment is being destroyed. Climate change, sea levels are rising, ice caps are melting, even the earth's axis is tilting. America is not waking up. We need to wake it up. If nations focus only on their own national interest, they will decline. Only God can change the world. The UN tried, but each nation acts for its selfish interests. That is why True Father created the Abel UN. When I was at the UN in Vienna, I stated that the UN must attend God and True Parents. Otherwise there is no hope.

I have many ideas for Chung Pyung. I want to create a Japanese village here. Every year it can change. I hope all of you will walk in place with me. Chung Pyung is a place for the capital of a kingdom. When the Chinese came to Korea millennia ago, they visited here and said this place is the perfect capital but that it should be saved for a time in the future. And so the capital was set up in Seoul. There are false owners and true owners. The True Owner is True Parents. The original homeland of True Parents is here at Chung Pyung, not the towns of our birth.

We need to stop polluting the rivers. We need to build the Kingdom of God here at Chung Pyung. I want to create the Kingdom of Heaven on Earth here in this place. There is so much to do. We need a heart of gratitude, and no trace of jealousy or hatred. I am going to create the ideal here at Chung Pyung and then expand it to the world. When I have an idea in my mind, I cannot sleep at night. There is much I want to accomplish while I am alive. Pray for True Mother's long life.
