

4/0 - DAY, TRAILING Session

5/13/73

MOTHER'S DAY ADDRESS by Mother

..... through this tradition..... out Father, Master. Especially this day of Korean Mother's day heavenly intervention. There will be no problem, from Father or Master or Heavenly Father. She wrote her children in Korea the following letter: Even though you children are physically separated from us, you are the luckiest children in the world. You have your parnts whom God loves. Also, you should remembers, you children in Korea, all throughout the world all brothers and sisters remember you, even though you are separated from me. Even though you are still youngsters and not grown up fully, they love you, they think of you and are anxious to see you all. Let's pick up some example ~~xxx~~ to verify her statement: e. g. Prince Hyojin - this is a story when he was five years old. He does pray morning and night - before bed and getting out of bed. When he prays he praysm "all the world people love our father - may all mankind love father and mother - may all things love our father and our mother." So, she heard this even all the fishes under the sea - love our father and mother. This was the prayer of Hyojin - even though only 5 years old. Even though our father lives in Korea, it's very rare that he spend time with his children. Just a short time he sees the children before they go to school, and before going to bed, father sees even though she does not _____ ~~xxxx~~ to them to God the children. The very Special side of this children - very peculiar, very special children - because everybody sees them very different from otrdinary children. Even school teacher requests this matter - referring to our True Parents children - they say that they love God very much and they talk about God very much - they are very different from ordinary children in the class. Even though they are young, they know, their Father is doing and they love parents more than their own selves. If she talks long - it will ruin master's message for you, so I better cut short. On behalf of her children and her family, appreciate for you special consideration and expression of love on Mother's day. There is a saying in Korea: "If the ~~g~~ trees have lots of branches, all the time the wind comes through the branches of those trees." Those who have many children usually their parents are very tired. Usually children does not think parents are working very hard and they don't see parents exhausted. As a parent, as many children like you throughout

parents have to pay attention spiritually and physically, individual,
 the world will multiply - more children will have
 on earth especially
 all children of God throughout the world. Even though you celebrate on Mother's day, celebrate
 her in the corner of your heart, a little heaven because of the contents of her talk is parents
 usually thinking of you people individually, spiritually. In another sense, even though she said
 we are not humber, but heart
 heaven - we are connected shim jung-heart is connected with us and in one sense not necessarily
 heaven, but she seems to be happy too. I want you to keep in mind that eventually you will go
 out and you will feel explore and many many new things but many times you will be depressed
 you will be in trouble, of course, she knows you will pray to God, but one thing you should always
 remember that True Parents will always love you, always think of you wherever you go.
 you keep this in mind always
 Also, you have to remember your spiritual children to come will - _____ will remember you too.
 You are not alone. I am very happy today. Thank you.

Mother's Day Address by Father
May 13, 1973

How long has Mother's day been established? Does anybody know? On behalf of all of you he induced you to bring one very important question - a very serious one - not necessary to ask common sense question - very serious.

Q: The American indians have been paying a lot of indemnity - they've had a lot of trouble. What part does this suffering pay in God's restoration providence?

A: American Indians are originally oriental. Through Alaska, Alutia, millions of years ago, the Indians - Mongolians came through that way. Because of this origin, even though Western world white people explored this areas, with the blessings of Asians, this nations should go in another direction from now on. It used to be enemy ~~wxx~~ between /western people and American indians. But violence against violence, but from now on love ~~ogxx~~ of God. Same as Jesus' teaching should be realized in this land as love they enemy - ~~same as the teaching of this land~~ From the enemy status into the loving status. So, these things, our mission is to share that part of dispensation. The indemnity they paid is accujulated indemnity for future blessing. So, that will not be nullified - that is serious Do you have Indian blood in your family? (Maybe a little bit)

Q: You told us about two weeks ago that there will be more spiritual phenomena now that the day has come, does this mean that God's heart will be more available for us to experience, too.?

A: Naturally. Man to man free association means bring heart and love and _____ the same thing spirit world comes down, stimulate them and cooperate with them and teach them the heart of God and the heart of our Master - that's the final goal of the spirits descending on earth.

Q. Restoration of Adam in Principle teaching, but what about the restoration of Eve.

A. Resoration of Eve will be done by Adam - you don't have to worry about that. According to the P of Creation, God created Adam first, then Eve - something wrong so that the Principle is speaking Adam should _____ he'll take care of the rest of it. Up till 6,000 God's dispensation is to find one man to be perfect Adam. Jesus is the spiritual Adam and Lord is the 2nd coming is both

GILBERT A. ROSCHUNI

then the bride must appear.

Q:

A. When you like one another, man and woman, we level eyes out. Matching two eyes - eyes meet. All five senses should fit to love one another - not only ear and talk, senses should be correspond to one another - between subject and object. Then, love begins to grow. That's why religion in the past taught not to ~~xx~~ see everything, not to hear everything not to talk everything, especially the power of sex and love completely wanted to abstain. That's the teaching of religion. If these five senses, seeing, talking, hearing and touching, if centered in God, that's fine, otherwise you are in trouble. Our fall of man started in the garden of eden and started from seeing the wrong things. It started from the sense of sight - as the initiating point. So, all lovers not only want to see, hear and tal, ~~h~~ finally wants to touch, without the instinct of touch, love is not completel. It should be res~~er~~icted and prohibited when single boys and girls dancing and touching each other dancing together. In ancient time in Korea, even we have women to cover their face, not to $\frac{1}{2}$ see the wrong things, and not to talke the wrong things - so they covered. Even in the restricted situation something is going wrong - how much is something going more out here - touching, talking with each other - stimulus - more fallen activity. In Korean still we have a virtuous aspect of womanhood - if man touches her body or deeply involve with her body, then that means that she is soiled. That is principlly oriented - husband is the only one - other man coming to her is the archangel. The same thing in our movement - in man and woman ~~u~~ister and brothers unnecessarily touch, not centering in God, you will be in t rouble. Naturally it is the original nature of the archangel who tempted Eve coming out - fallen Eve instinct naturally coming out - have to be very carefully. Couple means they are lord of the mutual love - they are the master of mutual lo - nobody else can exist. Love is unique; and only one - only one master - not two. There will be no d ivorce in our heagenly marriage. If they violate and infidelity - that's a different matter. ~~Violating~~ ~~the long~~ of the ethics of love, then there will be no divorce. If divorce came in, that mæans you are killing

all the children whom you created with love - we cannot accept this. There is no divorce - there is no marriage outside of faith and there is no divorce inside. By divorcing one another all children will be spiritually chopped, hanged. Day and night the children are left crying, tortured because of their parents' divorce. The parents should be in the position to love children - how can they do that to them? Even though we have old custom still remaining - even the wife - if some man is a widower, then he does not marry soon until the children are grown up and married - then he will seek remarriage. This seems conservative - this kind of virtue. The reason why the Western and American world don't respect their parents is that the degree of affection is light. it's deep, you

If you cannot ~~xxx~~ disrespect. Even if your parents are not so handsome and ugly, because of this relationship, we cannot but love them - principleistically - in heart. In heart children basically should love their parents. There is a gap between affection of parents and children. That is the starting point of a broken family. Divorce is bearing another cross ~~x~~ in the family. In other words divorce means that parents bearing the cross of children in the family. Those who have divorced parents please raise your hands. Even though this ~~is~~ divorce is common, in your heart there is aching isn't there? You don't feel good. It's painful, isn't it? So, this is a great sin when parents divorce. This is the sin of all big sins. By parents divorce - this means destroying children's future. This is a great social problem. Because of the source, it affects brothers and sisters love - when you go to job you are not happy - something wrong in the fundamental area, so he spread over every aspect of human life. It will be better when children grow up and have their own family, but if this happens before children are married, then this is most detrimental to the children's future.

Q: Is Master paying indemnity for the people who have been oppressed in the past? i. e. indians, black men.

A: Heaven and earth - all mankind should appreciate because the Messiah is oriental. Neither white nor black can save this whole mankind. We can oppress people racially - we'll have a chance to adjust to one another through centering Lord of 2nd Advent. The oriental race (yellow) surpass the predominate number on earth right now. If, later, the white race say "let's do this way", then

GILBERT A. ROSCHUNI

there's no other way for the black and yellow to follow, except from yellow people. If black people chance the skin revolution - if we invent some kind of medicine, through the generations we can change the deep dark skin to medium dark (laughter). So, now it's in the stage of thinking, but if we research, we can do that. The problems with the indians, and black people has been that because of their skin they were persecuted. So, the time shall come when we will revise it (laughter). So, he is already thinking along this line. Some kind of skin disease make white spots called "white spots diseased skin". This means that even black and yellow can be white - so from black to white we can be developed very soon. It's possible! With more emphasis on national... which is _____ designated the place where sacred king will be born, and he remembers that one of the ladies used some kind of dye on her skin which made her skin suddenly become white. Then, permanently became white - with some kind of chemical process. - which made skin white. Therefore, it is possible - that deep, dark skin can be transformed into white - or medium dark. How beautiful and passionate and handsome and very dominant power he has. Isn't that true? The racial problem will be solved, 2/3 will be transformed into medium dark. If we manufacture at Il Wha - not only Gin Sing but _____ then how much we can make money too. One of the reasons he initiated the chemical factory in Korea was to set up a laboratory where he can develop this kind of research. So, he is not in the fantasy stage, but he will be doing it actually. So, all black brothers and sisters will be very happy. All black brothers and sisters want to be a little white don't they? (I don't know, some don't) The concept of beauty - from the viewpoint of ~~west~~ beauty - may come from contrast between dark and white. If you are too much black, then there is no variety to compare dark and light side. If it is one color dark, we cannot have this mystery of beauty. Depending upon the color change the beauty aspect is changed. Some have blue eyes with white skin - that is some kind of beauty. Mono color does not create this variety. It is very fortunate to have black people to have white spots of teeth and eyes to balance. Also it is fortunate again that our negro brothers and sisters to have that part to make them beautiful. White people have to sympathize all negro

people because you still maintain a good aspect of beauty because of your white inheritance.

You have to love, respect and sympathize all those oppressed people - especially those negro people. When we reach to the North Pole, even the color of the bear becomes white bear.

So, this give some indication that the white bear started from the North Pole area. When coming down to the equator and below, then the skin becomes darker, darker and darker. North is white and the South Pole becomes darker. Between is the yellow race step. That's the anthropological distribution of the races by color. That's why the white people originated from the North are lacking emotional aspect. Why do people eat more meat? Because they ~~xxxxxxx~~ originated from the North - because there are no trees, plants and shrubs, etc. Also, they are eating, conquering all nature there, because he had to fight nature to survive. This is the historical problem. In the Southern part of the globe, not necessary to kill animals - but there are vegetables, etc. So, the emotional aspect of religion began. So, Negro people are very very high level of emotional aspect which they've developed. This is a theory, but does it make sense? (Yes!) So, you have a different ~~odor~~ odor because you eat too much meat. This different diet - different smells to the body. Orientals and especially Koreans are vegetables eaters. Naturally this brought Southern part of the earth more emotional aspect. All the five main religions come from that part - not from the North. So, our Master is going to let them mingle together - uniting all this into new ones. If they marry white to white all the time, that is not such a good race. They have to mixing the races - interracial marriage is good for the next generation. He is principally thinking some of the mineral. He is going to make the perfect, best steel bar. to collect different kinds of steel - from different geographic areas. put them together, then he will make it. Even making one steel. This is the principle view of manufacturing. Best quality of mineral kingdom. Even he thinks if we eat tropical and cold and warm areas, the foods on all these plants - the food combined, if we take that, our physical body may be more fitting and more healthy. If you go to different geographical locations, the taste of same plant - the same food is different. It is connected to the climate. So, originally white and black was initiated from the climate - the long process of climate influence. It's very interesting to know that old civilized civilization started from the tropical

GILBERT A. ROSCHUNI

area. Then from the tropical area, climb up to the warm and cold. White people started from South the North and coming down conquering the earth. Why? Civilization started from the South and came up to the North. This way as of now, is the result of this crossing point - this western civilization. Now, this civilization zone is 36 degree to 43 degree of latitude all civilization stays here. All complicated world problems happened between 38, 29, 41 degree. e.g. Korea. This is warm zone civilization. This is the fruit where crossing point North and white people coming up and civilization meeting now where 36 to 43 latitude. What is the land of Israel latitude? Around 36 or 37 - this is the Principle viewpoint. The warm zone civilization will conquer the whole world after uniting Asian civilization and Western civilization. Most of the people prefer the Spring and Autumn. This is because of the crossing up and down of Spring and Autumn come up. This is the Principle theory. Not necessarily that white people are superior, but white people will come down and black people coming up and will ~~merge~~ ^{Asian people united civilization} emerge. Egyptian, black culture developed a long time ago and look like coming down, but now will emerge - one Spring civilization. When you go the North Pole that's narrow. Even if you go to the South pole, it's too narrow too. The wide scope area of the globe is ~~34 to 24~~ 24 degree latitude - to inhabit and enjoy. Don't worry about problems between white and black. Dark skin become dark because it received more heat. Instead of reflecting, the dark skin absorbed the heat - the light. The white skin remained because able to reflect after receiving. Even though black people received heat and become dark, they are emotionally very very deep inside, while white people are not deep in emotion - in their hearts. Even though you are very close to one another, suddenly you cut off relationships. In that area we orientals cannot understand - how you can cut off relationship so easily. When you look at Western movies, whenever the righteous man wins and evil dies, when your horse is in trouble, he shoots the horse and goes. We cannot cruelly shoot because he has heart and feeling. And the dog is very loyal
